REPORT OF THE SELECTMEN

Citizens of Duxbury:

We present herewith the Ninety-Ninth Annual Report of the officers and committees of the Town of Duxbury.

The damage suit brought by Loren C. Nass against the Town of Duxbury was concluded by a decision of the Massachusetts Supreme Judicial Court favorable to the Town.

We plan to continue the Chapter 90 Highway Construction and Maintenance program. It is a long range program which should be spread over the next several years. The time required to complete the improvements depends upon the amount spent each year, but we believe the expenditures by the town in any one year should not exceed \$6000.00. The exact amount, of course, is dependent upon the participation contract of the State and County. Projects for the immediate future include Bay Road, Tobey Garden Street, and Elm Street.

We feel that an increase in the wages of the employees of the Town should be considered at the Town Meeting.

The Duxbury Beach problem is still with us. Parking at the easterly end of the bridge should be restricted to residents of the Town. We all agree on that point, but there are other matters that should be given consideration. Rest room facilities, on a small scale at least, should be provided. This should be done in such a way that it will not prove detrimental to the landscape. We believe this can be accomplished and thus provide a much needed

comfort for mothers with small children who spend considerable time at the beach.

One other matter in regard to the beach is a shore protection program. This is necessarily an expensive project and the expense will have to be shared by the Town, County, and State, and by the benefited property owners themselves. If we all work together we can protect property that will become increasingly valuable to the Town in future years. There will be articles in the Warrant for the 1952 Town Meeting to implement these improvements.

The Planning Board suggests that more effective enforcement of the Protective By-Law be attempted. We believe this can best be accomplished by the employment of a part time Building Inspector.

We were very much surprised by the opposition to the construction of sidewalks on Washington Street and at other locations. For many years the Highway Department has constructed and maintained sidewalks on St. George and Washington Streets, and has also constructed curbing to insure adequate drainage. We believe in sidewalks, properly built to encourage people to use them rather than follow the dangerous practice of walking on the highways in this day and age of predominantly mechanized traffic.

We believe most strongly that Duxbury should maintain its country atmosphere, but we do not believe that curbing and decent sidewalks adversely affect the scenic beauty of the town.

We were hoping that the peak had been reached in the matter of tax rates. Werecommended that the citizens

avoid voting for unnecessary expenditures so that the Tax Rate may be kept as low as possible.

In closing, may we express our appreciation of the co-operation we have received from all the town employees, and we thank the citizens for the privilege of serving them through the years.

Respectfully submitted,

PHILIP W. DELANO, Chairman
CHARLES R. CROCKER,
WALTER G. PRINCE

Selectmen of Duxbury

REPORT OF STATE AUDITOR

April 2, 1951

To the Board of Selectmen
Mr. Philip W. Delano, Chairman
Duxbury, Massachusetts

Gentlemen:

I submit herewith my report of an audit of the books and accounts of the town of Duxbury for, the year ending December 31, 1950, made in accordance with the provisions of Chapter 44, General Laws. This is in the form of a report made to me by Mr. Herman B. Diñe, Assistant Director of Accounts.

Very truly yours,

FRANCIS X. LANG,

Director of Accounts

FXL:GTG

Mr. Francis X. Lang
Director of Accounts
Department of Corporations and Taxation
State House, Boston

Sir:*

In accordance with your instructions, I have made an audit of the books and accounts of the town of Duxbury for the fiscal year ending December 31, 1950, and report thereon as follows:

The recorded financial transactions of the several departments receiving or disbursing money for the town or committing bills for collection were examined, checked, and verified by comparison with the books of the town accountant and the town treasurer.

The books and accounts in the office of the town accountant were examined and checked. The receipts, as recorded on the ledger, were checked with the records of the several departments making payments to the treasurer and with the treasurer's books, while the recorded payments were checked with the treasury warrants issued by the selectmen and with the treasurer's cash book. The appropriations, as recorded on the ledger, were checked with the town clerk's records of town meetings and the transfers from the reserve fund were verified. The ledger was analyzed, and a balance sheet, which is appended to this report, was prepared showing the financial condition of the town on December 31, 1950.

The books and accounts of the town treasurer were examined and checked in detail. The recorded receipts were analyzed and compared with the records in the departments collecting money for the town and with the other sources from which money was paid into the town treasury, while the payments were checked with the selectmen's warrants authorizing the disbursement of town funds. The cash balance on February 6, 1951 was proved by reconciliation of the bank balances with statements furnished by the banks of deposit and by actual count of the cash in the office.

The recorded payments on account of debt and interest were verified by comparison with the amounts falling due and with the cancelled securities on file.

The savings bank books and securities representing the investment of the trust and investment funds in the custody of the town treasurer and of the Plymouth Five Cents Savings Bank were examined and listed. The income was proved and the withdrawals were checked with the receipts as entered in the treasurer's cash book.

It was noted that salary payments due employees of the school department are turned over by the treasurer to an employee of the department for delivery to those entitled to the payments. It is recommended that all payments be made by check and that the checks of those who cannot call for them be mailed to them by the treasurer.

The tax title deeds on hand were examined and listed. The amounts transferred from the town and district tax levies to the tax title account were reconciled with the collector's accounts, the tax titles redeemed were compared with the treasurer's recorded receipts, and the tax title deeds, as listed, were reconciled with the accountant's ledger and checked with the records in the Registry of Deeds.

The books and accounts of the tax collector were examined and checked. The town and district taxes and motor vehicle and trailer excise outstanding according to the previous examination and all subsequent commitments were audited and checked to the warrants issued for their collection. The payments to the treasurer were checked to the treasurer's cash book, the recorded abatements were compared with the assessors' records of abatements granted, and the outstanding accounts were listed and reconciled with the respective ledger accounts.

The records of departmental accounts committed for collection were examined and checked. The charges were

proved, the recorded receipts were checked with the payments to the treasurer, and the outstanding accounts were listed and reconciled with the respective ledger accounts.

Verification of the correctness of the outstanding tax, motor vehicle and trailer excise, and departmental accounts was made by mailing notices to a number of persons whose names appeared on the books as owing money to the town and the district, and from the replies received it would appear that the accounts, as listed, are correct.

The town clerk's records of dog, sporting, and miscellaneous town licenses, as well as of permits and fees collected, were examined. The payments to the State were verified by comparison with the receipts on file, and the payments to the town treasurer were compared with the treasurer's cash book.

The surety bonds furnished by the town officials required to file such surety for the faithful performance of their duties were examined and found to be in proper form.

The records of receipts from selectmen's licenses and permits, from the sealer of weights and measures, and from the police, health, and school departments, as well as from all other departments in which money was collected for the town, were examined and reconciled with the treasurer's and the accountant's books.

In addition to the balance sheet previously mentioned, there are appended to this report tables showing a reconciliation of the treasurer's and the collector's cash, summaries of the tax, motor vehicle and trailer excise, tax title, and departmental accounts, as well as tables showing the transactions and condition of the trust and investment funds.

While engaged in making the audit, cooperation was received from the officials of the town, for which, on behalf of my assistants and for myself, I wish to express appreciation.

Respectfully submitted,

HERMAN B. DINE,
Assistant Director of Accounts.

REPORT OF THE FIRE DEPARTMENT

December 2, 1951

To the Honorable Board of Selectmen,
Duxbury, Massachusetts
Gentlemen:

The Board of Fire Engineers submits the following report of departmental activities for 1951.

This year the department responded to a total of 66 calls of the following types:

- 4 Automobile
- 4 Bridge
- 13 Building
- 12 Chimney
- 2 School Drills
- 19 Emergency
- 2 False Alarm
- 5 Oil Burner
- 5 Stand-by

We have been very fortunate that none of these fires has been extremely serious, and that the total of building fires has decreased considerably since last year. Our emergency alarms have ranged from extricating a dog from beneath a barn to rendering aid at the automobile acci-

dents that occurred this fall. We have also had several calls for the resuscitator this year.

Two drills have been conducted at the High and Elementary Schools without any previous notification to the school authorities. In this way we have been able to observe the re-actions of the faculties and the student bodies of both buildings more nearly as they would be if an actual fire were to occur. The results of these drills were excellent, and all of the staff and the students deserve to be commended for the efficient and serious way in which these drills were conducted.

Again the department was flooded with calls during the failure of electric power throughout the town in August. We recorded a total of forty-one phone calls and four requests for the emergency lighting unit. Unfortunately we could give assistance to just one party—the first one to call.

The number of oil and bottled gas permits issued this year has doubled over that of previous years'.

We have made many repairs to the Central Station this year by replacing the entire front sill and part of the cement ramp; rebuilding the three overhead doors; refinishing the main floor, which was last painted seventeen years ago; replacing sixty per cent of the old brass plumbing with copper tubing; and painting and remodeling the company meeting room in the basement, which gives the firemen a more suitable place for their activities.

If we do not have too many fires during December, which is very difficult to predict, the engineers feel that we shall be able to return a sizable amount of our 1951 appropriation at the end of the year.

The engineers wish to thank the officers and firemen of the department, the town departments and organizations, and the citizens, whose support and co-operation aid us immeasurably in doing our job.

When a fire or emergency arises, ask the operator for Duxbury Fire Department, Duxbury 333, and the department will come to your assistance.

Respectfully submitted,

EBEN N. BRIGGS, Chief
GEORGE S. BUTLER, Asst. Chief
KENNETH O. MACOMBER, Chairman
LeROY M. PETERSON, Secretary
JOHN DeLORENZO
FRANCIS W. PERRY
CARL J. SANTHESON, JR.

REPORT OF THE FOREST WARDEN

December 2, 1951

To the Honorable Board of Selectmen,
Duxbury, Massachusetts

Gentlemen:

I herewith submit my report as Forest Warden for the year 1951.

The total number of calls was 80:

- 13 Brush
- 32 Dump
- 2 False Alarm
- 8 Forest
- 24 Grass
- 1 Stand-by

Although we again had drought conditions this year and had a comparable number of alarms to that of last year, we were fortunate to keep our losses low.

The new truck which was added to the department in August has proved very valuable. In the future, however, we shall have to add a larger pump to the truck.

A total of 1814 beach picnic fire permits were issued by the Duxbury Beach Park, Ford's Store, and the Central Fire Station this year. In addition, the Central Station issued 467 written permits and 1179 telephone permits

for incinerator and rubbish brush fires. The continued co-operation of the majority of the townspeople in complying with state fire regulations and securing permits has aided us in detecting actual forest fires, and in preventing those which might have been started if fires had been lighted at prohibited times.

As Forest Warden I wish now to thank all the deputy wardens, firemen, citizens, telephone operators, and other departments for their whole-hearted co-operation throughout 1951.

Respectfully submitted,

EBEN N. BRIGGS,

Forest Warden.

REPORT OF HIGHWAY DEPARTMENT

To the Honorable Board of Selectmen:

Gentlemen:

I herewith submit the report of the Highway Department for the year ending December 31, 1951.

Elder Brewster Road, Peterson Road, Vine Street, and the remainder of Autumn Avenue were graveled and treated with asphalt and tar. Seal coating was done and general repairs were made on all streets throughout the town. Fences were repaired and painted. Roadsides mowed and raked.

The bathing beaches at all town landings received annual repairs.

Ten complete sections were replaced in the Powder Point Bridge, and several sections of the sidewalk were also replaced. All necessary repairs were made on other bridges.

Under Chapter 90 New Construction, the rebuilding of Church Street which was started in 1949 was completed. (Graveled and topped with mixed-in-place). The remainder of new construction money was used to do a much needed drainage job on Bay Road, under supervision of State engineers.

Under Chapter 90 Maintenance, Valley Street and a portion of Franklin Street were seal coated and a portion of West Street was refinished with mixed-in-place. The State, County and Town share the cost of all Chapter 90 work.

Respectfully submitted,

LEWIS B. RANDALL,

Superintendent of Streets.

REPORT OF THE SUPERINTENDENT OF CEMETERIES

To the Cemetery Trustees:

I submit my report for the year 1951.

At Mayflower, Ashdod, Dingley and Myles Standish Cemeteries, the general work was done and the leaves were raked.

The fences around Myles Standish and Dingley Cemeteries were painted, and the old Well House repaired at Mayflower Cemetery.

The veterans' graves were inspected and any needing repairs and mowing were taken care of. This work is done in conjunction with the regular maintenance schedule.

A plot of new lots have been built in the new part of the cemetery, and a number of old lots rebuilt.

The cemetery is expanding every year and more lots are added to our mowing list annually.

Perpetual and Annual care lots were cared for. There were sixty-nine interments this year.

Respectfully submitted,

LAUREL B. FREEMAN,
Superintendent of Cemeteries.

REPORT OF THE CEMETERY TRUSTEES

January 10, 1952

To the Honorable Board of Selectmen
and the Citizens of Duxbury:

We submit our report for the year 1951.

The report of the Superintendent has been received and contains the details of the work done in the various cemeteries.

We are glad to report more lots are being cared for by Perpetual Care Funds. It is strongly urged that all lot owners make provisions for this now or by provisions in their wills.

We are requesting an appropriation of \$12,405.00 to carry on the regular work of the department. As a rule 40% of this is collected for the burials and other work done on the lots.

Respectfully submitted,

HARRY A. TAMMETT, Chairman
J. NEWTON SHIRLEY, Secretary
ERNEST H. BAILEY
EDWARD P. HOBERT
STANLEY V. JOHNSON

MEMORIAL DAY REPORT

To the Honorable Board of Selectmen
and Citizens of Duxbury:

The Memorial Day Committee have attended to their duties and submit the following report:

We decorated all known veterans of all wars graves in Mayflower, Standish, Ashdod, Dingley and North Duxbury Cemeteries.

The Sons of Union Veterans of the Civil War, the American Legion, Boy Scouts, Girl Scouts, Cub Scouts, Sea Scouts, and school children worked very harmoniously together.

In all we decorated 2 Colonial War, 28 Revolutionary War, 5 War of 1812, 213 Civil War, 4 Civil War Nurses, 1 Indian War, 3 Spanish American War, 35 World War I, 7 World War II, 4 Soldiers, 13 Sailors. 316 Total.

We held services at all the above named cemeteries, also at the World War II Honor Roll, at Blue Fish River Bridge, for the Sailors and Marines who perished at sea, and in the Unitarian Church. Three new graves were decorated this year. We wish to thank all who helped in any way.

If any citizen notices any omission of a veteran's name on the Memorial Day Program, kindly notify the Secretary of Myles Standish Camp, S.U.V.

Respectfully submitted,

MERRITT FERRELL, Chairman

RICHARD MARSHALL, Com. Camp 115 S.U.V.

EDWARD KING, Com. Post 223 A.L.

PARKER B. CHANDLER

A. WARREN WASHBURN

OSCAR B. RYDER

JAMES STARKWEATHER

REPORT OF THE BOARD OF APPEALS

To the Honorable Board of Selectmen:

Gentlemen:

The Board of Appeals held sixteen public hearings during 1951; thirteen of which were on petitions for variances in residence districts and three for exceptions where the Protective By-Law gives permission subject to the approval of the Board of Appeals.

Of the petitions for a variance, seven were denied and six were granted, and of the latter, two were granted subject to conditions noted in the decisions.

The three petitions for exceptions were granted.

Respectfully submitted,

WILLIAM B. COFFIN, Chairman
H. RUSSELL CHANDLER
KENNETH O. MACOMBER

REPORT OF THE HARBOR MASTER

To the Honorable Board of Selectmen:

I respectfully submit my report as Assistant Harbor Master for the year 1951.

During the year 1950 the number of registered boats moored in the Basin was 65. This year we had an additional 8 registered boats moored in the Basin, plus a number of outboard motor boats. At the Town Landing on Standish Shore, Howland's Lane, 6 more boats were moored.

We continued Mr. Victor Nickerson's plan to install permanent channel markers.

Fourteen, 25-foot second-hand telephone poles were installed at a cost of \$190.00 for poles and trucking—\$120.00 to pump in (14) piling and attach pointers—use of yard boat and operator. \$33.50 to make up and paint pointers, labor and material.

In the 1952 budget I have asked for the sum of \$150.00 for the purpose of adding two more permanent markers, and to paint and number all markers from the Government Bouy's in to the basin. I have also asked for the sum of \$400.00 to be used in the building of a Raft approximately 30 feet long and 4 feet wide, to which small tenders may be tied to on both sides, with a ladder leading down from the Town pier. This will relieve the congestion of boat tenders on the floats and give us more facilities for docking.

At this time I wish to thank the two boat yards and all individuals who gave me their cooperation in the year 1951.

Respectfully submitted,

HENRY P. McNEIL

Assistant Harbor Master

REPORT OF CHIEF OF POLICE

To the Honorable Board of Selectmen:

Gentlemen:

Following is the report of the Police Department for the year ending December 31, 1951.

Respectfully submitted,

JAMES T. O'NEIL

Chief of Police

Date: January 17, 1952.

INSECT PEST CONTROL

To the Honorable Board of Selectmen.

Gentlemen:

I herewith submit my report of the Insect Pest Control department for the year ending December 31, 1951.

The beneficial effect of the Aerial Spray program of last year is reflected in the decrease of insects this year.

The Tent Caterpillars were exceptionally few this year except for one area. This area was the last to be sprayed in the Aerial Spray program of a year ago and it is believed that the caterpillars had finished feeding and gone into pupation at the time the spray was applied.

A Gypsy Moth trapping program was followed again this year with 45 traps within the area and not a single moth caught.

The area formerly occupied by the Brown Tail Moth has been scouted and none found.

The Fall Web-Worms were very few with less than a half dozen nests being found in Town.

Respectfully submitted,

ROY E. PARKS,

Superintendent Insect Pest Control

**REPORT OF THE
BOARD OF PUBLIC WELFARE AND
BUREAU OF OLD AGE ASSISTANCE**

To the Honorable Board of Selectmen
and the Citizens of Duxbury.

Greetings:

It is with regret that your Board of Public Welfare advises that the cost of welfare in the Town of Duxbury will be some 20% higher in 1952 than it was in 1951. This increased cost is mostly because of a number of changes in the welfare laws of the Commonwealth, each change one step nearer to "the womb to tomb welfare state" that does not seem to be too far in the distant future. These changes are:

- (1) A change in the minimum payments under Old Age Assistance from an average of \$69.50 per month to an average of \$73.95 per month.
- (2) An increase in the exemptions that may be claimed, by employed sons or daughters, before they become eligible for the support of their parents, either in whole or in part.
- (3) A further cost of living adjustment. At the time this report was written the State Department of Public Welfare told us this adjustment would be 5% or better. This is the third cost of living adjustment welfare recipients have received in the last four years, a total of about 20%.

- (4) A new category of relief known as Disability Assistance.

There was a fifth change in the welfare laws of the Commonwealth that was most welcome to the Board. Effective January 1, 1952 if any recipient owns any real estate, your Board is required to obtain a Mortgage Bond on that property. This will make it possible in some cases for the Town of Duxbury to recover part or all of the relief granted in those particular cases.

By the most stringent application of the relief laws and the practice of the greatest economy possible, the Board has been able to save substantial sums received from the Federal Government. As these funds are available for operations in 1952, it was possible to request the Town to vote some \$3,300.00 less for 1952 than was voted in 1951. This is shown as follows:

	Voted for 1951	Requested for 1952
Old Age Assistance	\$44,400.00	\$46,200.00
Aid to Dependent Children	6,900.00	7,400.00
General Relief	19,100.00	10,800.00
Disability Assistance	-----	2,400.00
Out of State Travel	-----	300.00
	-----	-----
	\$70,400.00	\$67,100.00

We urge the citizens to remember that there is no cause for felicitations on this lower budget for 1952. It does not change the fact that welfare disbursements will be some 20% higher in 1952 than in 1951, and that the savings accumulated in Federal Funds will be used up in the coming year. In 1951 welfare cost amounted to the second

highest item in the Town budget. If the Commonwealth continues to liberalize its welfare policy, the cost can become the top expense in the Town budget.

This report does not include an account of expenses in 1951 as it would merely be a repetition of the figures in the Town Accountant's report.

Until the latter part of 1951 the Federal Government withheld welfare funds from states that permitted publicity as to the names of welfare recipients. Congress has now changed the law and has left the final decision regarding such publicity in the hands of the respective states. Some states have modified their welfare laws, permitting some publicity to Town Officials and others, of names on the welfare rolls, and those states claim substantial reductions in welfare costs. The Commonwealth of Massachusetts has not as yet passed such a law. Your Board, however, desires to go on record as being unanimously in favor of such a change.

Once again it is the desire of the undersigned to express their appreciation to the Selectmen for their unfailing co-operation, and to the citizens for their continued confidence throughout the year.

Respectfully submitted,

Philip G. Chandler
Alice H. Garside
Herbert R. Nelson
Benjamin F. Tyler
Robert Seymour, Chairman

REPORT BY THE DUXBURY BEACH COMMITTEE

I.

At the Town Meeting held March 10, 1951, the following Resolution was passed: To authorize the Moderator to appoint a committee of five to study the future control and public ownership of Duxbury Beach. As a result, the undersigned were appointed by the Moderator to study the problems of Duxbury Beach.

Your Committee has conducted a series of meetings with the Selectmen, with Senator Stone of the Cape and Plymouth District, with representatives of the Duxbury Beach Association, with the members of the Duxbury Kiwanis Club and finally, with citizens of the town who wished to be heard at a public meeting at the grammar school. We have also held a number of meetings of the Committee to discuss the questions raised by persons who met with the Committee. At these meetings, we also reviewed the report of the Special Beach and Bridge Committee, issued on March 7, 1931. We had the opportunity also to study the Trust Agreement under which the Duxbury Beach Association operates and we had the benefit of a history of the Beach written by Mr. F. T. Pratt.

II.

A number of important questions have come to our attention, the major ones of which are as follows:—

Should the Duxbury Beach be owned by the Town, the State or by private individuals?

Should there be more facilities on Duxbury Beach for the use of the general public?

If the Town owned Duxbury Beach, could it be operated as a paying proposition?

Is it practical or desirable to build a road extending to the north end of the Beach from the parking space at the Beach end of the Powder Point Bridge?

In what respect can the Town restrict automobile parking in any certain areas to Duxbury residents?

Will erosion eventually cut a waterway through Duxbury Beach so that the Bay would no longer be landlocked?

III.

As a result of our meeting with many citizens of the Town, we have found the following:

1. There is substantial agreement that the Town does not want State ownership of the Beach, although there is some disagreement in the Town as to how State ownership can be prevented.

2. There is agreement in the Town that the Beach should be kept free from commercial enterprises and that it should be maintained in its present natural state.

3. There is very little evidence that the citizens of Duxbury are dissatisfied with the manner in which the Beach is now operated by the Duxbury Beach Association.

4. We find that the general public from other parts of the State are using the northerly end of the Beach and are in the main well satisfied with the facilities that are available there. However, the public is greatly handicapped by the narrow, winding approaches to the Beach from the North.

5. We found that there is quite a diversity of opinion as to the effect of erosion and the shifting of the dunes on the Beach and whether or not there will at some time be a breakthrough.

6. We further found a substantial disagreement on the practicability of building roads and other facilities such as bath houses and toilets on the Beach. The areas of disagreement are as to the cost of such facilities and whether or not they would be able to withstand the winter storms without serious damage.

7. As to whether or not the Town could operate the Beach on a self-sustaining basis, we again found marked differences of opinion.

1V.

CONCLUSIONS

As a result of our study of the many problems called to our attention, we have come to the following conclusions:

1. If the Town owned the Beach, it would not be able to operate it over the years on a self-sustaining basis. The reason for this is that the summer season is so short and the effect of a few rainy weekends is so great that the Town could not support a permanent organization to supervise and operate the Beach during the summer months. The present Beach Association, on the other hand, can make arrangements to employ attendants and operators as they are needed, depending on the expected patronage of the Beach at a given time.

It should also be borne in mind that historically the cost of operating Town Departments has increased over

the years—due in part to rising prices and in part to greater facilities furnished by the Departments. It is reasonable to forecast increased operating costs of the Beach if it were owned by the Town for the same reasons.

2. On the matter of the erosion of the Beach, we, as laymen, are incompetent to make recommendations on this highly technical problem. We do feel, however, that this is such a major problem that the Town should appropriate a sum of money to engage competent engineers to survey the situation and report to the Town.

3. As to the suggestion that some toilet and bathing facilities be built on the Beach near the Powder Point Bridge, we have serious doubt as to whether such facilities would withstand the winter storms, and we feel that there is not sufficient demand for such facilities and that the building of them would greatly impair the beauty of the Beach.

4. As to a new road from the northerly end of the Beach to the Powder Point Bridge, its construction would result in greatly increased automobile traffic through the residential areas of Duxbury and across the Powder Point Bridge. Such traffic would greatly increase the wear and tear of the Bridge and involve the Town in substantial increases in the maintenance costs of the Bridge. We are of the opinion that any improved approaches to the Beach should be made only at the Marshfield end of the Beach and not via the Powder Point Bridge.

5. It is the opinion of your Committee that the Town should continue to limit automobile parking in the parking space at the end of the Powder Point Bridge to Duxbury residents by the issuance of automobile stickers,

as in the past, although we do feel that the Selectmen might well reduce the charge for these stickers to a nominal amount to cover only the cost of issuing them.

If the stickers were discontinued entirely, increased automobile traffic through the residential areas of the Town would result and lead directly to property devaluation.

6. Your Committee feels very strongly that the seizure of the Beach by the State will not depend on whether the Beach is owned by the Town or owned by the Beach Association, but rather on how the Beach is operated. If it is operated in a manner that is satisfactory to the residents of the Town of Duxbury and to out-of-town visitors, the likelihood of State seizure is greatly reduced. The residents of the Town of Duxbury demonstrated in 1950, when a bill came before the Legislature which, if passed, might have made the seizure of the Beach by the State an imminent matter, that they can unite to oppose legislation which might be very detrimental to the Town.

Even though the Town presented a united front at the hearings in 1950, your Committee has heard a few comments detrimental to the Duxbury Beach Association. We feel, however, that these comments are the result of misunderstandings rather than on the basis of any facts.

For example, it is felt in some quarters that the Duxbury Beach Association is making big profits on its venture. We have had access to the books of the Association and find that this is by no means true. In fact, over a 10-year period, their profits have been inconsequential and no dividends have been paid to the stockholders. It is further true that the improvements at the northerly

end of the Beach that have been undertaken by the Beach Association have been paid for out of capital as the money for these improvements has been forthcoming from the sale of houselots at the northerly end of the Beach and by the sale of additional shares of the Duxbury Beach Association. Thus this enterprise is conducted not for the benefit of the private owners, but for the benefit of the public.

Your Committee is of the firm conviction that the Trustees of the Beach Association are guided in their operations only by what they consider to be the best interests of the Town of Duxbury. Your Committee feels that any misunderstandings that may have arisen in the past or might arise in the future would be cleared up if the present Trustees could amend their Trust Agreement either to provide a Board of Trustees of seven with three members of the Board to be year-round residents of Duxbury, or to provide for two such residents if the Board membership remains at five.

It is felt that either of these arrangements would give the Duxbury Beach Association the wholehearted support of the Town and we understand that representatives of the Trustees are favorable to these suggestions.

We would also like to point out that in the discussion of the problems of Duxbury Beach, the term "private ownership" has been used in some quarters as though it were an evil thing. Private ownership by individuals who are working for the best interests of the Town of Duxbury and who are parties to a Trust Agreement which limits the exercise of their power for the benefit of the Town of Duxbury, is something to be desired, not condemned.

In conclusion, your Committee has pointed out in this Report that the access to the northerly end of the Beach is inadequate and we recommend that the Town obtain estimates of either widening the present road to the Beach, or building a new road across the marshland to the Beach. At the same time, it should be determined whether the cost of any new construction would qualify under Chapter 90 of the Massachusetts Laws.

Respectfully submitted,

Francis C. Rogerson, Chairman

LIBRARIAN'S REPORT

Our circulation for the year reached almost 22,000, with attendance of slightly over 10,000. Books added by purchase, 500. One hundred fifty-six volumes were received as gifts from various donors among whom were the following: Mr. and Mrs. Hector M. Holmes, Mrs. Harry Burns, Mr. William H. Young, Mrs. George Wheaton, Mrs. F. K. Hoyt, Mrs. Lyle Bush, Mrs. Winslow, and Miss Helen White.

The Duxbury Clipper and the official organs of the Rotary and Kiwanis Clubs have been sent us regularly. In this connection we would like to call attention to the large number and wide range of the periodicals and pamphlets offered to the public in the reading room. The list has never been so large before, thanks to many generous donors.

A new and important Department has been established under the heading "What To Do and How To Do It." This has been advertised in the "Clipper." It offers many suggestions to members of both sexes who wish to engage in some form of profitable and interesting home work. The Department will be added to as occasion requires in order to preserve its permanent value.

Certain Department shifts are under way or being planned, mainly for the purpose of making certain subjects more accessible to our patrons. Space restrictions make such changes necessary from time to time.

Respectfully submitted,

Fisher Ames, Librarian

REPORT OF THE MEMORIAL OFFICE BUILDING COMMITTEE

To the Citizens of Duxbury:

The Memorial Office Building Committee, appointed in 1950 and continued in 1951 by vote of the Town Meeting of March 1951, has held several meetings and reviewed not only the plans outlined in its reports as presented in the 1950 Town Report, but also the apathy of the general public toward any building project. It is apparent that the Town is not ready to face any project that involves the erection of a dual-purpose building.

Because this committee was limited to the consideration of one building to house "the various town offices and an auditorium in a central building to be known as a War Memorial Building," it has been prevented from making other suggestions. Early in its study, however, the Committee found that a single building designed to house town offices and an auditorium, the latter to be in frequent use by the schools, is impractical. At least this is the experience of towns where such an arrangement exists. Either the town offices and auditorium should be in different buildings or the building housing both should be sufficiently removed from the schools to preclude frequent use of the auditorium by the schools. Whatever arrangement or location is finally decided upon for

a Memorial Building, the Committee believes that the auditorium should be under one, not joint, management.

Respectfully submitted,

Ralph N. Blakeman

TREE DEPARTMENT

To the Honorable Board of Selectmen
and the Citizens of Duxbury:

I submit hereith the report of the Tree Department for the year 1951.

As the trees came into foliage this season the control of the Birch Leaf Miner was a problem. Two sprays were applied and sometimes three and four, with only fair results achieved in some cases.

The Red Mites on the Cedar trees did not cause anywhere near the amount of damage this year as they did last year.

The fertilizing of certain trees by spraying the foliage showed only fair results.

We have added considerably to our Town Tree Nursery. Small seedlings and even larger trees have been taken up by the roadside and transplanted in the Nursery. Large trees were also purchased and will be ready to go out next Spring. We now have a total of 350 trees for future planting. This build-up was made in anticipation of new streets being accepted by the Town. Three trees were planted along the streets this year.

Trees and brush were cut back at bad intersections of streets. Low branches hanging over the streets have been removed and dead trees that might blow over into the streets have been taken down.

Respectfully submitted,

ROY E. PARKS
Tree Warden

PARKS AND PLAYGROUNDS

To the Honorable Board of Selectmen.

Gentlemen:

Following is the report of the Parks and Playgrounds Committee for the year 1951.

The Spring work of putting the playgrounds into shape was started the first week of April. Re-grading and seeding of the softball court, for which we had an extra appropriation, was discussed with the athletic directors of the school and it was decided that this work be done in September. It was done at that time in cooperation with the Highway Department which was engaged in regrading, widening and oiling the main driveway between Train and Abbott Fields.

At the Island Creek Park, loam was added within the low retaining wall around a tree in the background and grass seed planted. Also, water has been piped to the old well pit at the front of the lot for a drinking fountain to be installed. We wish to thank the Water Department for the service connection.

Respectfully submitted,

ROY E. PARKS,

Superintendent Parks and Playgrounds

CONTROL OF DUTCH ELM DISEASE

To the Honorable Board of Selectmen.

Gentlemen:

I herewith submit my report on the control of Dutch Elm Disease for the year 1951.

During the past year twenty-three samples of elm trees suspected of Dutch Elm Disease were sent to the State College at Amherst for culture. Fifteen were reported as having Dutch Elm Disease. These diseased trees have already been taken down and disposed of.

We are pruning and spraying around 1,180 elm trees along our streets. Out of this number cared for by the Tree Department, only four caught Dutch Elm Disease this year. The other eleven trees with Dutch Elm Disease were on private property back from the street.

It is necessary to go over all elm trees each year and prune out the dead and dying wood and particularly the broken branches.

These elm trees were sprayed just before the leaves came out, with a 12% D.D.T. solution and again in June with a 6% solution of D.D.T. Elms close to a diseased tree last year were sprayed in hopes to prevent the spread of the disease.

Respectfully submitted,

ROY E. PARKS,

Superintendent Control of Dutch Elm Disease

REPORT OF SHELLFISH CONSTABLE

To the Honorable Board of Selectmen:

I respectfully submit my report as Shellfish Constable for the year 1951.

The natural propagation and growing of clams during 1951 was not too great. We do have a fair-sized quantity of razorfish and quahaugs.

In August, Mr. Daniel Ellis, State Shellfish Warden turned over to the Town 33 bushels of seed quahaugs that were seized on the Cape. A portion of Isacc's flat was closed and the quahaugs were planted at a cost of \$18.00 for labor and truck hire.

From June to Sept. two men worked part time destroying the enemies of Shellfish. The men picked and destroyed 7,550 horse shoe crabs and 95 pails of cockles. We paid \$475.19 for this work.

An area was plowed on Standish shore to plow under and destroy some of the mussel beds at a cost of \$28.00 for tractor hire.

Twenty-three commercial permits at \$2.50 each were issued—total \$57.50. 924 family permits, 30 of which were free to people seventy years of age or over and the remainder at .25 each were issued during the year—total \$223.50.

Following is the record of Shellfish taken by commercial diggers, who worked intermittently during the year.

120 bushels of razorfish @ 4.33½	\$ 520.00
68 bushels of razorfish @ 6.00	408.00
60 bushels of razorfish @ 8.00	480.00
59 bushels of razorfish @ 4.00	236.00
50 bushels of razorfish @ 7.00	350.00
480 bushels of quahaugs @ 2.50	1,200.00
150 bushels of quahaugs @ 2.00	300.00
10 bushels of quahaugs @ 3.00	30.00
18 bushels of mussels @ 2.00	36.00
92 bushels of clams @ 8.00	736.00
84 bushelsof clams @ 6.00	504.00
	<hr/>
	\$4,800.00

During the Spring and Summer months both residents and non-residents dug approximately 90 pails of sea clams on the ocean side of Duxbury Beach.

Eighteen notices were sent grant holders requesting a report of work done on grants.

There were 1,553 bushels of quahaugs, 6 bushels of clams and nine bushels of oysters planted on grants this year. There was 52 and three-fourths bushels of clams taken from grants this year.

Three clam grants were renewed at a charge of \$5.00 each during the year.

Eighteen annual fee forms were sent out and \$45.50 collected in annual fees from grant holders.

One 12-foot dory was found and returned to the owner, and numerous shellfish regulation signs were put up and kept in repair around town.

Respectfully submitted,

HENRY P. McNEIL

Shellfish Constable

REPORT OF VETERANS' AGENT

To the Honorable Board of Selectmen:

I respectfully submit my report as Agent for the Department of Veterans' Services for the year 1951.

During the year we had a total of nine cases, representing 32 persons who received Ordinary Benefits.

This year the budget allowance was increased by the State Department of Veterans' Services to allow for the higher living costs. This also will affect our 1952 appropriation together with certain unforeseen hospital and medical expenses.

The work of this office shows a considerable increase each year, not only in the amount of aid, but in the numerous problems concerning the rights and benefits due to each individual veteran.

As the Korean conflict continues we will have more men eligible for different benefits, and who will need assistance in filing for such. This year the Veterans Administration has made it easier for our Spanish War Veterans to obtain the necessary Out Patient Medical; and Dental Treatment.

I have registered 17 local men for the Draft Board No. 129 in Marshfield, Massachusetts.

Due to July 25, 1951 being the cut off date for World War II Education and Training Benefits we have had numerous applications this year.

Two pension claims were handled, the applicants now receiving Federal pension checks. Five veterans were helped to obtain the necessary Veterans' Administration Hospitalization, and we have had numerous applications for Out-Patient treatment.

In my capacity as Burial Agent one case was handled. I also obtained one head stone for a veterans' grave.

Our appropriation was \$6,890.00. We expended \$2,539.53 leaving a balance of \$4,350.47 in the account to be returned to the town. Half of the amount expended will be reimbursed to the Town by the State.

Respectfully submitted,

HENRY P. McNEIL, Agent

REPORT OF THE PLANNING BOARD

To the Honorable Board of Selectmen
and Citizens of Duxbury:

Duxbury has continued to grow during the year 1951. Your Planning Board accordingly has devoted much time to the consideration of applications for approval of real estate subdivisions. The Planning Board has reviewed, in some cases without submission of formal applications, a total of eleven situations in which the owners had development under consideration. Some changes have been deemed desirable in the regulations affecting subdivisions—the amount of oil to be used in surfacing roads has been increased from one quart to two and one-half quarts per square yard; the clause requiring an applicant to avoid selling or offering to sell land prior to filing an application has been deleted. With additional experience in subdivision control, additional changes in the regulations will doubtless become desirable.

While the necessity of considering applications for subdivisions has delayed our plans for more comprehensive studies, each individual situation has indicated the difficulty of considering it without some study of how it affects an area much greater than the particular land involved. Such is particularly true with regard to street layout and doubtless has much influence on the needs of the water district. Accordingly, the board has engaged a planning consultant, Mr. Thomas Hadley, on a per diem basis. Mr. Hadley is at present preparing a land-use map as a basic tool for future work. We have under consideration a study of population trends as it affects the need for shopping and parking areas, for instance; plans for future streets: studies of individual problems as they arise.

The board has made several field tours in the study of such problems. One in particular concerns Route 3 from Franklin St. to the Kingston line. The board feels that this area for a distance 200 feet back from each side of the road should be re-zoned as a commercial district. The Appeal Board continually receives applications for variances from the present residential classification. The number of commercial uses either through the granting of variances or by use prior to the adoption of the protective bylaw has given this area a definitely commercial aspect. The Planning Board expects to present to the annual town meeting in March 1952 an opportunity to re-zone this area.

We reiterate our statement of a year ago regarding the desirability of a paid agent to enforce the regulations of the Planning Board and the Appeal Board. There has been some preliminary consideration of a very simple building code. Duxbury will eventually need such a code and an agent to enforce and interpret it—one man on a part time or fee basis can handle all the enforcement needs of the Planning and Appeal Boards as we now visualize them.

Some consideration has been given to Duxbury Beach which we again urge be under continuous review.

For the needs of the Planning Board during 1952 we request the same appropriation granted for the year 1951:

Legal advice	\$ 300.00
Engineering advice	1,000.00
Secretarial	150.00
Dues, Mass. Federation of Planning Boards	12.50
Misc. supplies	37.50
Total	<hr/> \$1500.00

For a great many years, change in the character of Duxbury was slight and the problems of change were admirably handled on an informal basis through the interest of capable citizens. In recent years, Duxbury has been experiencing a relatively rapid growth. We believe that to protect Duxbury's assets—among them its colonial charm which makes it so desirable as a residential town and summer resort—this growth and change need some direction. We believe that this direction should be kept at a minimum consistent with the physical and social needs of Duxbury.

Respectfully submitted,

KENNETH G. GARSIDE, Chairman

MARGARET ROGERSON, Secretary

OLIVER L. BARKER

PERCY L. WALKER

CHARLES H. WANSKER

**REPORT OF THE COMMITTEE TO STUDY
WATER SERVICE TO NORTH DUXBURY
AND WEST DUXBURY**

To the Selectmen of the Town of Duxbury:

At the annual meeting of the Town of Duxbury held March 10, 1951, it was voted that the Moderator appoint a Committee of three to investigate the possibility of supplying water service to the residents of North Duxbury and West Duxbury. The Moderator appointed Chester W. Nichols, C. Earl Russell and Carleton H. Schaffer to serve on the Committee.

The Committee consulted with officials of the Fire and Water District to determine the cost of installing pipe, hydrants, gate valves, etc. and conferred with the Water Commissioners in both the Towns of Pembroke and Marshfield to see if water could be supplied to the areas under consideration. It was found in both instances that water could be supplied on satisfactory terms. It was the unanimous opinion of the Committee that the installation costs should be borne directly by the residents of both these areas and that the costs were not disproportionate to the services to be received.

In the North Duxbury area, the Committee found that there were thirty-four residents who could be logically served as a group. It was estimated, from the best information available, that the cost of installation, amortized over a fifteen-year period, would result in charges to each of the thirty-four residents of fifty-eight dollars (\$58.00) per year exclusive of annual water rates to the Town of Marshfield and service connection costs. This

information was submitted to each of these residents with the request that they signify whether or not they desired water and if they would be willing to assume these charges. Of the thirty-four inquiries, fifteen replied in the affirmative and eleven in the negative; no reply being received from the other eight residents.

In the West Duxbury area, it was found that there were twenty-three residents in a logical grouping. It was estimated in this case that the cost of installation, amortized over a fifteen-year period, would result in charges to each of the twenty-three residents of forty-one dollars (\$41.00) per year exclusive of annual water rates and service connection costs. As a result of the inquiries sent to these residents, there were received eight replies in the affirmative, six in the negative; no replies being received from the other residents.

On the basis of the replies received, there does not appear to be a sufficient demand for water service in these areas. Consequently, it is the recommendation of the Committee that no further action be taken by the Town of Duxbury at this time.

It is the opinion of the Committee that a workable plan has been presented to the residents of these areas. Further action may very properly be taken when a greater number of possible water takers will indicate a willingness to underwrite their share of the installation costs.

CHESTER W. NICHOLS

C. EARL RUSSELL

CARLETON H. SCHAFFER

REPORT OF THE TOWN HISTORIAN

To the Honorable Board of Selectmen
of the Town of Duxbury:

One of the duties of this department has been to answer the requests for information about Duxbury. Some of these have been from people interested in present day pictures and points of interest, but the greater part have been from school children and older students asking about Duxbury in Colonial times. These letters have been answered individually so far, but a survey is being made to determine just what facts these students and their teachers most want and then a small paper will be prepared that will do away with so many duplicate letters and give the requested material.

Eight students of high school age—two from our own high school—have asked help in finding material for papers on ship building. A list of references and sources of information has been started to help these students and be available to others.

The late Dr. Reuben Peterson, in his first report as Historian, commented on the difficulty the committee had when it was collecting material for the Tercentenary Celebration. Following his advice and suggestions, the Historian is now keeping a growing list of important facts, interesting information, and records of people and places. The Historian would welcome any bits of information, however small or unrelated, to add to this list so that future researchers will have some collected facts to work from.

Beyond a few small expenses, the appropriation has been spent for some old out of print books about Duxbury. It seems wise to accumulate a small library of books that are rapidly becoming more difficult to locate. These books will be a source of reference for town officials and citizens. The following books were purchased this year:

1. Winsor's History of Duxbury, 1849.
2. Chief of the Pilgrims—The Life and Times of William Brewster by Rev. Ashbel Steele, 1857.
3. Delano's Voyages, Amasa Delano, 1817.
4. Bradford's History of Plymouth Plantation, privately printed in 1856—a very scarce edition.

These books are all collector's items and it seems wise for Duxbury to have them. It is hoped that more can be added as they become available so that Duxbury can have as complete a printed record of the past as possible.

Respectfully submitted,

DOROTHY WENTWORTH

REPORT, 1951, PLYMOUTH COUNTY AID TO AGRICULTURE—LOCAL WORK IN DUXBURY

A.—

Activities of the Home Economics department under the leadership of Mrs. Thomas Scott covered training for adults in several important fields.

1. 22 children's coats were made by a group of women under leadership of Mrs. Scott, Mrs. Richard Prince and Mrs. Roger Cushing. Excellent results and a clear cut budget saving!
2. A series of two cooking classes was attended by 7 leaders who in turn, later instructed many others.
3. Lectures were held on upholstering and "Getting Most for the Dollar." Good crowds attended.

B.—

In the 4H Department the Town Committee reports an outstanding year of accomplishment. The livestock group of Dairy, Sheep and Poultry Clubs under Ernest Chandler, John Willis and Malcolm Brock took a dominant position in Plymouth County, Weymouth, Marshfield and Brockton Fairs. Judging members, especially in Dairy and Poultry, won statewide honors.

Home Decoration under Mrs. George Horsfall, Conservation under Mr. Robert Vaughan, Gardens under Mrs. Brock, Tractor Maintenance under James Smithson and Sewing under Miss Ethel McAuliffe, Mrs. Howard Ran-

dall and Mrs. Earle Grenquist won many prizes and completed an excellent year.

Eight children were sent to the 4H Camp. Demonstration nights were put on before several organizations, giving confidence to the children and ideas to the adults.

We now have 10 active clubs with 85 members in our Duxbury 4H activities.

Apart from the direct benefit to the home budget of meat, eggs, dresses, etc., the training achieved in leadership and acceptance of responsibility by the young people is without price.

MALCOLM C. BROCK

Town Director

TOWN REPORT 1951

PLYMOUTH COUNTY AID TO AGRICULTURE

County Aid to Agriculture is the official department for the Plymouth County Extension Service. This county organization has seven members on its professional staff and three clerical members, and carries on education programs for Agriculture, Homemaking, and 4-H Club Work. It is a part of the University of Massachusetts and the United States Department of Agriculture. Assistance is available to all county people and is not limited to those engaged in agricultural pursuits.

The Agricultural Department conducts educational programs through the medium of meetings, demonstrations, farm visits, radio and newspaper publicity with dairymen, poultrymen, cranberry growers, vegetable growers, fruit growers, florists. Other programs and information are available for minority groups in general livestock farming, forestry, home grounds improvement, and home food production. Marketing is becoming an important phase of Extension Service work, with benefits both to the farmers and the consumers. The Agricultural Department programs are conducted on a countrywide or regional basis, depending upon the extent of the industry and the need for attention.

The Home Economics Department conducts educational programs for both rural and urban people in the fields of Home Management, Family Economics, Home Furnishings and Surroundings, Food Preservation and Storage, Food Selection and Preparation, Clothing and Textiles. The organization of town committees and local leaders

is responsible for much of the teaching work in this department. This type of adult education is providing needed assistance in many phases of family living that are unavailable in any other way.

The 4-H Club Department deals with youth between the ages of 10 and 21. The public is well aware of the achievements of 4-H club members. Project work for boys includes dairy, goats, sheep, pigs, poultry, gardens, and handicraft. The project work for 4-H club girls offers clothing, canning, child care, foods, home furnishings, and crafts. Success of 4-H club work is almost solely dependent upon the work of town committees and local leaders for sponsoring and leading 4-H clubs in their respective communities. Agents are able to provide guidance and materials for club use, as well as the organization and committees, and supervision and training of leaders.

Funds for County Aid to Agriculture are derived principally through the appropriation of the County Commissioners. Some Federal funds are also used and supervised through the University of Massachusetts. Most towns make token appropriations that are used in the general budget of the Extension Service. Town appropriations permit the appointment of a Town Director who serves as an unpaid volunteer leader and is the contact man with the county office.

A statistical summary of achievement for the three departments for the past year follows.

Statistical Summary of Achievements—1951

	Agri. Dept.	Home Dept.	4-H Club Dept.	Total

JOSEPH T. C. JONES,

Town Clerk

REPORT OF TOWN MEETING

TOWN MEETING, MARCH 10, 1951

The registered voters were checked from the voting list and showed 223 males and 182 females, a total of 405 checked.

The Tellers, John E. Lucey, Gilbert F. Redlon, Helen F. Dawes, Harry A. McNaught, Barclay J. Woodward, John A. Borgeson, Gerald P. Hazlehurst, Rodney W. Leach, Frank H. Williams were sworn in by the Town Clerk.

The meeting was called to order at 1:00 o'clock by the Moderator, Mr. William W. McCarthy.

Rev. Herman F. Lion invoked divine blessing.

There being no objection, the Moderator declared that proponents on any article in the warrant should be given opportunity to speak on the question being voted upon before the article is tabled, as in previous years.

The Warrant was read by the Town Clerk.

Under Article 1, Voted that necessary Officers not chosen by ballot be appointed by the Selectmen.

Under Article 2, Voted, that the reports of the various Town Officers and Committees be accepted as printed in the Town Report, but in reference to the report of the Fire and Water District Committee, it was voted that the Moderator appoint a committee of three to study the situation further and report at the next Annual Town Meeting.

Voted, to consider Article on school appropriations at this time.

Under Article 3, Voted, that the compensation of the elected Town Officers for 1951 be fixed as follows, to be retroactive to January 1, 1951, and that the sum of \$11,165.00 be raised and appropriated to pay for same:

Interest	6,100.00

Dr. J. Newton Shirley, retiring member of the School Committee on which he served as chairman for the past five years, received a token of his colleagues' esteem in recognition of his 17 years of faithful service. Mr. Herbert C. Wirt made the presentation in behalf of the School Committee.

Mounted on a steel panel was the town seal in copper foil and a wooden gavel in bas relief made from wood taken from Partridge Academy. There were 17 bands on the handle of the gavel, representing the years Dr. Shirley had served on the Committee, and five bands on the mallet, representing the years he had been chairman. His name and record of service were embossed on a nameplate on the panel.

Under Article 5, Voted to raise and appropriate \$400.00 to be expended under the direction of Myles Standish Camp, No. 115, S. U. V. C. W., for the observance of Memorial Day.

Under Article 6, Voted, that the Town Treasurer, with the approval of the Selectmen, be and hereby is authorized to borrow money from time to time in anticipation of the revenue of the financial year beginning January 1, 1951, and to issue a note or notes therefor, payable within

one year, and to renew any note or notes as may be given for a period of less than one year, in accordance with Section 17, Chapter 44, General Laws. (Yes 173 No 0).

Under Article 7, Voted, to raise and appropriate for the use of the Plymouth County Trustees for the County Aid to Agriculture, the sum of \$100.00 and chose Malcolm C. Brock, Town Director, as provided in Sections 41 and 45 of Revised Chapter 128 of the General Laws.

Under Article 8, Voted, to apply the dividend from the Plymouth County Dog Fund amounting to \$818.35 to the support of schools.

Under Article 9, Voted, to appropriate to the Cemetery Department the sum of \$240.00 now in the hands of the Town Treasury.

Under Article 10, Voted, to appropriate \$4,000.00 to the Reserve Fund from the Overlay Reserve Fund.

Under Article 11, Voted, to raise and appropriate the sum of \$100.00 for the extermination of Poison Ivy along the streets in town. Said sum to be expended under the direction of the Tree Warden.

Under Article 12, Voted, no action to be taken by the Selectmen relative to the removal and disposal of the Abbott Barn, as the matter has been arranged.

Under Article 13, Voted, to raise and appropriate the sum of \$191.30 to pay unpaid bills of 1950. (Yes 228 No 0).

Under Article 14, Voted, that the sum of \$1,000.00 be raised and appropriated to meet the Town's share of the cost of Chapter 90 Highway Maintenance and that in addition the sum of \$2,000 be transferred from unappropriated available funds in the Treasury to meet the State's and the County's shares of the cost of the work, the reimbursements from the State and County to be re-

stored upon their receipt to unappropriated available funds in the Treasury.

Under Article 15, Voted, that the sum of \$4,000 be raised and appropriated to meet the Town's share of the cost of Chapter 90 Highway Construction and that in addition the sum of \$12,000 be transferred from unappropriated available funds in the Treasury to meet the State's and County's shares of the cost of the work, the reimbursements from the State and County to be restored upon their receipt to unappropriated available funds in the Treasury.

Under Article 16, Vote, to appropriate from the Excess and Deficiency account a sum not to exceed \$5,000 to be used to reduce the tax rate.

Under Article 17, Vote, to raise and appropriate the sum of \$950.00 to be expended under the direction of American Legion Post, No. 223, July 4th Duxbury Days Committee, in connection with this year's parade and celebration.

Under Article 18, Vote, to raise and appropriate the sum of \$500.00 for the exchange of a car for the Police Department.

Under Article 19, Voted, to raise and appropriate the sum of \$4,800.00 for the purchase of a truck and equipment for the Forest Fire Department.

Under Article 20, Voted, the sum of \$66.00 for installation of street lights at the following locations: Mattaketset Court, 2 lights; Peterson Road at Upland Road. 1 light.

Under Article 21, which reads, "To see if the Town will vote to raise and appropriate a sum of money for the purpose of purchasing an automatic calculator for the Assessors' Office", Voted down. (Yes 113 No 137)

Under Article 22, Voted, to accept the provisions of Section 65 of Chapter 44 of the General Laws, which reads in part as follows:

Sec. 65. In an town which accepts this section at a town meeting, advances of pay may be made to any officer or employee thereof in advance of his regular vacation to the extent of the pay to which he is about to be entitled during such vacation period under such regulations as the town treasurer may prescribe.

Under Article 23, Voted not to appoint a committee to study the problem of controlling Dutch Elm Disease, but that the matter be left in the hands of our highly efficient Tree Warden.

Under Article 24, Voted to raise and appropriate the sum of \$1,300.00 for the purpose of continuing the Green-head Fly control project as recommended by the State Reclamation Board.

Under Article 25, Voted, to instruct the Selectmen to lay out the way known as Pine Ridge Lane which leads westerly from Bay Ridge Lane 453 feet more or less to Lot T 34 B 1 on the Duxbury Assessors' Map.

Under Article 26, Voted, to return to the treasury the following unexpended appropriation balances:

Accounting Department, Adding Machine	\$27.50
1950 Police Department Automobile	4.47
Dutch Elm Disease Control	27.10
Highway Department, Pickup Truck	400.00
Ch. 90 Highway Construction	5.19
Ch. 90 Highway Maintenance	6.66
Fourth of July	40.00

Under Article 27, Voted, to accept the provisions of Chapter 820 of the Acts of 1950 which provides for an increase of \$100.00 in the annual amounts of certain pensions for employees separated from the service by

retirement prior to November 1, 1949 and at the time of such separation from service had at least fifteen years' creditable service.

Under Article 28, which reads, "Will the Town vote to raise and appropriate the sum of \$50.00 to be expended under the direction of the Tree Warden for certain improvements in the Town Forest", Voted down.

Under Article 29, Voted, to extend the term "laborers, workmen and mechanics", as used in Section 69 of Chapter 152 of Workmen's Compensation Act, to include all employees of the Town regardless of the nature of their duties, but not to include members of the Police or Fire Department.

Under Article 30, Voted, to accept the gift of \$60.00 from the Duxbury Flagpole Fund, said amount to be used towards the purchase of a ship weathervane for the flagpole at the Cable Office.

Under Article 31, Voted, to authorize the Moderator to appoint a committee of five to study future control and public ownership of Duxbury Beach.

Under Article 32, Voted, that the Town accept the report of the War Memorial Building Committee as a report of progress and that the committee be continued.

Under Article 33, Voted, to raise and appropriate the sum of \$1,420.00 to purchase a sand spreader for the Snow and Ice Removal Department.

Under Article 34, Voted, to raise and appropriate the sum of \$2,300.00 for the purchase of a Heavy Duty Truck Chassis for the Highway Department.

Under Article 35, Voted, to raise and appropriate the sum of \$1,000.00 for the purpose of revising the Assessors' Map.

Under Article 36, which reads, "To see if the Town will vote to raise and appropriate a sum of money to be used to construct a sidewalk on Bay Road, beginning at Halls Corner and extending to the driveway entering the property of Ernest Jones, or take any action relative thereto", Voted down.

Under Article 37, Voted to raise and appropriate the sum of \$500.00 for the purpose of purchasing an Auxiliary Lighting Unit for the Police Department.

Under Article 38, which reads, "To see if the Town will vote to instruct the Selectmen to lay out a Town Way, being a continuation of Pine Hill Avenue, and extending northerly with a turn-around as shown on a plan filed in the Duxbury Town Office, entitled 'Plan of Land in Duxbury to be conveyed by John C. Runkle to Frank A. Kierman, by Delano & Keith, Surveyors, Dated May 15, 1950', and on which the suggested exchange is noted in red", Voted down.

Under Article 39, Voted, to raise and appropriate the sum of \$1,000.00 for the support and maintenance of the Tarkiln Recreation Youth Center; said sum to be expended by the executive board of the Tarkiln Youth Center under the direction of the Board of Selectmen.

Under Article 40, Voted, to instruct the Board of Selectmen to lay out the way known as Bay View Road from its intersection with Bay Road and running in a north-westerly direction about 1834 feet to its intersection with the way known as Old Colony Road, as shown on a plan drawn by Delano and Keith, Surveyors and decorded at the Plymouth Registry of Deeds.

Under Article 41, which reads "Will the Town vote to instruct the Board of Selectmen to lay out the way known as Old Colony Road from its intersection with Chestnut Street and running in a westerly direction about 925 feet to its intersection with Bay Ridge Lane as shown on a plan drawn by Delano & Keith, Surveyors and recorded at the Plymouth Registry of Deeds, or take any other action thereon", Voted down.

Under Article 42, Voted to raise and appropriate the sum of \$50.00 for the purpose of providing signs and erecting the same to identify the old South Duxbury School Lot as a parking area.

Under Article 43 an amendment was voted to change the time period in the bond issue to ten years instead of twenty years, and Voted, that the sum of \$96,000.00 be raised and appropriated for the purpose of remodeling and equipping of the present High School Building, and that to meet said appropriation the sum of \$70,000.00 be appropriated by transfer from available funds in the treasury, and the sum of \$2,900.00 be appropriated by transfer from the Post War Rehabilitation Fund and the sum of \$5,600.00 be appropriated by transfer from the Real Estate Sales Account, and the sum of \$2,500.00 be appropriated by transfer from the Fire Insurance Account, and the sum of \$1,800.00 be appropriated by transfer from the unexpended balance of funds appropriated under Article 51 of the Annual Town Meeting held March 4, 1950, for obtaining preliminary plans and specifications for the remodeling and enlargement of the High School, and the sum of \$13,200 by direct taxation in 1951; that the sum of \$168,000 be raised and appropriated for the purpose of constructing an addition to the present High School building and for originally equipping and furnishing the said addition, and that to meet said appropriation the sum of \$3,000.00 be appropriated by transfer from available funds in the treasury, and that the Treasurer with the approval of the Selectmen, be and hereby is authorized to borrow the sum of \$165,000 and to issue bonds or notes of the Town therefore payable in accordance with the provisions of Chapter 44 of the General Laws so that the whole loan shall be paid in not more than 10 years from the date of issue of the first bond or note, and that the present School Building Committee be and is hereby authorized to expend said appropriations or so much thereof as is needed, to determine upon the final plans of said addition and remodeling, to make all contracts in the name of the town pertaining thereto, and to do all other things necessary and proper

to construct, remodel, equip and furnish said addition and remodeling of the High School for use and occupancy, the said remodeling, addition, equipping and furnishing shall all be substantially in accordance with the plans of Sturgis Associates, Inc., as presented at this meeting. (Yes 242 No 5)

Under Article 44, Voted, to constitute a Committee to be composed of the Honorable Board of Selectmen together with the chairman and two other members of the Finance Committee designated by him to investigate the possibility of reducing the services afforded by the various Town Departments and/or other means of reducing municipal expenses; to make recommendations to the Town Departments and to report their findings and recommendations at the next Annual Town Meeting.

Under Article 45, Voted, to accept the provisions of General Laws, Chapter 39, Section 23 which provides that the election of town officers shall take place at any time within seven days before or after the annual meeting held for the transaction of other business. (Yes 213 No 0)

Articles 44 and 45 were taken up before Article 43.

(Total amount to be raised and appropriated, \$458,-597.25)

At 5:30 o'clock P. M., it was voted to adjourn.

JOSEPH T. C. JONES,

Town Clerk

Blanks	23

And Margaret W. Rogerson was declared elected by the Moderator.

Voted to adjourn.

JOSEPH T. C. JONES,
Town Clerk.

April 17, 1951

Under Article 2 at the Annual Town Meeting, it was voted that the Moderator appoint a committee of three to study water service to North Duxbury and West Duxbury, including the possibility of obtaining service from Marshfield or Pembroke, and report to the next Annual Town Meeting.

In accordance with this vote, the Moderator, Mr. William W. McCarthy appointed the following men, each of whom consented to serve on this committee:

C. Earl Russell, St. George Street, Duxbury
Chester W. Nichols, Washington Street, Duxbury
Carleton H. Schaffer

June 21, 1951

Under Article 31 it was voted that the Moderator appoint a committee of five to consider the future ownership and control of Duxbury Beach and make a report to the Town.

In accordance with this vote, the Moderator appointed the following, all of whom indicated their willingness to serve:

Francis C. Rogerson, Washington Street, So. Duxbury

Arthur W. Bennett, Park Street, Island Creek

H. Gilbert Francke, King Caesar Road, Duxbury

Dr. J. Newton Shirley, Chestnut Street, So. Duxbury

Clarence W. Walker, West Street, Duxbury

April 17, 1951

The by-laws of the Town provide that the Moderator appoint three members to the Finance Committee before May 1 each year.

Accordingly the Moderator appointed the following, each of whom indicated willingness to serve, each for a three year term.

Kenneth R. Bunten, Elm Street, Duxbury

Edward L. Butler, 10 Russell Road, Duxbury

J. Alvin Borgeson, West Street, Duxbury

FINANCE COMMITTEE 1951

John T. Burns, Chairman	1952
Allan C. Johnson	1952
Carleton H. Schaffer	1952
Alvah R. Boynton	1953
Newton E. Hyslop	1953
Douglas M. Pease	1953
Kenneth R. Bunten	1954
Edward L. Butler, Secretary	1954
J. Alvin Borgeson	1954

May 4, 1951, Arthur R. Hutchinson sent his resignation to the Town Clerk as a member of the Finance Committee, and the Moderator appointed Carleton H. Schaffer to fill the vacancy.

The members of the Board of Public Welfare met with the Board of Selectmen at 8:30 P. M., on November 19, 1951 for the purpose of appointing a member to the Board of Public Welfare to fill a vacancy caused by the resignation of Mrs. Sarah Stannard.

Mr. Benjamin F. Tyler was appointed to fill the vacancy until the next annual election, March 15, 1952.

PHILIP W. DELANO, Chairman
Board of Selectmen

REPORT OF TARKILN YOUTH CENTER

The program for the past year has been very successful.

We have run weekly teen-age parties for ten months of the year with a weekly average of 65 children.

We also sponsored a baseball team last summer and although we didn't play many games, we had a large enough turn-out for the team to have competitive games among ourselves. This year plans are being made for the team to join a league with surrounding towns.

Several parties were held for the small fry on the major holidays of the year, furnishing them with entertainment, refreshments and gifts.

This year we seeded the ball field, purchased baseball equipment, and installed a hot water system.

The Tarkiln Recreation Committee used the town appropriation for heating, lighting, equipment, and for renovating the doors and locks for the safety of the children.

Respectfully submitted,

D. E. LaGreca, Chairman

Emily Loring, Secretary

Phyllis Randall, President

P. S. We have earned additional funds by having successful dinners and weekly whist parties. Now to increase our earning power, we are in dire need of a kitchen and would appreciate the cooperation of the townspeople in our activities.

Assessors of Duxbury

REPORT OF PUBLIC HEALTH NURSE

To the Honorable Board of Selectmen
Duxbury, Massachusetts

I submit herewith the report of the public health nurse for the year 1951, this being work for which the town pays the salary of the nurse by an annual appropriation.

Classification	Cases	Visits
Bedside Visits		
Old Age Assistance	5	267
Instructive Visits		
Crippled Children	6	18
Tuberculosis (cases and contacts)	7	11
Contagious Disease	8	8
Total	26	304

Other Activities

Well-Child Conference (P.T.A. sponsored) - 6 meetings, 132 attendance. This has grown so in the last year that Dr. Deacon now has assistance from Dr. Gormley, pediatrician of Plymouth, in the examinations, and four volunteer workers assist the nurse with various details of conducting the project.

Transportation

Plymouth County Hospital	2
Lakeville State Sanatorium	2

Brockton Orthopedic Clinic	2
Peter Bent Brigham Hospital	2
	<hr/>
Total trips	8

Respectfully submitted,

Susan E. Carter, R.N.

Duxbury Public Health Nurse

JOSEPH T. C. JONES, Treasurer

REPORT OF BOARD OF HEALTH

Gentlemen:

I herewith submit my report as agent for the Board of Health.

In 1951, the range of communicable diseases was about as usual. There was reported one case only of non-paralyzing poliomyelitis. There was, however, one case reported of tuberculosis in a child. Contagious disease statistics were as follows:

German measles	5
Measles	9
Scarlet fever	5
Pertussis	1
Chicken pox	51
Mumps	3
Roseola	1
Septic throat	1
Tetanus	1
Non-par. polio	1
Tuberclucosis	1

There were fifteen dogbites reported, and as usual, they were for the most part, the result of children molesting animals.

The School Dental Program was again successfully carried on.

This year, we have begun a campaign against the rat population of Duxbury. The town dump is to be clear-

ed of rats twice a year, once in the spring and once in the fall. Plans are under way for combating the rat menace in the rest of the town.

We are grateful to the State Board of Public Health for their assistance and co-operation in the inspecting and licensing of eating establishments, chicken farms, and the like.

Respectfully submitted,

GEORGE ROSS STARR, Jr., M.D.

REPORT OF RECREATION COMMITTEE

To the Honorable Board of Selectmen:

The Duxbury Recreation Committee is a group organized under the direction of the Board of Selectmen for the following purposes:

1. To provide a place for adult and community recreation.
2. To provide a programme of recreation for young people.

The restoration and preservation of the old Duxbury Town Hall has continued as in previous years. Loam and grass seed have been purchased to restore the lawn area.

Brick and masonry work on the front porch area has been completed for greater safety.

A new light has been installed at the entrance to provide safe egress and exit during the evening hours.

Additional bench and locker space in the building provides for the seating of ninety persons and individual storage for every organization that uses the building regularly.

Kitchen storage has been added to and redecoration is complete.

The committee, through its affiliated committees, continues to provide support for the Boy Scouts of America, the Cub Scouts and the Bon Homme Club.

A list of groups using the hall follows:

- Boy Scouts of America
- Ballet and Tap Dancing Groups
- Cub Scouts
- Social and Ballroom Dancing Groups
- Bon Homme Club (Ages 12-13-14-15)
- St. John's Sunday School
- Duxbury Art Association
- Duxbury Garden Club
- Various Church Groups
- Young Peoples Organization
- etc.

The 1951 appropriation of \$1500 was expended as budgeted:

- Directors' Salaries
- Utilities
- Maintenance
- Restoration of the Building

and a similar sum, in the committees opinion, would be adequate for 1952.

During the fall and winter months approximately one thousand children and adults used the building in any given month. The committee therefore feels that this service to the town justifies the comparatively small budget usually requested.

Since the Recreation Committee is composed of representatives from various community organizations, professional groups and parents, all interested persons are invited to share in this community project.

Respectfully submitted,

JOHN HUTCHEON, Chairman

DOROTHY WENTWORTH, Secretary

REPORT OF THE FINANCE COMMITTEE

Your Finance Committee held its first meeting on May 3, 1951, at which time John T. Burns was elected Chairman and Edward L. Butler was elected Secretary.

Up until December periodic meetings of a general nature were held. Carlton H. Schaffer replaced Arthur R. Hutchinson who resigned after two years of loyal service on this Committee. Since the middle of December there have been one or two meetings each week to study the 1952 Budgets of the various Town Departments. In most cases our sub-committees have made a previous survey of these budgets with the different departmental heads concerned.

The fall and winter meetings of the Association of Town Finance Committees were attended with four members being present on January 17, 1952, to hear Mr. Henry F. Long discuss matters pertinent to our functions.

Two meetings were held prior to the Special Town Meeting of January 4, 1952. Based on information received at these meetings, your Committee disapproved Article 1. of the warrant. It was not felt that the \$12,000.00 involved was a necessary expenditure. This opinion was not upheld by the Town Meeting which voted in favor of the Article in question.

Your Committee authorized the following unforeseen or emergency transfers from the \$4,000.00 Reserve Fund:

School Department	\$ 79.12
Fire Department	44.00
Law Department	1434.78
Accounting Department	60.16
Snow & Ice Removal	80.00
Law Department	622.95
Builders Risk Insurance	190.35
	<hr/>
	\$2511.36

The Committee wishes to thank all the Town Departments and others for their co-operation and courtesy. We particularly wish to thank the Selectmen for the advice and assistance given to the joint committee formed under Article 44 of the 1951 Town Warrant. It is felt that this special committee may become increasingly useful in future years.

Respectfully submitted,

JOHN T. BURNS, Chairman
 EDWARD L. BUTLER, Secretary
 J. ALVIN BORGESON
 ALVAH R. BOYNTON
 KENNETH R. BUNTEN
 NEWTON E. HYSLOP
 ALLAN C. JOHNSON
 DOUGLAS M. PEASE
 CARLTON H. SCHAFFER

Joseph T. C. Jones, Treasurer

REPORT OF THE TOWN ACCOUNTANT

I am pleased to submit the following statement of all receipts and expenditures of the Town of Duxbury for the financial year ending December 31, 1951, in accordance with Chapter 41, Section 61, General Laws. This report is arranged in accordance with the classifications prescribed by the Director of Accounts.

Appended thereto is a statement of the Appropriation Balances returned to the Treasury under date of December 31, 1951, and a further statement of the Appropriation Balances retained and carried forward January 1, 1952.

ISABELLE V. FREEMAN,

Town Accountant.

Morrison M. Bump	1953
Mrs. Emily P. Loring	1954
Albert P. Richards	1954

Superintendent of Schools

Dr. Everett L. Handy, from September 1, 1950

Secretary to the Superintendent

Mrs. Elisabeth W. McLeod

Office Telephone 465

THE REPORT OF THE DUXBURY SCHOOL COMMITTEE

To the Citizens of Duxbury:

Your School Committee submits herewith its report and that of the Superintendent for the year 1951.

Your entire committee has worked harmoniously with the Superintendent and each other to accomplish the following:

1. To keep within the budget as voted by the Town.
2. To provide courses and teachers who will educate our children for either higher institutions of learning or for their chosen vocations.
3. To inaugurate joint meetings with school committees of other towns to study common problems.
4. To provide all policies necessary to carry out the long range program as outlined in the Superintendent's report.
5. To provide classroom supervision by our Superintendent at all school levels.
6. To have constructive meetings with representatives of the Duxbury Teachers' Association on matters of salary policy.

During 1951 the Committee, in full cooperation with the Teachers' Association, developed a salary schedule which was most satisfactory to all concerned. It is planned

in the future to keep this salary schedule in adjustment with teacher needs by keeping it attractive and competitive. Constant study of the salary schedules of other communities is one way in which the Committee is meeting this problem.

Your School Committee wishes to thank the Parent-Teacher Association, the Duxbury Grange, the Kiwanis Club, the Rotary Club, the Duxbury Nurse Association, the Yacht Club, Building Committee, and all other groups and individuals for their work and interest in our schools.

We also wish to thank the Superintendent and all those on the faculty and staff who have earnestly tried to make 1951 a successful and progressive school year.

Respectfully submitted,

The Duxbury School Committee

Herbert C. Wirt, Chairman

Virginia G. Craig, Secretary

Morrison M. Bump

Emily P. Loring

Albert P. Richards

REPORT OF THE SUPERINTENDENT OF SCHOOLS

Honorable School Committee

Duxbury, Massachusetts

Gentlemen:

Attached hereto is my Annual Report for the Year ending December 31, 1951. The theme of this report is "change." By its very nature education is a process which is in constant adjustment. New methods and materials must be devised and used if we are to keep our school program alive and in accord with the problems of modern life. Throughout the pages of my report you will note evidences of our efforts in this direction. Changes to bring about a more effective school organization, the work of curriculum committees, the development of work experience programs, and the broadening of school services are all ways in which we are attempting to adjust our schools to the needs of the people they serve.

I am confident that the hard work and cooperative spirit shown by the school committee will be most valuable to all of us in our quest for good schools.

Sincerely yours,

Everett L. Handy

Superintendent of Schools

SUPERINTENDENT'S REPORT

CHANGES IN SCHOOL ORGANIZATION

During 1951 changes in the administrative organization of the schools were completed. Under the former organization each school had an assistant principal with the superintendent serving as superintendent and principal. The new arrangement provides for a full principalship in each school and a superintendent for the school system. The duties of each principal include some teaching and responsibility for administration. The superintendent handles administrative matters for the school system as a whole, and supervises instruction in all grades.

This plan seems to offer the best insurance for good school management both now and in the future. The plan is flexible and allows for change within its framework. As the school system grows the basic organization can remain the same, while the duties of the personnel within it may vary in accordance with need.

Under the new plan each principal:

1. Places in operation the course of study
2. Executes adopted policies
3. Appraises and reports to the superintendent conditions which arise within the school.
4. Furnishes professional leadership and conducts research.

5. Maintains contacts between community, home, and school.
6. Performs administrative procedures necessary to carry out the school program.

CURRICULUM CHANGES

The most significant changes in curriculum this year have been in the High School. The basic purpose of these changes has been to bring the educational program to a point of efficiency where it will meet student needs more effectively. Some of the conditions which indicated a need for change were unusually small classes, the difficulty of maintaining a correct sequence of courses for students preparing for college, too much emphasis on some courses and not enough on others, too much spread in subject assignments to teachers, and lack of work-experience opportunities for pupils.

A long range plan to improve this situation was begun this year. Four fields of concentration were established: college preparatory, commercial, home economics, and shop. Under this arrangement each boy and girl chooses a field of concentration from the four mentioned above. Those few students who cannot meet their needs and interests through any of these four fields are classified as special students and their programs individualized. One of the basic purposes of the above plan is to have each pupil graduate from the Duxbury High School with a competency in one of the above mentioned fields.

Under this plan there are no separate curriculums. There are instead fields of concentration to be selected under guidance. All subjects in the program of studies are either CONSTANTS (required) or VARIABLES (elec-

tives). The constants make up the "common learnings" or general education of each student. The variables are provided to meet individual differences in needs and interests. It is among these variables that a student finds the combinations of courses that make up a field of concentration.

The following chart shows the program toward which we are now working. In thinking about this program it should be kept in mind that, while our high school is growing, it is still a small school, and, therefore, not every course that might be found in large high schools is listed. Time is also an important factor. The program cannot be made fully effective in one year.

Other changes already in practice include changing the average teacher load from 8.6 pupils per teacher in grades 10 through 12 in 1950 to an average of 15 pupils per teacher in the same grades during the current year. Without weakening the educational program this change has brought our pupil-teacher ratio up to the average for the state, and has begun to reduce the per pupil cost in these grades. The cost per pupil in grades 10 through 12 in our high school for the school year ending in June, 1950 was \$446 per pupil. For the year ending in June, 1951, it was \$413 per pupil.

A definite and consistent sequence of courses has been established in the ancient and modern languages. These courses will be offered at the times indicated, and students planning their programs can count on their being available to them.

An examination of the chart will show strong emphasis on English in the beginning high school years.

A plan to place senior commercial students in business offices for actual work experience will go into effect with this year's senior class. Opportunities in a wide variety of business offices are available.

SCHOOL SERVICES

Our school system offers many services to pupils which aid directly or indirectly in their instruction. These include: health, guidance and testing, teaching aids, library, and transportation. All of these services are in varying degrees of development. The health program includes

regular and pre-school examinations, dental examination and treatment, and daily clinical service. A significant change in the health program this year was the plan to provide pre-school examinations to prospective kindergarten pupils in June instead of during the summer months. Such examinations formerly had been given during the summer in the office of the school physician. One of the difficulties with this arrangement was the inability to get all the children examined. The new plan was arranged so that the examinations could be held during the last week of the school year, and could be combined with registration for kindergarten. Children were given medical and dental examinations, and a nutritionist from the Department of Public Health provided general information. Bus transportation was assigned and pupils were registered. The procedure required three mornings from ten to twelve o'clock noon.

It is planned to combine the guidance and testing services when the school system grows to sufficient size to warrant this specialized service. In the meantime it is planned and administered by a committee made up of the superintendent and two principals.

This year a follow-up study of the graduates of the Duxbury High School who are attending degree granting colleges and universities was made by Principal Wood. The basic purpose was to determine the extent to which our graduates were continuing their education beyond high school, to determine their degree of success, and to help evaluate the preparatory work being given to those in the college preparatory program. The study showed that 17 of our graduates were in attendance at 13 different colleges. The colleges attended included: Boston University, Tufts, Bridgewater State Teachers College,

Brown, Stetson, University of New Hampshire, Wheelock, Syracuse, and Lowell State Teachers College.

Mr. Wood reported that, "Generally all Duxbury students who have entered college in the past four years are achieving average to better than average grades."

It is noteworthy that 12 members of the class of 1952 are planning to go to college. In this connection it is pleasing to note the increased interest in providing scholarships to aid worthy students.

A beginning has been made in coordinating teaching aids and library services, and in extending the library services to the elementary grades. Because our schools are located so close together, it is possible for the librarian to work in both the elementary and high school. This year she has been active building up the elementary room libraries, and providing resource materials for teachers.

The new building addition includes a workroom for the development of teaching aids. All visual aids materials and equipment will be stored in this room. The room is to be equipped with work tables and a screen for pre-viewing films and slides. The librarian will be in charge of this work and will assist teachers in devising and making teaching aids.

SCHOOL COSTS

While the cost of education is not our first consideration, when costs become unusually high it is a matter of serious concern. It is of prime importance to maintain

a good educational program. It is also important to justify school costs. One means of comparing school costs is the cost per pupil. In 1950 our cost per pupil in grades 10 through 12 was \$446. In 1951 this cost was reduced to \$413 per pupil. This figure should be still further reduced next year. It is still about \$72 higher than the average for towns in Group III*, and about \$110 higher than the average for the state. Cost per pupil in grades 7 through 9 was about \$50 higher than the average for the state in 1951. In the same year the cost per pupil in the elementary grades was \$168 or \$18 less than the average for the state. The cost per pupil for the school system in 1950 was \$250. In 1951 it dropped to \$236. This change is all the more significant when it is realized that the trend in the state is toward a higher per pupil cost. The average for the state increased from \$209 per pupil in 1950 to \$236 in 1951.

Cost per pupil is determined by dividing the expenditures by the number of pupils enrolled. If the number of pupils is low the cost per pupil tends to be high. If the number of pupils is high the cost per pupil tends to be low. In both cases the expenditures must remain the same. If the expenditures increase and the number of pupils decreases or remains the same the cost per pupil goes up. Thus, the measure "cost per pupil" is a relative one. If our expenditures increase more slowly than the numbers of pupils to be educated the cost per pupil in Duxbury will continue to drop. It is obvious that if the cost per pupil is to be kept reasonably near the average we cannot depend entirely on increase in enrollment in a small school system. Ways and means must be found to make economies in expenditures wherever possible. A significant move in this direction was made this year in the high school. The average class size in grades 10 through 12 was increased to 15 pupils per teacher. The

average class size in the same grades was 8.6 pupils per teacher in 1950. The average for the state is 15 pupils per teacher. Quantity purchasing is another practice which is reducing our expenditures. While our greatest efforts will be to provide a good educational program, the problem of costs will receive constant study.

Group III equals towns under 5,000 population maintaining high schools.						

*Number of pupils in average membership equals 587.1 for the year 1950-1951.

PERSONNEL

Many families with children of school age are moving to Duxbury. In June 1951 there were 65 pupils registered for grade one. On the opening day of school 79 enrolled. All indications point to at least that many for September 1952. There are now 72 pupils in the kindergarten. A conservative estimate of the number of first grade pupils

in September 1952 is therefore about 80. Classes of this size are too large for two teachers to handle successfully. It is planned, therefore, to divide grades one and two into three sections next year. Classrooms for these sections will be obtained by moving grade six into the high school building.

An examination of the chart that follows indicates the general trend of growth in the pupil population. The greatest growth is currently in the elementary grades. More rapid growth in the high school will come as the larger elementary classes move up to that level.

REPORT OF SCHOOL CENSUS

The following report of children in town and enrollment is based upon the school census taken October 1, 1951.

	5 years and under 7 years	7 years and under 16 years	Illit. Minors 16 years or over and under 21
Number of boys living in Duxbury	87	250	2
Number of girls living in Duxbury	66	237	0
Total in Residence	153	487	2

Distribution of Above:

Public School Membership*	153	459	0
In Continuation School Membership	0	0	0
In Vocational School#	0	0	0
In Private School†	0	0	0
In State and County Institutions	0	0	0
Not in any school	0	8	2

Prospective Kindergarteners, 1952** — 74.

Prospective First Graders, 1952**—74.

* Does not include pupils over sixteen years of age.

Three students over 16 years of age also attend Weymouth Vocational School.

† Does not include private kindergartens.

** These are known residents. Past experience indicates that this number will be increased during the year by new residents.

SCHOOL DEPARTMENT PERSONNEL

The following tabulation indicates the number of persons employed in the schools. Twenty of the teachers

listed hold bachelors' degrees. Of these, six have earned masters' degrees.

SCHOOL HOUSING

The new addition to the High School is progressing according to schedule, and a beginning has been made on the remodeling of the interior. The shop will be moved into the basement of the new addition in the latter part of February, when further remodeling work will be carried on in the basement of the old building. During the summer months the coal burning heating units were replaced with oil burning units. During the summer of 1952 gymnasium alterations will be completed.

Because of the rapid growth of the number of pupils in the elementary grades it will be necessary to have three first grade and three second grade rooms in September 1952. To obtain this space the sixth grade will be moved to the high school building where space will be available because of the new addition. Thus, the elementary building will contain the kindergarten and five grades in September 1952. If the entering class in September 1953 requires three rooms, as it seems likely it will, there will be no room available in the elementary building. It would not be good planning educationally or otherwise to attempt to get another low grade into the high school building. By some means it may be possible to get along one more year, however. The 1950 annual report of the Superintendent indicated the need for additional space in 1952 or 1953. It is strongly recommended that steps be taken at the Town Meeting in March 1952 to meet this problem.

An extension of the east wing of the elementary building would provide the necessary space. Six additional rooms are recommended to allow three classrooms for each of the six grades in the elementary school.

We are currently providing for all of our kindergarten pupils satisfactorily. Should the number grow larger, afternoon sessions could be arranged without the necessity of adding space for this class.

SCHOOL REGULATIONS

Admission

Children who are four years and eight months on September 1st of any school year may be admitted to kindergarten.

A certificate of successful vaccination is required for admission.

A birth certificate is required to establish a child's age.

Health

Any child who is absent from school for five days or more is required to bring a certificate from the doctor stating that he is now ready to return to school. After absence with a contagious disease, no matter how short, a doctor's certificate is also required.

No School Signal

School is usually called off only when bus transportation is unsafe. On such days an announcement is made over Stations WBZ, WEEL, WHDH, and WBET in Brockton, between 6:45 and 7:45. Parents are not expected to send their children to school on days when, in their opinion, the weather is such as to endanger the health of the child even though the busses are in operation. Such absences are excused on receipt of a written request.

REPORT OF THE SELECTMEN

Citizens of Duxbury:

Fully realizing that this is another milestone in the well ordered civil affairs of our Town, we feel privileged to present to you the One Hundredth Annual Report of your officers and committees.

Because of delays in the process of final enactment of the "Sea Wall" Bill, it was not possible to carry out the instructions of the June Meeting in regard to this matter. However, corrective legislation has been introduced at the 1953 Session of the General Court and articles will be presented at the forthcoming Town Meeting to make possible Duxbury's participation within the scope of the corrected legislation.

A satisfactory arrangement was concluded with the Marshfield Water Board and a water line connected to the Marshfield system has been laid in the North Duxbury area in accordance with instructions of the Annual and June Meetings.

Our boating facilities have been greatly improved as a result of the basin dredging project. The State went beyond its original commitment of funds and we now have a basin dredged in excess of the planned ten acre area. The fact that over two hundred boats were assessable in Duxbury on January 1st indicates the popularity of this activity and the importance in providing employment.

A Special Committee has studied the possibility of extending our harbor facilities to the natural basin area off Howland's Landing at Captain's Hill shore. We urge careful consideration of their report.

We have made some changes in our enforcement procedures in respect to the zoning By-Laws. We seem to have circumvented the need for a "Building Inspector" as provided at the last Annual Meeting. However, since strict enforcement, where all citizens are not willing to heed the rules, may involve the Town in litigation, we are, on advice of the Town Counsel, asking for a small appropriation for an "Investigating Officer" to assist us. It would be his specific charge to collect and preserve information.

We hope to continue the Chapter 90 program of highway improvement. The money appropriated for Construction will be spent in continuing the Bay Road project. The money appropriated for Maintenance will be spent in continuing resurfacing on Route 14.

In order to deter serious deterioration to particular heavily travelled town roads we recommend careful consideration of Articles to improve Bow Street, a portion of Standish Street, and a portion of Temple Street in North Duxbury.

As a result of concentrated opposition by the residents of Tinkertown to a proposed layout of Elm and Summer Streets, we have not pressed for acceptance by the County Commissioners.

The Town constructed no new sidewalks in 1952. An article will be placed in the Warrant to permit the townspeople to make a decision on sidewalk extension. There is some foot traffic on Washington and Depot

Streets and the Bay Road. Perhaps a sidewalk with proper curbing in any of these areas would be a wise safety measure.

The Town is the owner of numerous properties. In such a well kept and splendidly beautified town some of our holdings seem out of place. We have instructed the Supervisors of Parks and Playgrounds to enlarge somewhat the scope of their activities and to request sufficient funds for proper care of our open areas.

A decision should be reached in respect to our future interests in the Point and Village Schools. We are inserting articles in the Warrant to permit the Town to act. These buildings are not now in use and are unsightly.

It has long been considered desirable to hold in the waters of the Blue Fish River during the summer. In a spell of bad weather one of the tide gates broke away and was lost. An article, favorably acted upon will enable replacement of this gate before the next summer season.

We now have a local paper which reaches all Duxbury homes. We wonder if the By-Law provision for publication of Warrants for Special Town Meetings in two newspapers and the mailing of postcard notices is still necessary. We shall leave the decision of whether or not this expense can be saved without depriving interested citizens of adequate notice up to the wisdom of the Meeting.

The Board recommends favorable consideration of a modest wage and salary adjustment for Town officers and employees whose wages and salaries are set by the Board.

During the past year it was necessary to move the Veterans' Agent across to the Abbot House to provide adequate work space for the Tax Collector. This points up the fact that our Town Offices are becoming badly overcrowded and it is our duty to direct the attention of the Townspeople to this condition. Because of our serious school needs this year we defer any specific recommendations at this time. However, in the interest of proper efficiency these needs can not be passed over too much longer.

It has been a privilege for us to serve our Town during the past year and to have enjoyed such pleasant relationships with our fellow Town Officers and employees. The Town will soon assemble for its Annual Business Meeting. We urge you, the citizens, to consider all matters which shall come before you with great care and defer those matters which are not presently absolutely necessary in the interest of proper economy.

PHILIP W. DELANO,

CHARLES R. CROCKER,

FRANCIS W. PERRY,

Selectmen of Duxbury.

REPORT OF STATE AUDIT

March 21, 1952

To the Board of Selectmen
Mr. Philip W. Delano, Chairman
Duxbury, Massachusetts

Gentlemen:

I submit herewith my report of an audit of the books and accounts of the town of Duxbury for the year ending December 31, 1951, made in accordance with the provisions of Chapter 44, General Laws. This is in the form of a report made to me by Mr. Herman B. Dine, Assistant Director of Accounts.

Very truly yours,

FRANCIS X. LANG,

Director of Accounts.

FXL:TJP

Mr. Francis X. Lang
Director of Accounts
Department of Corporations and Taxation
State House, Boston

Sir:

As directed by you, I have made an audit of the books and accounts of the town of Duxbury for the year ending December 31, 1951, and submit the following report thereon:

The financial transactions, as recorded on the books of the several departments receiving or disbursing money for the town or committing bills for collection, were examined and reconciled with the reports and records in the office of the town accountant.

The town accountant's ledger was analyzed, the receipts being checked with the treasurer's books and the payments being compared with the warrants authorizing them and with the treasurer's records of payments. The appropriation accounts were checked with the town clerk's records of town meeting proceedings and the recorded transfers from the reserve fund were verified. A trial balance was taken off, proving the accounts to be in balance, and a balance sheet, which is appended to this report, was prepared showing the financial condition of the town on December 31, 1951. An examination of the appended balance sheet shows that the town is in very good financial condition.

The books and accounts of the town treasurer were examined and checked in detail. The receipts, as recorded, were analyzed and checked with the records of the several departments collecting money for the town and with the other sources from which money was paid into the town treasury. The payments were compared with the selectmen's warrants authorizing the treasurer to disburse town funds.

The cash book additions were verified, and the cash balance on January 9, 1952 was proved by actual count of the cash in the office and by reconciliation of the bank balances with statements furnished by the banks of deposit.

The payments on account of maturing debt and interest were verified by comparison with the amounts falling due and with the cancelled securities on file.

The savings bank books and securities representing the investment of the trust and investment funds in the custody of the town treasurer and the Plymouth Five Cents Savings Bank were examined and listed, the income being proved and the transfers to the town being verified.

The records of tax titles held by the town were examined, and the town and district taxes transferred to the tax title account were compared with the collector's records. The payments to the treasurer were verified, and the outstanding accounts were listed and compared with the records in the Registry of Deeds.

The books and accounts of the tax collector were examined and checked. The taxes and motor vehicle and trailer excise outstanding at the time of the previous examination, as well as all subsequent commitments, were audited and compared with the assessors' warrants issued for their collection. The payments to the town and district treasurers were verified, the recorded abatements were checked with the assessors' records, and the outstanding accounts were listed.

The records of departmental accounts receivable were examined and checked. The commitments were proved, the payments to the treasurer were verified, and the outstanding accounts were listed.

The outstanding tax, motor vehicle and trailer excise, and departmental accounts were verified by mailing notices to a number of persons whose names appeared on the books as owing money to the town and the district, and from the replies received it appears that the accounts, as listed, are correct.

The surety bonds of the town officials required to file them for the faithful performance of their duties were examined and found to be in proper form.

The records of receipts from licenses and permits issued by the selectmen, by the town clerk, and by the police and health departments, as well as from all other departments collecting money or committing bills for collection, were examined and checked, the reported payments to the treasurer being verified.

Appended to this report, in addition to the balance sheet, are tables showing a reconciliation of the treasurer's and the collector's cash, summaries of the tax, motor vehicle and trailer excise, tax title, and departmental accounts, together with tables showing the condition and transactions of the trust and investment funds.

For the cooperation extended by the town officials during the progress of the audit, I wish, on behalf of my assistants and for myself, to express appreciation.

Respectfully submitted,

Herman B. Dine,

Assistant Director of Accounts.

REPORT OF THE FIRE DEPARTMENT

January 8, 1953

To the Honorable Board of Selectmen
Duxbury, Massachusetts

Gentlemen:

The Board of Fire Engineers submits the following report of department activities for 1952.

The total number of calls was eighty-nine.

Summary:

- 7 Automobile
- 4 Bridge
- 12 Building
- 7 Chimney
- 46 Emergency
- 2 False Alarm
- 7 Oil Burner
- 4 Stand-by

Of the twelve building fires the recent Wirt Bros. fire was the most serious. With the quick response and very efficient work of the firemen, the help of our radio communication system, and the co-operation received from the police department, we were able to

confine the majority of the damage to the second story and showroom. At the other building fires we were able to keep the fire from spreading from its point of origin. By being able to do this we have kept our property losses low in comparison with the increase this year in the loss of property and human life throughout the state.

Again this year we have stayed well within our appropriation while making necessary repairs to apparatus and buildings. This coming year we have increased our budget to shingle the Central Station, which must be done.

As Chief of the Fire Department I would like to thank the firemen for their co-operation in responding to alarms and in protecting and salvaging our property through the efficient use of water, which so often causes more damage to building contents than the actual fire. This, I feel, has been very well carried out by the men this year.

I also want to thank the telephone operators for their splendid co-operation because without their assistance the firemen would be unable to reach the scene of the fire so quickly. The people of Duxbury must realize that this is our fire alarm system and that the firemen are dependent upon telephone service for the location of the fire when an alarm sounds. As chief I realize that all fire-minded people are interested in knowing where the fire is, but please do not hamper this service by calling the operator or the fire department for a reasonable length of time. Do not interfere with the firemen calling in because the first few minutes may mean the saving of a human life or a building.

Will all persons please remember when calling the fire department in an emergency to say, "**Emergency**

Duxbury Fire Department 333." This will enable people in the Kingston, Hanover, and Marshfield telephone exchanges to contact the man on duty at the Duxbury Fire Department directly. Then give your name, the location of the fire, and, if possible, the nature of the fire (as automobile, chimney, building, forest, or grass), so the proper type of equipment can be despatched to the fire immediately.

Respectfully submitted,

EBEN N. BRIGGS, Chief

GEORGE S. BUTLER, Asst. Chief

KENNETH O. MACOMBER,
Chairman

LeROY M. PETERSON, Secretary

ALDEN M. BARTLETT

JOHN DeLORENZO

CARL J. SANTHESON, JR.

Board of Fire Engineers.

REPORT OF THE FOREST WARDEN

January 8, 1953

To the Honorable Board of Selectmen
Duxbury, Massachusetts

Gentlemen:

I herewith submit my report as Forest Warden for the year 1952.

The department had a total of 152 calls, as follows:

- 27 Brush
- 59 Dump
- 3 False Alarms
- 14 Forest
- 34 Grass
- 12 Outside Aid
- 3 Stand-by

Of the 152 calls this year we have been able to keep the majority of the fires between one and two and one-half acres. I feel that this could not have been accomplished without our radio communication system, which is considered the first line of defense in the fire service by all our local and state conventions.

A total of 3129 open air fire permits were issued this year. 1400 beach picnic fire permits were issued by

Duxbury Beach Park and Ford's Store. In addition, the Central Fire Station issued 618 written permits and 1311 telephone permits for incinerator, rubbish, and brush fires. The co-operation of the townspeople in living up to state fire laws and securing permits on the proper days has been one of the main factors in controlling and locating outdoor fires.

As Forest Warden, I feel it is necessary this year to replace our 1936 pick-up truck, and with the approval of the Selectmen have an article in the town warrant to purchase a new truck and equipment. I believe this truck is needed to keep the Forest Fire Department up to the standard that we have maintained in the past.

I wish to thank the deputy wardens, Selectmen, and Highway Department for their splendid co-operation in the past Forest Fire season.

Respectfully submitted,

EBEN N. BRIGGS,

Forest Warden.

REPORT OF HIGHWAY DEPARTMENT

To the Honorable Board of Selectmen:

Gentlemen:

I herewith submit the report of the Highway Department for the year ending December 31, 1952.

In addition to necessary repairs to all streets throughout the town, several miles of black roads were given a surface treatment. Roadsides were mowed and raked. Fences repaired and painted.

Bay View Road, Old Colony Road, Pine Ridge Lane and the remainder of Wadsworth Road which were accepted by the town at the Annual March Meeting were graded, graveled and surfaced with asphalt under special appropriations.

Twelve complete sections were replaced in Powder Point Bridge, and other repairs made as necessary. Repairs were also made on all other bridges.

The parking area at Mattakeesett Court was enlarged and all other town landings received annual care.

Under Chapter 90 Maintenance, portions of Route 14 were refinished with mixed-in-place.

Under Chapter 90 New Construction, the project at Bay Road was put out to bids this year. Bradford Weston of Hingham, being the lowest bidder, was awarded the contract.

Respectfully submitted,

LEWIS B. RANDALL,

Superintendent of Streets.

REPORT OF THE CEMETERY TRUSTEES

To the Honorable Board of Selectmen
and the Citizens of Duxbury:

We submit our report for the year 1952.

The report of the Superintendent of Cemeteries has been accepted and contains all the details of the work done in the cemetery department.

We wish to express our thanks to the citizens and groups who have contributed to the improvement of the cemeteries, especially to the Ladies Union Fair Association for the donation which enabled the department to recondition and improve several of the old lots in the original part of the cemetery.

We are pleased to report that our Perpetual Care Funds have increased 100% during the last ten year period. This will insure care of these lots in future years.

We are asking for an appropriation of \$12,611.00 to carry on the work of the cemetery Department during the year 1953.

Respectfully submitted,

HARRY A. TAMMETT, Chairman
ERNEST H. BAILEY
EDWARD P. HOBART
STANLEY V. JOHNSON
J. NEWTON SHIRLEY, Secretary

REPORT OF THE SUPERINTENDENT OF CEMETERIES

To the Cemetery Trustees:

I submit my report for the year 1952.

At Mayflower, Ashdod, Dingley, and Myles Standish Cemeteries the general work was done and the leaves were raked. Some gravel was added to the avenues and they were raked and cleaned.

The fence in the back of the Mayflower Cemetery was painted and repaired; also the fence at Ashdod Cemetery and the guns at the Standish Cemetery.

There has been an addition made to the new section of the cemetery. Ten lots have been rebuilt in the old part of the cemetery. A request of \$300. is being added to the budget for building new lots so that we may do a little each year.

During the dry spell we were trimming the dead wood out of the trees and more of this work will have to be done in the coming year. One dead tree was removed by the Tree Department.

The Ladies Union Fair Association supplied the loam to have a section rebuilt in the Historical part of the Mayflower Cemetery.

Perpetual and Annual care lots were cared for; also the graves of the veterans.

There were sixty-five interments this year.

Respectfully submitted,

LAUREL B. FREEMAN,

Superintendent of Cemeteries.

REPORT OF PUBLIC HEALTH NURSE

To the Honorable Board of Selectmen.
Duxbury, Massachusetts

Gentlemen:

I submit herewith the report of the Public Health Nurse for the year 1952. This is the work for which the town pays the salary of the nurse by an annual appropriation.

Classification	Cases	Visits
Bedside Visits		
Old Age Assistance	6	370
General Relief	1	11
Disability Assistance	1	12
Instructive Visits		
Crippled Children	5	16
Tuberculosis (cases and contacts)	7	14
	Totals	20 423

Other Activities

Well-Child Conference (P.T.A. sponsored) — 6 meetings, 127 attendance.

Immunization Clinic (Board of Health) — against diphtheria, whooping cough, and/or tetanus as necessary.

Series of three injections 17 children

Booster shots	44 children
Incomplete	1 child
Completed privately	1 child

Total attendance 63

Transportation

Immunization clinic	2
Brockton Orthopedic Clinic	1
Plymouth County Hospital	5
Taunton State Hospital	2

If it is appropriate to insert this here, I would like to express my sincere appreciation to all volunteers who have helped me with clinics, transportation, etc., in the past year.

Respectfully submitted,

SUSAN E. CARTER, R.N.,

Duxbury Public Health Nurse.

REPORT OF THE TOWN HISTORIAN

To the Honorable Board of Selectmen
of the Town of Duxbury:

In the past year the trend in requests for information has veered from local history to definite family history. School children continue to ask what Duxbury was like in Colonial days, but there is a marked increase in the interest in early family records, particularly traditional material to color the recorded facts. With this in mind, a start is being made in assembling anecdotes, unrecorded bits of history, and amusing family traits that will satisfy the request for "something personal and interesting about early members of my family", as one letter put it.

Several groups of visitors were aided in plans for a tour of Duxbury and many individual requests for advice of "what to see in Duxbury", were answered.

The only purchase this year to add to the books bought last year, is a map of Duxbury in 1833.

The main work of this department continues to be the collection of historic information that will be readily available when needed. It is fascinating and satisfying work.

Respectfully submitted,

DOROTHY WENTWORTH.

MEMORIAL DAY REPORT

To the Honorable Board of Selectmen
and Citizens of Duxbury:

The Memorial Day Committee respectfully submits the following report:

Myles Standish Camp No. 115, Sons of Union Veterans of the Civil War; Duxbury Post No. 223, American Legion; Duxbury Girl Scouts; Duxbury Boy Scouts; Duxbury Brownie Scouts; and Duxbury Cub Scouts; and Duxbury School Children decorated 7 World War II Veterans graves in Mayflower Cemetery, 196 graves of Civil War Veterans in Mayflower Cemetery, 4 Army Nurses graves in Mayflower Cemetery, 16 Civil War Veterans graves in Ashdod Cemetery, 2 Colonial War Veterans graves in Standish Cemetery, 1 Revolutionary War Veterans grave in Standish Cemetery, 21 in Mayflower Cemetery, 4 Dingley Cemetery, and 2 North Duxbury Cemetery; 5 Veterans of War of 1812 graves; 1 Indian War Veteran, 3 Spanish War Veterans' graves in Mayflower Cemetery, Ashdod and Dingley Cemeteries; 37 World War I Veterans graves in Mayflower Cemetery and 2 graves in Ashdod Cemetery.

The Duxbury High School Band furnished music for the parade which formed at Myles Standish Cemetery and proceeded down Chestnut Street by way of Hall's Corner to the Unitarian Church.

Memorial Services were held at the First Church,

Unitarian, Mayflower, Ashdod, Dingley, and Standish
Cemeteries; No. Duxbury Tomb; Blue Fish River and
the Honor Roll.

Appropriation		\$425.00
Expended	\$383.12	
Unexpended	41.88	
	<hr/>	<hr/>
Totals	\$425.00	\$425.00

Respectfully submitted,

PHILIP G. CHANDLER, Chairman
PARKER B. CHANDLER
OSCAR B. RYDER
EDEN S. GLOVER
MERRITT FERRELL

PLYMOUTH COUNTY AID TO AGRICULTURE

Local Work in Duxbury

A. Activities of the Home Economics Department under the leadership of Mrs. Thomas Scott covered training for adults in various fields. The several projects were under the direct supervision of Miss Beatrice White or Miss Carol Shute, Assistant County Extension Agents from Brockton. These adult educational courses are without cost and in our opinion are well managed and supervised. They deserve a far wider acceptance.

This last year we had:

1. "Storage Stretching." Women were shown how to better their storage problem and build a "storage stretcher" in their own kitchen.
2. "Planning Your Will." The Plymouth County Bar Association cooperated. The meeting was held at the Town Hall and was well attended by both men and women.
3. Quite a number attended the "Home Ground Improvement" meeting held late in the spring at Whitman.
4. A "Nutrition" meeting was held in the summer where it was shown how to get more food value for the money.
5. In the fall, a series of meetings was held on "Furn-

niture Refinishing". 22 women and 1 man attended the classes.

B. In the 4H Department the Duxbury Town Committee shows continued activity in many phases of practical rural living. In the agricultural section the Dairy and Poultry clubs maintain their outstanding work. The value of the dairy herds owned by Duxbury 4H members has now grown to some \$6,000.00. Judging members particularly in poultry have won the highest county and statewide honors. A new goat club is very active and promises definite reduction of the milk budget in many families. A tractor driving and maintenance group has attracted a number of the older boys. The sheep club is active and won many honors. The garden club did well at the fairs and shows and greatly aided the family budget. In all these clubs, except tractor, girls are active.

In the Home Economics section the two new canning and cooking clubs stepped into high competition at the fairs and won a great many prizes. The Home Decoration Club and the sewing clubs have continued active and also have won high honors in demonstrations and exhibits.

Our Town Committee, made up of leaders of 4H projects, has been rated as one of the outstanding leader-groups in Eastern Massachusetts. Fourteen leaders head up some 15 different project clubs. These are:

Mr. Robert Vaughan, Conservation, Chairman.
 Mrs. Malcolm C. Brock, Garden, Secretary.
 Mrs. Earle Grenquist, Sewing, Treasurer.
 Mrs. George Horsfall, Home Decoration.
 Mr. James Smithson, Tractors.

Mr. Frederick Harrington, Jr., Sheep.
Mr. Kendall Thomas, Goats.
Mr. Malcolm C. Brock, Poultry.
Mr. Ernest Chandler, Dairy.
Mr. Frank Nudd, Pigs.
Miss Ethel McAuliffe, Sewing, Foods.
Mrs. Winona Nichols, Canning.
Mrs. Howard Randall, Sewing.
Mrs. Everett Marston, Sewing.

Eight children were sent to 4H camp. We have a total of some 100 children in our Duxbury 4H clubs.

While the 4H work is looked upon as a movement for young people, it actually has developed that the projects where successful have become family projects. The values disclosed in good living and budget help are astonishing. But above all, through deeply interesting and profitable methods, unsurpassed results are achieved in the training of leadership, judgement and the acceptance of responsibility for the young folks.

Respectfully submitted,

MALCOLM C. BROCK, Director

THE EXTENSION SERVICE

The Extension Service is an educational organization. This office supplies information on farming, home-making, and 4-H club work. It is a cooperative institution supported mainly by county appropriation, with additional funds furnished from federal sources.

The University of Massachusetts is the headquarters of the Massachusetts Extension Service. Assistance of Extension Specialists is provided to the county offices in developing programs and teaching subject matter. The Extension Service supplies helpful information to farmers and homemakers in an effort to help people help themselves. It also encourages individuals and groups to take advantage of opportunities in the community.

An Extension worker strives to give information, training, or advice that will help people in their daily lives. Through the application of this knowledge, Massachusetts farmers can maintain a prosperous industry; their children grow up to be responsible citizens; and their rural homes and communities will be pleasant places in which to live.

The Extension Service is under the direction of a Board of nine Trustees, appointed by the County Commissioners to represent the various agricultural, home-making, and 4-H club interests of the county.

Programs and services offered include:

Producing Massachusetts Crops and Livestock

(Dairy - Poultry - General Livestock - Fruits -
Vegetables - Cranberries - Forestry - Landscaping and
Flowers)

Market Information and Techniques

Safety and Fire Prevention

Convenient, attractive homes and farm buildings

Home and Community Recreation

Child Development and Family Life

Nutrition and Food Preservation
 Farm and Family Finance
 Clothing
 Health
 Conservation of Soil and Water
 Understanding of Public Problems
 Information to Consumers

Extension Service Office and Agents:

Plymouth County Extension Service, Court House,
 Brockton, Massachusetts.

J. T. Brown, County Agent-Manager

Edgar W. Spear, Associate County Agricultural
 Agent

Dominic A. Marini, Assistant County Agricultural
 Agent

Beatrice I. White, Home Demonstration Agent

Robert B. Ewing, County Club Agent

M. Christiana Downing, Associate County Club
 Agent

REPORT OF THE BOARD OF APPEALS

To the Honorable Board of Selectmen:

The Board of Appeals held fourteen public hearings during the year 1952, twelve of which were on petitions for a variance in residence districts and two for exceptions where the Protective By-Law gives permission subject to the approval of the Board of Appeals.

Of the petitions for a variance, eight were denied and four were granted.

The two petitions for exceptions were granted.

Respectfully submitted,

WILLIAM B. COFFIN, Chairman
H. RUSSELL CHANDLER
KENNETH O. MACOMBER

REPORT OF THE HARBOR MASTER

To the Honorable Board of Selectmen:

I submit my report as Harbor Master for year 1952.

This year 1952, Registered boats in basin numbered 80 14 to 83 ft. long. This was too many boats to have in so small an area. This year, 1953, we have a larger area dredged to 9 ft. at low water and hope this will make better moorings.

At town landing, Howland's Lane, we had 20 registered boats 14ft. to 35 ft.

This year's budget, 1953, I have asked for \$50.00 for Channel markers for Howland's Lane Channel. For Beach Channel, \$50.00 for markers. Two new markers Duxbury Channel due to dredging, \$100.00.

In 1952 we put in two Courtesy moorings. Ropes were courtesy of the Plymouth Cordage Co.

Respectfully submitted,

SARGENT C. BLACK,

Harbor Master

REPORT OF THE TRUSTEES OF JONATHAN AND RUTH FORD FUND

To the Citizens of Duxbury:

The following is a statement of the operations of the principal and income accounts of the Jonathan and Ruth Ford Fund for the year 1952:

Paid for relief of worthy cases in 1952		422.13
		<hr/>
On hand December 31, 1952	\$25,000.00	\$3,391.39

PHILIP W. DELANO

CHARLES R. CROCKER

FRANCIS W. PERRY

JOSEPH T. C. JONES, Treasurer.

REPORT OF THE HIGH SCHOOL BUILDING COMMITTEE

January 10, 1953

To the Honorable Board of Selectmen:

Gentlemen:

At the Annual Town Meeting in March 1950, Article 51 was voted that the Moderator appoint a committee of five to investigate and bring in preliminary plans for the remodelling and enlargement of the High School. Your committee received notice of it's appointment on May 18, 1950, and set to work at once.

After consultation with the School administration and thorough studies of the existing building, the needs for alteration and addition were determined and approved. The plan called for the erection of a two-story wing on the south end of the present building to contain a new general shop in the basement, a commercial room, typing room, a class room, and boy's and girl's toilet rooms on the first floor; a laboratory and science room, an arts and crafts room and a boys toilet on the second floor. The plan also called for the remodelling of the present building to provide three home rooms, increased seating capacity in the auditorium-gymnasium; adequate and proper shower facilities; faculty room; physical examination room; physical director's room; a supply room; heating and ventilating plant alterations; and enlargement of the sewage disposal field.

With these needs in mind we engaged the Sturgis Associated Inc., 120 Boylston Street, Boston, Mass. to make the preliminary plans.

Work progressed to the point that your committee presented preliminary plans and estimated costs to the town meeting held on March 10, 1951. By a vote of 242 to 5 the following motion was passed:

ARTICLE 43

That the sum of \$96,000.00 be raised and appropriated for the purpose of remodeling and equipping of the present High School building, and that to meet said appropriation the sum of \$70,000.00 be appropriated by transfer from available funds in the treasury, and the sum of \$2,900 be appropriated by transfer from the Post War Rehabilitation Fund and the sum of \$5,600.00 be appropriated by transfer from the Real Estate Sales Account, and the sum of \$2,500.00 be appropriated by transfer from the Fire Insurance account, and the sum of \$1,800.00 be appropriated by transfer from the unexpended balance of funds appropriated under Article 51 of the Annual Town Meeting held March 4, 1950, for obtaining preliminary plans and specifications for the remodeling and enlargement of the High School, and the sum of \$13,200 by direct taxation in 1951; that the sum of \$168,000 be raised and appropriated for the purpose of constructing an addition to the present High School building and for originally equipping and furnishing the said addition, and that to meet said appropriation the sum of \$3,000 be appropriated by transfer from available funds in the treasury, and that the Treasurer with the approval of the Selectmen, be and hereby is authorized to borrow the sum of \$165,000 and to issue bonds or notes of the Town therefore payable in accordance with the provisions of Chapter 44

of the General Laws so that the whole loan shall be paid in not more than 10 years from the date of issue of the first bond or note, and that the present School Building Committee be and is hereby authorized to expend said appropriations or so much thereof as is needed, to determine upon the final plans of said addition and remodeling, to make all contracts in the name of the Town pertaining thereto, and to do all other things necessary and proper to construct, remodel, equip and furnish said addition and remodeling of the High School for use and occupancy, the said remodeling, addition, equipping and furnishing shall all be substantially in accordance with the plans of Sturgis Associates, Inc., as presented at this meeting.

Final plans and specifications were completed and on April 26, 1951, they were advertised and submitted for bids. Bids of eleven contractors were received on May 25, 1951. The low bidder was C. A. Batson Co. of Brockton. On inquiry, we received the highest recommendation for this firm as competent and reliable builders. Our experience has shown that we were fortunate in our builder. In June 1951 we executed the final contract and order to proceed at a figure of \$236,610.

Work proceeded and was substantially completed in September of 1952 for occupancy. In October 1952 the new addition was turned over to the town at appropriate exercises.

The recapitulation as to cost is as follows:

Building cost	\$241,441.03
Architects	14,869.43
Equipment and Miscellaneous	15,094.79
	<hr/>
	\$271,405.25

We desire to express our thanks to the Sturgis Associates Inc. and to C. A. Batson Co. for their excellent work in completing this project.

Respectfully submitted,

EARLE C. GRENQUIST, Chairman

DOROTHY WENTWORTH

C. RUSSELL EDDY

REPORT OF THE SUPERINTENDENT INSECT PEST CONTROL

To the Honorable Board of Selectmen

Gentlemen:

I herewith submit my report of the Insect Pest Control department for the year ending December 31, 1952.

The Tent Caterpillar, Elm Leaf Beetle and the Fall Web-Worms were very scarce the past season. The Brown Tail Moth seems to be a thing of the past for none have been found the past two years.

The Gypsy Moth trapping program was followed again this year. We put out 43 traps during the flight season and caught 7 male gypsy moths. Scouting for egg clusters where the moths were caught was carried out but no eggs found. Since all catches occurred in traps close to the highway, it seems probable that the male moths caught must have been brought in on cars and trucks.

Respectfully submitted,

ROY E. PARKS, Superintendent,
Insect Pest Control

REPORT OF THE TREE WARDEN

To the Honorable Board of Selectmen
and the Citizens of Duxbury:

I submit herewith the report of the Tree Department for the year 1952.

The control of the Birch Leaf Miner this past year was very much better than previous years.

The Red Mites that cause so much trouble on Red Cedar trees were very few and caused very little damage the past summer. A miticide was used in the DDT spray on deciduous trees this season which probably accounts for a lot less damage to the foliage by the mites.

The fertilizing of weak trees during the winter showed very good results after they leafed out in the Spring.

During the winter the rabbits ruined nearly one hundred young Sugar Maple seedlings in the nursery. A fence put up protects our nursery this year.

During the fall we planted Longfellow Terrace with 26 trees. This made a total of 44 trees along the streets in town planted this year.

Brush was cut back at intersections and corners where there was poor visibility of the highway ahead. Low hanging branches were removed and dead trees taken down along the streets.

Respectfully submitted,

ROY E. PARKS,
Tree Warden.

REPORT OF PARKS AND PLAYGROUNDS COMMITTEE

To the Honorable Board of Selectmen.

Gentlemen:

Following is a report of the Parks and Playgrounds Committee for the year 1952.

The Spring clean-up of the playgrounds at Train Field was started the first of April. The tennis courts were next and were ready to play on about the first of May. Just after school was out it was decided to use the Softball court for Little League baseball and by removing the grass for an infield it serves for both games. Benches were added for the players and spectators.

During the spring the lot was taken over for baseball by some of the children of that neighborhood.

The improvements at Island Creek Park have been of a minor nature. This past season the only permanent addition was the drinking fountain installed over the old well at the corner of Park Street and Route 3-A. This was used a great deal during the summer and really appreciated by the children of the neighborhood.

During the latter part of the year other Town properties were added to come under the supervision of the Park Board. These were the Abbott Field; the Alden Field; the Walker Field; the Town Hall Grounds and the Tree of Knowledge Plot.

At the Abbott Field the group of trees (mostly locust) directly back of the Library have been nearly all removed. At the Walker Field all the cherry and locust trees at the north end of the field have been removed. In the Alden Field all of the Wild Cherry trees have been cut down. A chemical will be put on the stumps in the spring to prevent further growth.

Lime was spread over Train Field early in the Fall. During the Christmas holidays the grass on Train Field and the Town Hall lot was fertilized.

Our budget for Parks and Playgrounds this year represents maintenance, and if there is a chance to economize, possibly a few minor improvements.

Respectfully submitted,

ROY E. PARKS, Superintendent
Parks and Playgrounds.

REPORT OF CONTROL OF DUTCH ELM DISEASE

To the Honorable Board of Selectmen.

Gentlemen:

Following is a report of the control of Dutch Elm Disease for the year 1952.

The one most important factor in the control of Dutch Elm Disease is the spraying of all elm trees with a 12% DDT spray before the trees leaf out in the Spring. The second important factor is to get the right amount of material at the top of the tree where the carrier of the Dutch Elm Disease works.

After spraying all elm trees that we could reach from the street, we then went onto private property and sprayed all elm trees we could reach without damaging the lawns with the heavy equipment. There were a few exceptions where the property owner had already had the trees sprayed before we got to them.

This early spray does not control the Elm Leaf Beetle and it is necessary to spray the trees again with a 6% DDT solution about the first of June.

All elm trees that we could reach from the street were given this second DDT spray. We did not spray elm trees on private property a second or third time.

From observation, it is found that there is a second

brood of beetles here that carry the disease about the first of August. For that reason, our street shade tree (elms) were given a third DDT spray.

Our percentage of control on the trees that were sprayed three times was better than 99%. Figures show that the trees that were sprayed only once contained four times as many diseased trees.

We are asking for an increase in the appropriation this year in order to give all elm trees on private property the three sprays providing it can be done without injury to a person's lawn.

Every elm tree in town that we know of has been inspected at least three times during the summer for symptoms of Dutch Elm Disease.

Except for three cases, where we are waiting for lawns and gardens to freeze hard, we have taken down all diseased trees both public and private. The remaining three trees will be taken down and burned up before the first of April.

The two elms taken down along the street at the Dwinnell property on Washington Street have been replaced again by American Elms.

Eleven diseased elm trees were taken down along the street.

Respectfully submitted,

ROY E. PARKS,

Tree Warden

REPORT OF THE COMMITTEE ON THE CONTROL OF DUTCH ELM TREE DISEASE

To bring the latest and most complete information to bear locally on the problem of control of Dutch Elm Tree Disease your committee was represented at three special conferences of a semi state wide level. In August at the Waltham Experimental Station the speakers and research specialists gave little hope of progress. At the State House in December and again at Bourne in January, however, real progress was reported. Commissioner Lyon read a report on experimental work in the town of Alfred, Mass. The report emphasized the necessity of getting 12% DDT dormant spray at the top of the crown of trees before leaves emerge and again of getting a 6% DDT spray on leaves about the middle of June. The result was nearly 100% control.

In Duxbury we have approximately 1200 public trees and 600 privately owned. On the public trees we have had 3 sprays (one for late August brood of beetles,) for some five years. In 1952 we lost 11 public trees or better than 99% control — about the 5 year average on these public trees. The private trees, however, were given one spray, at public expense, and had four times as many diseased trees in proportion as the public trees.

Dr. Malcolm A. MacKenzie, Director of the Shade Tree Laboratory at the University of Massachusetts, at the Bourne Conference, stated that at last it seemed highly possible that we could control our elms if prop-

erly taken care of by our tree department. There is no reason why American elms could not be planted — if proper precautions are taken. It is a proven fact that a single diseased tree, not cared for, can spread infection for considerable distances. This infection does not know the difference between a public and privately owned tree. If we are to control this disease to the best of our present knowledge, in the opinion of your committee, it becomes wise and necessary to extend the 3-spray program to the private trees. This means increased materials and labor. The matter of an increase in the budget for this department (roughly \$1,000.00) has been presented to the Finance Board and approval granted.

In the meantime it becomes of the utmost importance for each private tree owner to have all dead wood and branches trimmed out ruthlessly and at once. Such wood should be immediately destroyed.

We wish to compliment the Tree Department on a job well done.

MALCOLM C. BROCK, Chairman
ROY E. PARKS
ROBERT S. CROCKER
KENNETH G. GARSIDE
HECTOR M. HOLMES

January, 1953

REPORT OF SHELLFISH CONSTABLE

To the Honorable Board of Selectmen :

I respectfully submit my report as Shellfish Constable for the year 1952.

During the year the natural propagation and growth of quahaugs and razorfish has been satisfactory.

In an effort to increase the amount of clams in the Town we again made some seed clam plantings, during the month of October. The seed came from contaminated areas and was purchased with the cooperation of the State Division of Marine Fisheries. Captains Flat off Standish Shore was closed to the digging and taking of shellfish and seaworms. 101 bushels of seed clams were then planted at a cost of \$505.00 for clams and a cost of \$32.55 for labor.

During the Spring and Summer two men worked part time picking and destroying horse shoe crabs and cockles. We paid \$128.10 for this work.

Twenty-one commercial permits at \$2.50 each were issued — total \$52.50. 1156 family permits, 29 of which were free to people seventy years of age or over and the remainder at .25 each were issued during the year — total \$281.75.

At this time I would like to suggest that the fee for family permits be raised from 25 cents to 50 cents where over three fourths sold are to non-residents of the town, for the Duxbury Beach area. This would be added income for the Town.

Following is the record of Shellfish taken by Commercial diggers, who worked intermittently during the year.

160	bushels of razorfish @ 4.00	\$ 640.00
123	bushels of razorfish @ 4.33	532.59
62	bushels of razorfish @ 6.00	372.00
10	bushels of razorfish @ 8.00	80.00
893	bushels of quahaugs @ 2.00	1,786.00
400	bushels of quahaugs @ 2.25	900.00
364	bushels of mussels @ 1.00	364.00
30	bushels of mussels @ 2.00	60.00
30	bushels of clams @ 12.00	360.00
25	bushels of clams @ 10.00	250.00
70	bushels of clams @ 7.00	490.00
40	bushels of clams @ 8.00	320.00
10,000	sea worms @ 2½ cents apiece	250.00
		<hr/>
		\$6,404.59

Eighteen notices were sent grant holders requesting a report of work done on grants.

There were 960 bushels of quahaugs, and 29 bushels of clams planted on grants this year. There was 600 bushels of quahaugs and 39½ bushels of clams taken from grants this year.

During the year 4 clam grants were renewed, 1 transferred and 1 issued at a charge of \$5.00 each — total \$30.00.

Eighteen annual fee forms were sent out and \$32.25 collected in annual fees from grant holders.

The corner stakes were put out for two grant holders and all shellfish regulation signs kept in repair.

Respectfully submitted,

HENRY P. McNEIL,

Shellfish Constable.

REPORT OF VETERANS' AGENT

January 9, 1953

To the Honorable Board of Selectmen:

I respectfully submit my report as Agent for the Department of Veterans' Services for the year 1952.

The office of Veterans' Services has been moved from the Town office building to upstairs in the Police Department building and the entrance is on the East side of the building. The facilities of this office are open to Veterans and their dependents Monday through Saturday by appointment.

We have advised and assisted Veterans of the Spanish American War to the present Korean War and find that each Veteran has his own individual problem, and they require help to enable them to receive the benefits they are entitled to.

I have registered 15 local men for the Draft Board No. 129 in Marshfield, Massachusetts.

In my capacity as Burial Agent three cases were handled.

During the year we have had a total of 12 cases, representing 34 persons who received Ordinary Benefits.

It was necessary to suspend two cases from receiving Ordinary Benefits.

Our appropriation was \$6,903.00. We expended \$3,458.84 leaving a balance of \$3,444.16 in the account to be returned to the Town. The State Department of Veterans' Services will reimburse the Town for half the amount expended.

Respectfully submitted,

HENRY P. McNEIL, Agent.

ASSESSORS' REPORT

The records of the Board of Assessors are public records and it is the desire of the Board and our Clerks to be helpful to those seeking information in regard to property. We have instituted an improved program of record filing; are receiving and filing photostatic copies of Duxbury deeds; and this coming year will commence to receive photostatic copies of Duxbury plans filed at the Plymouth Registry of Deeds.

We hope, in conjunction with other Departments, to improve the handling of plans in order to make the information they contain readily available, not only for our own use but for those others who need to see them.

Carefully kept records are the necessary tools for good assessing work. To be able to give out public information without inconvenience to the recipient or our office workers is an essential service for the Town. The Board will continue to keep abreast of modern assessment methods and to gather the best available information respecting property values.

Board of Assessors

REPORT OF BOARD OF HEALTH

I herewith submit my report as agent for the Board or Health.

There were fewer cases of communicable diseases in the past year than we have had for some time. There was one case of poliomyelitis. Statistics were as follows:

Measles	12
German Measles	3
Scarlet Fever	23
Poliomyelitis	1

The advent of the antibiotics has made possible many changes in the laws covering the handling and quarantine of diseases dangerous to the public health. The latest Massachusetts regulations amended to August 1952, state for instance that placards on homes are required for only three diseases; Asiatic cholera, plague, and smallpox. Of particular interest is the new regulation on Scarlet Fever wherein the patient is now to be quarantined for "One week, or two days after the beginning of adequate specific therapy which must be continued for seven additional days."

Eight dog bites were reported.

A considerable number of people from all parts of town have stopped by for Rat Bait, but withal we have not gotten the response we hoped for. The town is far from rat-free, but just supplying the bait is apparently not enough.

The School Dental Program had another successful year.

The board has made application for a chest X-ray survey to be made in Duxbury this coming April 15th and 16th.

We are grateful to the State Board of Public Health for their assistance and co-operation in the inspecting and licensing of eating establishments, chicken farms, and the like.

Respectfully submitted,

GEORGE ROSS STARR, JR., M.D.

REPORT OF ANIMAL INSPECTOR

January 9, 1953

To the Honorable Board of Selectmen:

Gentlemen:

The following is a report of the Animal Inspector for the year 1952.

Number of premises inspected	26
Number of Cattle inspected	238
Number of Sheep inspected	32
Number of Hogs inspected	26
Number of Horses inspected	14
Number of Goats inspected	16
Number of slaughtered animals — Pigs	2
Number of Dogs quarantined	4

Yours respectfully,

ERNEST W. CHANDLER,

Animal Inspector and
Inspector of Slaughtering.

**REPORT OF THE
BOARD OF PUBLIC WELFARE AND
BUREAU OF OLD AGE ASSISTANCE**

To the Honorable Board of Selectmen:

The Board of Public Welfare during the past year has endeavored to carry out its twofold obligation: first, to those who are in need of assistance, and second, to the taxpayers who pay the bill. Strict control by State and Federal regulations limit the jurisdiction of the local boards of welfare, but within these limits your Board has attempted to do what seemed best for the citizens of Duxbury.

As always, the question of money is of primary concern. It is pleasant to be able to report that although, at the special town meeting in November it was necessary to ask for a transfer of funds among the different categories within the Department, it was not necessary to request an additional appropriation. In this connection we call to your attention the fact that the appropriation requested by the Department of Public Welfare for 1953 is a single sum rather than the four separate amounts requested in previous years. A recent act of the legislature permits this change in procedure. A lump-sum appropriation would obviate the necessity of asking the town's permission to transfer money from one category to another within the department. Under the new regulation, if a single appropriation is made for the department, money can be transferred as needed from one category to another, at the

discretion of the Board of Public Welfare. Accordingly, your Board strongly urges that the 1953 appropriation for Public Welfare be made in one sum rather than in four separate appropriations.

The total appropriation requested this year is \$62,600.00 which is \$3,285.00 **less** than was appropriated for the Department in 1952. It should be emphasized, however, that this decrease does not represent a saving to the town. What appears to be a saving results from a change in reimbursement policy and bookkeeping procedures. Actually the Department of Public Welfare's budget amounts to \$121,676.42 for 1953 as compared with the budget of \$109,301.92 for 1952.

	1953	1952
OAA	\$91,101.74	\$85,323.29
ADC	10,901.35	11,978.63
DA	12,044.76	1,200.00
GR	7,628.57	10,800.00
	<hr/>	<hr/>
Total	\$121,676.42	\$109,301.92
Less Federal Grants	59,076.42	43,416.92
	<hr/>	<hr/>
	\$62,600.00	\$65,885.00

This discrepancy is explained thus: in the three categories of welfare in which there is federal, state and town participation, the town makes the payments and is later reimbursed from federal and state funds up to approximately 75% of the total cost. The Federal Grants are returned to the Department and can be used by the Department later in the year. The reimbursement from the state goes to the town and is deposited in the E. and D. account. In October 1952, the state percentage was decreased while the federal was increased by a like amount, thereby making more

money available to the Department. Consequently, although it is anticipated that expenses will be greater next year, it will be possible to carry on the work of the Department with a smaller appropriation from the town.

One other change in procedure appears to save money for the town. A new category of aid was initiated in November 1951 to render assistance to those who for reasons of physical disability, are unable to support themselves. Like Old Age Assistance and Aid to Dependent Children it is administered subject to State regulations, and with State, federal and town support. In many cases, qualified individuals who have been receiving General Relief have been transferred to Disability Assistance, thereby decreasing the cost to the town which pays the total cost of aid for recipients of General Relief and only about 25% of that for recipients of Disability Assistance. Again it should be noted that this is no real saving since the taxpayer foots the bill and whether the money is dispensed by town, state or nation, the source is the same.

A step in the opposite direction — that of decreasing the cost of assistance — is indicated by the recent enactment of the Lien Law. This law, effective January 1952, subjects real estate owned by relief recipients to a lien made payable to the town. Upon sale of the property recovery of all or part of the aid rendered by the Board, is possible. During the year 1952 the amount of \$5,522.54 was thus recovered and returned to the town treasury.

In concluding the account of the year's activities, the members of the Board wish to express their feeling of deep loss in the death of one of their members, Benjamin F. Tyler. He was competent, able and sin-

cerely interested in the work of the Board. It will be difficult to replace him.

We wish to express our appreciation to the Selectmen for their help and cooperation and also to the Finance Committee who have been of great assistance in solving our financial problems.

Respectfully submitted,

ALICE H. GARSIDE, Chairman

HERBERT R. NELSON

PAUL N. SWANSON

HOWARD M. CLARK

REPORT OF LIBRARIAN DUXBURY FREE LIBRARY, INC.

To the Trustees of the Duxbury Free Library :

On June 16, 1952, Mrs. Minnie B. Figmic began her work as librarian of the Duxbury Free Library. The following is an account of what has been taking place in the Library during the past six months and a statement of what needs to be done in the future.

In order to have our Library function as modern libraries do, it has been necessary to make many changes and many more must be made as time goes on. Since "first things" must always come first, our initial attack was centered on the re-organization of the Circulation Desk; the installation of an up-to-date charging system and a method for keeping accurate circulation and financial records, as well as a systematic procedure in connection with "over-due" books. All activities connected with the work at the Circulation Desk have now been so arranged that the public can be served efficiently and with a minimum amount of effort.

Another very important part of the desk re-organization included the beginning of a new registration file. All of the old registration cards were eliminated and everyone who came for books made out a new application. Since in the old file, the registration numbers were well up into the 6000's, with the Duxbury population around 3300, it seemed quite necessary to make a new start toward having an accurate record of our borrowers. With this new system installed it will not be necessary to go through all of this again, because at the end of four years a borrower either re-registers or his name is dropped from the file. The registration goes

on every day, and at the end on Dec. 31st, 807 had registered. Of this number 515 were re-registrations and 292 were new borrowers.

As soon as the immediate needs of the desk were taken care of, the Trustees, the Librarian and her assistants, Mrs. Winifred Couch and Mrs. Odeal Moody, turned their attention to the "first things" which needed to be done to make the Library a more attractive place to come to and a more comfortable one in which to work. With the most helpful assistance from the Trustees, some of the original beauty of the Library has been restored and a beginning has been made toward bringing it all back to where the architect left it when the building was finished. Windows were cleaned and screened and opened; after a great deal of re-arranging and discarding of worn-out and obsolete material, superfluous book-cases and partitions have been removed from the windows and stack-room. A most inviting Adult study and reading-room has been arranged in the oval room overlooking Train Field. All woodwork surrounding the windows inside has been painted, as well as the iron-grill work which ornaments the outside of the building. A cheerful red door greets all comers and a beautiful and substantial wrought-iron railing has been installed down through the center of the steps. This railing will be of great assistance to many people who formerly found it difficult to climb the steps and also removes the dangers which come with icy weather.

While all of the foregoing problems were being considered and to some extent, solved, the everyday routine of running the Library had to be carried on. Every effort has been made toward filling all requests, either from our own collection, by buying or borrowing. In a town like Duxbury, where there are so many citizens

with special interests and professions, there is no end to the variety of material which is called for. With no adequate catalogue to work from it is very difficult to find the material which people need. A tremendous amount of searching through our very fine collection of books is often necessary before the required material is found. Our out-of-date and poor reference collection has made it very hard to answer many questions of importance and in that section of the Library many new books are needed. A few of the less expensive reference books have been added, but only a small beginning has been made toward correcting this condition which exists in one of the most important departments of the Library.

Much work also needs to be done to develop our Junior Library and Young Adults department. While our adult collection is undoubtedly an outstanding one, the children's and young people's books are few and mediocre on the whole. The books in the Children's Room indicate that there has been no systematic development of a Children's library. Since the children of today become our citizens of tomorrow, it would seem that one of the most important services which can be rendered by the Library is the development of the best possible library for the young people; to encourage them to become good readers and to love books; to become so used to the Library that books and reading come to be an integral part of their lives.

Behind all of these plans and efforts toward increasing the use of the Library and establishing its importance in the community lies the knowledge that the biggest job of all and one of the most vital, is the systematic discarding of the old and worn-out books and the cataloguing of what remains. A beginning has been made in this direction, but it is very difficult to make progress with this part of the work, because of the in-

creased use of the Library and the demands made upon it from all sources. The response from the public to all of the Library's efforts to serve them indicates how much the Library is needed by the citizens of Duxbury and how much they appreciate what it has to offer. It is a constant source of worry to the librarian that this problem of the re-cataloguing of the Library should co-exist with the developing of the services which the Library is capable of rendering. Given time and strength and help it is hoped that this part of the work can be accomplished too.

Upon the librarian's arrival in June it was brought to her attention that there was an urgent demand for the current periodicals, none of which had ever been received regularly by the Library. Since no modern library is without the best of the periodicals, a selected list was subscribed to and their arrival in the Library has been met with enthusiastic response. All but current numbers of the periodicals may be borrowed with one's books.

It gives the librarian much satisfaction to be able to report a substantial gain in the Library's circulation for 1952. The only circulation records available are total records for the year 1951 and the first 6 months of 1952, so it is not possible to make any comparisons in regard to how many books of each classification were borrowed. Since July 1, 1952 an accurate account has been kept of the daily circulation according to how the books are classified in the non-fiction group, with fiction in a class by itself. As far as can be ascertained, the total circulation for 1951 was 20,107. The total circulation for 1952 was 22,252. It is most encouraging and important to notice that the greater part of this 1952 gain came in the last three months of 1952 and can be attributed to the increased use of the Library by the permanent residents of Duxbury and not to the use

of the Library by the summer population. These figures prove that the Library is becoming daily a busier and more vital part of the Duxbury community life. Evidently June, July and August are no longer the three busiest months of the year.

One thing more must be mentioned. The use of and appreciation of the Library is widening and growing. The population of Duxbury is increasing steadily. More and more books will be needed to supply the demands which will be made upon the Library. Book prices are almost three times as high as they were even four years ago. It is earnestly hoped that there can be a larger book budget for the Library, so that as time goes on, each department can have its share of what is needed, thereby keeping abreast of the times and placing the Duxbury Free Library in a position where no one can do without it!

The librarian wishes to extend her sincere thanks to all of the Trustees and to Mrs. Couch and Mrs. Moody for all of the help which they have given her during the past six months.

The statistical report follows:

Circulation for 1952

Month	Junior non-fict.	Junior fict.	Junior total	Adult non-fict.	Adult fict.	Adult total	Total

REPORT OF THE FINANCE COMMITTEE

Your Finance Committee held its organization meeting on May 6, 1952. Newton E. Hyslop was elected Chairman. Edward L. Butler, Vice Chairman, and Robert Seymour, Secretary.

Sub-Committees were appointed by the Chairman for each town department. These sub-committees consulted with the heads of their respective departments at various times during the year to understand better the needs of the department and to offer any help within the jurisdiction of the Finance Committee. The information thus obtained was of great value to the whole Finance Committee when considering department budgets, for each sub-committee was able to make specific recommendations and suggestions based on first-hand knowledge of the department under consideration.

The following changes were made in the Committee during the year: on May 15 Levi Cushing resigned, and B. F. Goodrich, Jr. was appointed to his place; on June 6 Domonic LeGrecca resigned because of appointment to the School Committee, and David H. Marshall replaced him; on November 10 Ralph Swartz resigned because of his transfer to Lawrence, and he was replaced by Albert Vinal, Jr.

The Finance Committee held regular monthly meetings for general discussion of policy and to consider any suggestions made by various members of the committee.

Prior to the two special Town Meetings of June 27 and October 24, several extra sessions were held to study the articles to be voted on at the Meetings for the purpose of making recommendations which we felt would be for the best interests of the town as a whole. In every case the recommendations were upheld by the voters.

Beginning with receipt of the department budgets on December 21, Committee meetings increased in number so that all budgets and special articles to be voted on at the annual Town Meeting in March would have thorough consideration.

The Duxbury Finance Committee was exceptionally well represented this year at the regular meetings of the State Association of Town Finance Committees. These meetings are very helpful because Henry F. Long, Commissioner of Corporations and Taxation, and Francis X. Lang, Director of the Division of Accounts, are always present to discuss the functions of Town Finance Committees, interpret Court rulings affecting Towns, and give information about bills pending in the State Legislature in which the Town should be interested.

During the year the Finance Committee authorized transfers from the Reserve Fund as follows:

Sept. 25th To the Selectmen's Office	\$55.25
Sept. 25th To the Welfare Dept. Disability Assistance	200.00
Sept. 25th To the Tidegate Account	50.00
Oct. 23rd To the School Dept. Out-of-State travel Acct.	15.00
Oct. 23rd To the Selectmen's Dept.	350.48

Oct. 23rd	For control of Dutch Elm disease	600.00
Nov. 20th	For Builders' risk Ins.—addition to High School	28.70
Nov. 20th	To the Town Landing Dept.—hauling moorings	105.00
Dec. 4th	To the School Dept.—Out of State Travel Acct.	15.41
Dec. 18th	To the Treasurer's Dept.	37.90
Dec. 18th	To the Law Dept.	930.90
Dec. 18th	To the Unclassified account	25.00
Dec. 18th	For Group Accident Insurance	8.64
Dec. 30th	To High School Completion Account	861.45
Dec. 30th	To Fire Insurance Schedule Account	60.86
		<hr/> \$3,344.59

The Reserve Fund is voted each year to take care of any unforeseen expenses which may occur in any department after the budgets are voted at the annual Town Meeting and can only be used at the discretion of the Finance Committee. This fund can be of value in getting truer budgets from the Town Departments. Instead of allowing extra funds in their budgets for some emergency which may or may not arise, the department heads should figure their budgets for what they feel they will actually need, knowing that the Finance Committee is always willing to assist them in any emergency.

In our capacity as an Advisory Committee, we have made some suggestions to the Selectmen for their con-

sideration. One of these suggestions was put into effect during the summer and is already showing the Town considerable savings.

The Committee wishes to thank all Town Departments for their splendid co-operation. We particularly thank the Selectmen for the unlimited time they have been willing to give the Committee for consultations and discussion of Town business and problems. We also wish to thank the voters of the Town for the increased confidence they have shown in their Finance Committee. Only by having the full co-operation of all Town departments and the confidence of the Town's people can the Finance Committee function efficiently.

REPORT OF THE PLANNING BOARD

To the Honorable Board of Selectmen
and Citizens of Duxbury:

We again open our annual report with the reminder that Duxbury continues to grow.

SUBDIVISIONS

During the past year the Planning Board has been requested to consider thirteen subdivision projects. Many of these are small, a few have been dropped, but the rate of growth continues at an active rate as indicated by the following tabulation of the number of building permits issued by the Selectmen for new construction:

1946	1947	1948	1949	1950	1951	1952
32	51	36	64	85	75	66

According to information collected by the State Planning Board the rate of construction of new houses in Duxbury is somewhat larger, perhaps 10%, than the rate generally among towns in the 2500-5000 population group in Massachusetts. This growth which is being experienced in particular by small towns has caused increased interest in town planning and subdivision control. The state legislature has voted that all subdivisions must be approved as to health aspects by the local Board of Health before a Planning Board can give final approval. The legislature has also appointed a commission to study the planning and zon-

ing laws of the commonwealth. Recognizing that in some instances the subdivision of a parcel of land into two or three lots is only technically a subdivision, and in some instances the cause of some inconvenience to the local land holder concerned, the Planning Board earnestly assures the citizens that it desires to treat all applications with the utmost leniency consistent with the common good.

TOWN PLANNING

Our efforts in this field were somewhat retarded earlier in the year by the inability of our consultant to continue the work he had barely started. With the aid of Harvard University School of City Planning we have engaged another consultant on a per diem basis. Considerable progress has been made in the preparation of a base map of Duxbury showing roads, buildings, waterways, contours and vegetation. Such a map will aid in studies of growth of the town, land use, areas of potential development, and a general plan to show coordination of probable future development and provision for the public areas needed to serve this future growth. Included would be such items as retail trade expansion and additional space for recreation. Some attention has already been given to retail trade centers. The progress made in these and other areas will be shown in an exhibit at the annual town meeting in this coming March.

ZONING

After a hearing in the Tarkiln Recreation Center about a year ago at which the residents along Route 3 stated their preference for the present residential zoning of the area, the Planning Board proposed to the annual town meeting in March 1952 that there be no

change in the zoning of Route 3. The Planning Board also sponsored an article in last year's warrant resulting in a change in the town by-laws re-defining the minimum size of a lot in a residential area in its present enlarged size of 30,000 square feet with a minimum frontage of 150 feet.

BUDGET

The Planning Board requests for its use in 1953:

Engineering advice	\$1,000.00
Secretarial and supplies	300.00
	<hr/>
Total	\$1,300.00

This represents no change in the amount for engineering advice but does include an increase of \$100.00 in the amount requested for secretarial services and supplies.

WATER EXTENSIONS

The Board of Selectmen have asked the Planning Board (in the absence of any standing committee specifically assigned such a problem) to consider the problem of equitably distributing the cost of installing future water main extensions. There follows here the report of the sub-committee of the Planning Board on this subject:

It is the opinion of the Planning Board that extensions of water mains along the streets of the Town should be financed in whole or in major part by payments from the new proposed water takers.

Extensions within the territorial limits of the Duxbury Fire and Water District, made necessary by new

Real Estate Developments are covered by the "Rules, Regulations and Requirements of the Planning Board" and will not be treated here.

Other extensions of mains will ordinarily constitute an extension of the limits of the Fire and Water District and should be so treated. Such extensions in the past have involved, and should in the future continue to involve, substantial payments to the Fire and Water District by the new Water Takers to help pay for the "Capital Investment" necessary to extend the mains to reach them. Voters residing within the District have in the past been what your Planning Board considers exceedingly generous in assessing themselves as existing water takers up to three-quarters of the cost of adding new areas to the District.

In some cases, because the new water takers are close to neighboring Towns and remote from the Duxbury water mains, extensions of pipe or water mains should logically come as additions to the systems of our neighboring towns. In such cases, where the new takers propose to receive their water from another Town, it is the opinion of this Board that, unless the extension of the water mains is handled as an addition to the Duxbury Fire and Water District, the new takers should pay the entire cost of installing the mains. It seems inequitable to your Board to permit tax-payers whose locations are so remote that they may never receive water from Duxbury, or any other town, to be assessed to pay for extensions of pipe to benefit a small or relatively small group of new water takers.

ACKNOWLEDGEMENT

The Planning Board wishes to acknowledge the co-operation and aid of the Board of Selectmen in the en-

forcement of zoning and planning regulations. Both the Highway Superintendent and the Superintendent and Commissioners of the Water District have been always co-operative where a consideration of highway or water facilities was involved in subdivision control. Mrs. Dorothy Wentworth, Town Historian, has generously offered to aid in the selection of street names that will be in harmony with Duxbury's history and background and not cause confusion with the names of existing streets. We hope that the developers of subdivisions will also take advantage of her help in advance of filing application with the Planning Board.

We hope that the citizens will call to our attention areas in which the Planning Board can be of service in preserving that which we consider valuable in Duxbury and in directing its growth and change in a satisfactory manner.

REPORT OF RECREATION COMMITTEE

To the Honorable Board of Selectmen:

Purpose:

- I. To provide a place for adult community recreation.
- II. To provide a program of recreation for young people.

There has been a large amount of activity during the past year in the old Town Hall including Church Fairs, Art Exhibits, Garden Club Displays, whist drives, etc. Shows of various kinds have also taken place.

Groups using the Hall include:

- Boy Scouts of America
- Cub Scouts
- Ballroom, tap and ballet dancing classes
- Adult dancing classes
- Bon Homme Club (ages 12-15)
- Myles Standish Club (ages 15-18)
- St. John's Sunday School
- Congregational Sunday School
- Other Church groups
- Duxbury Garden Club
- Duxbury Yacht Club
- etc.

Young people's recreation is provided mainly by two clubs sponsored by the Recreation Committee, with professional directors; namely, the Myles Standish Club, which has been reactivated this year, and shows great promise, gatherings averaging around 45 teenagers at the weekly meetings, directed by Mr. John McGarigle. The Bon Homme Club, directed by Mr. Robert Vaughan, has also had a very successful year with attendance so high it has occasionally been necessary to have an assistant to help the regular Director in his good work.

It would appear attendance at the meetings of both clubs is increasing and there is no doubt in our minds that the benefit of these clubs to the community is invaluable.

The 1952 appropriation of \$1500 was expended as budgeted:

Directors' salaries	\$554.00
Utilities	554.71
Maintenance	21.15

It appears, however, an extra director will sometimes be necessary to organize and carry out the young people's programs in the coming year. We therefore propose a slightly larger budget with the hope it will be accepted at the Town Meeting in March.

Respectfully submitted,

JOHN HUTCHEON, Chairman

REPORT OF THE DUXBURY BEACH COMMITTEE

At the Duxbury Town Meeting held March 8, 1952, the following article was passed:—

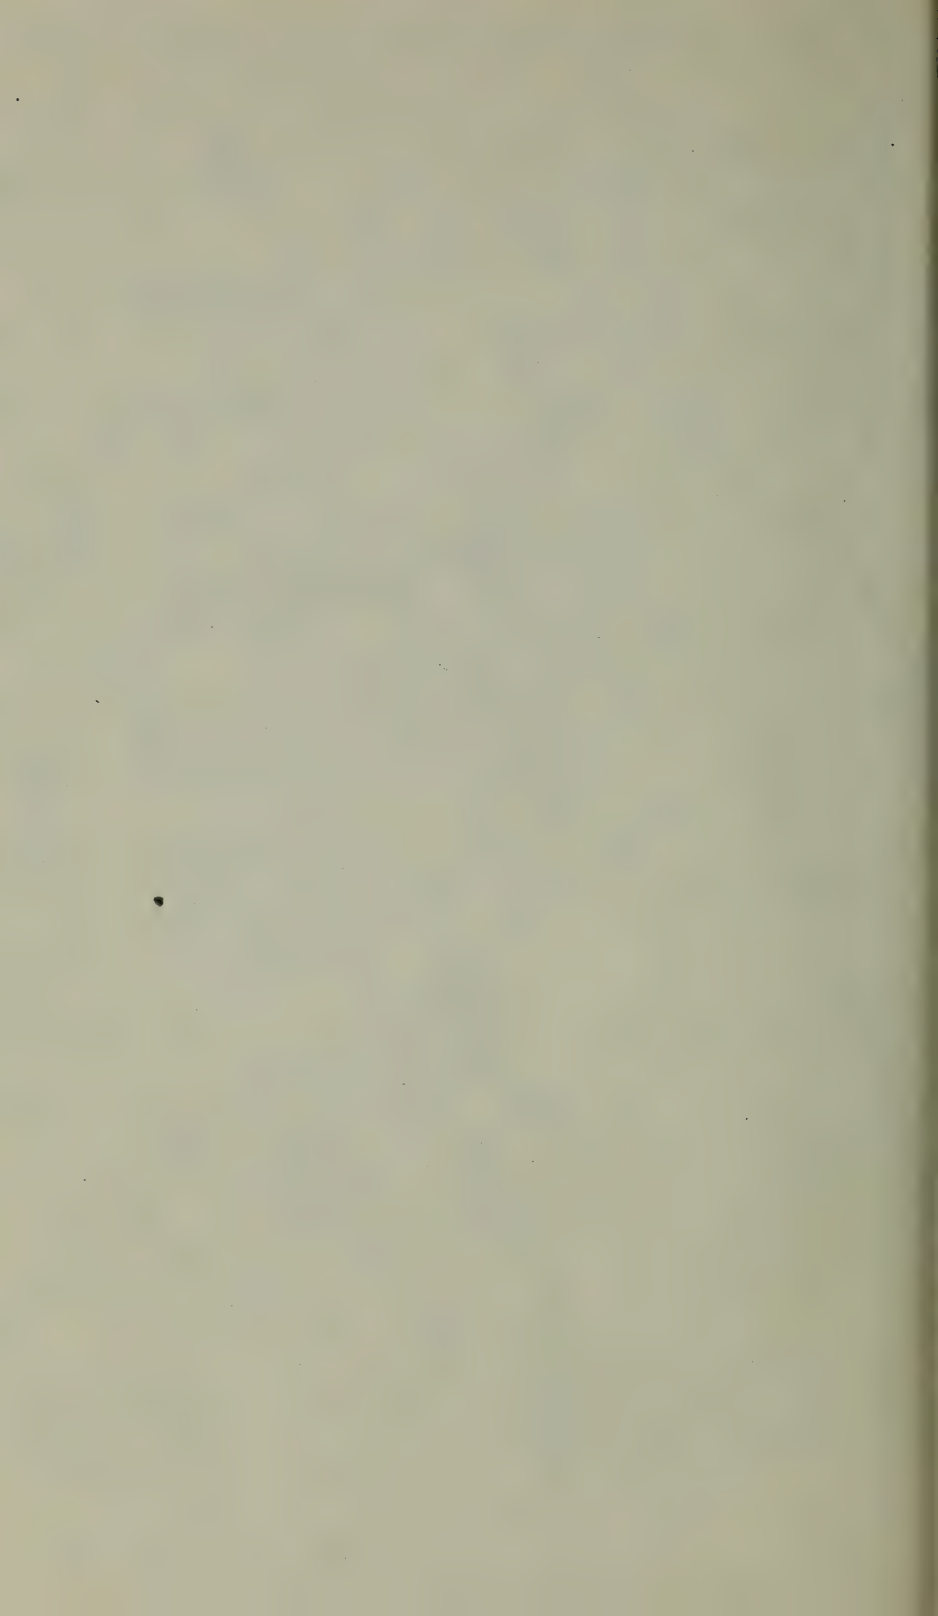

Under Article 31, it was voted that the Moderator appoint a committee of five to study Duxbury Beach and to bring in specific recommendations for the best interests of Duxbury:

- (A) To study the beach as a barrier to the open sea and means to protect the same and to engage services of competent engineers to survey the situation and to report.
- (B) To study suitable approaches at the north end of the beach, obtain estimates of recommended improvements and additions to such approaches, and to raise and appropriate \$500.00 to defray the cost of engineering surveys of (A) and (B).

As a result, the Moderator appointed the undersigned Beach Committee, and we herewith submit our report:—

As to the problem of the erosion of the beach and the maintenance of the beach as a protection to Duxbury Bay, we find that the Commonwealth of Massachusetts has appropriated funds for a cooperative study with the Federal Government of the erosion problems of all the beaches between Hull and Gurnet Point. This study is being held in abeyance by the U. S. Army

Engineers because of the existing emergency conditions due to the Korean situation. However, it is expected that at some future date, this study will be undertaken and therefore your Committee recommends that this matter be laid on the table, as far as Duxbury is concerned, as otherwise there would be a costly duplication of work by the Town of Duxbury.

Regarding the question of approaches to the northern end of Duxbury Beach, your Committee engaged the services of Whitman & Howard, Engineers, 89 Broad Street, Boston, who were selected after finding that they were specially well qualified to study the problem before us. The engineers submitted the following report:

October 28, 1952

Duxbury Beach Committee
Duxbury
Massachusetts

Gentlemen:

We were authorized by the Duxbury Beach Committee to study suitable approaches to the north end of Duxbury Beach and prepare estimates of recommended improvements and additions to such approaches. We have held two meetings with your Committee and have made reconnaissance surveys and have made investigations by means of rod sounding, of the depth to hard bottom for road building.

There are two general methods of approach to the north end of Duxbury Beach from the west and from the north: one across the marsh from Cox's Corner, Duxbury via Duck Hill Road or other points easterly

along the Marshfield shore line of the marsh; the other by means of an improved road from the north along the present road from Marshfield or an alternate route following the present road and the edge of the hard land along the ocean beach.

The first alternative above was studied following a route from Duck Hill Road, which would give good access both from the north and from Duxbury Center, thence across the marsh via Little and Great Wood Islands to North Duxbury Beach, a distance of some $2\frac{1}{4}$ miles from the junction of Routes 139 and 3A (Cox's Corner). About one-half mile of this route is over the present Duck Hill Road, which is narrow, and by a sand road to the edge of the marsh. The remainder, approximately one and three quarter miles, is across the marsh and tidal rivers via the two Wood Islands. An investigation of this route indicates that an average of at least 15 feet of peat must be removed and refilled with solid material across the marsh — only a small saving is realized by using the islands as they contain little solid material. Estimates of cost were made which included widening Duck Hill Road from Cox's Corner, grading and paving the sand road to the edge of the marsh and making road excavation and refilling across the marsh. The cost developed, based on hydraulic filling, was close to \$1,000,000. We believe this is excessive and uneconomic; we do not believe this is in the interest of the Town of Duxbury, and do not recommend that this route be considered by the town.

The second route noted above was studied following a line parallel to the present road from near the Marshfield Town line to the Beach area and some two hundred and fifty feet west along the edge of the marsh. The distance here is about four thousand feet

of which two thousand feet is along the edge of the marsh and the remainder follows the existing roads. Somewhat better foundation conditions were found here due to the fact that the marsh land portion of this proposed road parallels the edge of the hard land along the ocean beach. Examination of the plan appended to this report will show that the proposed new road location starts just south of the Marshfield Town line passing to the westward of the houses for the first two thousand feet and joining the present road again where it may be readily widened without appreciable property damage. Widening of the present road throughout its entire length would not be practical due to excessive property damage and a winding layout. Estimates were prepared for the construction of this proposal which include approximately two thousand feet of road excavation and refill along the edge of the marsh, two thousand feet of widening of existing way and paving with high type pavement the entire four thousand feet from the Marshfield line to the Beach reservation. The cost developed was \$225,000. We recommend this as the most appropriate and economic method of providing adequate approach to the northerly part of Duxbury Beach.

We have discussed with the State Planning Board their thoughts on the improvement of Duxbury Beach with specific reference to the approaches. They would, as of the present time, recommend a road from Careswell Street, Marshfield at Webster street (Gov. Winslow House) southeasterly, approximately parallel to Careswell and Canal Streets at the edge of the marsh to the Duxbury Town line. The appended map will show that such a route would join the road proposed in this report shortly after crossing the Duxbury line. We believe that the route here proposed is consistent with the State's thinking and is as much as the Town of

Duxbury as a municipality can do toward forwarding this plan.

In our opinion if state and county aid are made available our recommended route is a practical solution to the problem of an accessible public beach at Duxbury.

Yours very truly,

WHITMAN & HOWARD, Engineers
By John B. Moseley (Signed)

CONCLUSION:

Your Committee recommends that the second proposal of the Engineers, namely, a new road from the Marshfield line roughly paralleling the present road to the auto park be adopted, provided the building of this road qualifies under Chapter 90 of the General Laws of the Commonwealth of Massachusetts, under which one-half of the cost would be assumed by the Commonwealth, one-quarter by the County, and one-quarter by the Town of Duxbury.

The engineers estimate that the total cost of such a road would be \$225,000, which would result in a cost to the Town of \$56,250. At first blush, this sum of money may appear to be more than the Town could afford, but if this were paid for over a 10-year period by means of a bond issue, it seems to your Committee it would be a very sound investment and for the best interest of the Town of Duxbury for the following reasons:—

1. An improved access to the northerly end of the beach would put an end to the complaints that Duxbury Beach is inaccessible to the citizens of Massachusetts, particularly those living south of Boston in such communities as Brockton, Middleboro, Taunton, etc.

2. The new road would divert a substantial amount of traffic from the residential areas of Duxbury and help to maintain the present atmosphere of the Town.

3. The new road would be an additional safeguard against property devaluation in residential areas which now are a substantial source of income to the Town.

4. The new road would increase property values on the present road leading from Marshfield to the northerly end of the beach.

5. The new road would decrease the fire hazard in the general area of the present winding road in making this property more accessible to the Fire Department by eliminating the present traffic jams which occur whenever the northerly end of the beach is used to the capacity of the parking area.

6. The new road will probably increase the use of the beach and assist the Beach Associates in continuing their policy of making improvements to their facilities for the use of the general public.

7. The new road would reduce the probability of State seizure of the beach, as the chief argument for seizure is the inaccessibility of the beach.

It should be noted that the State Planning Board has filed a bill in the Massachusetts Legislature to provide for the development of Salisbury and other ocean beach areas. The purpose of this bill appears to be a good one, as Section 2 reads:

"It is hereby declared to be the policy of the Commonwealth that all such sites acquired and/or developed by the Department shall, insofar as practicable, be preserved in their natural state and

that they shall be collectively self-supporting and that no commercial activities except those essential to quiet enjoyment of the facilities by the people shall be permitted."

In spite of this statement of policy, your Committee feels that the Town should proceed with the building of the new road, first, because statements of policy can be changed by future legislation, and second, because it is more in keeping with the tradition of Duxbury to solve its own problems without State intervention.

Your Committee recognizes that the new road cannot become reality before the year 1954 and that meanwhile there will be continued complaints from out-of-town visitors who drive to the beach over the Powder Point Bridge, only to find that there are no parking facilities and that they must take a circuitous route back through the town to the northerly end of the beach. We would suggest that the police officers on duty at the beach end of the bridge be provided with some maps of the road from the beach back through the town to Route 139 and thence to the parking area. The Committee further recommends that suitable signs be erected at strategic points directing traffic to the Duxbury Beach parking area. We believe that the goodwill thus created would be out of all proportion to the small cost of providing such services.

Respectfully submitted,

GEORGE H. BAHM, Chairman

DAVID H. MARSHALL

REPORT OF TARKILN YOUTH CENTER

January 10, 1953

The program for the past year has been very satisfactory.

Several parties were held for the small fry on the major holidays of the year furnishing them with entertainment, refreshments and gifts.

We have started construction of our new kitchen and hope to have it completed by early spring.

Our Teen-age enrollment is now at 115 members. This membership has necessitated the hiring of a professional instructor. We have been very fortunate in acquiring the services of Mr. McGarigal, a faculty member of the Duxbury High School.

Our weekly teen-age parties are very successful. Ballroom dancing and square dancing are being taught. Our other activities such as roller-skating, ping-pong, checkers and television make up a very well rounded program.

We are very grateful to all citizens of the town for their generosity and cooperation.

Respectfully submitted,

D. E. LaGRECA, Chairman

EMILY LORING, Secretary

MRS. JOSEPH DeLORENZO, Pres.

REPORT OF THE HOWLAND'S LANDING COMMITTEE

To the Honorable Board of Selectmen

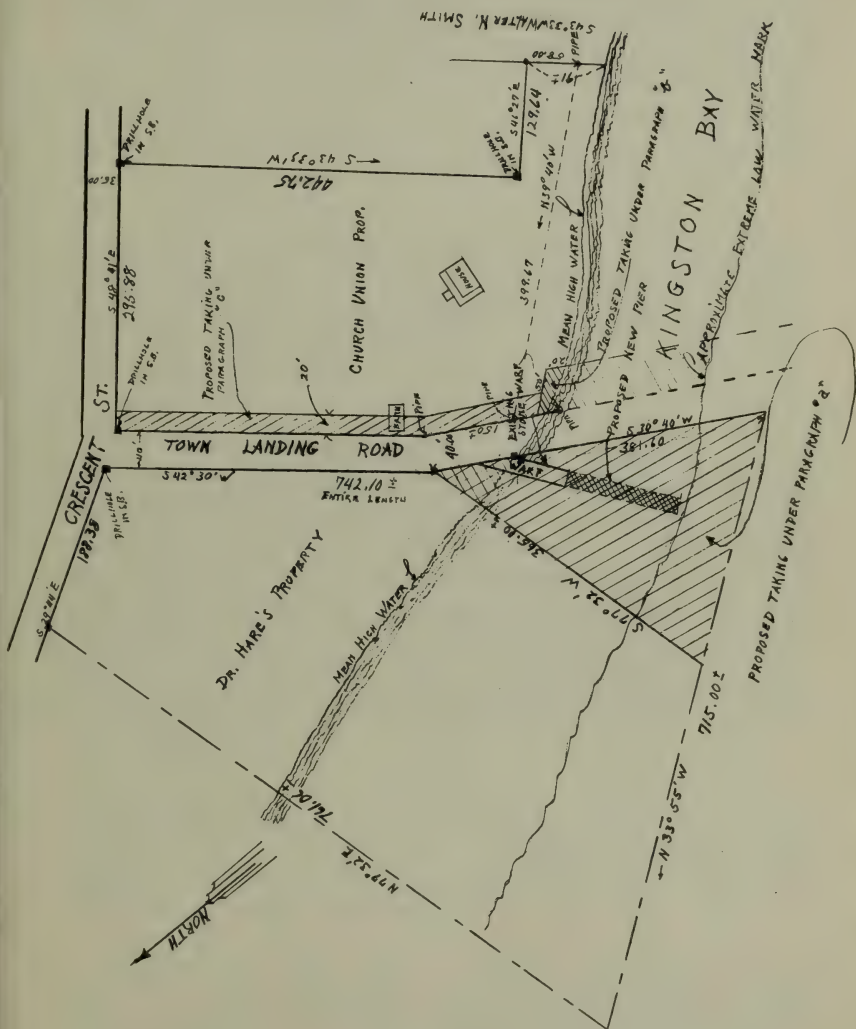

and the Citizens of Duxbury:

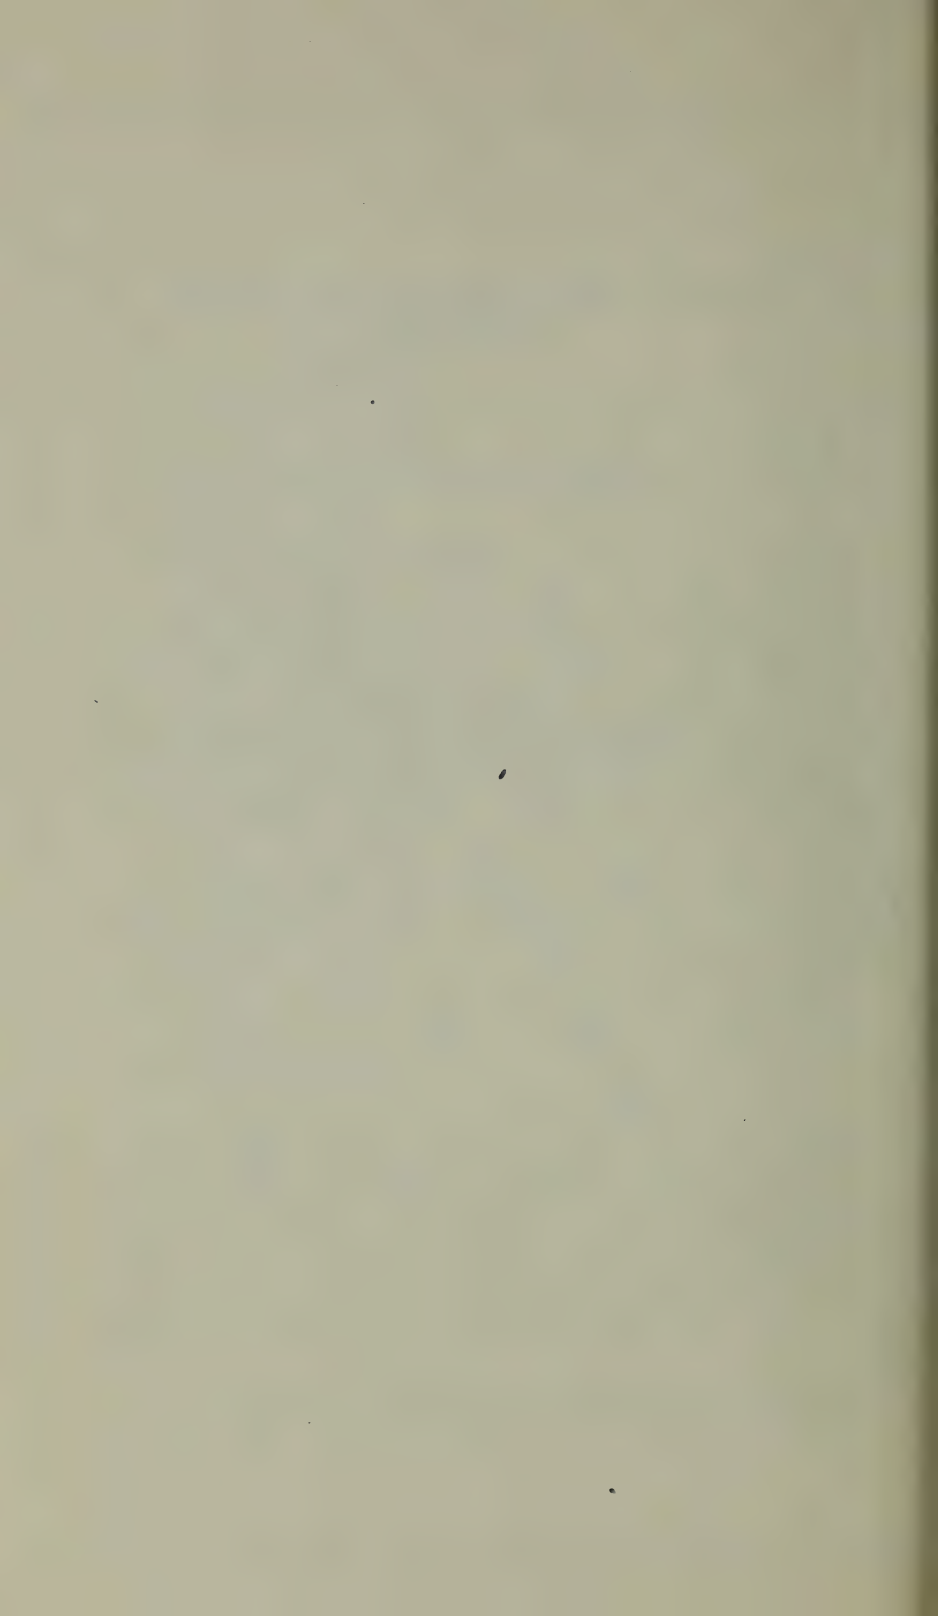

In accordance with the vote taken at the Special Town Meeting of June 27, 1952, authorizing the Selectmen to appoint a Committee to study the matter of the construction of a pier or float at Howland's Landing, we the undersigned, after a careful study, deliberation, and consultation with all interested persons and town officials, do respectfully submit the following recommendations.

I. After considering and investigating the many town landings and approaches to the water now owned or available to the town, the Committee feels that Howland's Landing is the most logical site for the construction of a pier, which in effect would create a secondary mooring area. Our decision is based on these three main considerations.

First, the channel in which the boats would be moored is a natural one requiring no dredging, and offering an average minimum of ten feet of water at low tide. In addition it is a dead end channel, so that boats moored there would not hinder a means of through navigation. It would also lend itself to enlargement by dredging if in future years that was considered desirable.

II. We also recommend, as do the Selectmen, that the pier should be constructed of a similar design to the town

pier now in use at the Mattakeesett Court, which is known to many as the Yacht Club Basin. In this connection, we have made pressure hole soundings to determine that the bottom is adequate to support the pilings of such a pier. We also feel that savings could be effected through the use of salvaged timbers from the Powder Point Bridge and the use of second-hand telephone poles for pilings, as were recently used in the construction of the Duxbury Marine Railway pier.

On a basis of preliminary estimates received, we believe such a pier would cost about three dollars (\$3.00) per square foot, or, on the basis of an eight foot recommended width, approximately twenty-four (\$24.00) per running foot.

The Committee feels that the most logical way to construct such a pier, from a point of view of initial cost and long-term maintenance, would be over the shorter distance from high water mark to the channel at low water mark. Based on our actual measurements of an 11.7 foot tide at low run-off, the pier, including it's approaches, ramp, and floats, would have to cover a distance of approximately 183 feet. We therefore recommend an appropriation of \$4,500.00 to cover the cost of this construction.

It should be pointed out, however, that at this point these measurements and cost are based on certain land takings or purchase by the town as described under the following heading numbered III.

In the event this plan was not followed, we would then recommend that the pier be constructed on the right of way the Town now owns, which would involve covering a distance of approximately 261 feet at extreme low run-off or an appropriation of \$6,300.00.

III. In the best interests of the Town, from a long range point of view, your Committee feels that the Selectmen should be authorized to either accept, purchase for a nominal price, or take by right of Emminent Domain, the following parcels of land:

- (a) A certain parcel of land situated in Duxbury, Plymouth County, Massachusetts, bounded and described as follows:

Beginning at a cement bound in the Northwesterly line of Town Landing Road, as shown on the plan hereinafter mentioned, said cement bound being located S $42^{\circ} 30' W$, 360.50 feet from a cement bound in the Southwesterly line of Crescent Street which marks the Easterly corner of land of Hugh F. Hare et ux; thence running S $77^{\circ} 32' W$, by land of said Hugh F. Hare et ux, 365 feet, more or less, to a point; thence turning and running S $33^{\circ} 55' E$, 296 feet, more or less, by Kingston Bay to the Northwesterly line of Town Landing Road protracted Southwesterly into Kingston Bay; and thence turning and running N $30^{\circ} 40' E$, by said Northwesterly line of Town Landing Road protracted Southwesterly into Kingston Bay and by the Northwesterly line of Town Landing Road, 381.60 feet to the cement bound at the point of beginning.

Being a portion of the premises shown on Land Court Plan No. 10966A, drawn by W. Nelson Booney, surveyor, dated July 14, 1925, as modified and approved by the Court, filed in the Land Registration Office, a copy of a portion of which is filed with Certificate of Title No. 2260.

- (b) A certain parcel of land situated in Duxbury, Plymouth County, Massachusetts, being bounded and described as follows:

Beginning at a point in the Southwesterly line of Town Landing Road, as shown on the plan hereinafter men-

tioned, which point is located 20.00 feet Northeasterly from High Water Mark, as shown on said plan;

Thence running Southeasterly by a line parallel to and distant 20.00 feet Northeasterly from High Water Mark, as shown on said plan, 50 feet to a point;

Thence turning and running S 30° 40' W to Low Water Mark, as shown on said plan;

Thence turning and running a generally Northwesterly direction by said Low Water Mark, as shown on said plan, to the Southeasterly line of Town Landing Road protracted Southwesterly into Kingston Bay;

Thence turning and running N 30° 40' E by said Southeasterly line of Town Landing Road protracted Southwesterly into Kingston Bay and by the Southeasterly line of Town Landing Road to the point of beginning.

Being a portion of the premises shown on Land Court Plan No. 15679A, drawn by Delano & Keith, surveyors, dated July 31, 1934, as modified and approved by the Court, filed in the Land Registration Office, a copy of a portion of which is filed with Certificate of Title No. 5371.

(c) A certain parcel of land situated in Duxbury, Plymouth County, Massachusetts, being bounded and described as follows:

Northeasterly by the Southwesterly line of Crescent Street, 20.00 feet;

Northwesterly by the Southeasterly line of Town Landing Road, 475.67 feet;

Southwesterly 20.00 feet, and

Southwesterly 476 feet, more or less, by land of Massachusetts New Church Union.

Being a strip of land 20.00 feet in width adjoining the

Southeasterly line of Town Landing Road between Crescent Street and a line 20.00 feet Northeasterly from and parallel to High Water Mark, and being a portion of the premises shown on Land Court Plan No. 15679A, drawn by Delano & Keith, surveyors, dated July 31, 1934, as modified and approved by the Court, filed in the Land Registration Office, a copy of a portion of which is filed with Certificate of Title No. 5371.

By the Town acquiring the parcels of land listed under (a) and (b) above, there would then be available adequate room along and above the High Water Mark adjoining the pier to provide ample space for docking of boats, landing of tenders, and available space for enlarging the basin at a future date. Item (c) would provide the additional width needed along the road to improve the parking facilities.

On a basis of estimates received, we recommend an appropriation of \$500.00 be made to remove trees and stumps, and to provide gravel topping so as to make available the full use of the forty foot road the Town now owns. However, if the additional 20 feet taking was made under the above sub-paragraph (c), we recommend the sum of \$900.00 be appropriated for this purpose and also include moving back a small existing barn which is on the boundary line.

In general, this committee feels that the adoption of the above recommendations are urgently needed in view of the crowded conditions which now prevail at the Yacht Club Basin, and that in addition, such a project in the years to come, would prove to be worth many times the initial cost to the citizens of Duxbury.

Respectfully submitted,

HENRY McNEIL
DAVID H. MARSHALL
CLEMENT BRIGGS

REPORT OF TOWN CLERK
MARRIAGES RECORDED IN DUXBURY IN 1952

- January 1. In Duxbury, Roderic N. MacDonald, Jr., of Duxbury, and Barbara M. Dearborn of Plymouth, by the Rev. William S. Anthony.
- January 10. In Duxbury, Howard L. Randall of Duxbury, and Elsie (Clark) Randall of Duxbury, by Rev. Lawrence I. Moore.
- January 26. In Duxbury, Roger VanCott Nelson of Easton, and Beatrice Alden of Center Barnstead, N. H., by Rev. John W. Estes, Jr.
- February 2. In Duxbury, Phillip Hood Connolly of Washington, D. C. and Sibyl Ann Ringquist of Duxbury, by Rev. William P. Conley.
- February 5. Marvin A. Grogan and Emma E. (Brown) Harding, both of Duxbury, by George W. Cushman, J. of P.
- February 21. In Duxbury, Robert L. Huff and Marjorie E. Peterson, both of Duxbury, by Rev. Lawrence I. Moore.
- March 29. In Kingston, Virginio P. Tavares of Duxbury, and Sophrona E. (Hathaway) Silvia of Kingston, by Rev. Norval E. Kern.
- March 29. In Boston, Duncan I. Scott of So. Dartmouth, and Anne Kelley of Duxbury, by Rev. Robert G. Metters.

- April 15. In Duxbury, Benjamin Hadley Prouty of Kingston, and Anita Bell Courier of Duxbury, by Rev. William S. Anthony.
- May 2. In Nashua, N. H., Antonio Lopes of Duxbury, and Ruth Ellen Johnson of Pembroke, by Edward S. LeBlanc, J. of P.
- May 18. In Lynn, Robert W. Peterson of Duxbury, and Caryl A. Wilford of Revere, by Rev. Percy M. Hickcox.
- May 24. In Duxbury, Richard Heath Marshall and Joan Candace Leatherbee, both of Duxbury, by Rev. John W. Estes, Jr.
- June 14. In Duxbury, Earnest M. Brubb of Denton, N. C. and Mary Frances Cohen of Duxbury, by Rev. Herman F. Lion.
- June 15. In Orange, Philip Ross of Duxbury, and Jane McElroy of Orange, by Rev. Osmond J. Billings.
- June 14. In Duxbury, John T. Weaver of Bronx, N. Y. and Ruth Mallowney of Boston, by Rev. Bernard J. Winn.
- June 21. In Duxbury, Stanley Joseph Zanotti of Quincy, and Laura Keith Post of Duxbury, by Rev. William S. Anthony.
- June 21. In Waltham, Frederick W. Bacon, Jr., of Duxbury, and Rosalie M. Mumford of Watertown, by Rev. Dennis J. Burns.
- June 29. In Provincetown, Walter Nelson Smith of Duxbury and Rita Marshall Paige of Provincetown, by Rev. Arthur O. Dewey.

- July 5. In Duxbury, Edwin I. Baker, Jr., of Duxbury and Phyllis Mary Ghidoni of Plymouth, by Rev. Herman F. Lion.
- July 12. In Duxbury, John Bernard McAloon of Newton Center and Nancy Mae Glass of Duxbury, by Rev. William P. Conley.
- July 26. In Duxbury, Richard J. Wansker and Margaret R. Hadley, both of Duxbury, by Rev. George N. C. Mott.
- August 2. In Plymouth, Daniel M. Wirzburger of Plymouth and Beverly Ann Randall of Duxbury, by Rev. David G. Bonfiglio.
- August 2. In Duxbury, Lawrence Tose of Wollaston, and Ariel Winsor Green of Brookline, by Rev. Frederic C. Lawrence.

Paid to Division of Fisheries and Game

\$768.00

Respectfully submitted,

JOSEPH T. C. JONES,

Town Clerk.

REPORT OF TOWN MEETING

TOWN MEETING, MARCH 8, 1952

The meeting was called to order at 1:15 o'clock, P. M., by the Moderator, Mr. William W. McCarthy.

The registered voters were checked from the voting list and showed 424 names checked: 229 male and 195 female.

The Tellers, Helen F. Dawes, Gilbert F. Redlon, John E. Lucey, Harry A. McNaught, Barclay J. Woodward, III, Frank H. Williams, Rodney W. Leach, Gerald P. Hazlehurst were sworn in by the Town Clerk.

An invocation was given by Rev. William S. Anthony.

There being no objection, the Moderator declared that proponents on any article in the warrant should be given opportunity to speak on the question being voted upon before the article is tabled, as in previous years.

The Warrant was read by the Town Clerk.

Under Article 1, Voted, that necessary Officers not chosen by ballot be appointed by the Selectmen.

Under Article 2, Voted, that the reports of the various Town Officers and Committees be accepted as printed in the Town Report.

Under Article 3, Voted, that the compensation of the elected Town Officers for 1952 be fixed as follows, and that the sum of \$11,465.00 be raised and appropriated to pay for same:

A motion was made to reconsider Police appropriation but it was lost. (Yes 90 No 134).

At this time, Mr. Delano presented Walter G. Prince with a gold watch and chain. Mr. Prince is retiring from office after ten years of service.

Under Article 5, Voted, to raise and appropriate the sum of \$425.00 to be expended under the direction of Myles Standish Camp, No. 115, S.R.V.C.W., for the observance of Memorial Day.

Article 39 was taken up at this time.

Under Article 6, Voted, that the Town authorize the Town Treasurer, with the approval of the Selectmen, to borrow money from time to time in anticipation of the revenue of the financial year beginning January 1, 1952, and to issue a note or notes therefor, payable within one year, and to renew any note or notes as may be given for a period of less than one year in accordance with Section 17, Chapter 44, General Laws. (Yes 244 No 1).

Under Article 7, Voted, to raise and appropriate for the use of the Plymouth County Trustees for the County aid to Agriculture, the sum of \$100.00, and chose Malcolm C. Brock, Town Director, as provided in Sections 41 and 45 of Revised Chapter 128 of the General Laws.

Under Article 8, Voted, to apply the dividend from the Plymouth County Dog Fund in the amount of \$751.00 to the Support of Schools.

Under Article 9, Voted, to appropriate to the Cemetery Department the sum of \$150.00 now in the hands of the Town Treasurer.

Under Article 10, Voted, to appropriate \$5,000.00 to the Reserve Fund from the Overlay Reserve Fund.

Under Article 11, Voted, to raise and appropriate the sum of \$1,000.00 to continue the revision of the Assessors' Map.

Under Article 12, Voted, to grant to the Plymouth County Electric Company of Massachusetts an easement, authorizing said company to install and maintain three poles together with necessary wires and fixtures on and over land of the Town.

Under Article 13, Voted, to raise and appropriate the sum of \$6,400.00 for the surfacing of Bay View Road and to accept this way as laid out by the Selectmen.

Under Article 14, Voted, to raise and appropriate the sum of \$1,000.00 to meet the Town's share of the cost of Chapter 90, Highway Maintenance, and that, in addition, the sum of \$2,000.00 be transferred from unappropriated available funds in the Treasury to meet the State's and County's share of the cost of the work, the reimbursements from the State and County to be restored, upon their receipt, to unappropriated available funds in the treasury.

Under Article 15, Voted, to raise and appropriate the sum of \$4,000.00 to meet the Town's share of the cost of Chapter 90, Highway Construction, and that an additional sum of \$12,000.00 be transferred from unappropriated available funds in the Treasury to meet the State's and County's share of the cost of the work, the reimbursements from the State and County to be restored, upon their receipt, to unappropriated available funds in the Treasury.

Under Article 16, Voted, to appropriate from the Excess and Deficiency Account a sum not to exceed \$40,000.00 to be used to reduce the tax rate.

Under Article 17, Voted, to raise and appropriate the sum of \$800.00 to be expended under the direction of the American Legion Post No. 223, July 4th, Duxbury Days Committee, in connection with this year's parade and celebration.

Under Article 18, Voted, to raise and appropriate the sum of \$650.00 for the exchange of a car for the Police Department.

Under Article 19, Voted, to raise and appropriate the sum of \$565.00 for the purchase and installation of a two way radio to be installed on Engine No. 5.

Under Article 20, Voted, to raise and appropriate the sum of \$22.50 to install a street light on South Street.

Under Article 21, Voted, to raise and appropriate the sum of \$610.00 for the purpose of purchasing an automatic calculator for the Assessors' office.

Under Article 22, Voted, to instruct the Selectmen to petition the General Court of Massachusetts for the passage of an Act authorizing the construction of a section of sea wall at Duxbury Beach beginning at the Southerly end of the existing sea wall opposite the Northeasterly corner of Lot 16 commonly known as The Hummock, and extending along the waterfront Southerly 1562 feet, such Act to provide that the cost of such construction be apportioned between the Commonwealth of Massachusetts, the County of Plymouth, and the Town of Duxbury.

Percy LaForrest was given the courtesy of the floor.

Under Article 23, Voted, to instruct the Selectmen to petition the General Court of Massachusetts for the passage of an act authorizing the construction of a sea wall at Duxbury Beach beginning at the Northerly boundary of Lot No. W172 and extending along the waterfront southerly 550 ft. to the Southerly boundary of Lot No. W164 as shown on the Assessors' plan, Bk U. Such act to provide that the cost of such construction be apportioned between the Commonwealth of Massachusetts, the County of Plymouth, and the Town of Duxbury.

William H. McVane was given the courtesy of the floor.

Under Article 24, Voted, to raise and appropriate the sum of \$240.00 to defray the cost of Group Accident Insurance for the Salaried Fire Fighters and members of the Police Department.

Under Article 25, Voted, to raise and appropriate the sum of \$1,400.00 for the surfacing of Pine Ridge Lane, and to accept this way as laid out by the Selectmen.

Under Article 26, which reads, "To see if the Town will vote to raise and appropriate a sum of money for the construction and maintenance of toilet facilities at the Easterly end of Powder Point Bridge on land of the Town," Voted down.

Under Article 27, Voted, to instruct the Selectmen to appoint a building inspector as provided in Section 8, Paragraph A, of the Protective By-Law of the Town of Duxbury, and to raise and appropriate the sum of \$700.00 for this purpose.

Under Article 28, Voted, to raise and appropriate the sum of \$50.00 to be expended under the direction of the Tree Warden for improvements in the Town Forest.

Under Article 29, Voted, to raise and appropriate the sum of \$1,000.00 to widen certain portions of the school driveway which extends from Alden Street to the front of the Elementary School and that the work be done by the Highway Department.

Under Article 30, Voted, that those who represent us in the Congress of the United States be instructed to bend every possible effort to place in effect the unenacted recommendations of the Hoover Report.

Under Article 31, Voted, that the Moderator appoint a committee of five for the purpose of studying Duxbury Beach, said committee to bring in specific recommendations for the best interests of Duxbury on the following points:

- A. To study the value of Duxbury Beach as a barrier against the open sea and means to protect the same and to engage the service of competent engineers to survey the situation and report thereon.
- B. To study the matter of suitable approaches to the North end of Duxbury Beach and obtain estimates of any recommended improvements or additions to such approaches and that the Town raise and appropriate the sum of \$500.00 to defray the cost of the engineering survey of Paragraph A and the estimates of Paragraph B.

Under Article 32, which reads, "To see if the Town will accept Chapter 537 of the Acts of 1951 relative to mandatory step-rate increases to employees in Public Welfare, which reads in part as follows:

Section 47 E. Persons holding positions referred to in Section 47 C shall be given an annual step-rate increase, to be set forth in the compensation plan established under section 47 D, on the first day of July following the anniversary of the date of their receiving the minimum salary for the position which they hold, but such increase shall not entitle such persons to any change of rating or increased authority. Such increase shall be fixed by the Board referred to in section 47 D and shall be paid annually until the maximum salary set forth in the compensation plan established under section 47 D for the positions so held has been

reached. The superior court, upon suit by the attorney general or petition of one or more taxable inhabitants of a city or town in which it is alleged that the provisions of this section or sections 47 C and 47 D are not enforced may, in law, or equity, enforce said sections. Voted down.

Under Article 33, Voted, that the Town accept Chapter 781 of the Acts of 1951.

(This will increase the pensions of town employees who retired prior to November 1, 1949 with fifteen years of creditable service at time of separation but no increase shall be given which will make normal amount exceed \$2000. This will affect the same pensioners as Chapter 820 which the Town voted to accept last year).

Under Article 34, which reads, "To see if the Town will vote to change and amend the Protective By-Law of the Town of Duxbury as enacted by the Town on March 4, 1944, as amended by Article 35 adopted by vote of the Town on March 1, 1947, so that the Business District at Route Three shall be enlarged to include all land abutting on the East and West sides of Route Three to a depth of Two Hundred (200) feet from the sidelines thereof, located north and south of the Business District at Route Three established by the Town's Protective By-Laws, and more particularly described as follows:

Route Three, East side from Franklin Street to the north line of the Business District heretofore established;

Route Three, West side from Franklin Street to the north line of the Business District heretofore established;

Route Three, East side from the southerly line of the Business District heretofore established to the Kingston line;

Route Three, West side from the southerly line of the Business District heretofore established to the Kingston line;

All as shown on the accompanying map of the vicinity of Route Three from Franklin Street to Kingston Line, dated July 1951 and hereby declared to be an addition thereto and an amendment thereof of the Use District Map, entitled "Map of Town of Duxbury, Massachusetts, to Accompany Protective By-Laws," as specified in Section Two of the Protective By-Laws of the Town of Duxbury, which maps are on file in the Assessors' Office in Town Hall of Duxbury, subject to the limitations and restrictions that no building or roadside stand shall be erected or placed within twenty-five feet of the way line, or take any other action thereon. Voted down. (Yes 1 No 185).

Under Article 35, Voted, that paragraph (c) of section 7 of the Protective By-Law as it appears in the booklet entitled "Protective By-Law for the Town of Duxbury as Amended 1947," is hereby amended by striking out the figures "20,000" in the third line and inserting in place thereof the figures: "30,000"; and by inserting after the word "hundred" in the sixth line thereof the words:- and fifty, and by inserting after the word "paragraph" in the first line at the top of page 9 the words **or any amendment thereof** and by inserting after the word "By-Law" in the seventh line on page 9 the words **or any amendment of this paragraph** so that said paragraph (c) will read as follows:

(c) Lot size. In the residence district no building shall be erected or maintained on a lot of an area of less than 30,000 square feet or of a frontage upon

the way upon which it abuts, or upon the setback line, if any, of such way of less than one hundred and fifty feet. This paragraph or any amendment thereof shall not apply to a building in existence when this By-Law becomes effective provided the lot upon which it stands is not subsequently diminished in area or width or frontage; nor shall it apply to a lot described in a deed, or shown on a plan, duly recorded in the Plymouth County Registry of Deeds when this By-Law or any amendment to this paragraph becomes effective, provided that if at such time there was other contiguous land of the same owner which might be used in connection with such lot, such land shall be so used to the amount required to constitute a lot of the area and frontage prescribed in this paragraph, and such lot shall not subsequently be diminished in area or frontage below the requirements herein stated. In the case of any lot so described or shown in said Registry of Deeds, to which there is not sufficient other land of the same owner contiguous and capable of use to constitute a lot of the area and frontage prescribed in this paragraph, the owner may erect and maintain one, but not more than one building, other than accessory buildings, on such lot. (Yes 170 No 32).

Under Article 36, Voted, to raise and appropriate the sum of \$9.81 to pay unpaid bills of 1949. (Yes 109, No 0).

Under Article 37, Voted, to raise and appropriate the sum of \$15.00 to pay unpaid bills of 1950. (Yes 128, No 0).

Under Article 38, Voted, to raise and appropriate the sum of \$172.71 to pay the following unpaid bills of 1951.

\$4.25 Veterans Benefits

11.20 Town Office

- 75.00 Board of Health, Dentist
- 23.00 Town Clerk's Dept., Books
- 7.50 Town Historian, Book
- 9.02 Tarkiln Recreation Center, Electric Light
- 41.74 Health Department, Salary
- 1.00 Town Office, Electric Light.

(Yes 123 No 0.)

Under Article 39, Voted, that the Town install water mains not less than 6 inches in diameter on Acorn, Franklin, Lincoln, and Temple Streets in North Duxbury in accordance with an agreement between the Town Water Committee of 1951 and the Water Commissioners of Marshfield at a distance of 8,000 ft. more or less. And raise and appropriate \$8,000.00 and in addition appropriate from available funds in the Treasury the sum of \$15,000.00 for this purpose and that the Board of Selectmen be and is hereby authorized to expend such appropriation or as much as is needed and to enter into an agreement with the Water Commissioners of Marshfield to complete this work.

Under Article 40, which reads, "To see if the Town will vote to raise and appropriate a sum of money to construct a sidewalk on the easterly side of Depot Street, between Halls Corner and South Station Street, or take any other action thereon." Voted down. (Yes 43 No 64).

Under Article 41, Voted, to raise and appropriate the sum of \$1,150.00 for the construction and acceptance of Old Colony Road from Chestnut Street to Bay Ridge Lane, and to accept this way as laid out by the Selectmen.

Under Article 42, Voted, to authorize the Selectmen to appoint a committee of five to study the problem of Dutch Elm disease.

Under Article 43, Voted, to authorize the Moderator to appoint a committee of five to study the Elementary School building needs, and also study the needs of a Motor Generator for the Elementary School Building, to make a report on or before the next annual meeting.

Under Article 44, Voted, to raise and appropriate the sum of \$500.00 for rat control in Duxbury. (Yes 61 No 48).

Under Article 45, Voted, that the town appoint the Board of Health to study the provisions of Chapter 662 of the Acts of 1949, for the Organization of Union Health Departments, and to study existing public health services and facilities in the town and to determine the advantages to be derived from Duxbury joining with neighboring towns for a town union health department. This committee to report its findings and recommendations at a future Town Meeting.

Under Article 46, Voted, to return to the Treasury the following unexpended appropriation balances:

1951 Police Automobile	\$23.00
Fire Dept. Pumper Equipment	59.55
1951 Ch. 90 Construction	.26
1951 Ch. 90 Maintenance	10.42
Bay Ridge Lane, Improvements	14.71
Autumn Avenue, Improvements	.92
Crescent Street, Improvements	44.76
Alden Street, Tennis Courts	1.27
Elementary School Building	779.91
Elementary School Classrooms	83.90
Elementary School Playground Equipment	12.05

Under Article 47, Voted, to appropriate from available funds \$6,543.80 for the completion and modification of the High School building and addition—and to equip and furnish both addition and re-modeling. And

that the School Building Committee be authorized to expend said appropriation.

Under Article 48, Voted, to accept the remaining section Wadsworth Road.

Under Article 49. Voted to raise and appropriate the sum of \$1,000.00 for the purpose of constructing a pier and ramp at Howland's Landing, so called, located on the southerly shore of Captain's Hill.

Total Appropriations, \$495,602.88.

Voted to adjourn at 6:30 P. M.

JOSEPH T. C. JONES,

Town Clerk.

JOSEPH T. C. JONES,
Town Clerk.

REPORT OF SPECIAL TOWN MEETING**At High School Auditorium**

Friday, January 4, 1952, at 8:00 P. M.

At 8:05 o'clock the meeting was called to order by the Moderator, Mr. William W. McCarthy. The invocation was given by Rev. Herman F. Lion. A quorum was declared present and the warrant was read by the Town Clerk.

There being no objection, the Moderator declared that proponents on any article in the warrant should be given opportunity to speak on the question being voted upon before the article was tabled, as in previous meetings.

John E. Lucey, Helen F. Dawes, Gilbert F. Redlon and Barclay J. Woodward III were appointed Tellers and were sworn in by the Moderator. The voting list showed that 241 names of registered voters had been checked, 100 being a quorum.

Under Article 1, it was voted that the Town of Duxbury purchase a certain parcel of land situated on the Southerly side of St. George St. East of the Library, and shown on the Town of Duxbury Assessor's Map as Lots R 12 B and R 12 C, and raise and appropriate the sum of \$12,000.00 for the purpose of purchasing this land.

Vote (Yes 144 No 65).

Under Article 2, there was no action taken as there are no unpaid bills.

At 8:45 P. M. it was voted to adjourn.

JOSEPH T. C. JONES,
Town Clerk.

REPORT OF SPECIAL TOWN MEETING

At Elementary School Cafeteria

Friday, June 27, 1952, at 8 P. M.

At 8:15 P. M. the meeting was called to order by the Moderator, Mr. William W. McCarthy. The Lord's Prayer was repeated by the assembly. A quorum was declared present and the warrant was read by the Town Clerk.

There being no objection, the Moderator declared that proponents on any article in the warrant should be given opportunity to speak on the question being voted upon before the article was tabled, as in previous meetings.

J. Alvin Borgeson, Helen F. Dawes, Rodney W. Leach, Harry A. McNaught, Gilbert F. Redlon, Constance L. Webb and Frank H. Williams were appointed Tellers and were sworn in by the Town Clerk. The voting list showed that 290 names of registered voters had been checked, 100 being a quorum.

Under Article 1, it was voted that the Town clarify the action taken under Article 39 at the annual Meeting in the following manner:

That the Selectmen be and are hereby authorized to do all things necessary and proper to furnish water on the following streets in the North Duxbury area—namely, Franklin Street, Temple Street, Lincoln Street, Acorn Street, and to make the necessary connection with the existing water main on Walnut Street in the Town of Marshfield.

Under Article 2, it was voted that the Town appropriate the sum of \$36,250.00 for the construction of two

Sea Walls at Duxbury Beach as described in the Acts of 1952 and that to meet said appropriation the sum of \$18,125.00 be transferred from available funds in the treasury; and that the Treasurer with the approval of the Selectmen, be and hereby is authorized to borrow the sum of \$18,125.00 and to issue bonds or notes of the Town therefor payable in accordance with the provisions of Chapter 44 of the General Laws so that the whole loan shall be paid in not more than ten years from the date of issue of the first bond or note; said sums to be used in conjunction with the sum of \$72,500.00 appropriated by the State and \$36,250.00 appropriated by the County, for the construction of the aforesaid Sea Walls; and voted that the sum of \$18,125.00 be assessed against the properties protected by the Sea Walls over a ten year period as provided in the Acts of 1952.

Vote: (Yes 133 No 15).

Under Article 3, it was voted that the Town appropriate from available surplus funds now in the Treasury the sum of \$5,000.00 to be used with \$12,000.00 hereby transferred, as recommended by the Finance Committee, from the Duxbury Harbor Dredging Appropriation Project appropriation, together with \$8,000.00 to be contributed by the Duxbury Yacht Public Works, for the purpose of enlarging the basin at Mattakeeset Court.

Under Article 4, it was voted to assume liability in the manner provided by Section 29 of Chapter 91 of the General Laws, as amended by Chapters 516 and 524, Acts of 1950, for all damages that may be incurred by work to be performed by the Department of Public Works of Massachusetts for the improvement, development, maintenance and protection of tidal and non-tidal rivers and streams, harbors, tidewater, foreshores and shores along a public beach outside of Bos-

ton Harbor, including the Merrimack and Connecticut Rivers, in accordance with Section 11 of Chapter 91 of the General Laws and authorize the Selectmen to execute and deliver a bond of Indemnity therefor to the Commonwealth.

Under Article 5, it was voted that the Town grant to the Plymouth County Electric Company an easement to erect and maintain from the line which now feeds the Town Hall and the Town Barn a two pole extension to be located off the northerly side of the driveway leading behind the Town Hall and the Unitarian Church.

Under Article 6, it was voted that the Selectmen appoint a committee to study the matter of construction of a pier or float at Howlands Landing, or other more suitable sites, and to report their findings at the next Annual Town Meeting.

Under Article 7, it was voted to appropriate from available funds in the treasury the sum of \$30.00 to pay an unpaid bill of 1950.

Vote: (Yes 157 No 6).

Under Article 8, it was voted that the sum of \$2,000.00 be transfered from available surplus funds in the treasury to the Highway Department to be used to repair damage done to the Town roads and highways by the Water District in the repairing and maintaining of old water installations and the laying of new installations; that the cost of this work, including labor and all materials, be billed to the Water district as per agreement between the Water Commissioners and the Board of Selectmen; and that this \$2,000.00 be earmarked for the work described above.

At 9:45 P. M. it was voted to adjourn.

JOSEPH T. C. JONES,
Town Clerk.

REPORT OF SPECIAL TOWN MEETING
At High School Auditorium

Friday, October 24, 1952, at 8 P. M.

At 8:15 P. M. the meeting was called to order by the Moderator, Mr. William W. McCarthy. The Invocation was given by the Rev. John William Estes, Jr. A quorum was declared present and the warrant was read by the Town Clerk.

There being no objection, the Moderator declared that proponents on any article in the warrant should be given opportunity to speak on the question being voted upon before the article was tabled, as in previous meetings.

Mary Crocker, Helen F. Dawes, Gerald Hazlehurst, Rodney Leach, Harry McNaught, Gilbert F. Redlon and Frank H. Williams were appointed tellers and were sworn in by the Town Clerk. The voting list showed that 302 names of registered voters had been checked, 100 being a quorum.

Under Article 1, it was voted that the Town transfer \$3,000.00 from funds now available in the Welfare Fund to the Old Age Assistance Fund.

Under Article 2, it was voted that the Town transfer \$1,200.00 from funds now available in the Aid to Dependent Children Fund to the Disability Assistance Fund.

Under Article 3, it was voted that the Town instruct the Moderator to appoint a Committee of seven, including one member of the School Committee, to further study, in cooperation with the State School Building Assistance Commission, the future school building

needs and to present preliminary plans and estimates to provide for such needs at or before the next regular Town Meeting; and voted that they appropriate from available funds now in the treasury \$5,000.00 for this purpose.

Under Article 4, it was voted that the Town authorize the School Committee to establish and maintain State-aided vocational education in accordance with the provisions of Chapter 74, General Laws, and Acts amendatory thereto, or dependent thereon, and appropriated \$100.00 from available funds in the treasury for this purpose.

Under Article 5, voted as amended, that the Town appropriate \$4,000.00 from available funds in the treasury, to be used by the School Committee for the purpose of making the stage in the High School Auditorium meet the State Safety regulations, and instruct the Moderator to appoint a committee of five, to work in co-operation with the School Committee, to study further the stage needs for additional equipment, and report it's findings and recommendations not later than the Annual Town Meeting in March, 1953.

Vote: (Yes 202 No 96).

At 9:15 P. M. it was voted to adjourn.

JOSEPH T. C. JONES,

Town Clerk.

The following resignations were submitted to the Town Clerk during the year 1952:

Levi G. Cushing, Member of Finance Committee

Dominic E. LaGreca, Member of Finance Committee

Mrs. Kenrick S. Denyer
Mrs. Joseph E. Eaton
Mrs. Robert Nickerson

REPORT OF THE TOWN ACCOUNTANT

I am pleased to submit the following statement of all receipts and expenditures of the Town of Duxbury for the financial year ending December 31, 1952, in accordance with Chapter 41, Section 61, General Laws. This report is arranged in accordance with the classifications prescribed by the Director of Accounts.

Appended thereto is a statement of the Appropriation Balances returned to the Treasury under date of December 31, 1952, and a further statement of the Appropriation Balances retained and carried forward January 1, 1953.

ISABELLE V. FREEMAN,

Town Accountant

THE REPORT OF THE DUXBURY SCHOOL COMMITTEE

To the Citizens of Duxbury:

Your School Committee submits herewith its report and that of the Superintendent for the year 1952.

As we all remember, the first half of 1952 was a difficult period. As the year progressed, however, things became better and your committee can now report that the balance of 1952 has been a progressive period. There is probably no better time than now for us to realize that any instability in our school system reflects on our children. It costs us money and valuable time and disrupts teaching to the detriment of the pupils. What happened in Duxbury last year is happening throughout the country as can be seen on television and read about in the newspapers.

By creating an atmosphere that will permit full interchange of ideas on school subjects without infringing on the basic responsibilities of the various bodies within the system to act on those ideas, we are hopeful that we may secure this stability and also work for the improvement of our schools.

Your committee has made changes in the administration setup by providing for two full time principals. The salary schedule has been improved. Improved services such as guidance and remedial reading have been provided for in our budget. Additional rooms and buildings are being planned.

We thank all of you as taxpayers for making these changes and buildings possible. We have particularly appreciated the advice and counsel given us by our administrative staff and feel that the entire town can be proud of the educators who are guiding our schools.

We believe that we have good schools and we look forward to their becoming progressively better.

Respectfully submitted,

The Duxbury School Committee,

HERBERT C. WIRT, Chairman

DOMINIC LaGRECA

MORRISON BUMP

EARLE C. GRENQUIST

ALBERT P. RICHARDS

REPORT OF THE SUPERINTENDENT

Mr. Herbert C. Wirt, Chairman
Duxbury School Committee
Duxbury, Massachusetts

Dear Mr. Wirt: .

I am submitting, herewith, my third annual report as superintendent of the Duxbury schools. I would like, especially, to call your attention to the matter of elementary school building needs. More space must be provided by September 1954.

A new superintendent's advisory committee was set up this year. It is functioning much more effectively than one organized during my first year in Duxbury. It is my hope that through this committee we can strengthen good personnel relations within the school system. We are attacking the problem of improving the relations of the schools with the public by publishing within the Duxbury Clipper a paper called "Our Duxbury Schools". This paper will carry news about our schools and school activities. It will appear each week.

School costs, measured on a per pupil basis, compare favorably with those of other communities. I hope that we may now proceed with some additional educational services.

I am most grateful for the new salary schedule for teachers.

That we have been able to make progress toward better schools, with an entirely new administrative staff and many additional teachers to be assimilated, is testimony to the hard work and cooperation given. I would like to express my appreciation to the School Committee and to the community for their help and cooperation.

Sincerely yours,

EVERETT L. HANDY,

Superintendent of Schools

SCHOOL HOUSING

HIGH SCHOOL BUILDING

Except for minor items, the new wing and the remodeling of parts of the old high school building were completed by the start of school in September. The new wing provides:

1. a large shop
2. a combination science (chemistry, physics and biology) laboratory
3. a classroom for bookkeeping and social business subjects
4. a specialized room for typing and business machines
5. a multi-purpose room for music, art, dramatization and public speaking. This room may also be used for small community group meetings
6. one classroom for non-specialized subjects

By providing specialized rooms in the new wing for commercial and science subjects, three additional rooms are now available in the old building for regular classes. Thus, the new addition actually provides for four regular classrooms in addition to the specialized rooms.

Remodeling work in the old building provides for shower and locker areas below the gymnasium. The gymnasium is wider and is equipped with a dividing curtain. The curtain makes for more complete use of this room for all classes.

The heating plant was rebuilt to accomodate the requirements of the new wing.

The new wing and remodeling projects were formally accepted by the town and turned over to the school committee on November 14, 1952.

Building committee members were: Earle Grenquist, chairman, Russell Eddy, Theodore Chase, Earle Ricker and Mrs. Warren Wentworth, Jr.

ELEMENTARY BUILDING

More space for elementary classes is definitely needed. In September 1953 there will be four high school classrooms used by elementary school classes. Provisions for these classes in the high school building can be a temporary measure at best. By September 1954 we will have to start taking elementary school classes out of the high school building to make room for the regular high school pupils. Unless there is a building addition completed by that time there will be no place to put the classes moved out of the high school. Again, in September 1953, even though four elementary classrooms will be in the high school building, two classes in the elementary building will be too large, and no playroom will be available.

In Sept. 1953 - classrooms in Elementary Bldg.	12
In Sept. 1953 - classrooms in High School Bldg.	4
In Sept. 1953 - oversized classes	2
In Sept. 1953 - playroom	0
In September 1954 - must begin taking classes out of the high school building	
In Sept. 1954 - There will not be enough rooms available even if we could keep four elementary classes in the high school.	

In Sept. 1954 - Deadline for additional housing
for elementary classes.

I refer you to the special report of the building committee for further data as to elementary school building needs.

CURRICULUM

One of the problems concerning the high school curriculum has been the difficulty of finding certain courses scheduled at the time they were needed by pupils. For example, a student could not always obtain a language course or a mathematics course when he needed it, because it was not offered at that time. Two years ago a program to correct this condition was established. Now, for example, Algebra I is offered each year instead of every other year. Beginning in September 1953, French I and French II, and Latin I and Latin II will be offered every year. In other words, pupils can expect to find these courses scheduled regularly. It will still be true, however, as in any high school, that a student who waits until the junior year to embark on a definite program of preparation for college will find it difficult to take all the courses he needs in one half the usual time required. The pupil who is proceeding normally should find no difficulty in obtaining the courses he needs and in the proper sequence.

In most small high schools it is difficult to offer a wide variety of courses with the result that the college preparatory program tends, among other programs, to be the one most consistently found. A study has been made of this matter in the Duxbury High School and the curriculum is being modified to emphasize all programs equally wherever possible. The following tabulation will give an idea of how these programs are now being set up.

*Student May Elect

A glance at this tabulation will indicate that about equal opportunity in terms of subject periods is being provided. In terms of numbers electing these courses, however, there are more pupils showing an interest in the college preparatory program than in any of the other group offerings. In the home economics area not enough pupils are interested to form a class even when juniors and seniors are taken together. A fair sized class in industrial arts is possible only when juniors and seniors are grouped together, and when majors in other courses take shop as an extra subject. It is expected that this condition will change when the larger elementary classes reach the high school. The following tabulation shows that the dominant interest is in the college preparatory and commercial programs.

This should not be interpreted to mean that only a very small number of pupils take shop and home economics courses. **All** seventh and eighth grade pupils take these courses. A considerable number of ninth and tenth grade college preparatory and commercial majors take them as extra subjects. Some juniors and seniors majoring in college preparatory and commercial subjects also take them as extras. At present there are 8 ninth and tenth grade pupils taking home economics. There are no juniors and seniors taking this course. The total number of ninth and tenth grade boys taking shop this year is 13. The total of eleventh and twelfth grade boys taking shop is 5.

This year, a club, called the Craftsman's Club, was organized to stimulate interest and provide opportunities for extra shop time for boys interested in this course. Trips to nearby industrial plants have been planned. The club is conducted by Mr. Bassett.

*Year class graduates.

NOTE: Of the Class which graduated at the end of the 1951-52 school year, a majority planned to continue their education beyond high school in a college or professional school.

What the high school program of studies should include depends on the needs and interests of pupils. Hence, the program in one school system may not be the same as in another. The one constant characteristic of any program is "change". The program should be adjustable enough to meet reasonable changes but not so flexible that confusion results.

During the year just closed, senior commercial students participated in a new work-experience program. For a two week period they worked with regular employees in various business offices getting first

hand experience in the field of their choice. They were assigned to the Plymouth Cordage Company, the Clapp Laboratory, Herrick's Auto Sales, the law office of Clement Briggs, and the Firestone Store.

The cooperation of these concerns is most sincerely appreciated. It is planned to continue this program.

I strongly recommend that our guidance and testing activities in both schools be coordinated under one person especially trained in this field. Our present guidance and testing program is weak in that it has been carried on by persons whose main assignment has been in other fields. The program has lacked needed stability because of its being assigned to a number of different faculty members. A good guidance program will do much to help students progress successfully through school. An adequate testing program will aid in evaluating the work of both the pupil and the school.

Our home economics program could be made more effective if it were organized under the state department of vocational education. The guidance and financial support that would come from this arrangement would be most worthwhile.

Remedial reading has been conducted by a classroom teacher on a half-time basis. It is strongly recommended that this service be placed on a full time basis, because of the growth in numbers of pupils, and that it be extended to the high school level. It is further recommended that a person specially trained in this field be employed. Reading is basic to progress in all other branches of learning. Special or remedial instruction improves reading skills already developed, aids pupils who have special reading difficulties, and helps the slow learner. It is economically sound in that

it reduces failures and saves pupils time in progressing through school. It is especially valuable in building self confidence that comes through successful achievement.

At a special town meeting in October 1952 it was voted to authorize the School Committee to organize vocational classes in Duxbury. The Committee, acting as trustee, established an evening vocational school, which organized its first class in November. State and federal support of this program amounts to nearly the total cost during the first year. After that, outside support is reduced until, during the fifth year, the town assumes the full cost but receives a fifty percent reimbursement from the state. The present class is in decorative ware. Mr. James Jenner, Mr. Norman Moore, Mrs. Blanche White and Mrs. Alma Chandler were appointed to the vocational advisory committee.

I am most grateful to the people and organizations in Duxbury who have shown so much interest in establishing scholarships for high school graduates, and I hope that this good practice will continue. It is increasingly difficult to meet the expenses of a college education without the aid of scholarships.

SCHOOL COSTS

A criticism of the School Department frequently heard during the past several years has been about school costs. Per pupil costs were considered too high when compared with similar costs in other communities. This problem has been a matter of concern to all, with the result that school costs, as measured on a cost per pupil basis, have been reduced so that Duxbury now compares favorably with other communities. Unless unusual circumstances arise, it seems likely that this favorable comparison can continue. The fol-

lowing figures are taken from the annual reports of the State Department of Education covering costs per pupil in the various towns and cities:

**Per Pupil Costs Compared for the Years
1949-50 through 1951-52**

	1949-50	1950-51	1951-52
State	\$202.44	\$213.02	\$234.80
*Group III	176.89	187.39	207.08
Duxbury	254.69	234.56	228.05

*Group III towns are those with populations under 5,000 and maintaining high schools.

In grades 10 through 12, the area where our cost per pupil was most out of line, the cost per pupil has been reduced from \$446 in 1949-50 to \$413 in 1950-51 to \$376 in 1951-52. The cost per pupil for grades 10-12 in the state as a whole in 1951-52 was \$318, in Group III towns for the same year it was \$326. It seems unlikely that costs at this level will become very near the average for the state or for Group III towns for some years to come. When the larger classes now in elementary grades reach the senior grades in larger numbers, we should be able to administer this area more efficiently.

With school costs in an improved condition it seems reasonable to move ahead toward a more extensive educational program. With this in mind I strongly recommend increased remedial reading service and placing of our guidance and testing work under a person specially trained in this field. The school budget requests for 1953 provide for these services.

For the first time in several years the matter of yearly salary adjustments has been settled speedily

and with mutual satisfaction. No "across the board" raise will be requested. A committee of nine teachers, two principals and the superintendent have proposed an improved salary schedule. The schedule provides annual increases of \$150 and higher minimums and maximums. The School Committee has approved the schedule.

(2) boys (estimate)
tuition at \$250.00 per year 500.00

Transportation for (2) boys
for 180 days at \$2.52 per day 454.00

Adults' Evening Vocational Classes

Maintenance \$80.00

Instructor 67.00

147.00

1,601.00

Out of State Travel

200.00

TOTAL

\$2,801.00

NOTE: Cash reimbursement during 1952 from the State on account of 1951 expenditures by the town for vocational education equaled \$820.46.

SCHOOL SERVICES

I should like to comment especially on library and health services. Our librarian is now serving teachers and pupils on a full time basis. She spends most of her time at the high school, but works a part of each day in the elementary building. In addition to the usual duties of a librarian she catalogues and has charge of visual aid materials. Films are catalogued as books are, and are made available to teachers.

We are making steady progress in our library services. When more rooms are available outside of the high school for the elementary classes now housed there, the library will have to be used less as a large study hall and the librarian will have more time to work with individuals and groups. The librarian assists pupils in their project work and general reading requirements, and aids teachers in both schools by providing visual and other teaching aids in relation to the units being studied.

I should like to call attention to the new state law relative to physical examinations of school children. This law became effective September 1, 1952. Parents will be interested in the nature and scope of the regulations issued.

Summary of New Regulations for Physical Examination of School Children

1. The new regulations do not any longer require an annual examination of every child. Examinations are to be done within six months before entrance into school, or during first year after entrance and thereafter at intervals of three or four years, the purpose being to provide more complete examinations at less frequent intervals.

2. Families are encouraged to have this examination done by their own physician when this is feasible.

3. Parents are to be invited to be present at physical examination of first and fourth grade pupils in the school.

4. Record of examinations is to be kept on new health appraisal forms provided by Massachusetts Department of Public Health.

5. Children returning after five days' absence due to illness, repeatedly absent due to unexplained illness, with known physical defects, athletes, and those applying for employment certificates are to be examined by a registered physician.

SCHOOL PERSONNEL

It is well known to all Duxbury residents that our schools have been growing very rapidly in recent years. Increases in numbers of pupils have resulted in added numbers of teachers. The number of persons employed in the school system is indicated below.

Distribution of School Personnel — 1952

Elementary School Teachers	17
High School Teachers	12
Supervisors	3
Superintendents	1
Principals	2
Special Instructors (part-time)	5
Janitors	3
Clerks	2
Dentists	2
Physicians	1
Nurses	1

Attendance Officers	1
Lunchroom Staff	5
	<hr/>
Total	55

In September 1953 it will be necessary to add two elementary school teachers and one high school teacher.

Two members of our faculty are now on military leave. Rodney Wood, High School Principal, is in the navy, and William Sands is in the army.

The following tabulation indicates the growth in school population over the ten year period from October 1, 1943 to October 1, 1952.

Grade	1943	1944	1945	1946	1947	1948	1949	1950	1951	1952

SCHOOL REGULATIONS

Admission

Children who are four years and eight months on September 1st of any school year may be admitted to kindergarten.

A certificate of successful vaccination is required for admission.

A birth certificate is required to establish a child's age.

Health

Any child who is absent from school for five days or more is required to bring a certificate from the doctor stating that he is now ready to return to school. After absence with a contagious disease, no matter how short, a doctor's certificate is also required.

No School Signal

School is usually called off only when bus transportation is unsafe. On such days an announcement is made over Stations WBZ, WEEL, WHDH, and WBET in Brockton, between 6:45 and 7:45. Parents are not expected to send their children to school on days when, in their opinion, the weather is such as to endanger the health of the child even though the busses are in operation. Such absences are excused on receipt of a written request.

REPORT OF SCHOOL CENSUS

The following report of children in town and enrollment is based upon the school census taken October 1, 1952.

	5 years and under 7 years	7 years and under 16 years	Illiterate Minors 16 years or over and under 21
Number of boys living in Duxbury	98	302	0
Number of Girls living in Duxbury	96	285	0
	<hr/>	<hr/>	<hr/>
Total in Residence	194	587	0
Distribution of Above:			
Public School Mem- bership*	193	556	0
In Continuation School Membership	0	0	0
In Vocational School†	0	0	0
In Private School‡	4	31	0
In State and County Institutions	0	0	0
Not in any school	0	8	0
Prospective First graders, 1953§	109		

*Does not include pupils over sixteen years of age.

†One Student over 16 years of age attends Weymouth Vocational School.

‡Does not include private kindergartens.

§These are known residents. Past experience indicates that this number will be increased during the year by new residents.

Wrye, Gratia Adams	Summer Street	Saleswoman

Selectmen's Report

We are pleased to present herewith the One Hundred and First Annual Report of your Town Officers and Town Committees. The commencement of another century of town record-keeping points up Duxbury's age but though Duxbury is old, she is ever young and vibrant, made hospitable and warm by many reminders of her splendid past and the assurance of a fine future. Duxbury is changing and growing but its unalterable characteristics provide a feeling of security.

MILESTONES

Voted to build a ten-room addition to the present Elementary School and construction commenced in September 1953.

Study plans made by the State Department of Public Works on the new South Shore Express-way cutting through the geographical center of Duxbury. Who can prophesy what community problems this may create?

Scallops in abundance in the Bay! Presently an interesting novelty but possibly a future economic asset.

CIVIL DEFENSE

The untiring efforts of our Civil Defense Directors were rewarded in 1953 by the American Legion's assurance of cooperation in developing an adequate civil defense force capable of coping with natural or enemy disaster. We urge our citizens to participate in this program.

FINANCIAL STANDING

Municipal financial circles paid Duxbury the compliment of offering an excellent price for our Sea Wall notes and School bonds. Marketing our securities at a lower rate of interest than was generally bid in 1953 for similar issues indicates that Duxbury is considered a good risk. It saved us many dollars of bond cost.

SEA WALL

The Sea Wall was under construction as 1953 ended. The severe storms buffeting the coastal area last autumn indicated we might get this much needed protection none too soon.

PROTECTIVE BY-LAW ENFORCEMENT

The Protective By-Law is our insurance against any too rapid or disorderly growth. The Chief of Police accepted appointment as "Investigating Officer" and in that capacity materially assisted the Board in enforcing the By-Law. An Investigating Officer is essential for lax enforcement of protective ordinances results in complete disrespect for them and their benefits are lost through neglect.

During the past year several violations have been investigated. Happily most were corrected by the property owners upon notification. One was corrected after town counsel had instituted court action. At year's end two others have been referred to town counsel for appropriate action. The By-Law, which the townspeople have adopted, is being enforced.

HOWLAND'S LANDING

The Annual Meeting did not act favorably on the recommendations of the Howland's Landing Committee. Those recommendations were the result of a thorough study by that Committee. The Board, aware of the fact that our main basin, so recently dredged, was completely occupied by mid June, anticipates the need of preparing for the time when we shall require additional mooring area. To provide for this we recommend the adoption of so much of the Committee's report as would result in the acquisition of land along the road and shore line and flat area. This conforms to a recommendation by the Planning Board, made to this Board, following their study of the problem. A suitable opportunity for action will be afforded the voters in the next Annual Meeting warrant.

During the year the way to the Landing was somewhat improved by widening and smoothing.

HIGHWAY IMPROVEMENT

The Chapter 90 Highway program should be continued. An increased appropriation over last year is recommended to continue and speed up construction on Bay Road. The appropriation for the Route 14 Maintenance program should be continued.

We have requested the County Commissioners to widen the layout of Bay Road at its junction with Wadsworth Road. This will permit cutting away the high bank and thus improve visibility for persons entering Bay Road.

A hearing was held before the County Commissioners on a proposed relocation of Gurnet Road conforming to the suggestions submitted to the Annual Town Meeting by the Duxbury Beach Committee. Much misunderstanding was obvious and the County Commissioners have called another hearing on the matter. Should the proposed road become a reality the re-routing of traffic would relieve dangerous congestion.

Serious drainage problems continue to plague the Highway Department. As land is improved the owners will no longer tolerate its use for the spilling of storm waters. A long existing drainage problem on Washington Street will be placed before the voters in a special article.

We also recommend the rebuilding of sections of Winter Street running westerly from Summer Street.

PARKS IMPROVEMENT

The instructions of the Annual Meeting regarding the removal of the partially disintegrated Boomer Square monument were followed and the lot modestly beautified. Care was taken to preserve a record of the monument's inscriptions.

The old Partridge Academy lot was cleared of

unsightly growth. At the year's end the clearing of brush from the way to the pond at Tinkertown was progressing. In 1954 we plan to improve the Myles Standish House Lot, using accumulated interest in the Fund for that purpose.

It is hoped the program of improvement and beautification of our open areas can be continued on a modest scale.

BUILDING PROBLEMS

Last year it was felt a decision should be reached on the disposal of the Point and Village Schools, virtually unused and abandoned since 1949. The Town Meeting elected to defer that decision a year. There doubtless will be suggested uses for these properties, but it would seem uneconomic for the Town to restore properties so badly out of repair and then to maintain several buildings, all only partially used, when a lesser number, with proper scheduling, could better serve the need at substantially less cost of upkeep to the Town. Last year the Town spent in excess of \$4000 for upkeep of buildings used for other than school purposes. It may be reasonably argued that the Town should not now add to this burden by retaining ownership of these buildings and expending sufficient money for necessary renovations and adequate future maintenance.

A Special Committee appointed to study this problem and others, may offer constructive suggestions.

The request of the Planning Board for an office and meeting place was met by arranging for them to share the Welfare Board's conference room instead of incurring substantial expenditure for further renovations to the Abbott House.

In the Town Office Building necessary repairs and the installation of an additional lavatory were completed.

But always there is the wise reluctance to enter upon any major expenditure, for the entire office set-up is so antiquated and impractical that soon, in the interest of proper efficiency, the Town must face the problem of providing improved office facilities for all Departments. However, because of a concern for first improving the Town's financial well-being, the Board defers asking for a thorough study of the problem at this time.

MOSQUITO CONTROL

This service has become an accepted and expected feature of our community life. Last season, due partly to unprecedented wet weather but more because the effect of the County Wide Gypsy Moth spray (which decimated the mosquito population also) was one more year removed, our appropriation was insufficient to perform the work to our entire satisfaction. We have studied this problem and shall present to the Annual Meeting an opportunity to improve vastly on the results achieved last year.

WAGES AND SALARIES

We are recommending some further moderate incentive revisions in the wages and salaries of those town officers and employees over whom we exercise appointive power.

HATHAWAY FUND

We have made distributions of the interest accumulated in the Hathaway Fund to the benefiting departments who, carrying out the wishes of the donors, will perform some work which ordinarily might not be done because of budget limitations.

PINE BROOK

The Board, advised by State Senator Edward C. Stone, has followed closely the attempts of the City of

Brockton to encroach upon the water rights of Pine Brook in West Duxbury. Far removed as the need now seems, we must reserve rights there for Duxbury, for a demand for water in that area in the future cannot be ignored in a rapidly growing town. The Board will continue its diligence in the matter.

On the following pages are reports treating with particular phases of your Town governmental activities. All are most worthy of your thoughtful study. In the year to come, when we face the impact (deferred) of additional school debt service charges sufficient in themselves to raise our tax rate \$2.00 per thousand, and when, principally because of additional enrollment, your school budget will rise an amount representative of a rate increase of \$3.50 per thousand, and when all expenses, less spectacularly, contribute their share to the load, it behooves all citizens to stop and weigh again the value of the things not essential to the welfare of the Town.

The Board feels it was a privilege to serve during the past year and gratefully acknowledges the whole-hearted co-operation of fellow Town Officers and Town employees. Soon we will be engaged in the important business meeting of the year. We urge you, our citizens, to consider prayerfully your decisions in all matters. Harry B. Bradley, former Selectman, throughout his years, was a splendid example of how important the individual citizen can be to a Town he loves dearly. Harry B. Bradley, a true friend and counsellor of this Board, will not be present, but if his spirit of fairness, his wisdom and acumen, can remain with us, the Town will be well guided and counselled.

PHILIP W. DELANO,
CHARLES R. CROCKER,
FRANCIS W. PERRY,
Selectmen of Duxbury.

Report of Highway Department

To the Honorable Board of Selectmen

I herewith submit the report of the Highway Department for the year ending December 31, 1953.

Approximately twelve and one half miles of black roads throughout the town were given a surface treatment. Portions of Union Bridge Road and King Phillips Path were graveled to eliminate a serious mud condition every spring. All other streets received annual care. Roadsides were mowed and raked. Traffic lines were painted on the streets, and new drainage was installed in various parts of the town.

By special appropriations Blodgett Avenue, Captains Hill Road and Longview Road were graveled and surfaced with two applications of asphalt. One half mile of Standish Street was surfaced with mixed-in-place, as well as one mile of Temple Street.

Twelve complete sections were replaced in the Powder Point Bridge and other repairs made as necessary. The old stone bridge on Birch Street which is on the Duxbury-Pembroke line was rebuilt with four foot concrete pipe. The cost was shared by both towns. Due to a washout the bridge on Chandler Street had to be rebuilt also.

The parking area at Mattakeesett Court was given a sealcoat. The floats and all town landings received annual care.

Under Chapter 90-New Construction the project at Bay Road was again put out to bids. This year David J. Roach Co., of Bridgewater was the lowest bidder and was awarded the contract.

Chapter 90-Maintenance money was spent on Route 14.

LEWIS B. RANDALL,
Superintendent of Streets.

Report of the Cemetery Trustees

To the Honorable Board of Selectmen
and the Citizens of Duxbury:

We submit our report for the year 1953.

The report of the Superintendent has been received and notes the regular work of the cemeteries.

We wish to express our regret on losing the services of Mr. Ernest H. Bailey, who served as a member of the Board of Cemetery Trustees for twenty five years.

Our thanks are offered to the Ladies Union Fair Association for their generous gift of loam. This has enabled us to improve a large area in the old section of the Mayflower cemetery. We know the Citizens of Duxbury join us in these thanks.

With the growing tendency for non-residents to purchase burial rights in our cemetery, we have revised our rates so that they will have to share a just proportion of the cemetery costs now and in the future. They are obliged to provide perpetual care for their graves and a payment to a new fund, the Mayflower Cemetery General Care and Improvement Fund. The interest on this fund will be used in maintenance work on cemetery roads and paths.

We continue to urge lot owners to provide perpetual care for their lots now or make provisions for such care in their wills.

We are requesting an appropriation of \$12,261.00 to carry on the regular work of the department.

We thank the citizens for their continued interest in our work of maintaining a cemetery which is a credit to the Town of Duxbury.

HARRY A. TAMMETT, *Chairman*,
STANLEY V. JOHNSON,
EDWARD P. HOBART,
H. RUSSELL CHANDLER,
J. NEWTON SHIRLEY, *Secretary*.

Report of the Superintendent of Cemeteries

To the Cemetery Trustees:

I submit my report for the year 1953.

At Mayflower, Ashdod, Dingley, and Myles Standish Cemeteries the general work was done and the leaves were raked. Gravel was added to the avenues and they were raked and cleaned.

The fence at Mayflower Cemetery along Tremont Street was painted, also the buildings.

We have planted twelve Maple and Oak trees that were given to the Cemetery by the Tree Department.

With the co-operation of the State Department they have planted a row of Maple trees along Tremont Street in front of the cemetery.

There has been an addition made to the new section of the cemetery. Five lots have been rebuilt in the old part of the cemetery.

The Ladies Union Fair Association supplied the loam to extend the section in the Historical part of Mayflower Cemetery.

Perpetual and Annual care lots were cared for; also the graves of the veterans.

There were sixty-four interments this year.

Respectfully submitted,

LAUREL B. FREEMAN,
Superintendent of Cemeteries.

Report of Public Health Nurse

To the Honorable Board of Selectmen
Duxbury, Massachusetts

Gentlemen:

I submit herewith the report of of the Public Health Nurse for the year 1953. This is the work for which the town pays the salary of the nurse by an annual appropriation.

Classification	Cases	Visits
Bedside Work		
Old Age Assistance	9	308
Disability Assistance	1	101
General Relief	2	77
Veterans Assistance	1	5
Instructive Work		
Contagious Disease	7	7
Handicapped Children	4	12
Tuberculosis	9	13
(cases and contacts)	<hr/>	<hr/>
	33	523

This is a general increase over last year.

Extra Activities

Well-Child Conference (P.T.A. sponsored)	
Meetings	6
Attendance	131

Trips

Plymouth County Hospital	5
Boston Floating Hospital	1

Respectfully submitted,

SUSAN E. CARTER, R. N.,
Duxbury Public Health Nurse.

Memorial Day Report

To The Honorable Board of Selectmen and Citizens of
Duxbury:

The Memorial Day Committee respectfully submits
the following report.

At 8:00 a.m. details from The Sons of Union Veterans,
American Legion Post 223, Boy Scouts and School
Children, went by bus to Ashdod Cemetery and decorated
the graves of Civil and World War veterans. Closing the
services by a three volley salute which was fired by Post
223 of Duxbury. Taps.

8:30 a.m. Decorated graves of Revolutionary Soldiers
and 1812 Veterans at Dingley Cemetery.

8:45 a.m. Decorated at North Duxbury Tomb.

9:30 a.m. Services held at Blue Fish River for the
Sailors and Marines who perished at sea.

9:45 a.m. Services conducted at the Honor Roll by
American Legion Post for service men who gave their
lives in World War II.

10:00 a.m. Decorated at Myles Standish Cemetery.

10:15 a.m. Duxbury High School Band furnished the
music for the parade which formed at Standish Cemetery
and proceeded down Chestnut Street by way of Hall's
Corner to the Unitarian Church.

11:00 a.m. Memorial Service held at Unitarian
Church for all veterans of all wars.

Directly after services, graves of all veterans in
Mayflower Cemetery were decorated by Sons of Union
Veterans, American Legion, Boy Scouts, Girl Scouts, Cub
Scouts, Brownies and school children.

In all there were decorated: 2 Colonial War veterans,
212 Civil War, 4 Civil War army nurses, 28 Revolutionary

War, 8 veterans of 1812, one Indian War veteran, 3 Spanish War, 41 World War I and 14 World War II.

Ceremony closed by Legion Firing Squad and Taps.

Respectfully yours,

MERRITT FERRELL, *Chairman*,
PHILLIP CHANDLER,
PARKER CHANDLER,
ROLAND WASHBURN,
OSCAR RYDER,
EDEN GLOVER.

Report of the Town Historian

To the Honorable Board of Selectmen of the Town of
Duxbury:

It has been my intention to collect all possible facts about Duxbury, not only as a matter of historic interest, but as a matter of convenience. Duxbury records, history, facts, and legends are so scattered that they are in danger of being lost or forgotten. It is a satisfaction to be able to report that during the past year enough use has been made of the lists, notes, and sources to justify the effort made in assembling them. This collection is always open to further additions.

The present project is to list and identify all 17th and 18th century houses in Duxbury. This is such an ambitious project that any information from past or present owners will be helpful and appreciated.

A copy of THE HISTORY OF THE FIRST PARISH CHURCH by Gershom Bradford has been added to the books in this department.

Respectfully submitted,

DOROTHY WENTWORTH.

Report of the Board of Appeals

To the Honorable Board of Selectmen:

The Board of Appeals held thirty-one public hearings during the year 1953 of which twenty-eight were for variances in residence districts and three for exceptions where the Protective By-Law gives permission subject to the approval of the Board of Appeals.

Of the petitions for a variance, fifteen were granted, nine were denied, two were withdrawn, and on two petitions, for which hearings were held near the end of the year, decisions will be made early in 1954.

The three petitions for exceptions were granted.

Respectfully submitted,

WILLIAM B. COFFIN, *Chairman*,

H. RUSSELL CHANDLER,

KENNETH O. MACOMBER.

Report of the Harbor Master

To the Honorable Board of Selectmen:

I submit my report as Harbor Master for the year 1953.

This year, there were 78 registered boats in the basin 20 to 83 feet long and a large number of outboard motorboats and sailboats.

All boat owners were required to fill out mooring applications this year. This gives us all the necessary information as to the ownership, type of boat and where the owner of boat can be reached in case of trouble.

All boat owners who made mooring applications this year were issued moorings. I hope we will be able to do the same in the year 1954.

Harbor markers were painted and new reflectors put on all markers, which makes night sailing much easier.

There were 15 boats at Howlands Landing, Standish Shore this year.

I wish to thank the Fire and Highway Departments, Boat owners, Boat Yards, and all persons who helped during the bad storms we had this year.

Respectfully submitted,

SARGENT C. BLACK,
Harbor Master.

HENRY P. McNEIL,
Assistant Harbor Master.

Report of the Trustees of Jonathan and Ruth Ford Fund

To the Citizens of Duxbury:

The following is a statement of the operations of the principal and income accounts of the Jonathan and Ruth Ford Fund for the year 1953:

	Principal	Income
On hand December 31, 1952	\$25,000.00	\$3,391.39
Income for 1953		705.63
		<hr/> \$4,097.02
Paid for relief of worthy cases in 1953		331.00
On hand December 31, 1953	\$25,000.00	<hr/> \$3,766.02

PHILIP W. DELANO,
CHARLES R. CROCKER,
FRANCIS W. PERRY,
JOSEPH T. C. JONES, *Treasurer.*

Report of the Trustees of Agnes S. Ellison Fund

To the Citizens of Duxbury:

The following is a statement of the operations of the principal and income accounts of the Agnes S. Ellison Fund for the year 1953:

Interest added during 1953	15.00
	<hr/> \$1,015.00
Expenditures	0.00
On hand December 31, 1953	<hr/> \$1,015.00

PHILIP W. DELANO,
CHARLES R. CROCKER,
FRANCIS W. PERRY,
JOSEPH T. C. JONES, *Treasurer.*

Report of the Elementary School Building Committee

To the Honorable Board of Selectmen.

Gentlemen:

At the Special Town Meeting held October 24, 1952, it was voted under Article 3 that the Town instruct the Moderator to appoint a committee of seven, including one member of the School Committee, to further study, in cooperation with the State School Building Assistance Commission, the future school building needs, and to present preliminary plans and estimates to provide for such needs at or before the next regular Town Meeting; and voted that they appropriate from available funds now in the treasury \$5,000 for this purpose.

Your committee received notice of its appointment on November 10, 1952, and set to work at once.

We first studied our needs. A pre-school census was conducted by a special committee of the Parent-Teacher Association. Our next step was to schedule as many conferences as necessary with the State School Building Commission in regard to their requirements for State financial aid, and suggestions as to how a good school should be put together. When the pre-school census data was assimilated and thoroughly analyzed, it was concluded that a ten-room primary wing housing the first three grades, plus a remedial reading room, should be added to the present Elementary School. Also, there should be a connecting unit consisting of an all-purpose or utility playroom to replace this same room in the present building, which had to be converted into classrooms.

With these requirements in mind, and after consi-

derable deliberation, your committee commissioned Sturgis Associates of Boston to draw up preliminary plans.

Meanwhile, members of your committee visited a number of schools to get ideas and to learn from the experience of Building Committees in other towns.

After numerous meetings with the architect, your committee decided on a building similar to the present Alcott School in Concord, Mass. This decision was not reached until there had been a number of visits to this school, and talks with the Principal and several of the teachers, getting their opinions on any aspects of the architecture or buildings.

The final preliminary plans were presented at the Annual Town Meeting on March 14, 1953, in accordance with your directions listed above.

Under Article 29 at this meeting, it was voted that the Town raise and appropriate \$431,000.00 for the purpose of preparing final plans and specifications, receiving bids, and to construct and equip a ten room addition to the Elementary School substantially in accordance with the plans of the Sturgis Associates, Inc., as presented at the meeting.

The Town further voted to provide the money for said addition and equipment by appropriating \$151,000.00 from available funds and issuing bonds of the Town for \$280,000 in accordance with the provisions of Chapter 44 of the General Laws and Chapter 56 of the Acts of 1952, with the provision that the whole loan be paid in not less than 20 years from the date of issue of the first bond.

The present Elementary School Building Committee was authorized to expend the appropriation or so much thereof as is needed to determine upon the final plans of said addition and in the name of the Town to make all contracts pertaining thereto, and to do all

things necessary and proper to construct, equip, and furnish said ten room addition to the Elementary School.

Your committee, following the meeting, instructed Sturgis Associates to proceed and present final plans and specifications.

These plans were approved by your committee on June 23, 1953, by the State School Building Commission on July 10, 1953, and submitted for bids on July 21, 1953.

On August 13, 1953, bids were received and opened at the office of the architects. The low bidder was C. A. Batson Company of Brockton, Mass.

The committee then made a very thorough investigation of this company as to their ability to undertake this project. The contract was signed on September 11, and construction began on September 21.

The committee feels very fortunate in having for our architect, Mr. William B. Coffin of Duxbury, a member of the firm of Sturgis Associates. Mr. Coffin visits the project each day, supervising and inspecting every detail of construction.

Your committee hopes to present the completed building to the Town on or about August 1, 1954. At this writing, the Contractor informs the committee that the project is running slightly ahead of schedule.

Respectfully submitted,

EDWARD B. HUTTON, *Chairman*
HARRIET B. BORGESON, *Secretary*
G. LINCOLN DOW, Jr.
EARLE C. GRENQUIST
JACKSON S. KENT
ALICE N. MERRY
WARREN B. STETSON

Report of the Committee to Study the Town Hall and Tarkiln Recreation Centers

January 17, 1954

To the Selectmen of the Town of Duxbury:

At the annual Town Meeting held March 1953 it was voted, under Article 4, that the Moderator appoint a committee of five, together with a member of the Finance Committee to study the Town Hall Recreation Centre and the Tarkiln Recreation Centre with the express purpose of suggesting ways by which these activities can become more self-supporting and the committee is to report its recommendations at the next annual town meeting.

This committee consulted the officials of both recreation centres and found that many different groups used both centres to good advantage. We also found that the groups that used them could be classified into two categories, profit groups and non-profit groups.

Boy Scouts, Cub Scouts, Bon Homme Club, Myles Standish Club etc., were classified as non-profit groups. Dances given by different organizations, dancing school groups etc., were classified as profit groups.

This committee has been advised that in the past some of the profit groups have donated some money for the use of the hall, heat and light when they used it but also there were those who did not donate to it at all.

We suggest that the Selectmen or the Recreation Committees should set a fee per day for the use of the Centres for profit groups only, payable to the treas-

urers of the Recreation Centres and limit the use of the centres, only to those profit groups who are willing to pay this fee.

We believe that the non-profit groups should continue to use the centres as before.

This committee knows of no other ways in which revenue can be gained from these groups and believes that the only fair way to meet the cost of the recreation centres is by the present system of taxation now in use.

Respectfully submitted,

ELBURT C. LOTH, *Chairman*
MRS. JOSEPH DeLORENZO,
MRS. ROBERT H. PIERCE,
CLARENCE J. SMITH,
JOHN T. WALES,
J. ALVIN BORGESON,
Finance Committee.

Report of Playground and Building Committee

To the Honorable Board of Selectmen:

The duties of this Committee were to study the over all town problem of playgrounds, playing fields and available buildings.

The committee at its meetings discussed and visited the various properties under consideration. Considerable study was made of the facilities and properties surrounding the High School and Elementary Schools. The services of a planning engineer were secured, without expense to this committee. The needs of the school department for recreation and athletic activities were presented to us. Consideration was given to the present use of this property by the town and school and preliminary sketches prepared by the planning engineer incorporating the needs of the school department. Unfortunately it was impossible, from existing records, to determine the exact location of the property line of the school property to the northwest of the High School. Because of this fact and the need for more detail study the completion of an accurate and reliable plan could not be made. Further, in view of the fact that the preliminary plans represented only one interest, namely; the school department and, since other interests share an equal consideration in the final development, in the opinion of this committee the problem should be given considerable more study. A study that would allow all interested parties equal participation in a long range development. Since it is acutely tied in with the over all future planning and development of buildings, etc., it is the recommendation of this committee that the study and planned development be turned over to the town Planning Board for further action.

We recommend that another tennis court be constructed. Its location to be determined by the School and Park Departments and construction done by the Highway and Park Departments.

We further recommend that water and drinking fountains be made available and installed at the tennis courts and at the soft ball field.

We further recommend that sufficient work and materials be used and done to improve the condition of the turf and grades of Train Field. Upon completion of this work the use of the field should be restricted as regards public use so as to preserve the good condition of the field.

We further recommend that the swings and play equipment now adjoining the soft ball diamond on Train Field be removed and reset in the area behind Abbott House, the exact location to be selected by the Park Department.

We further recommend that the present bleachers at Train Field because of their hazardous condition be removed.

We further recommend that the land and buildings known as Point School and Village School be disposed of.

We further recommend that the Band Stand be disposed of.

Respectively submitted,

LEWIS B. RANDALL,
ROY E. PARKS,
CLARENCE W. WALKER,
EDWARD L. BUTLER,
KENNETH G. GARSIDE,
EARLE C. GRENQUIST,
LUCIUS A. HOWARD, *Chairman.*

Report of Parks and Playgrounds Committee

To the Honorable Board of Selectmen.

Gentlemen:

Following is a report of the Parks and Playgrounds Committee for the year 1953.

Spring cleaning of playgrounds was started in April. The tennis courts were worked over, some material added to existing low spots and then rolled. Some repairs were made to the back-stops and with the help of the School Athletic Department the tapes were put down ready for use early in May.

Last year Little League Baseball and Softball teams used the same field adjoining Alden Street. It was deemed necessary to place Little League Baseball in a new and safer location and was located back of the Library. The removing of large stumps, plowing, grading and planting of grass seed was done by local contractors.

The parking areas in the Alden and Walker fields were enlarged by cutting down Wild Cherry and Locust trees and levelled up in places. In clearing these fields many Cedar trees have been sold.

The new 6½ foot rotary mower is a wonderful asset in this department and has been most satisfactory. The Highway Department has loaned us a tractor to haul this equipment when it was not being used by them. As a result, the mower was not used as often as we would like to have used it.

With the increased interest in Softball this season and one of the most-used areas in the playgrounds, it was decided to re-seed the softball diamond, which

was done the first of October. A special, tough, playground grass seed was used and a good catch resulted.

Some smoothing-up of the rough spots in the Abbott field was done just before the ground froze. However, there is a lot of smoothing-up to be done in the Abbott, Walker and Alden fields in order to use the mower to the best advantage.

During the Christmas vacation the grass on the baseball diamond and outfield was fertilized. Due to the unexpected rebuilding of the softball diamond this year, the fertilizing of the remaining part of Train Field will be done in the spring.

Respectfully submitted,

ROY E. PARKS, *Superintendent,*
Parks and Playgrounds.

Report of Recreation Committee

To the Honorable Board of Selectmen:

Activities in the Town Hall during the past year have been many and varied, as the hall was in use practically every night and many afternoons especially during the winter season.

Improvements in the hall include new flooring in the kitchen and new shelves. The kitchen is now fully equipped with stove, sink, and refrigerator for the convenience of any units using the hall.

The ladies' room has also been repainted.

The Bonhomme Club (children aged 12-15) got off to a delayed start due to the difficulty of obtaining a suitable director in place of Mr. Vaughan who has left Duxbury. Mr. Richard Beveridge now has the situation well in hand with between 40 and 50 children participating in the program.

There seems to be some difficulty in creating enthusiasm for the re-establishment of the Myles Standish Club, also in obtaining a suitable director, but the committee is applying itself to the problem.

Other groups using the hall are much the same as last year, namely:

Boy Scouts of America

Cub Scouts

St. John's Sunday School

Congregational Sunday School

Various dancing classes (including adult)

Other church groups etc.

The 1953 appropriation of \$1616.00 was expended as budgeted except for the fact that maintenance was more than anticipated and directors' salaries less.

Our budget this year calls for \$1181.00 as against \$1616.00 for 1953 due to reduction in director's salaries. Should the committee be successful in re-activating the Myles Standish Club every effort will be made to accomplish this financially this year without further assistance from the town.

Respectfully submitted,

JOHN HUTCHEON, *Chairman,*
Duxbury Recreation Committee.

Report of Tarkiln Youth Center

During the past year our Teen-age group was disbanded due to seeming lack of interest on the part of the young people.

It has now become a community building and some youth activity on a more limited scale has once again been commenced under the supervision of residents of the area.

A great deal of use has been made of the hall by young people's (below teen age) groups and neighborhood adult groups.

Construction of the new kitchen has been completed and the interior has been redecorated.

The Selectmen completed the painting of the building exterior.

This year we will not need to ask the Town for any public appropriation, and the committee, at this time, wants to thank the Town for its splendid interest and generous support.

Respectfully submitted,

EMILY P. LORING, *Secretary*
PAUL APRIL, *Treasurer*
CLARA BENEVIDES, *President*

Insect Pest Control

To the Honorable Board of Selectmen.

Gentlemen:

I herewith submit my report on Insect Pest Control for the year ending December 31, 1953.

The destruction and unsightliness in the past, caused by the Tent Caterpillar, Elm Leaf Beetle, Gypsy and Brown Tail moths and Fall Web Worm, was conspicuous by its absence. Preventive spraying was done for each insect group.

The Gypsy Moth trapping program was followed again this year. A total of 30 male moths were caught in the traps. This is a little more than four times as many as caught last year. In the final analysis, this increase may have been due to the tornado winds of June 9th.

The Plymouth County trapping program showed an increase in catches in all towns located in the outer edge of the course taken by the Worcester tornado.

A heavy infestation of Army Worms appeared in a hay-field and it was necessary to lay down a barrier of DDT to protect a cornfield and two cranberry bogs.

Respectfully submitted,

ROY E. PARKS, *Superintendent,*
Insect Pest Control.

Report of the Holdover Committee on the Control of Elm Tree Disease

The record of our Tree Department in the control of Dutch Elm Tree Disease during the year 1953 has been outstanding in the whole state.

Eleven trees out of some 1800 were lost. This is 6/10th of one percent. This compares with 33 lost here in 1952. We feel that this record is due to the spray program introduced this year whereby all private trees were sprayed as well as the public trees.

It is of the utmost importance in the continuance of this program that all landowners locate all elms that cannot be serviced by the town sprayer. Small wildlings should be taken out and larger trees watched constantly.

At this time all dead or broken branches should be trimmed out ruthlessly.

We are very fortunate to have the best Tree Department in the State.

MALCOLM C. BROCK, *Chairman*.
ROY E. PARKS,
ROBERT S. CROCKER,
KENNETH G. GARSIDE,
HECTOR M. HOLMES.

Jan., 1954.

Control of Dutch Elm Disease

To the Honorable Board of Selectmen.

Gentlemen:

I submit herewith my report on the Control of Dutch Elm Disease for the year ending December 31, 1953.

Work on the dormant spraying of our elm trees was started a week earlier than last year, but due to so much rain and foggy weather in April, it was not completed until the first week of May. All elm trees (public and private) that could be reached without too much damage to lawns, were sprayed with a 12% DDT solution before the trees came out in leaf. All elm trees received the 6% DDT leaf spray for the control of Elm Leaf Beetle. All elm trees in the vicinity of a diseased elm received a third application of 6% DDT.

Scouting for this disease starts the middle of June and continues through September. All elms are checked for the disease at least three times during the summer.

We have two cases where we have cut a branch thirty feet below the top — where the first symptoms of the disease appears in the leaves—in order to get below the infection and trying to save the remainder of the tree, but up to the present time this has been unsuccessful.

This year there have been eleven Dutch Elm diseased trees out of 1,800 trees that we have sprayed, with exception of one diseased tree in a swamp that was not sprayed. All diseased trees including this tree have been removed.

Last year there were thirty-two diseased trees out of 1,800, but all trees were not sprayed. It looks as though the spraying of all elm trees will pay off.

Out of the eleven diseased trees this year, six of them are a result of natural root grafts underground.

The five new diseased trees, or top infections, occurred in the group of trees sprayed on the last day of the spray program in daytime spraying. Unquestionably night spraying has the advantage in many ways over daytime spraying.

We have had Dutch Elm Disease in Duxbury for over seven years and our percentage of control has been better than 99% each year for the seven year period on the trees that we have cared for.

Respectfully submitted,

ROY E. PARKS,
Tree Warden.

Report of the Tree Warden

To the Honorable Board of Selectmen.
and the Citizens of Duxbury:

I submit herewith the report of the Tree Department for the year 1953.

The 1,000 young White Pine seedlings that we carried over in the nursery from last year (because of unfavorable planting conditions) were transplanted in the Town Forest in the spring. The fall checkup on these trees showed better than a 95% catch.

The trees in our nursery were taken up and moved to a new location. Additional stock in several varieties has been added. There have been 27 trees planted along streets the past season.

Spraying, pruning, cabling and removing dead and dangerous trees was done where necessary.

ROY E. PARKS,
Tree Warden.

Report of Chief of Police

To the Honorable Board of Selectmen.

Gentlemen:

Following is the report of the Police Department for the year ending December 31, 1953.

JAMES T. O'NEIL,
Chief of Police.

Date: January 9, 1954

Report of Shellfish Constable

To The Honorable Board Of Selectmen:

I respectfully submit my report as Shellfish Constable for the year 1953.

This year we have been able to gather large quantities of Bay Scallops in the area between Clark's Island and the main channel, and also from areas on the Powder Point shore and vicinity. Besides being welcomed as a most delicious seafood I feel it will mean additional income for the residents of Duxbury.

The Biologists from The Division of Marine Fisheries feel that the arrival of the scallops is due to New England's climate warming up and the warming of the waters North of Cape Cod Bay. Since a major part of the scallops are found where the eel grass is heaviest it seems that the increased growth of eel grass might influence the propagation of scallops.

During the summer months one man worked part time in the areas where we have small clam seed, picking and destroying horseshoe crabs and cockles. 1,555 crabs and 4½ pails of cockles were picked and destroyed. We paid \$41.80 for this work, a small cost for the benefit derived thereby.

Fifty-three commercial permits at \$2.50 each were issued, twenty-five since the October 1 open season on scallops — total \$132.50. 1,032 family permits, 29 of which were free to people seventy years of age or over, 80 at .25 each and 923 at .50 each, were issued during the year — total \$481.50.

Following is the record of shellfish taken by com-

mercial diggers, who worked intermittently during the year:

319	bushels of Razorfish @ 4.00	\$1,276.00
293	bushels of Razorfish @ 4.33 $\frac{1}{3}$	1,269.67
139 $\frac{1}{2}$	bushels of Razorfish @ 6.00	840.00
42	bushels of Razorfish @ 5.00	210.00
30	bushels of Razorfish @ 8.00	240.00
902	bushels of Quahaugs @ 2.00	1,804.00
47	bushels of Quahaugs @ 4.00	188.00
32	bushels of Quahaugs @ 3.50	112.00
66	bushels of Quahaugs @ 3.00	198.00
50	bushels of Quahaugs @ 2.50	125.00
21	bushels of Clams @ 10.00	210.00
17	bushels of Clams @ 8.00	136.00
98	bushels of Mussels @ 2.00	196.00
500	Pounds of Periwinkles @ .08 lb.	40.00
8,000	Seaworms @ 2 $\frac{1}{2}$ cents apiece	200.00
15,000	Seaworms @ 3 $\frac{1}{2}$ cents apiece	525.00
6,000	Seaworms @ 5 cents apiece	300.00
3,500	Seaworms @ 3 cents apiece	105.00
62 $\frac{1}{2}$	bushels of Scallops @ 3.50	218.75
		<hr/>
		\$8,193.42

Holders of Commercial Permits dug an additional 257 $\frac{1}{2}$ bushels of Scallops with a value of \$899.50 @ 3.50 a bushel, which they put into freezers or gave away, and 11 bushels of sea clams.

Residents of the town and holders of Family Permits took an estimated 200 Bushels of scallops from the Powder Point area.

Seventeen notices were sent grantholders requesting a report of work done on grants.

There were 604 bushels of quahaugs, and 10 bushels

of Clams planted on grants this year. 200 bushels of Quahaugs were taken from grants in 1953.

During the year 1 clam grant was renewed, 1 transferred and 2 issued at a charge of \$5.00 each — Total \$20.00.

Seventeen annual fee forms were sent out and \$24.75 was collected as annual fee assessments from grant holders.

I arrested two men for dredging of shellfish and digging of shellfish without permits. They were assessed five dollars each at Plymouth District Court.

The Regulations have been revised and the penalty for the violation of any of these regulations "shall be a fine of not less than ten dollars nor more than fifty dollars for each offense and the revocation of the license or permit."

The corner stakes were put out on one clam grant and all shellfish regulation signs kept in repair.

Respectfully submitted,

HENRY P. McNEIL,

Shellfish Constable.

Report of Veterans' Agent

January 11, 1954

To the Honorable Board of Selectmen:

I respectfully submit my report as Agent and Director for the Department of Veterans' Services for the year 1953.

During the year this Department has had considerable more work because Veterans of the Korean conflict are being discharged intermittently and are eligible for many State and Federal benefits and require assistance in filing for them. We now find that World War I Veterans require more assistance and attention because they now are reaching an age where they are more susceptible to sickness and it is much harder for them to obtain steady employment.

We were successful in obtaining three Federal Pensions with retroactive awards for Veterans and their dependants.

We have continued to register young men for Draft Board No. 129 where it is necessary for them to register, within 5 days after they reach 18 years of age.

This year we had a total of 12 cases, representing 35 persons who received Ordinary Benefits. Our appropriation was \$7,160.00, and due to unemployment and unforeseen medical expenses it was necessary to obtain from the Finance Committee an additional sum of \$310.00 to carry this Department through the last month of the year. The State Department of Veterans Services will reimburse the Town for approximately half of the amount expended.

Respectfully submitted,

HENRY P. McNEIL,

Agent.

Assessors' Report

This year the Board of Assessors voted to improve its facilities for road work. The need for road-work aids is best illustrated by the following comparison:

	1943	1953
Number of Houses	1543	1967
Number of Polls	916	1271

Although there are more year 'round residents and more houses, the number of livestock to be assessed has dropped in the last ten year period.

	1943	1953
Horses	21	13
Cows	100	80
Neat Cattle other than Cows	16	92
Swine	38	8
Sheep	7	35
Fowl	8578	6385
Goats	—	14

Land in Duxbury has been cut into smaller parcels as illustrated by the fact that 1739 people owned all of the real estate in 1943, whereas in 1953 there were 2284 owners of real estate in this town.

Contrasting 1943 and 1953 values of Duxbury real estate shows how land values have increased:

	1943	1953
Value of Buildings	\$5,404,263	\$7,522,795
Value of Land	1,764,577	2,045,225
	<hr/>	<hr/>
	\$7,168,840	\$9,568,020

Although the value of land in Duxbury has increased nearly \$400,000., the number of acres of land subject to taxation has changed very little:

	1943	1953
Acreage	13,690	13,423

Personal property subject to taxation has increased also, from \$357,732 in 1943 to \$739,230 in 1953. This increase is due in part to a considerable increase in the value of poles and wires of public utilities and partly due to increased values of stock in trade owned by local merchants.

In 1953 Duxbury was required to raise the sum of \$11,312.34 towards the support of the Plymouth County T. B. Hospital.

Duxbury was also assessed the sum of \$30,145.79 as a county tax. This money helps support the Registry of Deeds, the Plymouth Superior Court and the district courts, county highways and other county level agencies.

In 1953 Duxbury raised \$505.45 towards the State Parks and Reservation system.

The cost of this year's audit of our municipal accounts was \$1,053.99.

Better than anything else the following comparison indicates the rapid growth of municipal costs in the Town of Duxbury:

	1943	1953
Taxes on Personal Estate	\$7,691.24	\$31,786.89
Taxes on Real Estate	154,130.06	411,424.86
	<hr/>	<hr/>
	\$161,821.30	\$443,211.75

Assessors visited every parcel of real estate and made every effort to equalize valuations throughout the town.

In 1953 the value of motor vehicles in Duxbury reached an all time high of \$994,980. It must be kept in mind that this is an all over figure covering every car registered in Duxbury, and that by reason of the frequent transfer and sale of automobiles the actual value

of the cars in town would be considerably less than this. Excise taxes of \$43,201.63 were assessed. This, too, is an all over figure and many abatements were granted as the result of sales and transfers.

Report of Board of Health

I herewith submit my report as agent for the Board of Health.

There were considerably more cases of communicable diseases this year, but mumps was the only one which was really widespread. The figures for the year were as follows:

Chicken Pox	52
German Measles	5
Measles	3
Mumps	167
Poliomyelitis	5
Whooping Cough	2
Venereal	1
Dogbite	8

Families are again urged to report all communicable cases to the health agent when they are so mild as not to require a doctor's services. Doctors are by law required to report all cases that they see.

In December of 1953 the Board of Health voted into being a Health Code for the Town of Duxbury which is to go into force on April 1, 1954. Local town regulations such as these are encouraged by the Massachusetts Department of Public Health because they enable the local health boards to take direct action on most problems without relying on the General Laws of the Commonwealth via the Public Health Department. The code as adopted for Duxbury follows, with very few exceptions, the sample code suggested by the Commonwealth.

This code is to be printed in full in the Duxbury Clipper before it goes into effect, and copies will be available at the Town Office. You are urged to

read it so that there will be no violations and the health of the town will continue to improve.

A series of analyses of the waters of the yacht basin this past summer conducted at the request of the board by the State Sanitary Engineers office showed that there was at least one source of pollution of these waters by sewage. Further testing of individual disposal systems using fluorescein green dye showed that sewage from three systems was finding its way into the basin. Two of these have already been replaced, and the third is under way. The Board would appreciate being told of any other possible sources of pollution of Duxbury Bay. The basin was found safe for swimming after a series of tests conducted by the State Department of Public Health.

We have distributed over 250 pounds of rat bait in 1953 to people from all areas of town.

The School Dental program under the sponsorship of the Board of Health has had another successful year. Permissions for dental work were signed for 232 children who made 630 visits to the school dentists. As of this coming September, all school children will have the dental examination as usual, but because of the increases in school population and dental costs the Board has passed the following regulation:

Dental work, for other than Welfare cases, will be performed only on referral by the School Department or on approval of application made to the Board of Health.

We are grateful to the State Board of Public Health for their assistance and cooperation in the inspecting and licensing of eating establishments, chicken farms, and the like.

Respectfully submitted,

GEORGE ROSS STARR, JR., M.D.,

Report of The Board of Public Welfare and Bureau of Old Age Assistance

To the Honorable Board of Selectmen:

The work of the Board of Public Welfare and the Bureau of Old Age Assistance has been carried out with little change during the past year.

For the benefit of those unfamiliar with the program of the Board, a brief explanation of the four categories of aid may be of interest.

Old Age Assistance is a type of aid granted to citizens 65 years of age or older, who are unable to provide for themselves.

Aid to Dependent Children is designed to provide for children under 16 if they have no parent capable of supporting them.

Disability Assistance provides for those over 18 and under 65 who are physically incapacitated and unable to support themselves.

General Relief gives assistance, usually of a temporary nature, to those in need who do not fall within any one of the other categories.

In all forms of assistance, the program is administered according to regulations laid down by the Department of Public Welfare of the Commonwealth of Massachusetts and subject to supervision by that Department. Since this is so, the local Board is closely restricted in scope. It is always subject to these regulations that your Board makes its decisions attempting to provide adequately for the needy with due regard to the money spent.

Except for General Relief which is the expense of Town of Settlement or the Commonwealth, there is Federal and State reimbursement on an established percentage basis. The Federal grants are available to the local Department, while the money from the State paid to the Town of Duxbury goes into the E. and D. account.

In comparing the records of this past year with those of five years ago, we find, that the case load is approximately the same, while the cost per case, as would be expected, has increased considerably. In 1953 the average case load for Old Age Assistance was 74 with the average cost per case \$82.87 per month. Five years ago the case load in this category was approximately the same but the cost per case was \$59.16. The increase over the years is due to the increased cost of living and especially to the rising expenses of hospitalization and nursing home care, now very prevalent in this category.

The case load for Aid to Dependent Children last year was 6 with an average cost per case of \$78.68. Five years ago the average case load was 8 and the cost per case \$30.95.

Disability Assistance had an average case load of 12, with a cost per case of \$68.37. Since this category was new in 1951, there are no comparable figures for 1948.

The budget for 1954 has been figured on the basis of approximately the present case load with the same cost per case as 1953 except for a provision for the new increase in hospital rates. The amount to be requested is \$63,400 plus \$200 for Out-of-State Travel. This compares with the 1953 appropriation of \$62,600 plus \$300 for Out-of-State Travel.

In more detail, the budget is as follows:

O.A.A.	\$81,563.55
A.D.C.	6,917.30
D.A.	10,002.75
G.R.	9,948.20
	<hr/>
	108,431.80
Less Federal Grants (estimated)	45,047.41
	<hr/>
	\$63,384.39

Last year for the first time, it was possible for the Town to vote one lump sum for the Department of Public Welfare, rather than a separate sum for each category. This made it possible to transfer funds within the Department as needed without asking Town approval. This plan worked well in 1953 and it is the request of the Board of Public Welfare that this same procedure be followed in 1954.

Under the provisions of the Lien Law the sum of \$7554 was recovered during 1953.

The members of the Board wish to express their appreciation to the Selectmen for their co-operation and also to the many citizens who have been of assistance during the year.

Respectfully submitted,

ALICE H. GARSIDE, *Chairman*
HOWARD M. CLARK
HERBERT R. NELSON
PAUL N. SWANSON
PAUL C. BARBER

Report of the Finance Committee

The first meeting of your Finance Committee was held on April 16, 1953, at which time Edward L. Butler was elected Chairman, Robert Seymour, Vice-Chairman, and William A. Scherff, Secretary.

Several regular and special meetings were held prior to the Special Town Meeting of June 26, 1953. Periodic meetings were held after that date to discuss matters of a general nature.

Our real work has started, and is now going on, as this report is written. The various Town Departments are now preparing and submitting their 1954 Budget Requests. These budget requests are studied and discussed with the individual department heads by subcommittees who then present them for final approval or disapproval by the full Finance Committee.

New Budget Request Forms, prepared by the Finance Committee, are being used this year. These forms show 1953 Budgets, 1953 Actual Expenditures and 1954 Budget Requests so that a ready comparison may be made during discussion. The results of the current work being done by your Committee will be more fully discussed in our report, which will appear in the Warrant for the Annual Town Meeting.

Several of our members attended the spring and fall meetings of the Association of Town Finance Committees at Boston. We feel that much valuable information is obtained at these meetings.

Your Committee authorized the following transfers from the Reserve Fund during the 1953 year. These transfers are made for unforeseen or emergency expenditures.

October 22	Police Department	\$1,057.17
October 22	Fire Department	1,904.85
December 3	Fire Department	52.80
December 17	Fire Department	37.16
December 17	Shellfish Department	43.35
December 23	Veteran's Benefits	250.00
December 30	Police Department	105.50
December 30	Appeal Board	46.88
December 30	Veteran's Benefits	60.00
December 30	Fire Department	27.60
December 30	Group Insurance	11.00
December 30	Town Treasurer	72.11
December 30	Shellfish Department	26.89
Total Transfers		<hr/> \$3,695.31

We wish to thank the various Town Departments and officials for their courtesy and cooperation. Without their aid and assistance, it would be very difficult for this Committee to function effectively.

Respectfully submitted,

EDWARD L. BUTLER, *Chairman*
ROBERT SEYMOUR, *Vice Chairman*
WILLIAM A. SCHERFF, *Secretary*

Duxbury Free Library

In December 1953, the present librarian completed her first calendar year as librarian of the Duxbury Free Library. It is a source of much satisfaction for the librarian to report that 1953 has been a year of marked and steady growth for the Library. There has been an increase of 11,447 in the circulation over that of 1952, an increase of almost 1000 a month. The total circulation was 33,699. Five hundred and seventy-four residents took out cards during the year and 366 of these were new borrowers. The total registration is now 1383.

In view of this widely increased use of the Library, it has been quite impossible since last May, when our help was curtailed to some extent, to carry on any systematic programme connected with the discarding of unnecessary material and the re-cataloguing of the books. While the discarding goes on daily in connection with the regular library routine, the big problem of re-cataloguing the Library remains to be solved. With the growing demands made upon the Library and its facilities, the Librarian and Staff have had to devote every minute to serving the public; filling their requests, keeping abreast of the new books, trying to fill in the gaps in the book-collection and endeavoring to make the Library as attractive and useful as possible.

This increased use of the Library in a growing community poses a real problem for the Librarian who hopes to build up and maintain a high standard for the Library. On a small book-budget, reduced by the tripled price of books in the last few years, it is difficult to supply the books which are requested. It is earnestly hoped that a larger book-budget may be available in 1954.

The work with the Young Adults and Children is

progressing by leaps and bounds. The need for more books in this department and in the reference collection is also an urgent one. Gradually the work with the schools is developing, with many of the teachers bringing their classes to visit the Library. The children register if they have not already taken out a card and select books for themselves and together with their teacher pick out a deposit for their class-room. In December the Librarian visited the Elementary School and read Christmas stories to the first and second Grades.

During Education Week in November, the Parent-Teacher's Association and the Library co-operated in holding a two-day "Book Fair," in the High School auditorium. New books to be sold were sent down from the New England News Company and by Mrs. Fletcher Colby of the "Junior Reviewers." Mrs. Colby expressed a desire to do something for Duxbury and generously donated the money received from the sale of the books to the Library. The Parent-Teacher's Association and the Library shared what profit was made from the sale of the New England News Company books. In connection with the Fair, the Librarian arranged a "miniature library" exhibit with the hope that it would induce the public to further investigation of the Library's treasures. This exhibit included a representative collection of about 300 adult and junior books of all classes. So much interest was evidenced by visitors at the Fair that the Librarian and Staff felt well repaid for all of the extra work which was connected with this event. Many requests have been received at the Library for books which were "seen at the Fair."

A service to "shut-ins" was also inaugurated in 1953 and is now being carried on by volunteer workers.

Repairs to the building have been made as the

need arose and in February 1953 the floors were sanded and polished. This excellent job restored the wood to its original beauty and all who came to the Library were enthusiastic in their praise of the improved appearance of the Library. At long last the big clock over the fireplace is in running order, which accomplishment is also a source of satisfaction to all.

On May 13, 1953, the Library suffered a grievous loss in the death of Mr. H. B. Bradley, the Chairman of the Board of Trustees. His genial presence, his enthusiastic support of the plans suggested for the reorganization of the Library, his understanding of the problems involved and his advice and help in all directions were of invaluable support to the new Librarian. Mr. Bradley has been and still is deeply missed by the Librarian and the Staff.

In bringing this report to a close, the Librarian wishes to emphasize once more, the most immediate needs of the Library. They are: a larger book-budget, an increase in salary for the Staff which would enable them to give a few more hours each week to the Library and some provisions for a part-time worker who could be called upon in the event of illness among the members of the Staff and during vacations. It has been most fortunate for the Library that Mrs. Margaret R. Bates has been able to assist on Saturday evenings and that she is available when needed.

The Librarian wishes to extend her thanks and appreciation to the Trustees, to the Staff, to the Duxbury Community Garden Club and to all of the "friends of the Library" who have done so much during the past year to add to the pleasure of working in the Duxbury Free Library.

Respectfully submitted,

MINNIE BURKE FIGMIC,

Librarian.

Report of the Planning Board

To the Honorable Board of Selectmen
and Citizens of Duxbury:

The tabulation of building permits issued by the Selectmen for new construction is as follows:

1946	1947	1948	1949	1950	1951	1952	1953
32	51	36	64	85	75	66	59

During the calendar year 1953 the Board voted approval of 7 subdivisions. The Planning Board was asked to consider 9 subdivisions on either a formal or informal basis, and after the new subdivision control law became effective, as detailed below, was asked to endorse 13 plans prior to recording, with the statement that "approval under the subdivision control law not required." The largest single subdivision to come before the Board was the one for "Duxbury Lake Shores" located adjacent to the shore of Lower Chandler Pond on the Duxbury-Pembroke town line and involving in Duxbury 69 lots, excluding 5, which were adjudged by the Board of Health to be unsuitable for building. (Duxbury Lake Shores lies South and a bit East of Birch Street one-half mile approximately Southwest of Route 3 on Birch Street. Birch Street leaves Route 3 in a Southwesterly direction three quarters of a mile on Route 3 Northwest of the Tarkiln School, now the Tarkiln Recreation Center).

Revisions in the Subdivision Control Law enacted in 1953 became effective October 2nd 1953 and applied automatically to all Planning Boards already functioning. The major effect, so far as Duxbury is concerned, is to require endorsement by the Duxbury Planning Board of practically every plan of land to be conveyed in the Town of Duxbury, prior to the recording of the

plans. Because of the increased clerical load thus caused, and because of the increasing value and volume of the Planning Board's correspondence and map files, the Board of Selectmen, cooperative and helpful as is their custom, are making arrangements for office space for the Planning Board. We feel sure that this step will make it more convenient for those persons having business with the Planning Board to get in touch with the Board and so far as the Board is concerned, the advantage of having a regular meeting place at which all our filed data will be available during the meeting is enormous.

The revised subdivision control law defines "subdivision" and then goes on to define certain specific cases which shall not be considered to be subdivisions as follows:

"provided, however, that the division of a tract of land into two or more lots shall not be deemed to constitute a subdivision within the meaning of the subdivision control law if, at the time when it is made, every lot within the tract so divided has frontage on a public way or a way shown on a plan theretofore approved in accordance with the subdivision control law, of at least such distance as is then required by zoning or other ordinance or by-law, if any, of said city or town for erection of a building on such lot, and if no distance is so required, has such frontage of at least twenty feet. Conveyances or other instruments adding to, taking away from, or changing the size and shape of, lots in such a manner as not to leave any lot so affected without the frontage above set forth, or the division of a tract of land on which two or more buildings were standing when the subdivision control law went into effect in the city or town in which the land lies into separate lots on each of which

one of such buildings remains standing, shall also not be deemed to constitute a subdivision."

Municipal Planning and Subdivision Control
Legislation Section 81 L of Chapter 41, G. L.
(Chapter 494-1913 with amendments through
and including Chapter 674-1953)

We quote the portion of the statute given above to indicate the type of plan not a subdivision, which will now under the revised statute require the endorsement of the Planning Board.

In the case of a plan, not a subdivision, on which the endorsement of the Planning Board is desired, it will not be necessary to be present at a meeting of the Board. Just leave two copies of the plan in question for the attention of the Clerk of the Duxbury Planning Board with a letter of explanation, telling for what purpose the endorsement is desired and referring to a description of the property in sufficient detail to identify the plan and the name of the person who surveyed it. If the Planning Board agrees that there is no subdivision involved, it will vote at its next regular meeting to authorize the Clerk to endorse the plan. The clerk will retain one endorsed copy of the plan with the letter of explanation for the Board's files, and return the other endorsed copy to the person who presented the plan. If the endorsement is needed on a tracing rather than a blue-print, the Clerk, or other authorized member of the Board, will provide it on the tracing at a time mutually convenient, usually when the endorsed print is picked up. The Clerk of the Board does not wish tracings left in his custody where no subdivision is involved.

Your Board made a start on the Study Map of the Town, but we were unable to do much of any work on

the Study Map after it was presented at the Town Meeting and Election on March 14th and 21st 1953 because of lack of funds. We plan to continue the Study Map in 1954 and wish particularly to make detailed study of Hall's Corner with a view toward presenting an article for action at the Town Meeting in March 1955.

As a result of suggestions received from many sources and because of the unanimity of the opinions expressed by those citizens who took advantage of our "suggestion box" under the maps at the 1953 Town Meeting, we are planning to sponsor an article on House Numbering in the Warrant for 1954. This would be an *entirely voluntary* matter as we propose it, and would merely provide for a numbering plan so that any house owner who desires may determine the proper number for his house or lot, and if he feels inclined place on display this "official" number which would not later have to be changed. We estimate the cost of the necessary tracings or "vellums" for the numbering plan and the engineering and drafting time involved to be \$600.00.

As this report is written, it appears that it will be desirable to consider a building code for Duxbury which we understand may be adopted as a by-law by a majority vote at a Town Meeting. Your Planning Board feels very strongly that consideration should be given to increasing either the minimum street frontage required in the zoning by law, or the minimum lot size required, or both, in most of the area presently zoned for residence use, in order that the rural character of Duxbury may be preserved for our descendents. Your Board feels that this rural atmosphere is what attracts to Duxbury the type of families who make the Town as we know it and love it today. We feel that relatively large lots, and houses not packed too closely together

will tend to continue this rural character, and that as a result Duxbury will continue to appeal to people who will preserve its rural tradition.

Acknowledgement

The Planning Board wishes to acknowledge the co-operation and aid of the Board of Selectmen in the enforcement of zoning and planning regulations. The Highway Superintendent, the Superintendent and Commissioners of the Water District, and the Agent of the Board of Health, have been always co-operative and helpful where consideration of Highway, Water or Sanitary facilities were involved in subdivision control.

We continue our hope that the citizens will call to our attention areas in which the Planning Board can be of service in preserving that which we consider valuable in Duxbury and in directing its growth and change in a satisfactory manner.

Respectfully submitted,

OLIVER L. BARKER, *Clerk*

KENNETH G. GARSIDE

CHARLES H. WANSKER

PERCY L. WALKER

ATHERTON LORING, *Acting Chairman*

Report of Town Clerk

MARRIAGES RECORDED IN DUXBURY IN 1953

- February 8. In Plymouth, George R. Ivanoff of Duxbury, and Cynthia Rossi of Kingston, by Rev. Martin J. Hasz.
- February 10. In Plymouth, Harold G. Burbank, Jr. of Manchester, Connecticut, and Patricia J. Barry of Duxbury, by Herbert K. Bartlett, J. of P.
- March 19. In Duxbury, Ralph A. Hollis of Plymouth, and Blanche Caron of Duxbury, by Rev. William S. Anthony.
- March 27. In Duxbury, Harold J. Andrews of Shrewsbury, and Mary (LeBaron) Campbell of Duxbury, by Rev. Thomas H. Campbell.
- March 28. In Duxbury, Paul Bancroft Clifford of Weston, and Shirley Carter Hamilton of Duxbury, by Rev. William S. Anthony.
- April 4. In Plymouth, Otis E. Randall, Jr. and Barbara Glass, both of Duxbury, by Herbert K. Bartlett, J. of P.
- April 4. In Duxbury, Edwin L. McAuliffe and Clara (Rogers) Spalding, both of Duxbury, by Rev. George D. Hallowell.
- April 16. In Amesbury, Francis I. Harmon and Patricia Wheeler, both of Duxbury, by Nimrod E. Olsson, J. of P.
- April 18. In Plymouth, John W. Ruprecht of Plymouth, and Sandra M. Higgins of Duxbury, by Herbert K. Bartlett, J. of P.

- April 18. In Duxbury, John T. McGarigal and Sally Ann D'Amelio, both of Duxbury, by Rev. William P. Conley.
- April 18. In Needham, Allan H. Southard, Jr. and Helen Williams, both of Duxbury, by Rev. James W. Macdonald.
- April 25. In Central Ermita, Oriente, Cuba, Francis Cushing Rogerson, Jr. of Duxbury, and Maria Louisa Mujica Agarrado of Central Ermita, Orienta, Cuba, by Julio Rodreguez Fromita, J. of P.
- May 30. In Duxbury, Joseph C. G. Martin of Somerville, and Marion F. Donnelly of Brookline, by Rev. William P. Conley.
- June 7. In Duxbury, Kenneth A. Howland of Duxbury, and Virginia Grandi of Plymouth, by Rev. Herman F. Lion.
- June 13. In Duxbury, Ronald L. Everett of Duxbury, and Judith A. Rising of Marshfield, by Rev. William S. Anthony.
- June 20. In Kingston, George F. Santos of Duxbury, and Augustine T. Andrade of Marshfield, by George W. Cushman, J. of P.
- June 21. In Duxbury, Charles Lieb Millis and Charlotte Adelaide Hickman, both of Springvale, Maine, by Rev. John W. Estes, Jr.
- June 27. In Duxbury, Dixon Bogart White of Weston, and Sarah Metcalf Eaton of Wellesley Hills, by Rev. Herman F. Lion.
- July 4. In Duxbury, David V. Poland of Bridgewater, and Dorothy H. MacLeod of Duxbury, by Rev. William S. Anthony.

- July 5. In Plymouth, Merritt S. Ferrell of Duxbury, and Lillian D. Jesse of Plymouth, by Rev. Leonard C. Harris.
- July 18. In Duxbury, Charles R. Lovejoy of Philadelphia, Pa., and Ruth E. Lougee of Duxbury, by Rev. Herman F. Lion.
- July 18. In Plymouth, Arthur J. Martin of Duxbury, and Mary R. (Souza) Taylor of Plymouth, by Herbert K. Bartlett, J. of P.
- August 14. In Kingston, Frank J. Lombardi and Cora M. Martin, both of Duxbury, by George W. Cushman, J. of P.
- August 19. In Duxbury, James S. O'Neil and Harriet (Dunn) Shipley, both of Duxbury, by Rev. John W. Estes, Jr.
- August 29. In Duxbury, Kirby Ducayet Kellar and Constance Louise Thornton, both of Duxbury, by Rev. John W. Estes, Jr.
- September 5. In Haverhill, Gilbert Irving Carlson of Duxbury, and Mildred Cantrell of Haverhill, by Rev. Orville D. Ullorn.
- September 5. In Plymouth, Harold V. Demaine of Plymouth, and Pauline Govoni of Duxbury, by Rev. Charles C. Forman.
- September 12. In Duxbury, Ralph C. Colby, Jr. of Quincy, and Lee Hazel Marston of Duxbury, by Rev. John W. Estes, Jr.
- September 12. In Winchester, Charles H. Wansker, Jr. of Duxbury, and Carolyn June England of Winchester, by Rev. Dwight L. Cart.

- September 12. In Duxbury, Horace Adali Sawyer, Jr. of Winchester, and Sarah Joy Danner of Duxbury, by Rev. Joseph C. MacDonald.
- September 13. In Duxbury, Richard L. Lippard and Gertrude E. Phillips, both of Duxbury, by Rev. William S. Anthony.
- September 19. In Dighton, Joseph Maxwell Greenberg and Martha Ann Bowden, both of Duxbury, by Rev. James K. Allen.
- September 20. In Duxbury, James Alexander Strachan, Jr. of Hanover, and Winona M. (Peacock) Nichols of Duxbury, by Rev. Charles E. Nelson.
- September 23. In Duxbury, Elmer Davidson of Baker, Florida, and Anna M. Glass of Duxbury, by Rev. William P. Conley.
- September 25. In Reading, Carl E. Bitters of Duxbury, and Irene B. Butt of Cambridge, by Rev. James M. Kelley.
- October 3. In Plymouth, Clayton L. Campbell of Plymouth, and Pansy C. Soule of Duxbury, by Rev. John A. McLaughlin.
- October 16. In Duxbury, John Edward Lucey of Duxbury and Edith (Dedekam) Turley of Dorchester, by Rev. William L. Lucey.
- October 17. In Duxbury, Donald E. West of Seattle, Washington, and Marcia E. Berghaus of Duxbury, by Rev. William P. Conley.
- October 18. In Duxbury, Percy C. Tucker of Hanover, and Helen C. Jones of Duxbury, by Rev. John W. Estes, Jr.

October 24. In Duxbury, Richmond Bryant Ellis and Toni LeClair, both of Duxbury, by Rev. William S. Anthony.

November 25. In Quincy, Robert Boyd Blackler, Jr. of Boston, and Carolyn (Dana) Barbour of Duxbury, by Rev. Charles A. Wing.

November 27. In Duxbury, Walter F. Morlock of Duxbury, and Annemarie Davis of Plymouth, by Rev. William P. Conley.

December 12. In Duxbury, John B. Thayer, Jr. of Edgewood, R. I., and Elizabeth J. Mosher of Duxbury, by Rev. William S. Anthony.

December 26. In Newton, Richard Kenneth Chisholm of Duxbury, and Anita Marie Piscopo of Newton, by Rev. George F. Sullivan.

December 30. In Boston, Charles K. Burnham of Duxbury, and Dorothy M. Bellew of Mansfield, by Rev. Dana Greeley.

Respectfully submitted,

JOSEPH T. C. JONES,

Town Clerk.

Town Meeting

March 14, 1953

The meeting was called to order at 1:10 p.m. by the Moderator, William W. McCarthy.

An invocation was given by Rev. William P. Conley.

It was voted to dispense with the reading of the warrant by the Town Clerk.

A quorum being in attendance, the meeting was declared in order.

The Tellers, Helen F. Dawes, Gilbert F. Redlon, Frank H. Williams, Harry A. McNaught, Rodney W. Leach, Charlotte C. Drake, Mary C. Crocker, J. Alvin Borgeson, Roger H. Howland, Alice E. Merry, were sworn in by the Moderator.

There being no objection, the Moderator declared that proponents on any article in the warrant should be given opportunity to speak on the question being voted upon before the article is tabled, as in previous years.

Under Article 1, Voted, that necessary Officers not chosen by ballot be appointed by the Selectmen.

Under Article 2, Voted, that the reports of the various Town Officers and Committees be accepted as printed in the Town Report, with the exception of the report of the High School Stage Committee which will be read at the time Article 48 is discussed.

Under Article 3, Voted, that the compensation of the elected Town Officers for 1953 be fixed as follows and that the sum of \$11,865.00 be raised and appropriated to pay for same:

Salaries of Elected Officials: 1953

Selectmen:

Chairman	\$1,400.00
2nd Member	512.50
3rd Member	512.50

Assessors:

Chairman	1,200.00
2nd Member	550.00
3rd Member	550.00
Town Clerk	1,500.00
Town Treasurer	1,500.00
Tax Collector	2,500.00
Tree Warden	1,600.00
Moderator	40.00

And that any increases be made retroactive to January 1, 1953.

Under Article 4, Voted, to raise and appropriate the following amounts for the following Town Departments:
General Government:

Selectmen's Department	\$2,606.00
Accounting Department	3,122.00

Interest	7,735.00

Under Article 5, Voted, to raise and appropriate the sum of \$425.00 to be expended under the direction of Myles Standish Camp, No. 115, S. U. V. C. W. for the observance of Memorial Day.

Under Article 6, Voted, that the Town Authorize the Town Treasurer, with the approval of the Selectmen, to borrow money from time to time in anticipation of the revenue of the financial year beginning January 1, 1953, and to issue a note or notes therefor, payable within one year, and to renew any note or notes as may be given for a period of less than one year in accordance with Section 17, Chapter 44 of the General Laws. (Yes 239, No 0).

Under Article 7, Voted, that the Town authorize the Town Treasurer, with the approval of the Selectmen, to borrow money from time to time between January 1, 1954, and the date of the 1954 Annual Town Meeting, in anticipation of the revenue of the financial year of 1954, and to issue a note or notes therefor, payable within one year, and to renew any note or notes as may be given for a period of less than one year in accordance with Section 17, Chapter 44, General Laws. (Yes 245, No 0).

Under Article 8, Voted to raise and appropriate \$100.00 for the use of the Plymouth County Trustees for

the County Aid to Agriculture, and appoint Malcolm C. Brock, Town Director.

Under Article 9, Voted, to apply the dividend from the Plymouth County Dog Fund in the amount of \$606.14 to the support of Schools.

Under Article 10, Voted, to appropriate \$400.00 now in the hands of the Treasurer to the Cemetery Department.

Under Article 11, Voted, to appropriate \$5,000.00 from the Overlay Reserve Fund to the Reserve Fund.

Under Article 12, Voted, to raise and appropriate \$1,000.00 to continue revision of the Assessor's Map.

Under Article 13, Voted, to raise and appropriate \$1,000.00 and transfer from available funds now in the Treasury \$2,000.00 for the Town's share of Chapter 90 Highway Maintenance.

Under Article 14, Voted, to raise and appropriate \$4,000.00 and to transfer \$12,000.00 from available funds now in the Treasury for the Town's share of Chapter 90 Highway Construction.

Under Article 15, Voted, to raise and appropriate \$950.00 to be expended under the direction of American Legion Post No. 223, July 4th Duxbury Days Committee, in connection with the 1953 parade and celebration.

Under Article 16, Voted, to appropriate from the Excess and Deficiency Account a sum not to exceed \$20,000.00 to be used to reduce the tax rate.

Under Article 17, Voted, to accept the provision of Chapter 531 of the Acts of 1952 as amended by Chapter 20 of the Acts of 1953.

Under Article 18, Voted, to raise and appropriate \$36,250.00 to provide for the Town's share of the cost

of construction of two sea walls at Duxbury Beach and that said appropriation shall be provided for as follows:

1. By appropriating \$125.00 from available funds now in the Treasury.
2. That the Town Treasurer, with the approval of the Selectmen, be authorized to borrow \$18,000.00 under authority of Section 3 of Chapter 531 of the Acts of 1952 as amended, and to issue bonds or notes of the Town therefor, payable in accordance with the provision of Chapter 44 of the General Laws, so that the whole loan shall be paid in not more than ten years from the date of the issue of the first bond or note.
3. That the \$18,125.00 appropriated from available funds under Article 2 of the Warrant for the Special Town Meeting held on June 27, 1952 be re-appropriated for this purpose.
(Yes 237, No 0).

Under Article 19, which reads, "To see if the Town will vote to change the name of Depot Street to Academy Road," Voted down.

Under Article 20, Voted, to authorize the Selectmen to appoint an "Investigation Officer" for the purpose of collecting and preserving information on matters which might involve litigation, and to raise and appropriate \$200.00 for this purpose.

Under Article 21, Voted, to raise and appropriate \$6,700.00 for resurfacing Standish Street from Marshall Street to Crescent Street and Temple Street from Lincoln Street to Stevens Bog so-called.

Under Article 22, on the motion "That the Town vote to acquire three certain parcels of land as described

in this article in the Town Warrant by purchase, acceptance as a gift, or by Eminent Domain as prescribed in Chapter 40, Section 14 and Chapter 79 of the General Laws of Massachusetts for the purpose of improving said land for travel and use as a Town Landing, the approach thereto, and for the erection of a pier thereon; and vote to raise and appropriate \$5,100.00 for this purpose with the provision that no money be spent for the erection of the pier until title to the land described in this Article has been acquired," the vote was 176 Yes and 102 No. As this Article required a two-thirds vote, the Article was defeated.

Under Article 23, which reads "to see if the Town will vote to raise and appropriate the sum of \$1,000.00 for the construction of sidewalks, such sum of money to be expended under the direction of the Selectmen and the Highway Department," Voted Down.

Under Article 24, Voted to raise and appropriate \$511.00 to pay for Land Damages on Tobey Garden Street. (Yes 135, No 88).

Under Article 25, Voted to raise and appropriate \$450.00 for replacing one of the Tide Gates at Bluefish River.

Under Article 26, Voted to raise and appropriate \$45.00 for the installation of Street Lights at the following locations: One light at the intersection of South and Summer Streets and one light at the intersection of Autumn Avenue and Summer Street.

Under Article 27, which reads "To see if the Town will vote to authorize the Selectmen to sell the land and buildings of the Village and Point Schools, so-called, or take any other action thereon," the vote was 171 Yes and No 86. As this article required a two-thirds vote, the Article was defeated.

Under Article 28, Voted, to accept Chapter 624 of the Acts of 1952 which will increase the pensions of town employees who retired prior to April 1, 1951 and had attained age 55 with at least 15 years of creditable service. No increase shall be made in the case of any retirement allowance which is in excess of \$2500.00.

Under Article 29, Voted, to raise and appropriate \$431,000.00 for the purpose of preparing final plans and specifications, to receive bids, and to construct and equip a ten room addition to the Elementary School, substantially in accordance with the plans of the Sturgis Associates, Inc., as presented at this meeting and to provide the money for said addition and equipment as follows:

By appropriation from the Post War Rehabilitation Fund with accrued interest thereon	\$3,494.84
By appropriation from the Partridge Academy Fire Insurance Fund	2,500.00
By appropriation from the Sale of Infirmary Real Estate Fund	5,600.00
By appropriation from the Stabilization Fund	31,650.36.
By appropriation from available funds now in the Treasury	107,754.80

And that the Town Treasurer with the approval of the Selectmen, be and hereby is authorized to borrow the sum of \$280,000.00 and to issue bonds or notes of the Town therefor in accordance with the provisions of Chapter 44 of the General Laws and Chapter 56 of the Acts of 1952, with the provision that the whole loan be paid in not less than 20 years from the date of issue of the first bond or note;

280,000.00
<hr/>
\$431,000.00

and that the present Elementary School Building Committee be and is hereby authorized to expend such appropriations or so much thereof as is needed, to determine upon the final plans of said addition and in the name of the Town to make all contracts pertaining thereto, and to do all things necessary and proper to construct, equip, and furnish said ten room addition to the Elementary School. (Yes 279, No 6).

Under Article 30, Voted, to assume liability in the manner provided by Section 29 of Chapter 91 of the General Laws as amended by Chapters 415 and 524, Acts of 1950, for all damages that may be incurred by work to be performed by the Department of Public Works of Massachusetts for the improvement, development, maintenance and protection of tidal and non-tidal rivers and streams, harbors, tidewaters, foreshores and shores along a public beach outside of Boston Harbor, including the Merrimac and Connecticut Rivers, in accordance with Section 11, of Chapter 91 of the General Laws, and authorize the Selectmen to execute and deliver a bond of indemnity therefor to the Commonwealth.

Under Article 31, Voted, to accept Captain's Hill Road as laid out by the Selectmen and raise and appropriate \$3,500.00 for construction of the same.

Under Article 32, Voted, to accept Longview Road as laid out by the Selectmen, from Captain's Hill Road to Midway Road, so-called, and raise and appropriate \$800.00 to construct the same. (Yes 76, No 67).

Under Article 33, Voted to raise and appropriate \$266.00 for the purpose of laying out, grading and seeding a playing field for the use of the Little League Baseball teams; and that the locating of the playing field and the expending of the money be done under the supervision of the Board of Selectmen.

Under Article 34, Voted, to raise and appropriate \$4,500.00 for the purchase of a new truck for the Forest Fire Department.

Under Article 35, Voted, to accept the provisions of Clause 2-C of the will of Agnes S. Ellison which reads as follows: "C. One Thousand Dollars to the Town of Duxbury to be administered by the Selectmen and the Treasurer, the income to be used for under-privileged children in need of medical attention, particularly to alleviate blindness and deafness," and that the Chairman of the Board of Selectmen send an expression of appreciation to the nearest of kin.

Under Article 36, Voted, to raise and appropriate \$650.00 for the exchange of the Police Department car.

Under Article 37, Voted, to return to the Treasury the following unexpended appropriation balances:

Assessors Dept., Electric Calculator	10.00
Building Inspector	700.00
Police Dept., Automobile	95.69
Chapter 90, Maintenance	.04
School Driveway, surfacing	17.73
Duxbury High School Remodeling Committee	1,833.10
North Duxbury Water Project	1,926.74
Water District Committee	200.00
Cove Street, Town Landing	25.00
Longfellow Terrace Improvement	13.42
Highway Dept., work for Water District	732.99

Under Article 38, Voted, to raise and appropriate \$44.00 to pay unpaid bills of 1952. (Yes 164, No 0).

Under Article 39, Voted, to change the name of Wadsworth Longfellow Terrace to Wadsworth Road.

Under Article 40, Voted, to accept Blodgett Avenue, as laid out by the Selectmen and raise and appropriate \$3,500.00 to construct the same.

Under Article 41, Voted, to raise and appropriate \$176.00 for Group Accident Insurance for the Police and Fire Departments.

Under Article 42, which reads 'To see if the Town will vote to raise and appropriate the sum of \$2,400.00 for exchange of truck for the Highway Department,' Voted down.

Under Article 43, Voted, to raise and appropriate \$500.00 for the purchase of a field mower for the Park Department.

Under Article 44, Voted, to cancel and discharge without payment its claim against Loren C. Nass based on an execution of costs in the sum of \$339.40 with interest, issued from the Superior Court of Plymouth on May 29, 1951, in the case of Loren C. Nass vs the Town of Duxbury, and authorize the Board of Selectmen to endorse the execution "Satisfied in Full" and to return the same to the Superior Court of Plymouth.

Under Article 45, Voted, to authorize the Selectmen to appoint a committee of seven to report at the next regular Town Meeting with full recommendations on the development and operation of playgrounds, playing fields, and available buildings; and that this committee be chosen from the following representative groups: The School Committee, the Park Department, the Highway Department, the Finance Committee, the Planning Board and the public at large.

Under Article 46, Voted, to purchase a certain parcel of land on the Southerly side of Winter Street for the purpose of improving a dangerous curve and

raise and appropriate \$25.00 for this purpose. (Yes 126, No 0).

Under Article 47, Voted, to raise and appropriate a sum not exceeding \$100.00 to take down and remove the Soldiers Monument in Boomer Square, to store the component parts as considered most suitable, and to replace the monument with appropriate shrubbery and/or flower bed.

Under Article 48, Voted, to raise and appropriate \$3,950.00 to equip the stage in the Duxbury High School and that the work be done under the supervision of the Stage Committee appointed by the Moderator as authorized in Article 5 of the Warrant for the Special Town Meeting of October 24, 1952, and that all plans for the work have the approval of the School Committee. Also voted that the report of the Stage Committee be accepted with thanks.

Under Article 49, Voted, to amend Article 2, Section 3 of the Town By-Laws, titled "Special Town Meetings," by striking out the following words: "A copy of the warrant shall be published in two or more Plymouth County newspapers at least seven days before the time of holding said special town meeting and a post card notice shall be sent to each registered voter at least seven days before the time of holding said special town meeting," and inserting in place thereof the following: "A copy of the warrant shall be published in one Plymouth County newspaper at least seven days before the time of holding said special town meeting," so that Article 2, Section 3, shall read as follows: "SPECIAL TOWN MEETING: Section 3. A Special Town Meeting may be called by the Selectmen when occasion warrants, the date and hour of the meeting to be designated by them, and in addition to posting copies of the warrant for said special town meeting as provided

in Section 4 of this article, a copy of the warrant shall be published in one Plymouth County newspaper at least seven days before the time of holding said special town meeting." (Yes 87, No 6).

The registered voters were checked from the voting list and showed 428 names checked: 222 Male and 206 Female.

Total Appropriations \$529,081.15. (Raised by Taxation).

Voted to adjourn at 6:25 p.m.

JOSEPH T. C. JONES,

Town Clerk.

Special Town Meeting

At High School Auditorium

Friday, June 26, 1953, at 8:00 p.m.

At 8:15 o'clock the meeting was called to order by the Moderator, Mr. William W. McCarthy. The invocation was given by the Rev. William S. Anthony. A quorum was declared present and the warrant was read by the Town Clerk.

Gerald Hazlehurst, Mary Crocker, Rodney W. Leach, Helen M. Dawes, Gilbert F. Redlon and Frank H. Williams were appointed Tellers and were sworn in by the Town Clerk.

Under Article 1, it was voted that the Town appropriate from available funds in the Treasury the sum of \$260.00 to be added to the appropriation voted under Article 36 of the Annual Town Meeting, for the purpose of exchanging a car for the Police Department.

Under Article 2, it was voted that the action taken at the 1953 Annual Town Meeting under Article 29 be rescinded and that in lieu thereof \$431,000.00 be appropriated for the purpose of constructing, equipping and furnishing a ten room addition to the Elementary School, substantially in accordance with the plans of the Sturgis Associates, Inc., as presented at the 1953 Annual Town Meeting and that to meet said appropriation

\$3,494.84 be transferred from the Post-War Rehabilitation Fund;

2,500.00 be transferred from the Partridge Academy Fire Insurance Fund;

5,600.00 be transferred from the Sale of Infirmary Real Estate Fund;

31,650.36 be transferred from the Stabilization Fund;

107,754.80 be transferred from available funds in the Treasury;

and that the Town Treasurer with the approval of the Selectmen be and hereby is authorized to borrow \$280,000.00 and to issue bonds or notes of the Town therefore in accordance with the provisions of Chapter 44 of the General Laws as amended, said bonds or notes to be payable within 20 years from their date, and that the present Elementary School Building Committee be and is hereby authorized to expend said appropriation or so much thereof as is needed, to determine upon the final plans of said addition and in the name of the Town to make all contracts pertaining thereto, and to do all other things necessary and proper to construct, equip and furnish said ten room addition to the Elementary School.

Vote: Yes—103; No—0

Under Article 3, it was voted to accept the sum of \$300.00 to be known as the Forrest and Helen Partch Flower Fund; the interest to be used for flowers to be placed at the base of the Forrest L. Partch monument in Mayflower Cemetery and that the Duxbury Cemetery Department take care of and order the flowers for May 30th and December 25th in each year in accordance with the request of Forrest L. Partch in a letter dated February 17, 1953.

At 8:35 p.m. it was voted to adjourn.

JOSEPH T. C. JONES,
Town Clerk.

Plymouth County Aid to Agriculture

MALCOLM C. BROCK, *Town Director*

The following report was filed by the Duxbury Chairman of the Home Economics Department:

To the Duxbury Director of the Plymouth County Aid to Agriculture:

I herewith submit my report of the activities of the Home Economics Department covering training for adults in several fields:

1. During February and March the program "Make A Dress" was carried on and quite a few homemakers profited from this series of five meetings; some attended the County-wide Dress Revue held in Hanson and modeled the dresses they had made. Results of this program were the learning of quick and easy methods of sewing and how to select the correct size pattern, cutting the garment and fitting for good fit.

2. In May a regional meeting was held at the Girl Scout House, attended by men and women, on "Improvements of Home Grounds." The Home Demonstration agent and County Agriculture agent participated with a commercial landscape architect in presenting the information on lawn management and care of shrubs and perennials.

3. In October a well-attended meeting was held on Figures and Fashions; it gave information on the type, buying and care of foundation garments, also the health factor involved.

4. A program on "How to Buy and Alter a Dress," consisting of two meetings was held in November, one a discussion and one a work shop where actual alterations were planned and finished.

5. Also in November, a program on Creative Stitchery was taught by leaders to homemakers interested in learning 15 hand-worked stitches to be used on

clothing and other homemade articles. Several profited from these classes.

6. The first week of September the National Home Extension convention was held in Boston. Duxbury women took part in this affair and much was learned of the vast amount of work that is being done by the Extension Service to improve the homes in every state in this country.

Every one pays taxes for these programs—it is the smart women who take advantage of them.

Florence A. Scott, Town Chairman.

In the 4-H Department, working under Mr. Robert Ewing, County 4-H Club Agent, the Duxbury 4-H Town Committee has shown flourishing strength in many fields. In the agricultural section, activity was maintained in Dairy, Sheep, Poultry, Goat and Garden Clubs.

In the 4-H Home Economics section, canning, cooking, sewing, knitting and home decoration clubs were successful.

The Town Committee, made up of club leaders and former club leaders, has proven a closely knit group of hard workers. They are:

John Willis, Chairman

Mrs. Malcolm C. Brock—Garden, Knitting, Secretary

Mrs. Earle Grenquist—Sewing, Treasurer

Mrs. George Horsfall—Home Decoration

James Smithson—Tractors

Mrs. James Smithson—Cooking

Frederic Harrington, Jr.—Sheep

Kendall Thomas—Goats

Mrs. Kendall Thomas—Knitting

Malcolm C. Brock—Poultry

Ernest Chandler—Dairy

Miss Ethel McAuliffe—Sewing, Foods

Pelton Goudey—Crafts

Mrs. Everett Marston—Sewing

The outstanding development of the fall season has been the preparations for and the final formation of a very strong crafts club under the leadership of Mr. Pelton Goudey, science teacher of the High School. This activity, for which we have been seeking a leader for several years, will give excellent supervised project activity to many children who do not have land or facilities to have sheep, poultry, gardens, etc. Work is planned in silver, copper, leather, wood, ceramics and weaving. This type of project needs bench space where partly completed work can be left. To this end the 4-H Town Committee has been given temporary use of one of the two old school houses. Permanent occupation of some downtown location is going to be necessary if these and other planned 4-H activities are to be carried out.

Eight children were sent to 4-H camp for a period of two weeks each, with all expenses paid. Over 100 members in our 4-H clubs spread throughout the whole township. Projects universally completed, prizes won at many fairs, much money put in the bank, trips made to many places, friendships made, characters formed—truly this 4-H work is worthy of every reasonable support you can give it.

To the best of our knowledge, no 4-H member has ever been a juvenile delinquent in Duxbury.

Respectfully submitted,

MALCOM C. BROCK, *Director.*

PLYMOUTH COUNTY EXTENSION SERVICE

The Plymouth County Extension Service is a part of the United States Department of Agriculture and the University of Massachusetts. The County Office is located at the Court House, Brockton, Mass., and is

composed of three Departments — Agriculture, Home-making, and 4-H Club Work. Though supported by Federal Funds, the majority of the financial assistance comes from county sources. Token appropriations are made by practically all of the Plymouth County towns to the county treasury, and these funds are applied toward the County Aid to Agriculture budget. Town Directors are also appointed or elected where town funds are appropriated.

The Extension Service is an educational organization. County Extension Agents strive to bring to county people the results of research in Agriculture and Home-making, that will increase incomes, provide a better living, and happier family life, by teaching people to help themselves.

Attention to the consuming public is also given to permit partnership between farmer and consumer to be mutually beneficial. In addition to the staff of County Extension workers, hundreds of volunteer leaders extend the teaching of agents by publicizing, teaching and demonstrating to others in their community the practices they have learned.

A Board of 9 Trustees appointed by the County Commissioners administer the Extension Service programs. The Trustees are as follows:

Stafford Johnson, Bridgewater, *Chairman*

Lloyd A. Hathaway, Abington, *Vice Chairman*

Mrs. Harold D. Bent, Brockton

Mrs. William P. Suzan, Mattapoisett

Joseph Teeling, North Middleboro

Robert B. Bowler, Plymouth

Ralph McIlvana, Plympton

Mrs. Roy Puddington, Hanson

Gilbert Beaton, Wareham

The staff of the Extension Service is as follows:

Joseph T. Brown, *County Agent-Manager*

Agricultural Department

Edgar W. Spear, *Associate County Agricultural Agent*

Dominic A. Marini, *Assistant County Agricultural Agent*

Home Demonstration Department

Beatrice I. White, *Home Demonstration Agent*

Betsey D. Pool, *Assistant Home Demonstration Agent*

4-H Club Department

Robert B. Ewing, *County Club Agent*

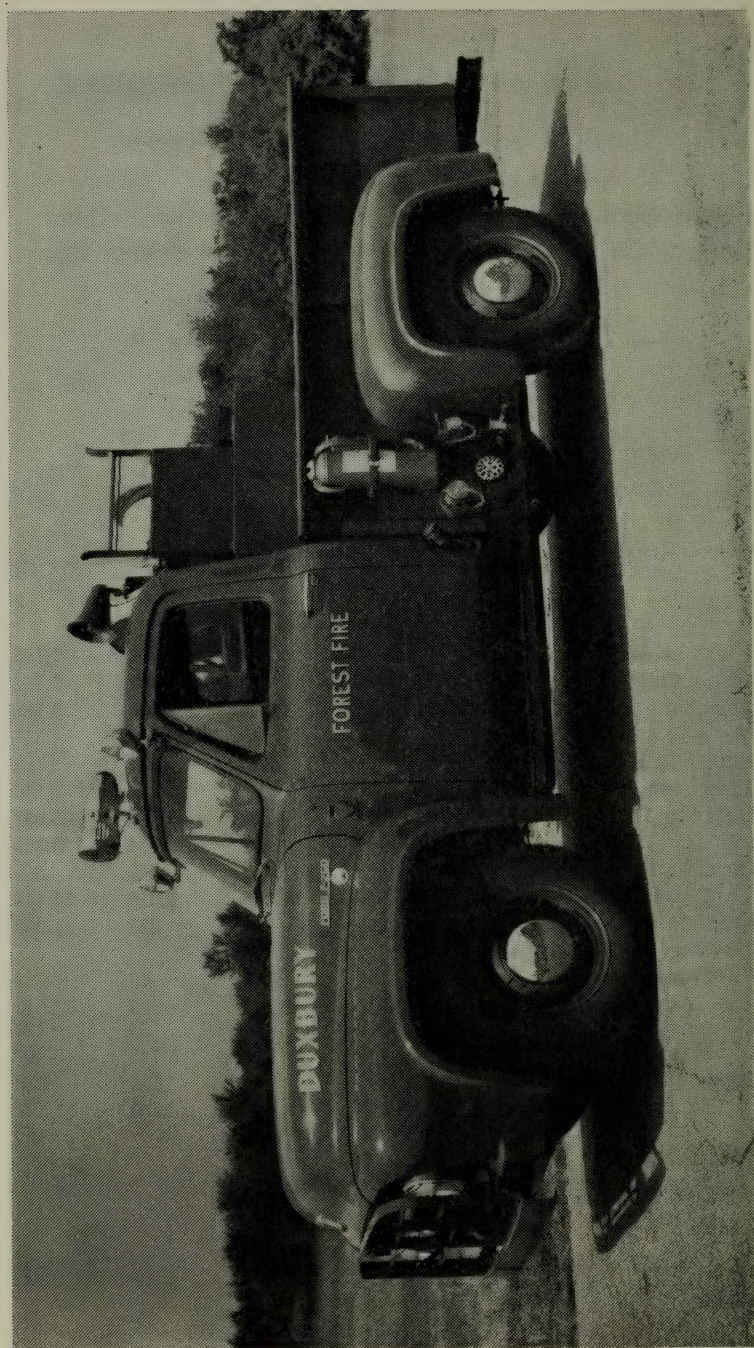

Nancy E. Tucker, *Assistant County Club Agent*

Report of the Forest Warden

To the Honorable Board of Selectmen
Duxbury, Massachusetts

Gentlemen:

I herewith submit my report as Forest Warden for the year 1953.

The Department had a total of 156 calls, as follows:

Brush	13
Dump	86
Emergency	4
False Alarm	4
Forest	2
Grass	39
Outside Aid	2
Standby	6

Of the 156 calls this year there were only two forest fires, and the largest of these burned over about three acres. This has kept our labor expenses low and has enabled the department to stay well within its appropriation.

Considering the drought, Plymouth County was fortunate in having but very few serious forest fires in 1953. It is large forest fires which are costly in labor expense and can deplete an appropriation in any town within a very short time.

Again I wish to say that I feel radio is one of the major helps in the fire service today because it enables the men and equipment to be guided to the proper locations without delay.

We also have a Plymouth County-owned plane which is equipped with a radio on our frequency and this has

been of great service to all towns during fires and in patrolling on hazardous fire days. The plane is available in any emergency such as searches for lost persons, drownings, etc. and has been used during such emergencies with excellent results.

Our new Walkie-Talkie radio has been used several times for communications with the patrol plane on drownings at Duxury Beach and in one case the plane and radio combinations enabled us to recover the body within twenty minutes after arrival. Also the set has been used successfully during searches for lost persons.

The new forest fire truck for which the town voted and appropriated a sum of \$4500 at the last annual town meeting was put out to bid and was purchased from the Maxim Motor Company of Middleboro for \$3828.21, a saving to the town of \$671.79.

A total of 3915 open air fire permits were issued this year. 1200 beach permits were issued by the Duxbury Beach Park, 500 by Ford's Store, and the Central Fire Station issued 500 written permits and 1715 telephone permits for incinerator, rubbish and brush fires.

This co-operation of the townspeople in obtaining permits has been one of the major factors in controlling and locating outdoor fires and in keeping our losses down.

I wish to again thank the deputy wardens, firemen, selectmen, and town departments who rendered service during the past forest fire season.

Respectfully submitted,

EBEN N. BRIGGS,
Forest Warden.

Report of Fire Department

To the Honorable Board of Selectmen
Duxbury, Massachusetts

Gentlemen:

The Board of Fire Engineers submits the following report of department activities for the year 1953.

The total number of calls was one hundred and nine:

Automobile	6	False Alarm	2
Bridge	3	Oil Burner	5
Building	31	Outside Aid	1
Chimney	7	Stand-by	3
Emergency	51		

Although the department's calls have increased considerably over last year's we feel fortunate that there has been no loss of life in Duxbury during 1953 and considering the increase in fires our property losses have been very low. Throughout the remainder of the state, this year has been the worst in history for human and property losses.

In each of the thirty-one building fires we were able to confine the fire to its point of origin with the exception of the farmhouse fire at the Plymouth Rock Center of Music and Drama. This building had been burning for at least an hour before being discovered and upon our arrival the entire interior was enveloped in flame.

Unlike past years the increase in fires and unforeseen equipment repairs have caused us to exceed our appropriation for 1953. However, we find that surrounding towns are faced with the same problems because of the increased number of new homes and buildings which the

fire departments must protect. Therefore, we cannot expect to operate on the same low budgets as in the past and we have increased our 1954 budget for special equipment that is very much needed for the proper functioning of the department.

The great number of new homes and the conversions to bottled gas and oil installations for which the Department of Public Safety requires the inspection and issuing of a permit by the fire chief, has resulted in a considerable increase in his duties and responsibilities. During this year over four hundred of these inspections have been made and permits issued.

At the June meeting the Board voted to purchase a thirty-five foot aluminum extension ladder which now gives us two working ladders in the department that are capable of being used to rescue a person from a second or third story window. This ladder has been mounted on Engine 4, the first truck to respond to all building fires, because our *first* duty is to protect human life.

As chief of the fire department I would like to thank the officers and firemen of the department, the telephone operators for their service in informing the firemen of the location of fires, and all of the town departments and citizens who have assisted us throughout the year. In addition, I want to make special mention of the men who voluntarily donated their services for nine nights during the Worcester Tornado disaster.

I want also to thank all persons who have co-operated with me in eliminating the many fire hazards which might otherwise have caused serious fires.

We should like to impress upon each citizen the importance of saying, "EMERGENCY DUXBURY FIRE DEPARTMENT 333," when reporting a fire. Give your name, the location of the fire to the best of your ability,

and if possible the nature of the fire (as auto, chimney, building, forest, grass, etc.) so that the proper type of equipment can be dispatched to the fire immediately.

Respectfully submitted,

EBEN N. BRIGGS, *Chief*
GEORGE S. BUTLER, *Asst. Chief*,
KENNETH O. MACOMBER, *Chairman*.
LeROY M. PETERSON, *Secretary*,
JOHN DeLORENZO,
CARL J. SANTHESON, JR.,
ALDEN M. BARTLETT,
Board of Fire Engineers.

Expenditures:

Loaned to Income Account	\$1,324.39	
Balance on Hand 12/31/53	106.56	
	<hr/>	\$1,430.95

The cost of operating the Library has increased materially the past two years with the expansion of Library activities (Please see Librarian's Report).

During the year 1953 it was necessary for the Treasurer to draw upon the principal of private trust funds to the extent of \$1,324.39 in order to make both ends meet.

With the income from private endowments remaining fairly constant it becomes necessary to ask the Town for a somewhat larger appropriation than heretofore. The Town will continue to enjoy the facilities of a modern and well operated Library at approximately one-half of the total operating cost.

BARTLETT B. BRADLEY,
Treasurer.

The undersigned committee, appointed by the Trustees, has examined the accounts for the year ended December 31, 1953, and verify same as a true and correct statement.

W. R. HUNT,
W. B. COFFIN,
Auditing Committee.

Duxbury Days

Town of Duxbury
St. George Street
Duxbury, Mass.
Attention: Mr. Philip Delano
Gentlemen:

The following is the report of the 1953 18th Annual Duxbury Days Parade Committee.

A total of \$962.00 was spent by this committee, as itemized on page two, of which the town voted to appropriate the sum of \$950.00.

Following the practice of previous years, the cost of the bands, as shown on items No. 1 through No. 4, will be paid directly by the town. The remainder of expenditures will be paid by the Legion, which will bill the town for the balance due from their appropriation, amounting to \$318.00.

We wish to acknowledge our appreciation to the Police Department, Fire Department, Highway Department, and the many other groups and individuals whose splendid co-operation helped to make the Parade a success.

Respectfully submitted,

RAYMOND CHANDLER }
MEL SINNOTT } *Co-Chairmen,*

Report of State Audit

To the Board of Selectmen:

Mr. Philip W. Delano, Chairman
Duxbury, Massachusetts

Gentlemen:

I submit herewith my report of an audit of the books and accounts of the Town of Duxbury for the year ending December 31, 1952, made in accordance with the provisions of Chapter 44, General Laws. This is in the form of a report made to me by Mr. William Schwartz, Assistant Director of Accouts.

Very truly yours,

HERMAN B. DINE,
Director of Accounts.

Mr. Herman B. Dine
Director of Accounts
Department of Corporations and Taxation
State House, Boston

Sir:

In accordance with your instructions, I have made an audit of the books and accounts of the Town of Duxbury for the year ending December 31, 1952, and report thereon as follows:

The records of financial transactions of the several departments receiving or disbursing money for the town or committing bills for collection were examined, checked and verified by comparison with the records of the town treasurer and the town accountant.

The books and accounts in the office of the town

accountant were examined and checked. The general and appropriation accounts in the ledger were analyzed, a trial balance was taken off, and a balance sheet showing the financial condition of the town on December 31, 1952 was prepared and is appended to this report.

The appropriations, as entered in the ledger, were compared with the town clerk's records of financial votes passed in town meeting and the recorded transfers from the reserve fund were verified by comparison with the authorizations of the finance committee.

The books and accounts of the town treasurer were examined and checked in detail. The cash book was footed throughout, the recorded receipts were analyzed and compared with the departmental records of payments to the treasurer and with other sources from which money was paid into the town treasury, while the disbursements were compared with the accountant's books and with the treasury warrants.

The treasurer's cash balance on January 31, 1953 was proved by actual count of the cash in the office and by reconciliation of the bank balances with statements furnished by the banks in which town funds are deposited.

The payments made for maturing debt and interest were compared with the cancelled securities and coupons on file and with the amounts falling due.

The savings bank books and securities representing the investment of the trust and investment funds in the custody of the town treasurer and the Plymouth Five Cents Savings Bank were examined and listed, the income being proved and the transfers to the town being verified.

The records of tax titles and tax possessions held by the town were examined. The town and district taxes

transferred from the tax levies to the tax title account were compared with the tax collector's records, the redemptions were compared with the treasurer's receipts, and the outstanding accounts were listed and compared with the records in the Registry of Deeds.

The records of payroll deductions on account of federal taxes were examined and proved to the accountant's ledger control.

The books and accounts of the tax collector were examined and checked. The taxes and motor vehicle and trailer excise outstanding according to the previous examinations, as well as all subsequent commitments, were audited and compared with the warrants issued for their collection. The recorded collections were compared with the payments to the town and district treasurers, the abatements were checked with the assessors' records of abatements granted, and the outstanding accounts were listed and proved with the town accountant's ledger.

The commitments of departmental accounts receivable were examined and checked. The recorded receipts were checked with the payments to the treasurer and with the accountant's books, and the outstanding accounts were listed and reconciled with the accountant's ledger.

Verification notices were sent to a number of persons whose names appeared on the books as owing money to the town for taxes, motor vehicle and trailer excise and departmental accounts, and from the replies received thereto it appears that the outstanding accounts, as listed, are correct.

The surety bonds furnished by the several town officials required to file them were examined and found to be in proper form.

The records of licenses and permits issued by the selectmen, by the town clerk, and by the health and police departments were examined and checked, the recorded payments to the treasurer being verified.

Th records of receipts of the sealer of weights and measures and the school department, as well as of all other departments collecting money for the town or committing bills for collection, were examined and checked, the reported payments to the treasurer being verified.

Appended to this report, in addition to the balance sheet, are tables showing reconcilations of the treasurer's and tax collector's cash, summaries of the tax, motor vehicle and trailer excise, tax title and departmental accounts as well as tables showing the condition and transactions of the trust and investment funds.

During the progress of the audit cooperation was extended by all town officials, for which, on behalf of my assistants and for myself, I wish to express appreciation.

Respectfully submitted,

WILLIAM SCHWARTZ,

Assistant Director of Accounts.

Report of the Town Accountant

I am pleased to submit the following statement of all receipts and expenditures of the Town of Duxbury for the financial year ending December 31, 1953, in accordance with Chapter 41, Section 61, General Laws. This report is arranged in accordance with the classifications prescribed by the Director of Accounts.

Appended thereto is a statement of the Appropriation Balances returned to the Treasury under date of December 31, 1953, and a further statement of the Appropriation Balances retained and carried forward January 1, 1954.

ISABELLE V. FREEMAN,
Town Accountant.

SUPERINTENDENT OF SCHOOLS

Everett L. Handy

SECRETARY TO THE SUPERINTENDENT

Mrs. Eileen P. Jones

REPORT OF THE DUXBURY SCHOOL COMMITTEE

To the Citizens of Duxbury:

It is hoped that you will all examine carefully the report of the Superintendent of Schools. Here may be found the detailed information on our curriculum, "special services," personnel, enrollment, buildings, state aid, and finances.

Your School Committee has enjoyed its work during the past year. We feel we have made real headway in solving many of the problems that have confronted us, and we hope you will agree that the education we are providing your youngsters is constantly improving. We should like to "highlight," below, some of the important matters that have received our attention during the year 1953.

First of all we should like to report that problems of morale have been under constant study, and we are extremely pleased with the progress shown to date. It should be pointed out that the maintenance of high morale amongst several hundred teachers and pupils is a continuous problem, rather than a single problem to be solved by a single solution. Perfection is never reached. We shall continue our efforts towards that goal, however.

The overall problem of adequate school housing and equipment and its auxiliary problems of maintenance and repair take much of our time. Your committee maintains that a good maintenance program, planned at budget time, reduces the need for unscheduled and costly repairs. 1953 saw the need for many repairs to both our buildings and the 1954 budget includes amounts for considerable more repair work.

Duxbury should take pride in the fact that none of its

children are housed in buildings over twenty-five years old. It should express generous thanks to the many committees who have worked so hard on our building problems. We are most appreciative of the efforts of this year's Building Committee and the Stage Committee. They have been most considerate in providing complete liason with us so that we could work with them towards common goals. While it is perfectly obvious that buildings and equipment do not, in themselves, guarantee or even provide good education, it is equally obvious that given identical teachers, pupils and programs, a better job may be done in good, efficient, attractive surroundings than can be done otherwise. It is our hope that you will approve our plans to refinish all the remaining "old rooms" in the High School during the next two year period. Accomplishment of this purpose will mean that every Duxbury youngster is being taught in a classroom built or modernized during the previous six year period. In addition, it will be possible to plan a continuous, long range maintenance program from that point on that is free of the occasional heavy expenses in this area, since so much will be planned for each year on a long range basis.

Naturally, the educational program itself has been of primary concern to your committee. Here we rely heavily upon the advice of our Superintendent. He is a professional educator, and was selected largely for this purpose. As he presents his many suggestions, proposals, and plans on educational matters, we ask the questions that you would ask. We apply the tests to each proposal that you would apply. In the final analysis, we try to determine the desirability of the end-result, and to compare this with the costs involved, if any. It is through such processes as these that 1953 found us unanimously supporting plans for remedial reading at all grade levels, and testing and guidance activities —

all to be conducted by well selected professionals in these fields.

Year after year the question is raised — are we providing proper emphasis on college and non-college courses in the high school? Our attitude on this has been as follows. We adapt the school program to meet the needs and desires of the pupils then in school. We do not, however, neglect any segment of our school population. Pupils requiring general, commercial, vocational, or college preparation receive this training in Duxbury. The only exception to this is the advanced vocational study provided some Duxbury boys at other vocational schools. Duxbury pays the tuition and travelling expenses of these boys, as provided by state law. The problem does not lie in whether to offer these various courses. They have been provided in our school system for years. Our problem is to correctly interpret the need of our youngsters so that we do provide them with each of these courses to the proper degree. Currently there is a very heavy interest in college courses. This is partly due to the current economic prosperity and may change with any major economic change, or may change as new generations or segments in our town population appear.

The long range aspects and planning of both our physical setup and our educational programs has received our earnest attention. We also have encouraged co-operative efforts with other committees in this regard. An example is our support of current efforts to co-ordinate our entire park and playfield efforts with the Selectmen, the Park Department, the Highway Department, and all others concerned with either current maintenance problems in this area or with long range planning problems. We have also made every effort to co-operate with our town Finance Committee, so that we keep them informed on our long range plans as well as

our immediate budgetary problems. We have enjoyed working with them this year. We are proud that one of the results of proper financial planning and of co-operation with the Finance Committee has been that for the fourth successive year the School Department has operated within its budget. The laying out of such a budget takes tremendous time and effort. The following of such a budget is a continuous job. Over the past few years we have been most fortunate that unbudgeted repairs and other items of expense have been afforded within our budgetary means.

The key as to how well Duxbury is doing its educational job is becoming increasingly simple, just as the problem of doing a good job has become more complex. The key is in one form — competition. All across the nation colleges are reporting more applications than openings. We are beginning to see more competition for available jobs as well. Scholastic averages of both applicants and students in colleges are many points higher than before World War II. Jobs are harder to keep. We must prepare our youngsters to face these prospects and to meet them.

In conclusion, we are happy to report that we have worked in close harmony within our own ranks and also with our school administrative and teaching personnel. Workable common policies have been adopted on a variety of subjects, while variances in individual opinion have received full voice in the formulative stage of each policy. We sincerely hope that there will continue to be full communication between the many groups interested in our school problems. The PTA is a particularly helpful instrument in this regard — with the many parent-teacher conferences that result. It is our hope that all parents will discuss their youngsters' progress and problems with the teachers involved, rather than

relying solely on the periodic report cards. They should also feel free to turn to the Principals when their problems warrant this. The Superintendent can often be of additional help. We want teachers to feel free to discuss matters with their Principals and the Superintendent. We encourage taxpayers, voters, and parents to make comments and suggestions on policy matters to their elected representatives in the department — their School Committee members. Ask questions of us or of the Superintendent if there are things you do not understand. We cannot finish this report without expressing our gratitude to Dr. Handy, our Principals, Mr. Macfarlane and Mr. Delong, and to our teachers for the co-operative effort they have made this year. We also feel that our school doctors, dentists, nurse, custodians, and many others have all contributed in large measure towards our common goal — an education for Duxbury youngsters that we can all be proud of.

Respectfully submitted,

MORRISON M. BUMP, *Chairman,*

ELIZABETH NICKERSON, *Secretary,*

ALBERT P. RICHARDS,

EARLE C. GRENQUIST,

DOMINIC E. LaGRECA,

Duxbury School Committee.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

Honorable School Committee
Duxbury, Massachusetts.

Gentlemen:

One of the most significant matters I wish to report is the high level of morale existing throughout our school system. It is evident in the friendly co-operation of staff members, in the accomplishment in different departments, and in the attitude of everyone toward the future of our schools.

Some accomplishments during 1953

1. The establishment of a remedial reading program from grades one through twelve under the direction of a specialist in this field.
2. The development of new forms of reporting to parents both at the elementary and high school levels.
3. The redecoration of part of the high school.
4. The organization of curriculum committees.
5. The establishment of a vocational program for high school girls.
6. The carrying out of an art workshop for elementary school teachers.
7. The conduct of a tuberculosis x-ray survey, and blood and urine tests.
8. The organization of a teachers' club for all staff members. (Almost 100 per cent membership).
9. Instrumental music program extended down to grade four.
10. Beginning of the construction of a new wing for the elementary school.
11. Maintenance of a per pupil cost that compares favorably with towns in our size group and with the state as a whole.
12. Reduction in the amount of teacher turnover.

Some continuing problems

1. To further improve our curriculum.
2. To develop a more effective guidance program.
3. To strengthen our program of public relations.
4. To complete the redecorating of the old part of the high school.
5. To develop an organized plan for present and future play areas.
6. To give further consideration to our program of health services.
7. To extend the work of curriculum committees, making use of lay participation wherever possible.
8. The further development of long range plans to meet future school building needs.

The 1953 report deals with the details of a number of the accomplishments and problems mentioned above.

CURRICULUM

The curriculum of a school includes all the activities—teaching of subjects, athletics, social activities, etc.—carried on under the guidance and direction of the school. It is different for children of different age levels, and it changes in accordance with the needs of the pupils and the community. Therefore the curriculum is an area requiring constant study and revision. This year three curriculum committees have been organized with teachers representing elementary and secondary grades. The subject areas being studied include: English, social studies, commercial and science and mathematics. The annual reports of 1951 and 1952 gave special attention to this problem as it was being worked out at the high school level. This report wished to call attention to changes underway in the elementary grades and to the vocational programs.

Without losing emphasis on proficiency in the fundamentals or tool subjects, teachers have been re-

vising their daily programs on a "Broad Fields" plan. This means that instead of listing out every activity of five, ten or fifteen minutes' duration and carrying out these activities "by the clock," certain broad groupings of activities are set up. The new arrangement gives a teacher an opportunity to carry on her teaching more in accordance with children's needs. It enables the teacher to correlate skills taught. Activities can be presented in units which give meaning and significance to the skills and understandings being developed. The teacher has greater freedom in planning her daily work.

The following chart indicates the new organization plan.

TEACHER'S DAILY SCHEDULE

Grade 3

- | | |
|-------------|---|
| 8:45- 9:15 | Opening exercises, planning, sharing, oral talks, current events. |
| 9:15-10:30 | Language arts. (Includes reading skills, phonics, spelling, writing, literature.) |
| 10:30-11:00 | Recreative arts. (Includes: physical education, free play, games.) |
| 11:00-12:00 | Arithmetic. |
| 12:00- 1:00 | Lunch and recess. |
| 1:00- 2:15 | Creative arts (art and music) and/or Language arts. |
| 2:15- 2:45 | Social studies or science. |

During 1953 the home economics program was re-organized as a vocational household arts course and was approved by the Division of Vocational Education of the State Department of Education. This new program for girls is under the guidance of the state supervisors in the vocational field. Under the new arrangement a more effective program is possible and part of the cost is reimbursed to the town from the state. This year a cash payment of \$1,000 was received from the state from

George-Barden funds. In general, local expenditures are reimbursed at the rate of fifty per cent of the total expended. Part of the superintendent's salary is also reimbursed to the town because of his services as director. Reimbursements are usually received a year after expenditures are made. They are paid to the town treasurer.

This year was the second for the Evening Practical Arts program. These courses are for adults and meet once each week (Monday evenings, 7:30-10:30) for a twenty week period. Courses offered this year are rug making, clothing, and decorated ware. Since these are vocational courses, they are supported in part and receive some supervision from the Division of Vocational Education. There are three instructors. During 1953 the town received \$550 from the state to be applied to instructors' salaries.

Another adult program is provided for those seeking to qualify for American citizenship. This program has been in effect for a number of years and is taught by Mrs. Ella Donovan of Plymouth. About forty classes are held during the late fall and winter months. Fifty per cent of the instructor's pay is also reimbursable by the state.

The superintendent of schools serves as director and supervisor of all vocational programs.

SPECIAL SERVICES

Special services indicate the nature and extent of the school program. The following services are now provided: Guidance, remedial reading, transportation, library, health, and cafeteria.

Guidance service includes counseling and testing and covers grades one through twelve. At the elementary level counseling involves problems of pupil adjustment.

At the high school level counseling deals with educational and vocational choices as well as problems of pupil adjustment. Testing includes the giving and interpreting of standardized tests of mental ability, subject achievement, and aptitude. Guidance activities are carried out by the school principals.

Remedial Reading is a special kind of instruction given to students at any grade level to improve their reading skill. Such child is started at his reading achievement level and is helped to build confidence and independence in reading.

Pupils of normal mental ability, who are reading one or more years below actual grade placement are considered remedial cases. Under usual conditions, when classroom enrollments are between 25 and 30, there will be between 10 and 15 percent of the pupils experiencing some retardation in reading. Many factors contribute to reading difficulty such as: large classes, starting reading before a child is ready to read, insufficient and improperly graded materials, habitual absenteeism, too many transfers from one school to another, and lack of interest in reading.

In September, 1953, a total of 79 children from grades 2 through 6 were referred to the remedial teacher for diagnosis of reading difficulty. All were reading one or more years below their actual grade placement and were started on a program of remedial instruction.

During the remainder of the school year a start will be made at the high school level to help poor readers. It is planned to schedule this instruction in regular class periods. Research indicates that reading retardation is the basis for 25 per cent of high school failures.

Miss Betty Lou Stahl, A. M., University of Minne-

sota, conducts the remedial program. This is Miss Stahl's first year in the Duxbury schools and a considerable part of her time this year will be devoted to organizing the program.

Library service is provided both at the high school and elementary school levels. A central library housing more than 3000 volumes is located in the high school. Room libraries are in use in the elementary grades. Visual aids, such as films, slides, etc., and visual aid equipment are part of the library resource material. Mrs. Elesebeth Bencordo is librarian.

Transportation services are provided by contract with Mr. Waldo Herrick of Duxbury, who has been transporting pupils in the town for 28 years. Regular daily transportation is provided for nearly all pupils. In addition, late busses are provided for pupils who remain after school for special help, etc. Transportation is also provided so that pupils may be taken on trips of educational value.

Health service is involving more and more of the time of the school nurse. An examination of the following list of her activities will show the extent of the health program and indicate the need for a greater amount of the nurse's time in the schools.

LIST OF ACTIVITIES OF THE SCHOOL NURSE

DURING 1953

Routine activities: Giving first aid, checking pupils on return to school after illness, assisting in physical examinations, testing vision and hearing of pupils, assisting in blood and urine tests, general supervision of the dental program, conducting follow-ups on examinations, keeping dental and physical records.

Home visits: 60 this year.

Tuberculosis x-ray survey: Getting out notices, filing and listing permissions received, and filing results.

Pre-school roundup: Arranging for medical and dental examinations of pre-school children. This involves scheduling, recording results, and follow-ups.

The School lunch program is conducted in the elementary building and serves elementary as well as high school pupils. This organization is supported by the income from the sale of lunches and by federal subsidy. During 1953 the total income from the sale of lunches was \$19,080.22. Federal subsidy amounted to \$5,980.82. All bills and payrolls are approved for payment by the School Committee. The superintendent serves as supervisor of the program. Mrs. Gilbert Redlon is the lunchroom manager.

The following tabulation indicates the number of lunches served during 1953:

Type A lunches (includes milk)	69,803
Type A lunches (without milk)	294
Type C (milk only)	27,562

PERSONNEL

The typical teacher in the Duxbury schools has 8 years of experience, holds the bachelor's degree, earns an average salary of \$3203.85, is married, takes a minimum of six semester hours of advanced study at a teachers' college or university every three year period, and teaches 29 pupils per class at the elementary level and 18 per class at the high school level. Twenty-four per cent of the teaching force hold master's degrees. Almost all make their homes in Duxbury. The list of personnel follows.

TEACHERS RETIRE

Two Duxbury teachers will retire at the close of the current school year with a total of 93 years of teaching service. Miss Sara E. Paulding, teacher of grade 4, is completing her fifty-first year of teaching, fifty of which have been in Duxbury. Mrs. Ella B. Hebbberd, supervisor of art, is completing her forty-second year of teaching, ten of which have been in Duxbury. We are all grateful to Miss Paulding and Mrs. Hebbberd for their many years of service to young people, particularly to the youth of Duxbury. The following statements about each of these teachers tell of their many years of teaching in Duxbury and elsewhere.

MISS SARA E. PAULDING

Sadie Paulding graduated from Partridge Academy in Duxbury in 1903 at the age of sixteen and immediately began her teaching career in Newbury, Vermont, where she taught an ungraded school covering kindergarten to high school for one year. The next year, 1904, Sadie was back in Duxbury as a regular member of the Duxbury teaching staff. She was assigned to teach grades 1 through 7 at the Ashdod School. The 1904 class register indicates that her pupils included Mabel E. Baker, M. Abbie Baker, Herbert L. Belknap, Harold W. Mann, Elsie M. McAuliffe, Eva A. Nickerson, Bernice H. Randall, Lester L. Randall, Leon H. Baker, Harry F. Douglas, Lillian M. Douglas, Inez E. Baker, Mary D. Britto, Arthur N. Rouillard and Walter L. Rouillard.

In 1907 Miss Paulding was transferred to the Millbrook School, where she stayed until 1927. At Millbrook she taught grades 1 through 5 and later, after the Village School was built, taught grades 1 through 4. In 1927 she was again transferred, this time to the Village School, where she served as principal and teacher of grades 3 and

4. In 1948, due to overcrowded conditions, her grade 4 class was moved to the High School Building. When the new centralized elementary school was completed in 1949, she was assigned grade 4 in this building and has continued in that assignment until the present.

It is estimated that about 1300 students have been taught by Miss Paulding in her Duxbury classes. In a number of instances her pupils represent three generations of the same family. A half century of teaching is a wonderful service to give, and Duxbury is indeed fortunate to have had such service from Sara Paulding.

MRS. ELLA HEBBERD (nee Ella Bagot)

Mrs. Hebbard attended Bridgewater Normal School and graduated from that institution in 1906. She began her public school work in the town of Attleboro, where she taught from 1906 through 1908. In 1908 she moved to Malden, where she taught for another two-year period. In 1910 she taught in the city of Newton. In 1911 she married John Hebbard and did not resume teaching until 1917.

In 1917 Mrs. Hebbard began a long series of assignments in private school work. She was at Dummer Academy from 1917 through 1919, following which she served a year at the Allen Military School. In 1920 Mr. and Mrs. Hebbard organized the DeWitt Clinton Hebbard Private Preparatory School for Boys in Newton, Massachusetts. The Hebbards continued to operate this school until 1930. In 1930 Mrs. Hebbard began a ten-year teaching experience at Suffield Academy in Connecticut. In 1940 Mr. and Mrs. Hebbard moved to Tucson, Arizona, where Mrs. Hebbard continued her study of art with such celebrated artists as Elliot O'Hara and Gerry Pierce. In 1942 Mrs. Hebbard returned to Massachusetts to take an assignment at Howard Seminary teaching art. In 1943 she came to Duxbury as super-

visor of art and has continued in that capacity until the present.

Mrs. Hebberd has brought a wealth of experience to her art classes and has been outstanding in her ability to inspire young people in their study of art. During her ten years in Duxbury Mrs. Hebberd has built up the art program so that it has become an established part of the school's curriculum. Her work has been especially successful in relating art to other school subjects. Duxbury has been especially fortunate in having Mrs. Hebberd as supervisor of art.

BARCLAY J. WOODWARD III

The death of Lt. Com. Barclay J. Woodward III (S. C., U. S. N. ret.) on February 8, 1953, saddened not only students and faculty of Duxbury High School but also the entire community. Lt. Com. Woodward, resident of Duxbury, was a graduate of United States Naval Academy and served as a Commander in the United States Navy during World War II. He was a teacher in the Duxbury schools from 1950 until his death, and his quick wit and ready smile are missed by all who knew him.

An examination of pupil personnel records indicates a continuous growth in school enrollments. In 1949 there were 546 pupils enrolled in all grades. Nine years later (1957), using current enrollment figures this number may increase to 1020. This year (1953), it is 788.

The following tabulation indicates the growth in school population over the nine year period from October 1, 1949, to October 1, 1957. Kindergarten enroll-

ments for period 1954-1957 based on figures supplied by the State School Building Authority.

Grade	1949	1950	1951	1952	1953	1954	1955	1956	1957

REPORT OF SCHOOL CENSUS

The following report of children in town and enrollment is based upon the school census taken October 1, 1953.

	5 years and under 7 years	7 years and under 16 years	Illiterate Minors 16 years or over and under 21
Number of boys living in Duxbury	95	266	0
Number of girls living in Duxbury	74	276	2
Total in Residence	169	542	2
Distribution of Above:			
*Public School Membership	159	510	0
In Continuation School			
Membership	0	0	0
In Vocational School	0	0	0
**In Private School	7	28	0
In State and County Institutions	0	1	0
Not in any School	3	3	2

*Does not include pupils over sixteen years of age.

**Does not include private kindergartens.

BUILDING ADEQUACY

Like most towns Duxbury has been faced with a school building problem in recent years. When the small district elementary schools became inadequate more space was provided in 1949 by the construction of a centralized elementary school. In 1950 a playroom in the new building was made into two classrooms providing a total of twelve classrooms and a kindergarten for the elementary grades. In 1952 a new wing was added to the high school. This addition provided special facilities for shop, science, commercial subjects and art. It also made possible more regular classroom space. Because of a rapidly growing elementary school population, however, the additional space at the high school had to be used for grades five and six. In 1953 four elementary classrooms were located in the high school building. In the meantime plans and procedures were being carried out to add classrooms and a playroom to the elementary school. These are scheduled to be ready for occupancy by September, 1954. When this new wing is completed the total area for elementary pupils will include a playroom, a cafeteria, a kindergarten, a remedial reading room, and twenty-two classrooms. The new wing can be extended to increase the number of classrooms to twenty-four.

The adequacy of a school building affects the school program in many ways. For example, size of class depends directly upon the number of rooms available. The following tabulation indicates our situation in this regard. In September 1954 the average size of class will be 26 pupils per teacher.

	Total class membership 1954-55	Number of teachers 1954-55	Average size of class 1954-55
Kindergarten	86	3	28
Grade 1	59*	3	20*
Grade 2	114	4	29
Grade 3	76	3	25
Grade 4	87	3	29
Grade 5	75	3	25
Grade 6	85	3	28
Total	582	22	26

*This number is expected to increase by September 1954.

Growing elementary school enrollments will mean large high school enrollments in the years ahead. By 1960 we may expect more than four hundred pupils at this level. I recommend continued long range planning to meet this need on schedule.

STATE AID AND SCHOOL EXPENDITURES

The following statistics indicate the cost of our schools and the extent of financial aid from the state. Although our overall costs continue to increase, our unit cost, that is, cost per pupil, remains in a favorable position in relation to other towns in our population group and in relation to towns and cities in the state as a whole. Aid from the state is increasing. During 1953 Duxbury received cash reimbursements totaling \$42,776.70. This amount, if subtracted from the 1953 appropriation, shows that the actual cost of our schools was \$146,504.44.

In addition to the above Duxbury receives money on account of expenditures for vocational education. The vocational reimbursements during 1953 amounted to \$615.17. In addition direct grants from George-

Barden funds were made in the amount of \$1550. This direct grant was used to pay the salaries of teachers in the Evening Practical Arts program, and part of the salary of the teacher of Day Vocational Household Arts.

Costs Per Pupil for the School Years

1949-50 through 1952-53**

	1949-50	1950-51	1951-52	1952-53
Duxbury	\$254.69	\$234.56	\$228.05	\$219.03

I should like to take this opportunity to express my appreciation for your helpful guidance during 1953. It has been a pleasure to work with the Committee in its efforts to establish good schools in Duxbury.

Respectfully yours,

EVERETT L. HANDY,
Superintendent of Schools.

SCHOOL REGULATIONS

ADMISSION

Children who are five years of age prior to January 1st following the opening of school in September will meet the kindergarten age requirement.

A certificate of successful vaccination is required for admission.

A birth certificate is required to establish a child's age.

HEALTH

In cases of absence of more than five days a child should present a note from his or her parent stating the cause of absence and may be re-admitted to school after checking with the school nurse. However, in case of absence due to a specific contagious disease, a doctor's certificate is required.

Parents are not expected to send their children to school on days when, in their opinion, the weather is such as to endanger the health of the child even though the busses are in operation. Such absences are excused on receipt of a written request.

NO SCHOOL SIGNAL

School is usually called off only when bus transportation is unsafe. On such days an announcement is made over Stations WBZ, WEEI, WHDH, and WBET in Brockton, between 6:45 and 7:45.

GRADUATION EXERCISES—June 12, 1953

PROGRAM

Processional—March of the Priests	Mendelssohn
Invocation	Rev. William P. Conley
Address of Welcome	A. Elaine Macomber
President—Class of 1953	
Symposium	Class of 1953
Address	Dr. Trentwell Mason White
President—Lesley College, Cambridge, Massachusetts	
You'll Never Walk Alone	Glee Club and Seniors
Presentation of Awards and	
Scholarships	Hugh O. Macfarlane, Principal
Presentation of Diplomas	
Mr. Morrison M. Bump	Dr. Everett L. Handy
Chairman—Duxbury School Com.	Superintendent of Schools
Recessional	
Benediction	Rev. John W. Estes, Jr.

GRADUATES

John Lincoln Allen	Gerald H. Linde
Martha Lincoln Allen	Steven Morris Loring

Walker, Clarence W.	West Street	Real Estate Broker
Washburn, George Arthur	Tremont Street	Builder
Wrye, Gratia Adams	Summer Street	Housewife

DUXBURY TOWN OFFICE

PHOTO BY E. S. LOCKE

SELECTMEN'S REPORT

Fellow Citizens:

With the submission of the One Hundred and Second Annual Report of your Town Officers and Town Committees, we close another chapter in Duxbury's long history.

MILESTONES

Howling through Duxbury the storm maddened winds of Carol and Edna left devastation and destruction in their wake. Fortunate indeed were we that our suffering was only material.

Not soon to be forgotten is the fact that last year's curiosity — the scallop — now present in great abundance, has given rise in 1954 to a new industry and a new prosperity.

Evidence of the rapid growth of Duxbury was found in the swelling classes of spirited youngsters who filed into the new elementary School addition this past September.

And the southerly spur of the future expressway to Boston was cut through the woods and swamps from Kingston to Tinkertown. Does not this portend a further spurt in population expansion before 1960?

THE HURRICANES

The devastating winds, driven with horrendous violence, destroyed many of our most beautiful and stately trees and left unsightly tangles where there had been beauty. Costly damage was done to town floats, the town pier, the Long Bridge, and to numerous private craft. We wish to record our commendation of the Police, Fire, Highway, Tree and Cemetery Departments. The

prompt mobilization of their forces and equipment, their bravery, ability and teamwork during the height of the storms, resulted in a record of accomplishment in the clearance of debris and protection of property which lessened the period of acute emergency. Fortunately, too, our financial condition was such that your Board of Selectmen could authorize funds to meet the exigencies of the situation.

Year's end saw most of the hurricane clean-up fully accomplished and repairs to the Long Bridge far advanced. Of course much of our scheduled programs for some departments were disturbed by the unexpected work-load imposed upon them by the storms.

HIGHWAY IMPROVEMENT

This past year, an increased allotment for Chapter 90 Highway improvement enabled a speed-up on the Bay Road project, the work being accomplished by Town forces. It is hoped the larger allotment will again be available in 1955. The usual appropriation for the Route 14 maintenance program was available and we plan further continuance in 1955.

The County Commissioners made an improved layout of Autumn Avenue from Summer Street to Winter Street eliminating dangerous curves and widening the roadway for its entire length. At a hearing held by the County Commissioners in Plymouth, residents of the area approved this desirable change. A proposed new layout to by-pass a dangerous curve on the Gurnet Road was abandoned because of opposition of residents on the existing road.

Continuing our Town Highway improvement plan, a section of Winter Street was rebuilt and a curve on upper Temple Street was rebuilt and improved. We recommend further work on Winter Street, a curve improvement on Temple Street, and a rebuilding of the southerly portion of Bow Street in 1955.

PARKS IMPROVEMENT

Beautification of our open and recreation areas progresses at a modest pace. The Way-to-the-Pond in Tinkertown has been cleared. A small plot at the Partridge Academy site has been set off and a marker prepared for erection there. Some improvements have been made to the ball fields, and the playground equipment has been moved to a new and pleasant area behind the Abbott Building. Work on the new tennis court, authorized by the Town Meeting, was interrupted by hurricane work, but will be completed in 1955. Once improved, we trust these areas can be maintained in good condition.

We recommend some very necessary repairs be made to Wright's Dike and the beginning of general improvement of that area be commenced in 1955. We also feel the increasing use of Ellison Beach justifies the undertaking of further improvements there.

An offer to sell a parcel of land adjoining the Town properties to the West and South has been made and an opportunity to consider the advantages of its purchase will be offered at the Annual Meeting.

BUILDING PROBLEMS

The Point and Village Schools, virtually unused since 1949, were sold in accordance with the vote of the Town. In view of the needed repairs, cost of upkeep and lack of foreseeable municipal need, this was a wise decision.

We were fortunate that hurricane damage to our public buildings was minor. However, except for our modern school properties, our buildings are aging and in constant need of repair and revamping to suit modern needs. Although the time is not now predictable when our school building problems will become dormant and we can turn our serious attention to Town Office needs, we should be aware of our problem and appreciate there are some disadvantages in inadequate work areas.

MOSQUITO CONTROL

In 1954 we were quite fortunate to have an opportunity to join with other communities in the South Shore Mosquito Control Project. It is well to remember that this is a joint enterprise, operated cooperatively, and on whose managing board Duxbury has an appointee. The Project's work is extensive, its field personnel are skilled, and its equipment is modern and adaptable. We are confident, from knowledge of the work so far done, that results will improve greatly as the benefits from the basic ditching become apparent. We recommend continuance of our association in this project.

PROTECTIVE MEASURES

Enforcement of the Protective By-Law continues to be a primary concern of the Board of Selectmen. In seeking solutions to mutual problems in this area of our government, we are working closely with the Planning Board. It is most gratifying that they so readily have considered our suggestions, and in some instances have made minor clarifying changes in their regulations and promptly instituted study of proper approaches. We continue to enjoy the assistance of our Chief of Police acting in the capacity of Investigating Officer for the Board.

We have adopted such regulations for the taking of scallops as would seem to give the greatest assurance that acts of man will not destroy the scallop industry. The fundamental purpose of these regulations is to offer the fairest opportunity to all our citizens to reap the highest gain possible without detriment to the scallop beds.

SEA WALL

The two sections of sea wall at the northerly end of the beach were completed in advance of the Summer Season and represent a source of relief to the property owners who enjoy the protection. With their property assured of safety from Winter Storms many owners have begun extensive improvements.

BASIN IMPROVEMENT

Almost since the completion of our most recent dredging our Basin facilities have proved inadequate to care for the rapidly expanding interest in boating. Acting on petition of citizens of the Town, a public hearing was held on the matter of improvement to mooring areas at or near the Basin. Following a hearing before the State Commissioner of Public Works and others from his Department, at which time suggestions were made by interested parties, the matter was left in the hands of State engineers for study. Their report recommending increasing the present Basin area with State Financial assistance will be placed before the Annual Meeting in 1955 for action.

WAGES AND SALARIES

For the first year in many, we have passed through a period where there has seemed to be a levelling off of living costs. This fact eliminates the most compelling reason for general upward revisions of pay scales. In 1954 wages and salary increases voted at the Annual Town Meeting were made effective, and the Board is disinclined to recommend further changes at this time. It must, of course, be recognized that duties and responsibilities are not constant with a small administrative work force and adjustments dictated by fairness are worthy of serious consideration at all times.

OTHER PROBLEMS

The tremendous accumulation of hurricane debris taxed the capacity of our dump and brought closer the day when a new area will be needed. We recommend that a committee be appointed to commence planning for our future need.

We find the continuing more intensive utilization of land gives rise to many problems of drainage of surface water, and the growth of the Town and consequent opening of new ways contribute to a heavier burden of engineering costs.

A survey has been made by State highway engineers, at our request, of the traffic flow at the junction of St. George and Washington Streets. A decision on whether or not the flagpole should

be relocated, in accordance with the survey recommendation, to make possible rotary traffic around the flagpole will be left to the wisdom of the meeting.

The Board continues to receive excellent cooperation from our Representative and Senator at the General Court in seeking that sort of special and general legislation which will be most beneficial to the town.

It may well be that under existing tax law we have come close to the top of the possible receipts from some helpful props to local finance — namely, the motor vehicle excise tax, and income and corporation taxes. These revenues have been increasing since 1946 at a sufficiently high rate to materially offset drastic increases which might have reasonably been expected in local real estate taxes, with the accelerated rate of town expenditure. However, with their levelling off, we must realize that a greater portion of higher expenditure will be reflected in our local tax bill. It behooves all citizens to weigh carefully their needs in respect to public services and to fully appreciate the seriousness of their actions in the Town Meeting. Also, it would be timely for all to consider thoughtfully the need for other revenue sources than those authorized by present law, if we are to meet our increasing school costs without unfairly burdening the home-owner.

We urge you to study most carefully the reports of those officials who conduct your civil business. You will find them most informative.

It has been a privilege to serve as Selectmen during the past year and we appreciate the wholehearted cooperation we have received from Town Officials and employees. Soon we shall meet in our annual business session and endeavor to make wise decisions for the year ahead.

PHILIP W. DELANO

CHARLES R. CROCKER

FRANCIS W. PERRY

Selectmen of Duxbury

REPORT OF STATE AUDIT

March 23, 1954

To the Board of Selectmen
Mr. Philip W. Delano, Chairman
Duxbury, Massachusetts

Gentlemen:

I submit herewith my report of an audit of the books and accounts of the town of Duxbury for the year ending December 31, 1953, made in accordance with the provisions of Chapter 44, General Laws. This is in the form of a report made to me by William Schwartz, Assistant Director of Accounts.

Very truly yours,

HERMAN B. DINE

Director of Accounts

HBD:ED

Mr. Herman B. Dine
Director of Accounts
Department of Corporations and Taxation
State House, Boston

Sir:

As directed by you, I have made an audit of the books and accounts of the town of Duxbury for the year ending December 31, 1953, and submit the following report thereon:

The financial transactions, as recorded on the books of the several departments receiving or disbursing money for the town or committing bills for collection, were examined and reconciled with the reports and records in the office of the town accountant.

The town accountant's ledger was analyzed, the receipts being checked with the treasurer's books and the payments being compared with the warrants authorizing them and with the treasurer's records of payments. The appropriation accounts were checked with the town clerk's records of town meeting proceedings and the recorded transfers from the reserve fund were verified. A trial balance was taken off, proving the accounts to be in balance, and a balance sheet, which is appended to this report, was prepared showing the financial condition of the town on December 31, 1953. An examination of the appended balance sheet shows that the town is in very good financial condition.

The books and accounts of the town treasurer were examined and checked in detail. The receipts, as recorded, were analyzed and checked with the records of the several departments collecting money for the town and with other sources from which money was paid into the town treasury. The payments were compared with the selectmen's warrants authorizing the treasurer to disburse town funds.

The cash book additions were verified, and the cash balance on February 9, 1954 was proved by actual count of the cash in the office, by reconciliation of the bank balances with statements furnished by the banks of deposit, and by inspection of the securities and the savings bank book.

The payments on account of maturing debt and interest were verified by comparison with the amounts falling due and with the cancelled securities on file.

The savings bank books and securities representing the investment of the trust and investment funds in the custody of the town

treasurer and the Plymouth Five Cents Savings Bank were examined and listed, the income being proved and the transfers to the town being verified.

The records of tax titles held by the town were examined, and the town and district taxes transferred to the tax title account were compared with the collector's records. The payments to the treasurer were verified, and the outstanding accounts were listed and compared with the records in the Registry of Deeds.

The records of payroll deductions for Federal Taxes and for the county retirement system were examined and checked, the payments to the Director of Internal Revenue and the county treasurer being compared with the amounts withheld from employees' salaries and wages.

The books and accounts of the tax collector were examined and checked. The taxes and motor vehicle and trailer excise outstanding at the time of the previous examination, as well as all subsequent commitments, were audited and compared with the assessors' warrants issued for their collection. The payments to the town and district treasurers were verified, the recorded abatements were checked with the assessors' records, and the outstanding accounts were listed and proved.

The records of departmental accounts receivable were examined and checked. The commitments were proved, the payments to the treasurer verified, and the outstanding accounts were listed and reconciled.

The outstanding tax, motor vehicle and trailer excise, and departmental accounts were verified by mailing notices to a number of persons whose names appeared on the books as owing money to the town and the district, and from the replies received it appears that the accounts, as listed, are correct.

The surety bonds of the town officials required to file them

for the faithful performance of their duties were examined and found to be in proper form.

The records of receipts from licenses and permits issued by the selectmen, by the town clerk, and by the police and health departments, as well as of receipts from all other departments collecting money for the town, were examined and checked, the reported payments to the treasurer being verified.

Appended to this report, in addition to the balance sheet, are tables showing reconciliations of the treasurer's and the collector's cash, summaries of the tax, motor vehicle and trailer excise, tax title, and departmental accounts, together with schedules showing the condition and transactions of the trust and investment funds.

For the cooperation extended by the town officials during the progress of the audit, I wish, on behalf of my assistants and for myself, to express appreciation.

Respectfully submitted,

William Schwartz

Assistant Director of Accounts

REPORT OF FIRE DEPARTMENT

To the Honorable Board of Selectmen
Duxbury, Massachusetts

Gentlemen:

The Board of Fire Engineers submits the following report of department activities for 1954.

Our 92 calls during the year were as follows:

Automobile	4
Bridge	3
Building	20
Chimney	8
Emergency	32
False Alarm	4
Oil Burner	4
Out of Town Aid	8
Range Burner	1
Stand-by	8

The new equipment purchased this year includes one set of new hose bridges to avert blocking traffic during fires; three Scott self-contained air gas masks to enable firemen to enter any burning building which might contain poisonous gases; two salvage covers to replace two badly-worn canvas covers; five hundred feet of Dacron-treated fire hose; one smoke ejector to enable us to clear smoke from a building rapidly; and one electric sump pump.

We decided to buy two 1200 watt generators in preference to one 2500 watt generator and these units were mounted on two of our trucks to equip all three engines in the department with emergency lighting equipment. We found these light, portable units — as well as the generator which operates our station and radios in emergencies — very valuable during the last two hurricanes when so many of the townspeople were without electricity and telephones. During the storms we were able to operate five radio-equipped trucks which were dispersed in distant locations throughout town.

The Board of Engineers with a great deal of regret have accepted the resignation of Richard Whitney who on December 18, 1954 retired after twenty-three years of faithful service to the town and fire department. Dick was one of the workers who started the Duxbury Firemens' Relief Association in 1932, was the first secretary of the organization, and later served on the Board of Directors. He was very active in all fire services and activities, and very courteous to the many people and to the children who visited the fire station. We all wish Dick much happiness and success in his new work.

We, the Board of Engineers, feel that after twenty-seven years of working with one permanent man it is time that the department

enlarged its force to three men and we have submitted our budget accordingly.

We wish to thank the officers and firemen for their splendid co-operation during the past year, and also all the individuals and groups who have co-operated with us in keeping fire losses down.

For the benefit of our new citizens we wish to repeat this paragraph from our last year's report — "We should like to impress upon each citizen the importance of saying, '**Emergency Duxbury Fire Department 333**' when reporting a fire. Give your name, the location of the fire to the best of your ability, and if possible the nature of the fire (as auto, chimney, building, forest, grass, etc.) so that the proper type of equipment can be dispatched to the fire immediately."

Respectfully submitted,

EBEN N. BRIGGS, Chief

GEORGE S. BUTLER, Asst. Chief

KENNETH O. MACOMBER, Chairman

LEROY M. PETERSON, Secretary

JOHN DELORENZO

CARL J. SANTHESON, JR.

ALDEN M. BARTLETT

Board of Fire Engineers

REPORT OF THE FOREST WARDEN

To the Honorable Board of Selectmen
Duxbury, Massachusetts

Gentlemen:

I herewith submit my report as Forest Fire Warden for the year 1954.

The department had a total of 109 calls, as follows:

- 31 Brush
- 44 Dump
- 3 False Alarms
- 2 Forest
- 19 Grass
- 2 Out of Town
- 8 Stand-by

I am glad to report that last spring was a very exceptional season because the dampness and early spring foliage assisted in keeping fire losses down. I hope that we will be as fortunate in the coming year regarding the hurricane damage to the wooded area which always creates a fire hazard.

I had planned to put a larger pump, which would have cost

about \$500, on F.F.3 but after further examination I decided that the small increase in water was not worth the expenditure. With the Selectmen's permission I purchased a chain saw just two weeks before Hurricane "Carol."

During the hurricane we received many calls concerning fallen trees blocking the roads, and a crew of men left the station on F.F.2 with the new saw and worked into West Duxbury through the storm. We also had two other trucks working, one in North Duxbury and another on Mayflower Street and Route 14, under the supervision of Highway Superintendent, Lewis Randall, and Tree Warden, Roy Parks.

As Forest Warden I would like to say that I am going to miss the services of Dick Whitney who was a very good forest fireman and deputy warden and who worked with me on many forest fires in Duxbury and surrounding towns. Also all of Plymouth County will miss Dick as a radioman because he was one of the first radio operators and, in my opinion, one of the best on our network. I wish to thank Dick and to wish him the best of luck.

A total of 4700 open-air fire permits were issued this year. Duxbury Beach Park issued 1600 beach permits and Ford's Store issued 600; the Central Station issued 600 written and 1900 phone permits.

Again I want to thank the townspeople for their co-operation in calling for these permits because it saves the department many unnecessary runs and possibly many unnecessary fires.

I wish to thank the deputy wardens, firemen, and all departments for their service this past year.

Respectfully submitted,

EBEN N. BRIGGS

Forest Warden

REPORT OF HIGHWAY DEPARTMENT

To the Honorable Board of Selectmen

Gentlemen:

I herewith submit the report of the Highway Department for the year ending December 31, 1954.

In addition to annual repairs to all streets throughout the town, several miles of black roads throughout the town were given a surface treatment. West Street was graveled and given a surface treatment, a portion of Lincoln Street was reggraded and surfaced, and by special appropriations, portions of Winter and Temple Streets were excavated, graveled and topped with mixed-in-place. Roadsides were mowed and raked. Traffic lines were painted and new drainage was installed in various parts of the Town.

Fourteen complete sections were replaced in the Powder Point Bridge, as well as several sections of the sidewalk. Other repairs were made as necessary.

The bathing beaches and floats at all town landings received annual care.

Under Chapter 90, New Construction, the project at Bay Road was continued. The work being done, this year, under the supervision of the Highway Department, instead of being put out to bids as in the past two years.

Chapter 90, Maintenance money, was spent to resurface portions of Route 14 with mixed-in-place.

Respectfully submitted,

LEWIS B. RANDALL

Superintendent of Streets

REPORT OF THE CEMETERY TRUSTEES

To the Honorable Board of Selectmen
and the Citizens of Duxbury:

We submit our report for the year 1954.

The report of the Superintendent has been accepted and is made a part of this report. It contains the details of the work done in the various cemeteries.

We are again indebted to the Ladies Union Fair Association for a generous gift of loam. This has been used in improving another section of the older part of Mayflower Cemetery. We extend to them our hearty thanks.

We are requesting an appropriation of \$13,902.00 to carry on the regular work in the cemeteries.

HARRY A. TAMMETT, Chairman

STANLEY V. JOHNSON

EDWARD P. HOBART

H. RUSSELL CHANDLER

J. NEWTON SHIRLEY, Secretary

REPORT OF THE SUPERINTENDENT OF CEMETERIES

To the Cemetery Trustees:

I submit my report for the year 1954.

At Mayflower, Ashdod, Dingley, and Myles Standish Cemeteries, the general work was done and the leaves were raked, also the avenues were raked and cleaned.

Four lots have been rebuilt in the old part, and also an addition made to the new section of the cemetery.

The Ladies Union Fair Association supplied the loam to complete the section in the Historical part of Mayflower Cemetery.

Each year there is more lawn mowing and trimming added to the cemetery work.

There was a large amount of additional work due to the storm damage done to the cemeteries by hurricanes Carol and Edna.

Perpetual and Annual care lots were cared for: also the graves of the veterans.

There were fifty-six interments this year.

Respectfully submitted,

LAUREL B. FREEMAN

Superintendent of Cemeteries.

REPORT OF PUBLIC HEALTH NURSE

To the Honorable Board of Selectmen
Duxbury, Massachusetts

Gentlemen:

I submit herewith the report of the Public Health Nurse for the year 1954. This is the work for which the town pays the salary of the nurse by an annual appropriation.

Bedside Work (up to September 1, 1954)

	Cases	Visits
Old Age Assistance	5	208
Disability Assistance	1	6
Instructive Work		
Contagious Disease	13	13
Crippled children	1	5
Tuberculosis (cases and contacts)	8	10
	—	—
	28	242

Extra Activities

Well-Child Conference (no longer P.T.A. sponsored)	
Sessions — 6	Attendance — 114
Immunization Clinic (diphtheria, whooping cough, tetanus)	
Sessions — 4	Attendance — 202
	Boosters — 103
	Completed series of 3 — 33

Trips

Plymouth County Hospital — 2 trips — 10 individuals

Respectfully submitted,

SUSAN E. CARTER, R.N.

Duxbury Public Health Nurse

REPORT OF THE TOWN HISTORIAN

To the Honorable Board of Selectmen
of the Town of Duxbury:

The accumulation of historic information in a usable form and place continues to be the major work of this department. The collection of notes upon which one phase of the work depends, was greatly increased this year when some valuable papers were loaned for copy. This generous loan puts important historic data in the care and custody of the town.

No books of historic interest to Duxbury were available for purchase this year, but several are being sought.

Many letters from out of town were answered, giving information on a wide variety of requests. Cooperation was given to several committees and organizations needing historic programs. The resources of this department are always available to groups and individuals.

Respectfully submitted,

DOROTHY WENTWORTH

Historian

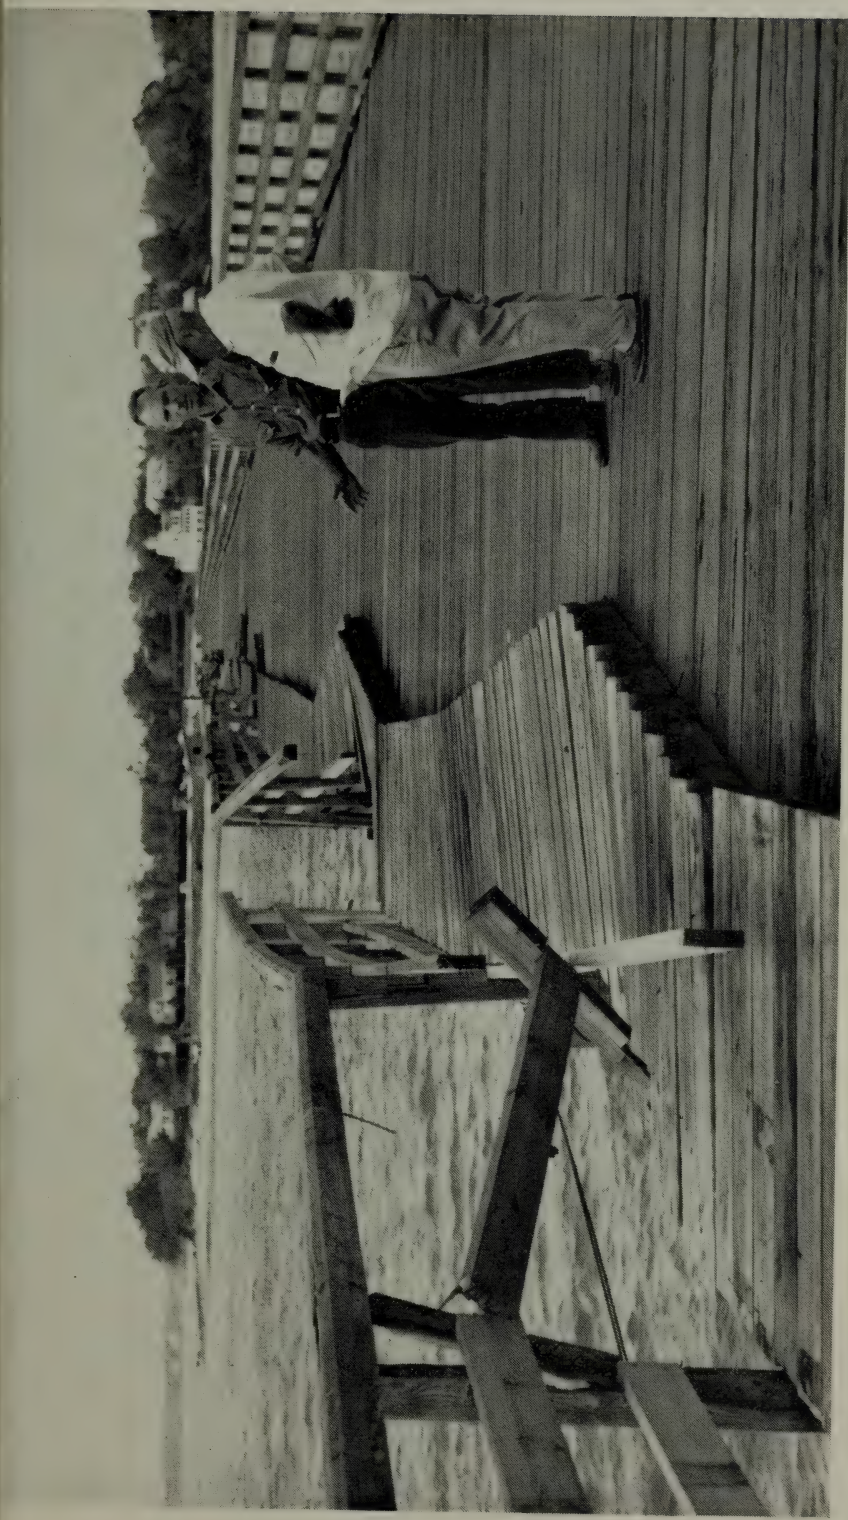

PHOTO BY ROBERT J. KLEINHANS

LONG BRIDGE AFTER CAROL

in their home towns. Many women of Duxbury attended this program.

In December, three women from Duxbury worked at the exhibition held at the Extension rooms at Brockton on items and decorations to make at home for Christmas. Duxbury was well represented at this affair and many helpful ideas were used and passed along to others. Also in December there were two afternoon programs given at Kingston for the surrounding towns on EASY DOES IT and weight control.

Mrs. Scott resigned in August and Mrs. Olive Freeman was appointed Town Chairman for Duxbury.

OLIVE FREEMAN

FLORENCE A. SCOTT

The agricultural clubs in 4H have maintained their position in Dairy, Sheep, Poultry, Goats, and Gardens. The Home Economics 4H group had successful clubs in cooking, sewing, knitting, and home improvement.

The 4H Town committee is made up of leaders and former leaders. They are:

John Willis, Chairman

Mrs. Malcolm C. Brock — Garden, Knitting, Secretary

Mrs. Earle Grenquist — Sewing, Treasurer

James Smithson — Tractors

Mrs. James Smithson — Cooking

Kendall Thomas — Goats

Mrs. Kendall Thomas — Knitting

Malcolm C. Brock — Poultry

Ernest Chandler — Dairy

Miss Ethel McAuliffe — Sewing, Foods, Home Improvement

Pelton Goudey — Crafts

The problems of privacy, bench and locker space for Craft projects has not yet been solved.

A Bird Club and further Sewing clubs are in process of formation.

It is fitting that a word of appreciation be given to Miss Ethel McAuliffe who is completing her 25th year in 4H Leadership.

Seven children were sent to 4H camp with expenses paid. Many fairs and field trips were enjoyed. The Duxbury 4H work is still outstanding in Plymouth County.

Respectfully submitted

MALCOLM C. BROCK

Director

REPORT OF THE BOARD OF APPEALS

To the Honorable Board of Selectmen:

The Board of Appeals held thirty-one public hearings during the year 1954, all of which were on petitions for variance in the residential district.

Of these petitions, four were withdrawn at the hearings, five were denied, twenty were granted substantially as requested and one was granted subject to a change in the proposed layout of the property involved. Finally, on one petition, for which the hearing was held near the end of the year and which required considerable further investigation and study, decision was necessarily postponed until early in 1955.

Of the two petitions, for which hearings were held too late in 1953 for decisions at that time, one was dismissed because of a technical omission and the other was verbally withdrawn by the petitioner.

In closing this report the present members of the board wish to express their appreciation of the valuable services of Kenneth O. Macomber, for many years a member and secretary of the board, and to note their sincere regrets that he found it necessary to resign from the board.

Respectfully submitted,

WILLIAM B. COFFIN, Chairman

H. RUSSELL CHANDLER

EDWARD P. HOBART

REPORT OF THE HARBOR MASTER

December 31, 1954

To the Honorable Board of Selectmen:

I respectfully submit my report as Harbor Master for the year 1954.

During the year 1954 there were 100 registered boats in the basin 20 to 45 feet long and a much larger number of outboard motorboats and sailboats than in the year 1953.

We are continuing our policy of requiring all boat owners who desire a mooring to fill out mooring applications. This gives us all the necessary information as to the ownership, type of boat and where the boat owner can be reached in case of trouble.

Already this year we have received numerous requests for moorings from owners of small boats who have acquired boats this year during the Scallop season and would like to have their boats in the basin year around. All boat owners who made mooring applications this year were issued moorings. It appears that unless there is additional area dredged soon, that each year some boat owners will have to be turned away and moored elsewhere.

Harbor markers were painted and new reflectors put on all markers. The Duxbury Yacht Club furnished one dozen reflectors for the markers.

There were 15 Boats moored at Howlands Landing, Standish Shore this year.

We wish to thank the Police, Fire, and Highway Departments, Boatyards, Boat Owners and all persons who assisted during Hurricane Carol and Hurricane Edna this year. It would seem that some of the boats that came ashore would have fared better if they had heavier mooring ropes.

Respectfully submitted,

SARGENT C. BLACK

Harbor Master

HENRY P. McNEIL,

Assistant Harbor Master

REPORT OF THE TRUSTEES OF JONATHAN AND RUTH FORD FUND

To the Citizens of Duxbury:

The following is a statement of the operations of the principal and income accounts of the Jonathan and Ruth Ford Fund for the year 1954:

On hand December 31, 1953	\$25,000.00	\$3,766.02
Income for 1954		94.31*
		<hr/>
		3,860.33
Paid for relief of worthy cases in 1954		171.50
		<hr/>
On hand December 31, 1954	25,000.00	3,688.83

PHILIP W. DELANO

CHARLES R. CROCKER

FRANCIS W. PERRY

JOSEPH T. C. JONES, Treasurer

*The income has been withheld pending reinvestment of the fund, as the Series G. Bonds expired during 1954.

**REPORT OF THE TRUSTEES OF
AGNES S. ELLISON FUND**

To the Citizens of Duxbury:

The following is a statement of the operation of the principal and income accounts of the Agnes S. Ellison Fund for the year 1954:

	Principal	Income
On hand December 31, 1953	\$1,000.00	\$15.00
Income for 1954		30.67
On hand December 31, 1954	1,000.00	45.67

There were no withdrawals in 1954.

PHILIP W. DELANO

CHARLES R. CROCKER

FRANCIS W. PERRY

JOSEPH T. C. JONES, Treasurer

REPORT OF THE ELEMENTARY SCHOOL BUILDING COMMITTEE

To the Honorable Board of Selectmen.

Gentlemen:

This report continues the progress report submitted to you and presented in the 1953 Annual Report of the Town of Duxbury.

The additional structure to the original Elementary School was essentially completed in time for the opening of the school session in September. However, a number of items remained to be finished during the Fall season, none of which appeared to interfere with the daily operations of the elementary classes.

Your committee plans to remain in session through the present school year to execute a satisfactory performance of the entire contract, to finish up such items as landscaping, to complete the fitting out and equipping of the building and grounds, and to perform all necessary paper work for the State School Building Commission in order to be eligible for the scheduled reimbursement.

The committee wishes to render a very special note of thanks to Dr. Everett Handy, Superintendent of Schools, whose attention to many details during construction has given us a better school.

We wish also to express our sincere appreciation to our architect, Mr. William B. Coffin, whose daily supervision of the work in progress has assured us of a well constructed building in addition to one of the finest school designs your committee has seen.

We are pleased to report that we are operating well within our appropriation, as show in our financial report to date submitted below.

JAMES T. O'NEIL

Chief of Police

January 21, 1955

REPORT OF THE SUPERINTENDENT INSECT PEST CONTROL

To the Honorable Board of Selectmen.

Gentlemen:

In the Department of Insect Control there are eleven insects and two diseases that we have to combat. Dutch Elm Disease is our greatest problem and there is a separate report on that.

The three insects that have caused so much unsightly damage in the past are now very well under control. The past year there was only one small, concentrated spot of Tent Caterpillars the middle of May. The traps were put out around town again this year to catch Gypsy Moths, but only two male moths were caught. Scouting for egg clusters in the location of the trapped moths has been carried out but no eggs found.

Again this year we were fortunate in not having the unsightly Fall Web Worms to contend with. However, there is a great danger that the back-lashing winds of the second hurricane blew in disease-bearing insects that have already infected more of our elm trees.

Respectfully submitted,

ROY E. PARKS, Superintendent
Insect Pest Control

REPORT OF THE TREE WARDEN

To the Honorable Board of Selectmen
and the Citizens of Duxbury:

Business is picking up in this department and looks as if it would continue through 1955. As we go through the trees, removing the broken branches, we find a lot of split trees that require cabling, due to wind damage. The cabling of weak trees in the past saved us from losing many of them in the two wind storms.

Our tree planting program blew up in the Fall with only half as many trees planted as we had planned on. However, we have a good supply in the nursery that are out-growing their allotted space.

Since the job of cleaning up debris on the ground along the streets has been completed, our work has been confined to taking out the broken branches from the elm trees which should be completed before the first of May, eliminating the breeding place for the carrier of the Dutch Elm Disease.

Respectfully submitted,

ROY E. PARKS

Tree Warden.

REPORT OF PARKS AND PLAYGROUNDS COMMITTEE

To the Honorable Board of Selectmen.

Gentlemen:

The Spring clean-up of Parks and Playgrounds started the first of April with the tennis courts ready to play on the middle of the month.

In preparing the fields for the Fourth of July celebration the American Legion gave us a lot of help in cleaning up and leveling up the Walker Field. During the summer this field was sprayed with a brush-killer.

Through the Town Field Improvement Fund, the band stand was moved to a new location on the field; the swings moved away from the Softball diamond; a new location and base for a hard-top tennis court established and improvement of the field around Little League diamond which has been seeded down. The Softball and Little League diamonds were top-dressed with compost and low areas on all three diamonds leveled up with loam.

Respectfully submitted,

ROY E. PARKS, Superintendent
Parks and Playgrounds.

REPORT OF CONTROL OF DUTCH ELM DISEASE

To the Honorable Board of Selectmen.

Gentlemen:

Duxbury, this year had 14 Dutch Elm-diseased trees among the 2,200 that were sprayed for the control of the disease. In addition to these, three more diseased trees were found among the Elm trees that are in the wooded, swamp or out-of-the-way places and do not stand out as individual trees. The figures were obtained from several surveys taken during the summer of every known Elm tree in town.

Out of the 14 diseased trees, 4 trees were infected by root grafts; 8 trees were in that group of trees that were sprayed the last two days of the spray program with the recommended 25% emulsion instead of the 12% oil base spray material. One large Elm tree on Washington Street was infected with the disease because only three-fourths of the tree was sprayed with the 12% D.D.T. oil. The untreated remaining portion of the Elm grew into the top of a large, Soft Maple tree. Oil sprays will kill smooth, thin-barked trees and Maples being most susceptible to injury.

In analyzing the year's work, it looks as though a conscientious night-time spray job with a 12% D.D.T. oil spray is getting worth-while results. We are still maintaining better than a 99% control since Dutch Elm Disease hit Duxbury over seven years ago. We urge all property owners to help by cleaning up the Elm branches on the ground and the broken and hanging branches in Elm trees in their back yards.

Respectfully submitted,

ROY E. PARKS

Tree Warden.

REPORT OF THE HOLDOVER COMMITTEE ON THE CONTROL OF ELM TREE DISEASE

The year 1954 has shown a continuance of a very high degree of protection for our elm trees in Duxbury. Less than one percent of the 2200 elm trees that were sprayed were found infected during the year. Each of these 2200 trees was inspected. Fourteen were found to be infected. Much has been learned here by our Tree Warden on this problem as a result of this year's experience as well as the experience of the past several years.

We believe that it is not too early to draw several conclusions. First and foremost, within a given area (such as a township) it is possible to keep the results of this affliction within small numerical bounds. This seems to have been accomplished here in Duxbury in spite of the fact that to date no direct positive control of the disease itself, either preventive or counter-actant, has been discovered. The present control is secondary — being the control of the carrier.

Second, every diseased tree serves as the locus of further infection in two ways. Through the air by carrier beetles for a distance of at least $\frac{1}{4}$ mile, and through root taps to possibly every tree within root contact distance (50 to 80 ft. radius).

Third, dead elm branches, and elm cord wood, can support the disease and millions of carrier beetles, each branch becoming a locus of infection.

Fourth, spraying must be thorough, done with the right chemicals and proper concentration, and at the right time of day and months.

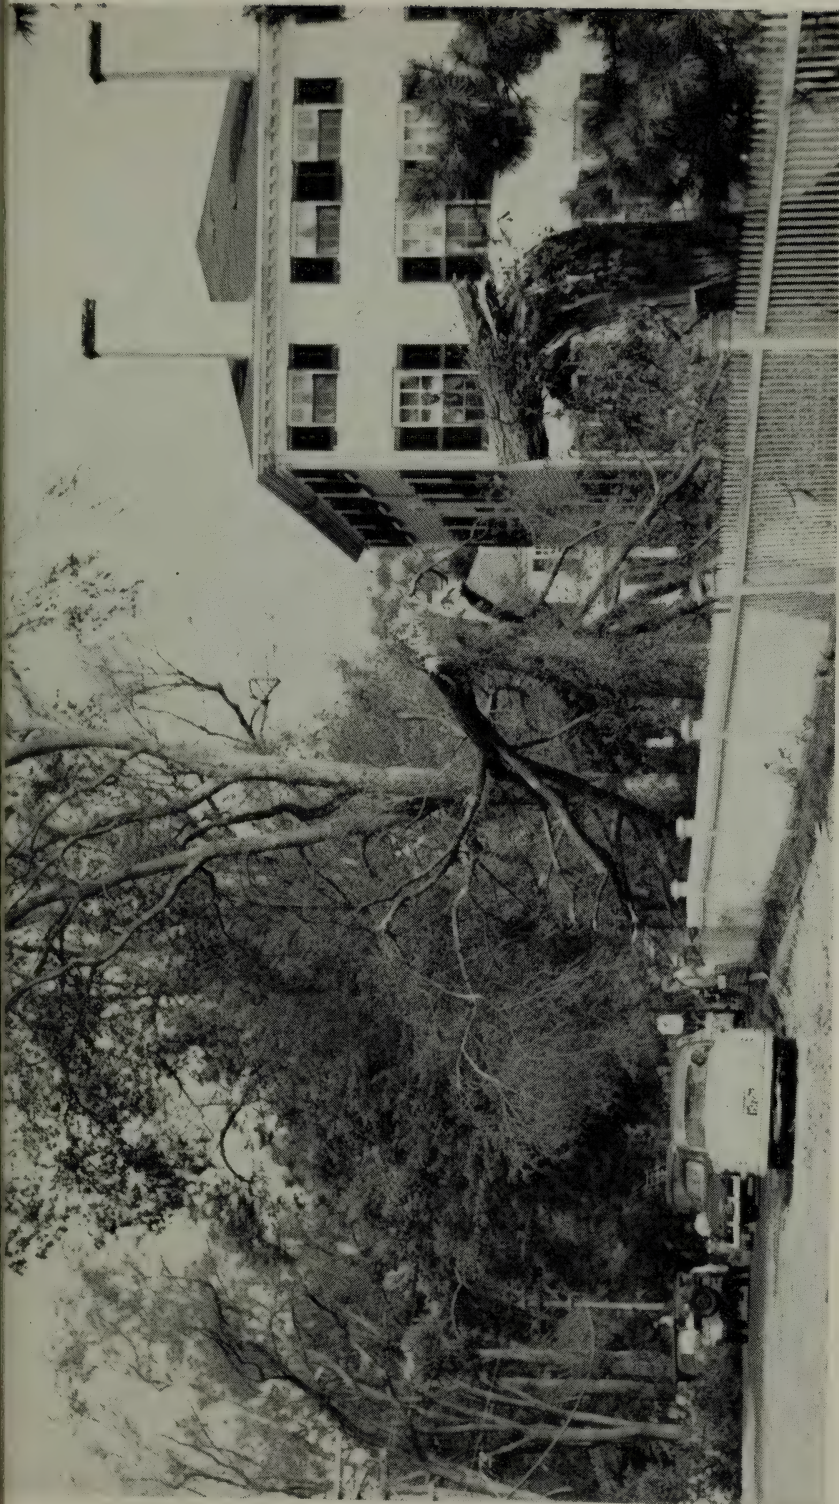

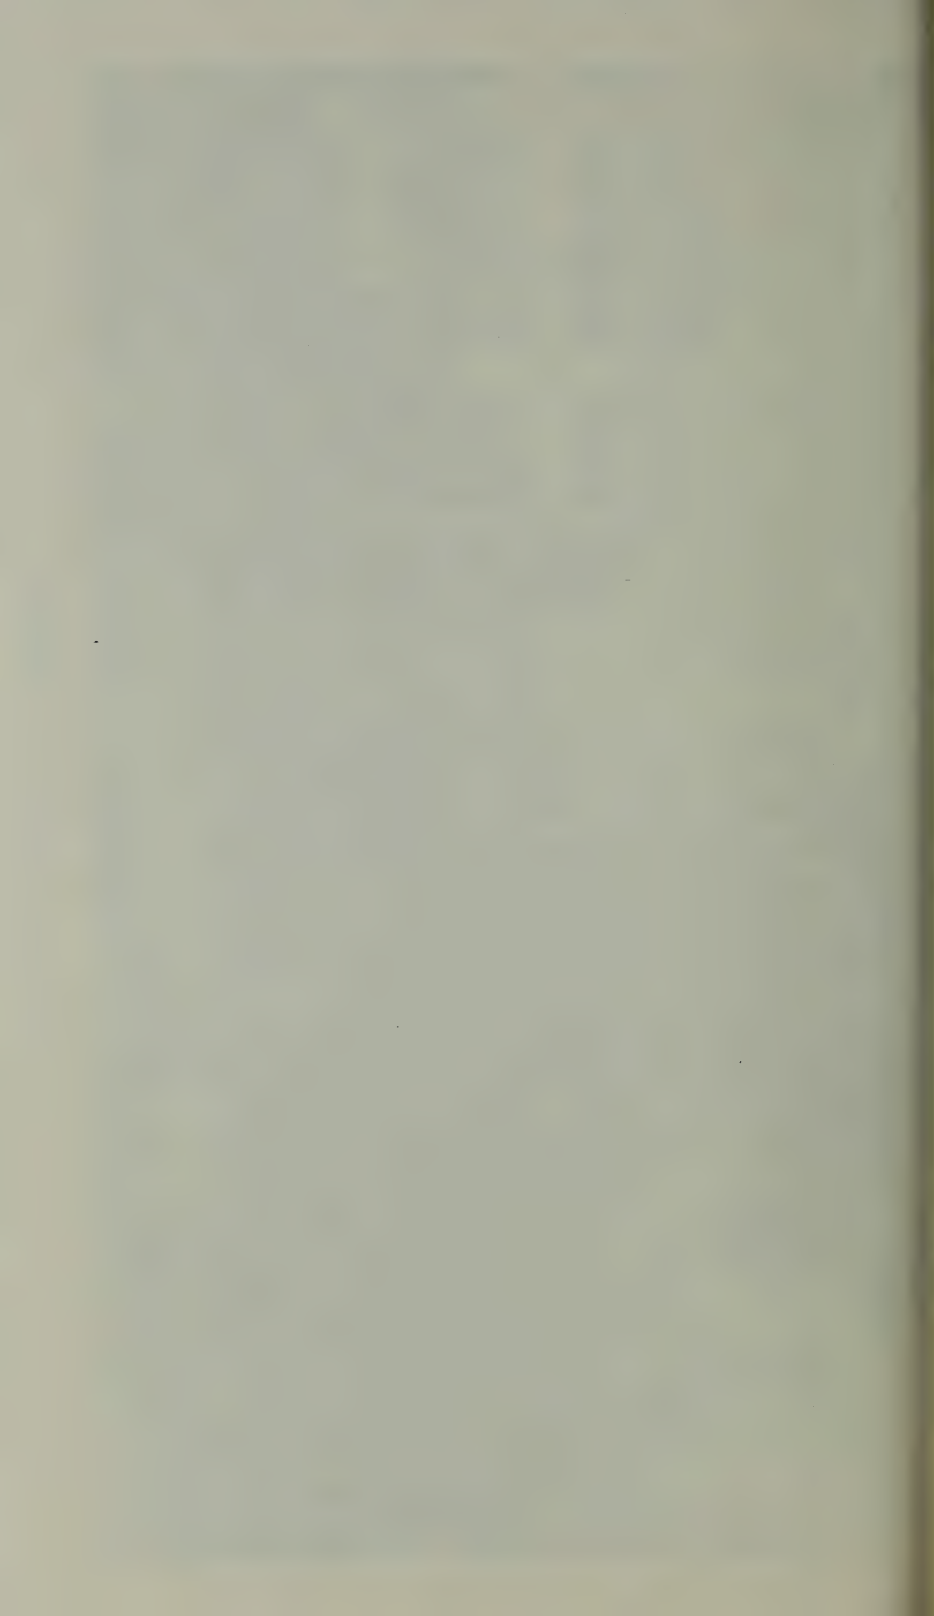

PHOTO BY ROBERT J. KLEINHANS

STATELY ELMS TOPPLED BY THE HURRICANE

Fifth, to be effective, spraying must reach every elm tree in the area, whether publicly or privately owned. Partial spraying, such as town owned trees only, is not only ineffective, but a waste of money. The carrier beetles cannot distinguish private from public owned trees.

The problem facing Duxbury this coming year to maintain its control over this disease is a very serious one. The hurricanes of last fall have caused many trees to come down and have spread broken branches over our properties and left many broken limbs hanging. If these are not located and destroyed, we may have trouble breaking out in many spots. The first rule of this Dutch Elm Tree problem is to eliminate the breeding places of infection. In this we need the help of every Duxbury resident.

Respectfully submitted,

ROY E. PARKS

ROBERT S. CROCKER

KENNETH G. GARSIDE

HECTOR M. HOLMES

MALCOLM C. BROCK, Chairman

REPORT OF THE SHELLFISH CONSTABLE

December 31, 1954

To the Honorable Board of Selectmen:

I respectfully submit my report as Shellfish Constable for the year 1954.

From January 1st until October 1st 25 men worked in the Bay digging Scallops, Razorfish, Quahaugs, Clams and Seaworms. From October 25th to December 31st there have been 60 to 80 men raking Scallops from the Bay on week days, and on Saturdays and Sundays there were 100 to 130 in the Bay. The maximum "take" in one day was 509 bushels.

From April 1st each year to October 1st is closed season for Scallops, this being due to their spawning and very rapid growth during those months.

This year — starting around October 25th — Duxbury Scallops brought a very high price of \$4.75 a bushel in the shell because of their large size. A large percentage of the Scallops were trucked to the Cape Towns to be shucked.

In the year 1953 we had a good sized quantity of Scallops, but now our areas have expanded to around 350 acres. In 1953 we had thousands of bushels but the Cape Towns were also well supplied with Scallops which made a very low price for all.

The two Hurricanes, "Carol" on August 31st, and "Edna" on September 11th, destroyed thousands of bushels of the Cape Scallops by covering them with sand and washing them into the swift channel waters.

We were much more fortunate as our Scallop beds were in the low flats, were protected by large quantities of Eel grass, and are in the lee of Clark's Island and Duxbury Beach.

In future years when the Cape Towns have a large supply of Scallops our diggers will find it necessary to shuck their own Scallops in order to make a good day's wage.

It was necessary to prohibit the digging, taking and carrying away of Scallops, from the waters, flats and creeks from one half hour after sunset to one half hour before sunrise. One reason was to get the diggers in and on shore before dark for their own safety; for example, a man overboard in the dark has very little chance of being rescued. The other reason was that many bushels of Scallops were destroyed on the large tides that came early and late because 70 to 100 diggers were walking on the flats in semi-darkness, stepping on the Scallops, and driving them so far into the mud that it became impossible to locate them or rake them again.

In order to make a close check on all Commercial diggers and for their own safety, we found it necessary to compel them all to land their Scallops at the Town landing at Mattakesett Court.

The State Biologists from the Division of Marine Fisheries, have been out in our Bay on numerous occasions to check our Scallop beds and give us valuable advice. We also received offers of assistance at any time from the State Coastal Wardens, Mr. Shaw and Mr. Wilbur, who cover this area.

To protect our Scallop and other Shellfish beds it has been necessary to maintain a very close watch over them, so that when the seasons open the diggers will find Shellfish in the beds. To do this adequately we find we are in need of a boat suitable for all types of weather and also with a much larger outboard motor so we can compete with whoever we find out there. In order to do this I have included in my budget an amount for the purchase of

such a boat, motor, and necessary equipment, so that I will be able to give our growing industry the necessary protection it so well deserves in view of its importance to the town.

During the year there was \$241.60 spent bulldozing, plowing, picking and destroying mussels, horseshoe crabs and cockles.

282 commercial permits at \$2.50 each were issued — total \$705.00. 991 family permits (29 being free to persons 70 years of age or over and the remainder at 50¢ each) were issued during the year — total \$481.00.

Seventeen notices were sent grant holders requesting a report of work done on grants.

710 bushels of quahaugs and 1½ bushels of clams were planted on grants this year.

There were 17 annual fee forms sent out and \$14.00 collected in annual fees from grant holders.

Following is the record of shellfish and seaworms taken commercially during the year.

647½ bushels of quahaugs @ \$2.00, 2.50, 3.00, 5.00 & 6.00	\$ 1,928.75
562½ bushels of razorfish @ \$4.00, 6.00 & 8.00	\$ 2,853.00
10,563 seaworms @ 3 cents 5 & 6	\$ 1,032.78
2 bushels of mussels @ \$3.00	6.00
20 bushels of soft shelled clams @ \$10.00	200.00
4 bushels of sea clams @ \$4.00	16.00
628 bushels of Scallops, Jan., Feb., March & April @ \$3.00	\$ 1,884.00

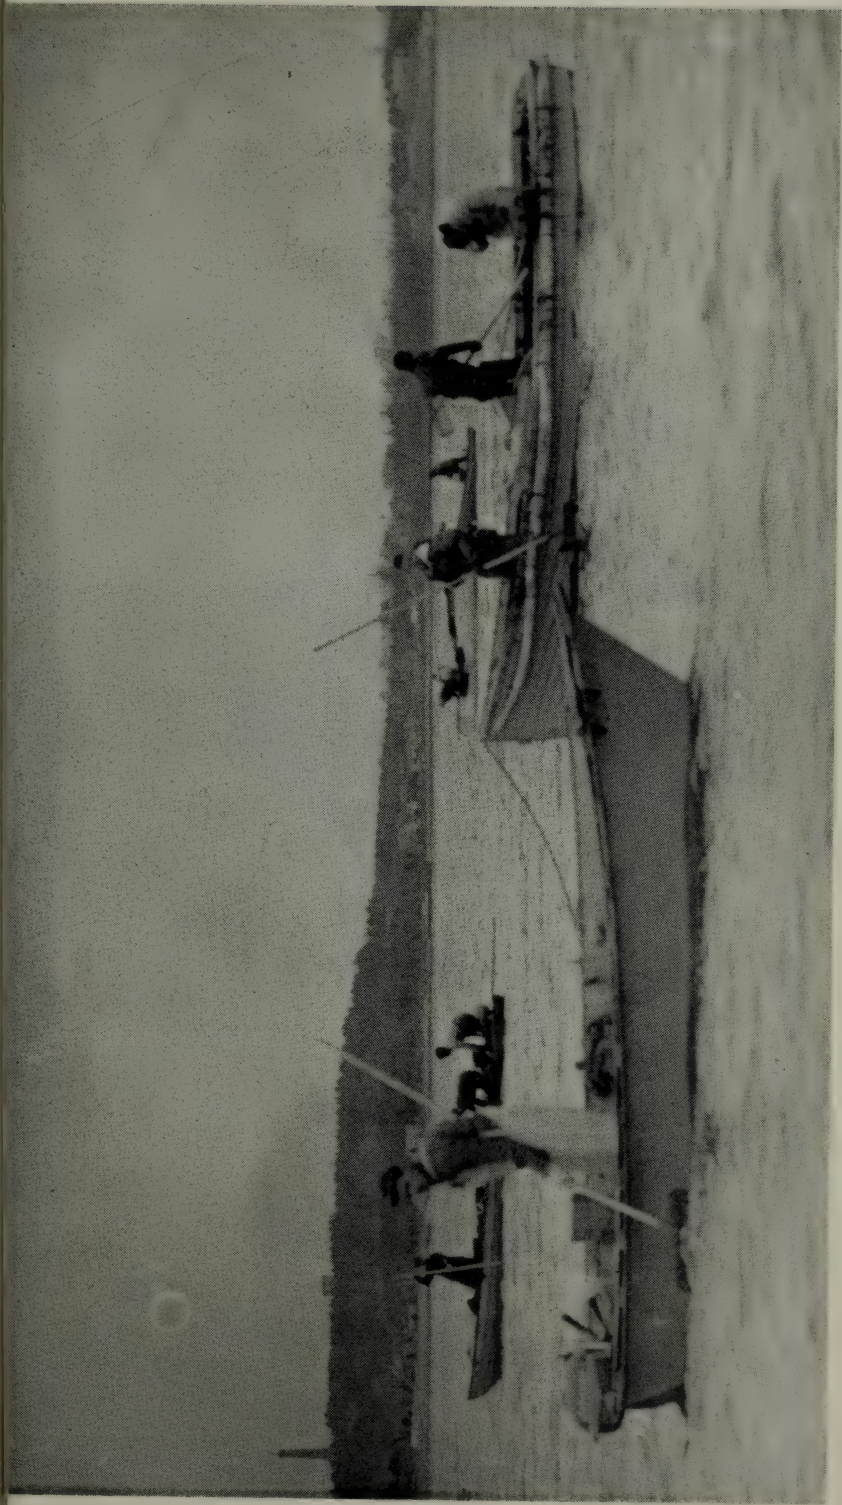

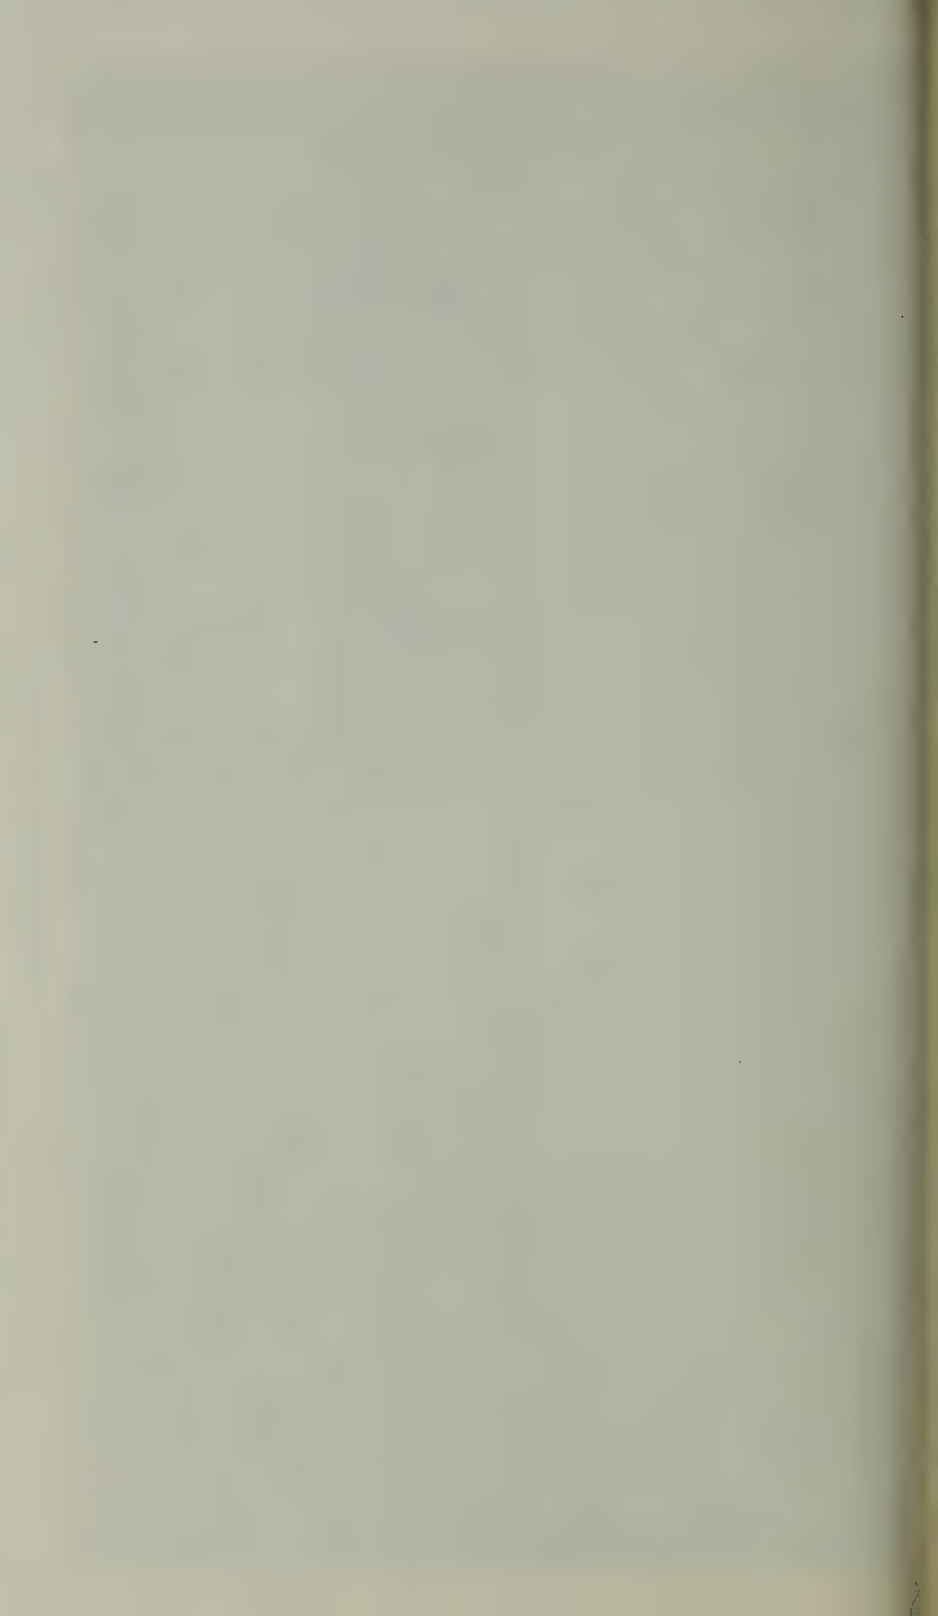

PHOTO BY GILBERT E. FRIEDBERG

SCALLOP FISHERMEN IN THE BAY

1,605½ bushels of Scallops, October	
@ \$3.50 & \$3.75	\$ 6,019.62
5,941 bushels of Scallops, November,	
@ \$3.75 & \$4.25	\$25,249.25
5,888 bushels of Scallops, December,	
@ \$4.25 & \$4.75	\$27,217.75
Total bushels of Scallops taken 14,062½	
	<hr/>
	\$66,407.15

During the year we revoked one Commercial Shellfish permit and suspended twelve permits for violation of our Rules and Regulations.

One boat was found and returned to its owner and all Shellfish Rules and Regulation signs were kept in repair.

Respectfully submitted,

HENRY P. McNEIL,

Shellfish Constable.

REPORT OF VETERANS' AGENT

December 31, 1954

To the Honorable Board of Selectmen:

I respectfully submit my report as Agent and Director for the Department of Veterans' Services for the year 1954.

The year 1954 presented the usual problems and requests from Veterans of the different Wars.

We assisted numerous Veterans and their dependents in obtaining the many benefits they are entitled to under both State and Federal laws.

Our Verifax copying machine purchased this year, has been very useful to this department and other Town departments. We have started a policy of photostating discharges of our Korean War and other Veterans upon request. This way, we are able to keep a copy of each Veterans discharge for our records.

I have cut down our case load by obtaining 2 Federal Pensions and one Government allotment for Veterans and their dependents.

I have registered 13 local men for Draft Board Number 129, Marshfield, Massachusetts.

During the year we have had a total of 17 cases, representing 51 persons who received Veterans Benefits.

Our appropriation was \$7,762.25. Due to an unforeseen increase in our case load and in medical requirements, our Department did not have sufficient money to cover the year 1954. It was necessary during the month of October, to have an additional \$1,500.00 transferred to this Department to cover the balance of the year.

The State Department of Veterans Services will reimburse the Town for approximately half of the amount expended this year.

Respectfully submitted,

HENRY P. McNEIL

Agent

ASSESSORS' REPORT

During 1954 field cards have been prepared for the Assessors Department to facilitate the assessors' road work. This will eliminate the use of the master assessment cards on the road, a practice which has caused many difficulties in previous years.

Duxbury again shows a normal annual growth.

	1953	1954
Number of houses	1,967	2,012
Number of polls	1,271	1,311

Duxbury residents have made some changes in their livestock, but an overall survey indicates no great increases. The various changes are as follows:

	1953	1954
Horses	15	9
Cows	80	101
Neat Cattle other than Cows	92	90
Swine	8	3
Sheep	35	22
Fowl	6,385	7,106
Goats	14	12

The sub-division of land in Duxbury has continued and 2,331 people owned all the real estate in 1954, whereas in 1953 2,284

people owned all the real estate in this town. Land values in Duxbury have increased as follows:

	1953	1954
Value of buildings	7,522,795	7,878,785
Value of Land	2,045,225	2,075,485
	<hr/>	<hr/>
Totals	9,568,020	9,954,270
	1953	1954
Number of acres assessed	13,423	13,254

Each year the acreage assessed in Duxbury varies somewhat by reason of corrections on the town map and by reason of the fact that all assessments are in fractions of acres and the combining of lots results in a slight variation because of the fact that so many parcels contain a number of square feet which do not represent an even fraction of an acre. For example, the present Protective By-Law requires 40,000 square feet in a lot and many people convey exactly 40,000 square feet. This would be assessed to the owner as .92 of an acre although .92 of an acre actually contains 40,075.20 square feet. The total acreage of the land in Duxbury subject to assessment is reduced when a new road is cut through a development and later accepted by the town.

Personal property included in the 1954 list amounted to \$805,030 as compared to the \$739,230 listed in 1953. This would indicate an increase of \$74,800. in tangible personal property in Duxbury, but this figure was inflated with the inclusion of machinery owned by corporations. Shortly after the list was prepared the law was changed whereby certain types of machinery owned by corporations was excluded from tangible personal property subject to taxation. Based on this fact it may be assumed that

PHOTO BY GILBERT E. FRIEDBERG

LANDING SCALLOPS AT MATTAKESETT COURT

the tangible personal property in future years may be considerably under the \$800,000 mark.

The total real estate in 1954 was	\$9,954,270
and the total personal property was	805,030
<hr/>	
making the total taxable real estate and	
tangible personal property	\$10,759,300.

In 1954 Duxbury paid \$8,817.45 towards the support of the Plymouth County Hospital. The town was required to raise the sum of \$10,964.85 towards the support of the hospital, and in due course \$2,147.40 of that sum will be returned to the Town Treasurer.

County tax paid was \$30,827.13. This money contributes to the support of the Registry of Deeds, the Plymouth Superior and District Courts, county highways and other county level agencies.

Duxbury paid \$1,081.45 towards the State parks and reservations system.

The cost of auditing the town's accounts dropped from \$1,053.99 in 1953 to \$863.08 in 1954. Each year the office force endeavors to improve its accounting methods to reduce the cost of the audit to the minimum.

Municipal costs in Duxbury have increased over 1953 so that the taxes assessed were larger than the previous year as follows:

	1953	1954
Personal	\$ 31,786.89	\$ 35,825.41
Real	411,424.86	442,970.91

As stated above, however, a part of the personal property tax could not be collected by reason of the change in the law regarding the exclusion of certain machinery owned by corporations.

Again this year the Board inspected all real estate in Duxbury and endeavored to equalize valuations in each neighborhood.

Under Chapter 531 of the Acts of 1952 entitled "an Act Providing for the Construction of a Sea Wall in the Town of Duxbury", as amended by Chapter 20 of the Acts of 1953 entitled "An Act Relative To The Construction of a Sea Wall in the Town of Duxbury" passed by the General Court of Massachusetts, the Department of Public Works was authorized and directed, for the purpose of the protection of the shore in the Town of Duxbury, to construct a Sea Wall in said Town of Duxbury in two sections. Pursuant to the provisions of Chapter 531, special assessments in the sum of \$18,065. were levied on the parcels of land which receive special benefit from the construction of the Sea Wall.

In 1953 the value of motor vehicles reached a high peak of \$994,980. and in 1954 the value was \$1,227,980.00. This figure of course covers all cars registered in Duxbury and does not take into consideration the reduction caused by the transfer or sale of automobiles. The actual value of the cars in town on any one day would be considerably less than this. Excise taxes of \$56,709.70 were assessed and this too is an over-all figure which was greatly reduced by the abatements granted because of sale and transfers.

The tax rate in 1954 was \$44.50 on each thousand dollars of valuation.

Respectfully submitted,

PHILIP W. DELANO

CHARLES R. CROCKER

FRANCIS W. PERRY

Assessors of Duxbury

REPORT OF BOARD OF HEALTH

I herewith submit my report as agent for the Board of Health.

The communicable disease picture for the year showed a considerable decrease from 1953. Measles ran rampant during June and July, but none of the cases were too serious. The figures for the year were as follows:

Chicken Pox	39
German Measles	2
Measles	107
Poliomyelitis	1
Infections Hepatitis	2
Scarlet Fever	3
Food Poisoning	1
Tuberculosis	1
Venereal	1
Dogbite	6

May we again urge all parents to report all communicable cases to the health agent when they are so mild as not to require a doctor's services. Doctors are required to report all the cases they do see.

The School Dental Program is having a successful year. More work is being done for those who could not easily obtain it elsewhere.

The Health Code adopted last year has helped to simplify the work of the Board.

About 300 pounds of rat bait was distributed during the year to people from all sections of town. It is our wish that more people would take advantage of this program.

A special article in this year's warrant will bring the Well-Child Conferences, Aid to Crippled Children and other services, originally begun by the Nurse Association, under the direct control of the Board of Health. This seemed like a good business move since the Town has been paying the cost of these services for some years past. The Board appreciates the work of the Nurse Association in starting and maintaining these services over the years.

We are grateful to the State Department of Public Health for their assistance and cooperation in the inspecting and licensing of eating establishments, chicken farms and the like.

Respectfully submitted,

GEORGE R. STARR, JR., M.D.

DUXBURY FREE LIBRARY ANNUAL REPORT FOR 1954

To the Trustees of the Duxbury Free Library:

On June 16, 1954 the present librarian completed two years as librarian of the Duxbury Free Library and at the end of December, 1954 the Library has been under her direction for two and one-half years.

Numerous and varied have been the activities of the past two and one-half years and in spite of the many handicaps under which the work has been carried on, the librarian is able to experience a certain measure of satisfaction in the steady growth, month by month, in the use of the library by people of all ages. At the end of December, 1954 the circulation figures for the year reached 41,596, the largest circulation for which there are any records. This figure was a gain of 7,897 over the circulation figures for 1953 and 19,344 more than for 1952. For 1952 there were accurate records for only the last six months of the year.

The total registration now stands at 1985. In 1954, 602 borrowers were registered and 508 of these registered for the first time.

These figures show that the use of the library has just about doubled since 1952, and this growing use of the library has taxed all of its resources and the strength of the staff as well.

It is imperative in the face of the demands made upon the library that more help be provided and more new books be made available. The library is an accepted and integral part of the

community's educational and recreational life. The citizens expect to get what they ask for at the library and if given the chance to say so, are anxious that adequate funds be voted for its support. New people are coming every day. Every month our business increases. It cannot be taken care of without the money to do a reasonably good job.

Because of this growing use of the library, the re-cataloguing problem is still a very large one. During the past year there has been almost no time at all to deal with this phase of the work. It is a problem which will have to be solved as time goes on. It is very difficult to render satisfactory service to the public in a library of between thirty and forty thousand books with no adequate catalogue. Hours are used up in hunting for things which would be found instantly if the books were properly catalogued. And one is never absolutely sure whether the library owns the book or not.

An outstanding development of the 1954 library year has been the growth of the work with the schools. This work began to be a definite part of the library programme during 1953 and has now become firmly established. On Thursdays the library is visited by teachers and pupils from the Elementary School, from 10:30 A.M. until after 2:00 P.M. Each class spends a study period in the library. The librarian and assistants help the boys and girls to find special books for assigned subjects, books covering a subject in which they are interested for themselves and "just a good book to read." They are taught to use the reference books and to browse through the books for their own enjoyment.

Often over 100 children come on Thursdays and on one Thursday in November 376 books were issued; that was the largest library day in 1954. These visits enable the boys and girls to get library cards; to become acquainted with the library and to realize that the library is just as important a part of their school life as the school-room. And in later years it will continue to play an important part in their lives.

It matters considerably, also, that the library shall have the books which the children request. In urging them to use the library, it must be borne in mind that they must not be disappointed by not finding the books in which they are interested. If boys and girls are anxious to read, adults must not let them down. Yes, we need more books for the juniors!

After 2 p.m. the library is visited daily by Junior and Senior High School pupils who come to do their reference work, to get books for outside reading and "just a good book" for themselves.

All in all 1954 has been such a busy year for the library that it is difficult to say anything else about it. The librarian and staff feel that first of all the needs of the public must be met; the library must be a useful place and one to which all will enjoy coming. To attain these ends all have striven mightily and it is hoped that in 1955 the means will be found whereby we can go further and do more.

Since the first week in October the "Great Books" discussion group have been meeting two evenings a month in the Library. In this way the library has extended its services in another direction and thereby given extra pleasure and comfort to the community.

The librarian wishes to extend her thanks and appreciation for all of the help which she has received during the past year to the Trustees, to the Staff, to the Duxbury Community Garden Club and to all those who have sent gifts of books and flowers to the library; all of which has contributed much to the pleasure of working in the Duxbury Free Library.

Respectfully submitted,

MINNIE BURKE FIGMIC

Librarian.

REPORT OF THE PLANNING BOARD

To the Honorable Board of Selectmen
and Citizens of Duxbury:

STATISTICS

Building Permits for new construction:

1946	1947	1948	1949	1950	1951	1952	1953	1954
32	51	36	64	85	75	66	59	67

Additional data under "New Subdivision Control Law":

	1953	1954
Permits New Construction	59	67
Subdivisions Considered	9	6 ²
Approved	7	6 ²
Plans (not subdivisions) Endorsed	13 ¹	52
Miscellaneous Items Referred to Board	6	8

(¹ Last 3 months only)

(² Three of these small — driveways only)

Thanks to the cooperation of the Selectmen, the Planning Board was able to move into its new office adjacent to the Board of Public Welfare in the Abbot house. The added convenience of a regular meeting place with adequate filing space is incalculable. Thanks also to the ability and devotion of our member, Charles H. Wansker, we are the proud owners of an "early American" pine Map Cabinet which should serve as a safe and efficient repository for our growing file of plans for an indefinite period.

The proposed voluntary house numbering scheme was "killed" by the Town Meeting.

A Public Hearing on the proposed Building Code resulted in a recommendation to the Town Meeting that a special committee

be appointed by the Moderator to bring in a report at the next Town Meeting.

Progress continues on the Study Map of the Town. All approved subdivisions have been plotted on the Map and our professional Consultant's staff is now engaged in indicating on it all accepted streets and all possible information regarding ways, either public or private, in existence prior to the adoption of the Subdivision Control Law. This information will, we hope, be of some assistance, because if a lot of land contains the required area (40,000 square feet effective June 25, 1954), and the required frontage on an existing way (200 feet effective June 25, 1954), the owner may secure a building permit from the Selectmen without the necessity of obtaining approval for a subdivision from the Planning Board.

If, however, the division of a larger lot into two or more smaller lots requires the provision of one or more new ways, then it becomes a subdivision and requires the approval of the Planning Board. The guiding principles which your Planning Board is attempting to follow are contained in a recommendation to the Board, from our Consultant, James L. Harris, Architect, as follows:

SUBDIVISION LAYOUT

An analysis of the functional requirements of various types of town roads aids in establishing a series of street layout patterns that can be used as a guide in subdivision approvals. Although it is not possible to separate automobile and pedestrian traffic completely, any needless hazard to pedestrians should be avoided. The streets that supply access to places of residence, predominantly the single family house in the case of Duxbury, should, in so far as possible, be planned to fulfill *only* that single function. A hierarchy of roads develops with the "access to residences" street at the bottom building up to the main artery such as Route Three.

Ideally the "access to residences" street is the street 1) where there is no through traffic; 2) where automobiles move at low

speeds; 3) where only a limited number of families are served by any one street so that intensity of traffic remains low; 4) where children playing in or near the street is not as serious as on through streets with higher speed traffic; 5) where traffic noise in residential areas is kept to a minimum; 6) where lower specification for road construction can be justified; 7) where maintenance costs are lower because of lighter traffic; 8) where utility lines can be designed accurately for future loads without having to overdesign for possible extensions; 9) where driveways may open directly onto the street without undue hazard.

The next level of streets should be those that bring traffic to the "access to residences" streets. Here it is desirable to have no houses fronting the street. It may or may not be used as more than a spine off of which the smaller streets spring. If it is a link between more heavily travelled streets, the disadvantage exists that to a certain degree the increased traffic presents a barrier and hazard to pedestrians. This may or may not be serious depending upon the intensity of traffic.

Next is the main skeleton of traffic flow within Duxbury which carries traffic within the town i.e. traffic from origins in Duxbury to outside points; traffic to destinations in Duxbury from outside points; some through traffic. These flows occur on reasonably heavily travelled roads where speeds to the legal limit and above are the general rule rather than the exception. Ideally houses should not face such routes; driveways should not have access to them; parking should not clutter the pavement; only a minimum of slow moving traffic should be generated and a minimum of stoppings and turnings. There is need for a network of this type of road. By judicious choice of those roads to be improved the overdevelopment of high specification and higher speed routes can be avoided. The town's road system should concentrate traffic on as few streets as possible to maintain as low an initial construction cost and subsequent maintenance cost as possible.

Main through traffic is now concentrated on Route Three and to a lesser degree on Route Three A. Here it is very necessary to

reduce the amount of slow moving traffic and the frequency of access interruptions.

Obviously the traffic pattern in Duxbury cannot be revamped overnight to conform to such a functional plan, but as the town grows these objectives should be used in order to achieve as nearly as possible a simple, economical, and workable pattern of traffic.

WELL DONE

There could not be adequate recognition given to the services of our former member, Percy L. Walker, even were this entire space to be given over to a report of his activities in Planning on behalf of the Town. A bare recording of the immense reluctance and regret with which his resignation was ultimately accepted, out of deference to his desire to lighten his load a bit, will have to suffice.

Acknowledgement

The Planning Board wishes to acknowledge the co-operation and aid of the Board of Selectmen in the enforcement of zoning and planning regulations. The Highway Superintendent, the Superintendent and Commissioners of the Water District, and the Agent of the Board of Health, have been always co-operative and helpful where consideration of Highway, Water, or Sanitary facilities were involved in subdivision control.

We continue our hope that the citizens will call to our attention areas in which the Planning Board can be of service in preserving that which we consider valuable in Duxbury and in directing its growth and change in a satisfactory manner.

Respectfully submitted,

OLIVER L. BARKER, *Clerk*

KENNETH G. GARSIDE

CHARLES H. WANSKER

ATHERTON LORING, *Chairman*

REPORT OF THE SOUTH SHORE MOSQUITO CONTROL PROJECT

To the Citizens of Duxbury:

Submitted herewith is the report of the South Shore Mosquito Control Project of its activities in the Town of Duxbury for the year ending December 31, 1954.

The Town of Duxbury appropriated the amount of \$5,500 for mosquito control for 1954. This money was to be used for mosquito control in the Town of Duxbury by the South Shore Mosquito Control Project, a cooperative program for mosquito control embracing the Town of Duxbury and Towns of Braintree, Cohasset, Hingham, Hull, Marshfield, Scituate, Weymouth and the City of Quincy.

Below is a summary of the first season's operations.

TYPE OF CONTROL PROGRAM INSTITUTED

A control program designed to wipe out the majority of the mosquitoes while they are in the larval or "wiggler" stage in the water was chosen. This type of control has been shown to be most effective and most economical by experience in New England, elsewhere in the United States and in other parts of the world. It is felt that such a program carried forward on a scientific basis will afford better control at less cost than a program of combatting the adult mosquitoes after they have emerged, spread, and begun to bite.

The program depends on drainage to reduce breeding areas to a minimum, chemical treatment of water which breeds mos-

quitoes and cannot be drained, and provision for adult control in situations where the above methods cannot be used, such as near water supplies and fish streams and when control is difficult because of terrain or difficult weather conditions such as were experienced this past spring and during the hurricanes this past fall which damaged our control substantially in addition to blocking many streams with fallen trees and debris.

A control program such as this builds up in efficiency as time goes on since drainage is improved, more of the smaller and troublesome breeding areas are found and dealt with, and a gradual cumulative effect of D.D.T. or a reduction of population is noted.

TYPES OF MOSQUITOES AND CONTROLS USED

In general there are four types of mosquitoes in this area: spring fresh water forms, salt water and brackish water breeders, house mosquitoes and flood water mosquitoes.

The spring fresh water mosquitoes breed in general water resulting from melting snow and spring rains. This water collects in woodland swamps and pools and overflows from streams.

The treatment for these forms is early spring aerial spray for large areas and simultaneous ground treatment with pack sprayer in smaller areas. In addition, a new technique, pre-hatch dusting in the winter will be utilized. This promises to become a major factor in the control of these mosquitoes.

Salt and brackish water mosquitoes breed in areas flooded by the tides or formerly flooded and now wet by rains. The species involved depend on the concentration of salt in the water.

The keystone of control of the salt and brackish water breeders is drainage which is in existence on most of our salt marshes and in many cases only needs to be put in good shape after the winter storms have blocked the ditches with debris. Treatment of areas

found to be breeding is done on the ground by pack sprayer. In brackish areas which are not washed continually by tides, pre-hatch dusting may prove to be valuable.

House mosquitoes breed in many types of standing water during the summer, especially in containers around the yard, around dumps, in catch basins, in quarries and in polluted streams and ponds. Treatment is by pack sprayers. These mosquitoes breed continuously so such water, especially if polluted, is best kept toxic to mosquito larvae at all times in the breeding season.

Flood water mosquitoes breed in the flood plains on rivers or streams and in such places as roadside ditches or pools. These mosquitoes breed in the water present after heavy summer rains, hatching occurring after each considerable rain. Ground treatment seems to be a very efficient method from recent tests.

SURVEY OF BREEDING AREAS

A survey of the three new towns based on topographical maps was made by the superintendent and one of the foremen. With this as a basis, the areas marked for possible breeding were checked for standing water and mosquito larvae just before the aerial spray program was begun. At this time additional breeding places were located and mapped. In addition residents reported many small but important mosquito sources as well as a number of large areas not on maps or noticable from roads or pathways.

This type of survey will be made again this year so as to get nearer to 100% of the breeding places mapped.

Such work must be done each year both during the breeding season and during the off season as new areas are created by development of an area and old ones are reduced or altered in character by many forces at work in the community.

RAINFALL

Mosquito breeding is greatly influenced by the precipitation during the months of March through September. Looking at the weather records for this period, we find that the total rainfall for these months was 80% above normal, and what is equally as important, there were 20% more days on which we had precipitation of .01 inches or more. This frequency of rains was as important as the total amount of rainfall in keeping a large amount of our breeding places wet throughout the season. In addition to the above, hurricanes in the fall and torrential rains in May blocked streams with debris and resulted in abnormal flooding. To summarize, this past year was exceedingly wet and rainfall was rather frequent. The weather records also show that this year has been very unusual and that normally we may expect a much better situation as regards rainfall and, therefore, mosquito control will be relatively more efficient.

AERIAL SPRAYING

The aerial spray program aimed at the April hatch of mosquitoes in fresh water swamps was begun on April 19 and completed May 1. As was the case last year in the original towns, the absence of proper spraying weather resulted in somewhat of a late start and prolonged the work, however, the program was started about a week before that of last year and completed a week ahead of the previous year.

The purchase of two new helicopters by flying service companies in the area this year will make it possible to double up on any one day and result in more efficient use of available weather in the future.

This aerial spray program was done by both helicopter and fixed wing plane, the latter being used on large areas close to the two available airports in Braintree and Marshfield.

1055 acres were sprayed in the Town of Duxbury.

GROUND SPRAYING

The ground crews circulated on a schedule throughout their sections of the project. They varied from this circuit to treat in complaint areas or to treat places found breeding by the superintendent or the inspectors. They then returned to their rounds.

Their job this year was very difficult since excessive rains left them with many large areas to treat in addition to the many small obscure breeding places. In a normal season this work will be much reduced and drainage work in the future will further lessen the effort necessary to keep up with this very important phase of the work.

DITCHING

Drainage and elimination of mosquito breeding places has been considered the keystone of mosquito control by leaders in the mosquito control field from the very beginning.

Proper installation and maintenance of ditches will eliminate or reduce the majority of the breeding places, thus resulting in a smaller area to be covered by the ground crews or by aerial spraying. In addition to cutting costs, this results in more frequent checking of any given breeding place by the ground crews and thus in more efficient control.

Such a program also contributes to solving a problem always with the towns, that of storm drainage and reduction of standing water which may present a hazard to health.

With the above ideas in mind we have started on a program of drainage. Since the end of the breeding season 5,275 ft. of ditches have been cleaned, 11,430 ft. reclaimed and 700 ft. of new ditch has been dug in the Town of Duxbury.

This work will continue throughout the rest of the winter and early spring.

The work areas will be chosen firstly for intensity of mosquito breeding, secondly for difficulty of handling by spray programs, and thirdly for adaptability to hand ditching methods which are the only methods now available to this project.

Under consideration is the purchase of a tractor fitted for use on marshland and equipped with a scavel plow. This piece of machinery has been in use for the past six years in Connecticut, New Jersey and Long Island, N. Y. and was developed for the specific job of cleaning or reclaiming salt marsh ditching.

Depending on the type of marsh, 15,000-22,000 ft. of ditch may be worked in a day. It will thus be possible to reclaim (not just clean) all our ditches thoroughly every other year.

Like all machines, the above has its limitations and there will still be places where machine work is impossible or must be preceded by hand work. These places would be handled by our crews in the fall and early spring.

This last year the project has been responsible in the original towns for the salt marsh ditching maintenance formerly under the direction of the State Reclamation Board. It is anticipated that next year this work in the three new towns will be assigned to the project by the Board.

FOGGING

This past season the project has had in operation a Todd Insecticidal Fog Applicator, commonly called a Tifa. This machine emits a smoke containing small particles of insecticide. This smoke is produced by introducing insecticide in oil into a stream of hot gases produced in a generator by burning gasoline and propelled by a stream of air from a blower.

This fog drifts with the air currents over the area, wiping out all mosquitoes and other flying insects present.

The machine is of great value in cutting down invasions of mosquitoes from large breeding places and is our only means of

control in areas where our chemicals may contaminate water supply.

EQUIPMENT

The project continued to add to its equipment as a result of the expansion to Scituate, Marshfield, and Duxbury and to bring the equipment on hand up to the necessary level.

Equipment now on hand

- 1 Ford F-350 truck
- 1 Ford F-250 truck
- 1 Ford F-100 truck
- 1 Willys 1 ton truck
- 1 Chevrolet Handyman
- 1 Cushman truckster (catch basin unit)
- 2 50 gal. Bean hydraulic sprayer
- 1 Todd insecticidal fog applicator
- 1 Hoffco power brushing tool
- 1 Gorman-Rupp centrifugal pump

Pack sprayers

Various hand ditching tools

Equipment to be added

- 1 Oliver OC-6-68 tractor with plow designed for ditch maintenance and digging
- 1 Trailer for transporting ditching tractor
- 1 Ford F-350 truck or equivalent
- 2 Catch basin units (Cushman trucksters or motorcycles)
- 2 50 gal. Bean hydraulic sprayers or equivalent

PLANS FOR THE WINTER

Throughout the months between the past and coming mosquito breeding seasons much attention will be given to ditching. Work on the salt marsh will be done in the Fall and early Spring and the colder Winter months will be spent in the more protected fresh water areas.

In addition when snow and ice conditions are right pre-hatch dusting, as was done last year, will be applied. The success of

last year's work along these lines makes it feasible to expand this program to as much as help and weather permit.

PLANS FOR NEXT YEAR

All operations above will be included next year.

In addition a very necessary extension of our work will be started. This is treatment of catch basins which breed enormous numbers of house mosquitoes. A survey made this past summer indicated that approximately sixty percent (60%) of the catch basins in the three areas sampled bred *Culex pipens*, the house mosquito, at the rate of fifty (50) larvae per dipper or more and only twenty percent (20%) had no breeding in them. The rest varied from a few to almost fifty (50) per dip.

This work will be done with a Cushman truckster and a motorcycle with a large spray tank mounted in the rear. A regular round of all basins found will be worked out for each operator in his area. These men will also treat small roadside pools and cellar holes in new developments which are a temporary but important nuisance.

If the project decides to obtain the marsh tractor, ditch reclaiming will be done during the summer whenever it doesn't interfere with necessary spraying and will be increased in tempo as soon as spraying is done in September.

OUTLOOK FOR NEXT YEAR

A very noticeable dent was made in the problem of controlling mosquitoes in the new towns.

The project personnel and the people in the towns have been adding to our maps more of the hidden breeding places and a winter of draining and dusting should show continued results.

The above coupled with a normal or dry season should produce results far beyond the good beginnings of this year.

**REPORT OF
THE DUXBURY DAYS COMMITTEE**

July 9, 1954

Town of Duxbury
St. George Street
Duxbury, Mass.

Attention: Mr. Philip Delano

Gentlemen:

The following is the report of the 1954, 19th Annual Duxbury Days Parade Committee.

A total of \$1136.25 was spent by this committee, as itemized on page two, of which the town voted to appropriate the sum of \$950.00.

Following the practice of previous years, the cost of the bands, as shown on items #1 thru #4, will be paid directly by the town. The remaining expenditures will be paid by the Legion, which will bill the town for the balance due from their appropriation, amounting to \$233.00.

This year the committee voted to raise the prizes of the floats and horribles, which we think created additional interest in this division.

We wish to acknowledge our appreciation to the police department, fire department, highway department, and the many other groups and individuals who's splendid co-operation helped to make the parade a success.

Respectfully submitted,

RAYMOND P. CHANDLER,
Parade Chairman

Encl. 1

RC:

DUXBURY DAYS — 1954 PARADE COST

Bands (Items #1 thru #4)

1. Plymouth Post #40, American Legion Joseph Contente, Mgr., Ply. 735.	\$245.00
2. Abington Legion Band, John H. Plouffe, Mgr., Rock. 191-W	\$160.00
3. Dorchester Community Corps. (Cowgirls) Mrs. W. H. McGee, 492 Ashmont St., Dorchester	\$200.00
4. Lawrence W. Foster Post #93, Foxboro, Cyril S. Pyer, Mgr., 26 Granite St., Foxboro, Mass.	\$112.00
	<hr/>
	\$717.00
5..Milton Junior Legion Band, sponsored by the Duxbury Kiwanis.	No cost to the Town

Cost of Other Entrants

A. Floats:	1st, \$100; 2nd, \$50; 3rd, \$25; 4th, \$10; 5th, \$5.	\$190.00
B. Horribles:	1st, \$50; 2nd, \$25; 3rd, \$15; 4th, \$5; 5th, \$5.	\$100.00
C. Cost of South Shore Antique Auto Club:		\$ 50.00
D. Cost of U. S. Coast Guard, and 514th AAA Bn. (Gun) (90 MM). — Refreshments —		\$ 79.25
		<hr/>
	Total	\$1,136.25

JUDGES — 1954 PARADE

FLOATS

**REPORT OF TOWN CLERK
MARRIAGES RECORDED IN DUXBURY IN 1954**

January 29. In Plymouth, William Henry Ruemker of Duxbury, and Olivia N. Mello of Kingston, by Rev. John E. Mullarkey.

February 14. In Kingston, John A. Williams of Duxbury, and Elizabeth L. (Glauben) Parkman of Pembroke, by George W. Cushman, J. of P.

February 15. In Nashua, N. H., William G. Swift of Duxbury, and Olive M. Hartwell of Green Harbor, by Edward S. LeBlanc, J. of P.

March 8. In Duxbury, Lewis B. Randall, Jr. of Duxbury, and Peggy Ann Wood of Plymouth, by Rev. John W. Estes, Jr.

March 12. In Plymouth, Edward M. Ivanoff of Duxbury, and Diane Richardson of Manomet, by Rev. George L. Thurber.

March 29. In Rockland, Peter Fitts of Rockland, and Marjorie Short of Duxbury, by Rev. Clayton H. Witt.

April 2. In Duxbury, Oscar L. Johnson of Duxbury, and Blanche M. (O'Neil) Whatley of Massillon, Ohio, by Rev. John W. Estes, Jr.

April 3. In Duxbury, Richard A. Kingsbury of Harwichport, and Joan M. Hutcheon of Duxbury, by Rev. John W. Estes, Jr.

April 10. In Kingston, Fayette D. Burgess of Plymouth, and Ruth A. Parks of Duxbury, by Rev. Eugene A. Luening.

- May 29. In Duxbury, Robert W. Cain of Springfield, Illinois, and Jean A. Scheller of Clearwater, Florida, by Rev. George W. Owen.
- June 12. In Newton Centre, Hugo Francke of Duxbury, and Joan Ellen Crowley of Newton Centre, by Rev. Eric F. MacKenzie.
- June 13. In Bryantville, Russell G. Shirley of Duxbury, and Shirley Ann Trask of Pembroke, by Rev. Charles E. Nelson.
- June 13. In Duxbury, Albert R. Caron of Duxbury, and Janice M. Borghesani of Duxbury, by Rev. William P. Conley.
- June 15. In Duxbury, James N. Quinn, Jr. of Duxbury, and Marion E. (Armstrong) Leatham of Duxbury, by Rev. William P. Conley.
- June 19. In Duxbury, Charles W. Schwab, Jr. of Duxbury, and Jane T. Ripley of Marion, by Rev. William S. Anthony.
- June 20. In Duxbury, Warren F. Turner of North Pembroke, and Virginia L. Peterson of Duxbury, by Rev. William P. Conley.
- June 25. In Kingston, William F. Houston, Jr. of Duxbury, and Elsie I. Tuscher of Hull, by George W. Cushman, J. of P.
- June 26. In Duxbury, Robert G. MacCullum of Duxbury, and Priscilla Burnham of Duxbury, by Rev. John W. Estes, Jr.
- June 26. In Putnam, Conn., Roger P. Sollis of Duxbury, and Olive P. Witherell of Raynham, By Bernice G. Delaney, J. of P.
- July 18. In Duxbury, Walter T. Churchill, Jr. of Duxbury, and Jean B. Cope of Duxbury, by Rev. William S. Anthony.

- August 2. In Uxbridge, Dean H. Orrell of Imperial, Nebraska, and I. Jeannette Ferrell of Duxbury, by Rev. Joseph P. Tamraz.
- August 6. In Kingston, Arthur T. Mercer of Duxbury, and Thelma Lura of Duxbury, by George W. Cushman, J. of P.
- August 6. In Rindge, N. H., Richard L. Koehler of Duxbury, and Beulah M. Sturgeon of Stoneham, by Rev. Carroll M. Pike.
- August 7. In Brockton, Norman E. Saley of Duxbury, and Ruth C. Sundin of East Weymouth, by Rev. J. Manley Shaw.
- August 19. In Duxbury, Ezra C. Boomer of Duxbury, and Elizabeth E. Churchill of Duxbury, by Rev. Elmore C. Young.
- August 28. In Duxbury, Richard E. Eames of Medford, and Ann Wentworth of Duxbury, by Rev. W. Wallace Bush.
- August 28. In Duxbury, Lawrence C. Black of Duxbury, and Ruth H. Curtis of Kingston, by Rev. John W. Estes, Jr.
- August 31. In Newton, Edward Marsh of Dedham, and Emily Bowman Thayer of Duxbury, by Rev. George L. Parker.
- September 2. In Duxbury, Richard L. Bowen, Jr. of Rehoboth, and Phyllis S. Brown of Duxbury, by Rev. Elmore C. Young.
- September 4. In Salem, David L. Southwick of Duxbury, and Gloria Alice Dmytriw of Salem, by Rev. Vladimir Kozoriz.
- September 4. In Duxbury, Ronald W. Sporing of Freeport, New York, and Lillian V. Sheehan of Duxbury, by Rev. William P. Conley.

- September 18. In Duxbury, Charles G. Carothers, III, of Sudbury, and Mary S. Trainer of Duxbury, by Rev. Edwin T. Anthony.
- September 18. In Duxbury, Norman B. White, Jr. of Duxbury, and Faith E. Olsen of Duxbury, by Rev. Otis L. Mason.
- September 19. In Duxbury, Norman E. Bouchard of Kingston, and Ruth E. Washburn of Duxbury, by Rev. William P. Conley.
- September 25. In Duxbury, Carl A. Carlson of Duxbury, and Anne L. Hardy of Duxbury, by Rev. William S. Anthony.
- October 1. In Boston, Stanley D. Roberts of Duxbury, and Phyllis Mosher of Duxbury, by Charles E. Worden, J. of P.
- October 9. In Taunton, Reynolds Prince Cushing of Duxbury, and Muriel L. Curtis of Taunton, by Rev. David W. Buzzell.
- November 6. In Scituate, George P. Bulu of Duxbury, and Mary T. Alves of Greenbush, by Rev. John Scannell.
- November 13. In Plymouth, Raymond A. Caron of Duxbury, and Marjorie A. Boutin of Plymouth, by Rev. David G. Bonfiglio.
- November 13. In Hampton, New Hampshire, Dana B. Rogers of Duxbury, and Marian L. Perry of Turner, Maine, by Sanford G. York, J. of P.
- November 16. In Boston, Chester B. Lovering of Duxbury, and Charlotte (Love) Foster of Charleston, West Virginia, by Rev. H. J. Ockenga.
- November 28. In Duxbury, Gaudencio M. Fernandes of Duxbury, and Evelyn Adams of Duxbury, by Rev. William P. Conley.
- December 18. In Duxbury, George E. Teravainen of Duxbury, and Nancy Burnham of Duxbury, by Rev. John William Estes, Jr.

Respectfully submitted,

JOSEPH T. C. JONES,

Town Clerk.

REPORT OF TOWN MEETING

MARCH 13, 1954

The meeting was called to order at 1:00 p.m. by the Moderator, William W. McCarthy.

An invocation was given by Rev. John William Estes, Jr.

It was voted to dispense with the reading of the warrant by the Town Clerk.

A quorum being in attendance, the meeting was declared in order.

The Tellers, Harry A. McNaught, John E. Lucey, Helen F. Dawes, Frank H. Williams, Mary S. Crocker, Rodney W. Leach, John Alvin Borgeson, Philip W. Delano, Jr., Charles F. Shirley, and Gerald Hazlehurst, were sworn in by the Town Clerk.

There being no objection, the Moderator declared that proponents on any article in the warrant should be given opportunity to speak on the question being voted upon before the article is tabled, as in previous years.

Under Article 1, it was voted that the appointment of necessary officers not chosen by ballot be left in the hands of the Selectmen.

Under Article 2, it was voted that the reports of the various Town Officers and Committees be accepted as printed in the Town Report. Under a motion by Mr. Brock it was voted that a committee of five be appointed by the Moderator to study and present

at next Town Meeting plans and costs of alterations to the Old Town Hall for shop, bench, and locker space, to cover the needs of 4-H, Boy Scouts and other recreational organizations. This committee of five shall consist of a representative of the Recreational Committee, the Boy Scouts, and the 4-H Town Committee.

Under Article 3, it was voted to fix the compensation of the elected Town Officers for the year as follows:

Chairman, Board of Selectmen	\$1,400.00
2nd and 3rd members, Board of Selectmen	512.50 each
Chairman, Board of Assessors	1,200.00
2nd and 3rd members, Board of Assessors	550.00 each
Town Clerk	1,500.00 in lieu of fees
Town Treasurer	1,500.00
Tax Collector	2,600.00 in lieu of fees
Tree Warden	1,600.00
Moderator	40.00

and to raise and appropriate the sum of \$11,965.00 for same and that such increases as made, be made retroactive to January 1, 1954.

Under Article 4, it was voted to raise and appropriate the following amounts for the following Town Departments, and to raise and appropriate the sum of \$3,155.00 to cover same:

Accounting Department	
Out of State Travel	\$70.00
Finance Committee	50.00
Town Historian	50.00
Fire Department	
Out of State Travel	200.00
Sealer of Weights and Measures	380.00
Bounties	60.00

Highways — Street Lights	3,900.00
Charities — Department of Public Welfare	63,400.00
Veterans' Benefits	8,662.25
Schools — Support of Schools	222,002.22
— Public Use of School Facilities	1,000.00
— Vocational and Americanization Education	1,354.00
Libraries	4,000.00
Recreation — Parks & Playgrounds	1,275.00
— Unclassified	570.00
Workmen's Compensation Insurance	2,500.00
Town Retirement System	3,968.00
Printing and Delivering Town Reports	2,207.00
Town Hall Recreation Center	1,181.00
Fire Insurance Schedule	5,400.00
Cemeteries — Cemetery Department	13,361.00
Interest and Maturing Debt:	
Elementary School Bonds	15,000.00
High School Bonds	20,000.00
Sea Wall Notes	2,000.00
Elementary School Wing Bonds	15,000.00
Interest	13,697.50

Under Article 5, it was voted to raise and appropriate \$425.00 to be expended under the direction of Myles Standish Camp, No. 115, S.U.V.C.W. for the observance of Memorial Day.

Under Article 6, it was voted to authorize the Town Treasurer, with the approval of the Selectmen, to borrow money from time to time in anticipation of the revenue of the financial year beginning January 1, 1954, and to issue a note or notes therefor, payable within one year, and to renew any note or notes as may be given for a period of less than one year in accordance with Section 17, Chapter 44 of the General Laws. (Yes 424, No 0).

Under Article 7, it was voted to authorize the Town Treasurer, with the approval of the Selectmen, to borrow money from time to time between January 1, 1955 and the date of the 1955 Annual Town Meeting, in anticipation of the revenue of the financial year of 1955, and to issue a note or notes therefor, payable within one year, and to renew any note or notes as may be given for a period of less than one year in accordance with Section 17, Chapter 44, General Laws. (Yes 427, No 0).

Under Article 8, it was voted to raise and appropriate \$100.00 for the use of the Plymouth County Trustees for the County Aid to Agriculture, and to appoint Malcolm C. Brock as Town Director.

Under Article 9, it was voted to apply the dividend from the Plymouth County Dog Fund, amounting to \$776.78, to the support of schools.

Under Article 10, it was voted to appropriate \$420.00 now in the hands of the Treasurer to the Cemetery Department.

Under Article 11, it was voted to appropriate \$5,000.00 from the Overlay Reserve Fund to the Reserve Fund.

Under Article 12, it was voted to raise and appropriate \$1,000.00 to continue revision of the Assessor's Map.

Under Article 13, it was voted to raise and appropriate \$1,000.00 and transfer from available funds now in the Treasury \$2,000.00 for the Town's share of Chapter 90 Highway Maintenance.

Under Article 14, it was voted to raise and appropriate \$6,000.00 and to transfer \$18,000.00 from available funds now in the Treasury for the Town's share of Chapter 90 Highway Construction.

Under Article 15, it was voted to raise and appropriate \$950.00 to be expended under the direction of American Legion Post No. 223, July 4th Duxbury Days Committee in connection with the 1954 parade and celebration.

Under Article 16, it was voted to appropriate from the Excess and Deficiency Account a sum not to exceed \$40,000.00 to be used to reduce the tax rate.

Under Article 17, it was voted to raise and appropriate \$5,265.00 for the purchase of a new industrial type tractor for the Highway Department.

Under Article 18, which reads "To see if the Town will vote to raise and appropriate the sum of \$2,600.00 for the purpose of purchasing a new truck chassis for the Highway Department," Voted down.

Under Article 19, it was voted to raise and appropriate \$1,200.00 for the purchase of a new box type sand spreader for the Highway Department.

Under Article 20, it was voted to raise and appropriate \$3,000.00 for the purpose of making improvements to the Town Field off Alden and St. George Streets, including the construction of one additional tennis court, and to relocate the bandstand.

Under Article 21, it was voted to raise and appropriate \$6,000.00 for improving and re-surfacing sections of Temple Street and Winter Street.

Under Article 22, which reads "To see if the Town will vote to acquire three certain parcels of land by purchase, acceptance as a gift, or by Eminent Domain as prescribed in Chapter 40, Section 14, and Chapter 79 of the General Laws of Massachusetts, for the purpose of improving said land for travel and use as a town landing, and the approach thereto, and raise and appropriate a sum of money for such purchase or land taking; or take any other action thereon." The three parcels of land are contiguous to the present town landing which runs Southwesterly from Crescent Street to Kingston Bay and commonly known as "Howland's Landing," and said parcels are bounded and described as follows:

1. A certain parcel of land now or formerly owned by Hugh F. Hare et ux, situated in Duxbury, bounded and described as follows:

Beginning at a cement bound in the Northwesterly line of Town Landing Road, as shown on the plan hereinafter mentioned, said cement bound being located S. $42^{\circ}30'$ W. 360.50 feet from a cement bound in the Southwesterly line of Crescent Street which marks the Easterly corner of land of Hugh F. Hare et ux; thence running S. $77^{\circ}32'$ West by land of said Hugh F. Hare et ux, 365 feet, more or less, to a point; thence turning and running S. $33^{\circ}55'$ E, 296 feet more or less, by Kingston Bay to the Northwesterly line of Town Landing Road protracted Southwesterly into Kingston Bay; and thence turning and running N. $30^{\circ}40'$ E. by said Northwesterly line of Town Landing Road, protracted Southwesterly into Kingston Bay and by the Northwesterly line of Town Landing Road, 381.60 feet to the cement bound at the point of beginning.

Being a portion of the premises shown on Land Court Plan No. 10966A, drawn by W. Nelson Bonney, surveyor, dated

July 14, 1925, as modified and approved by the Court, filed in the Land Registration Office, a copy of a portion of which is filed with Certificate of Title No. 2260.

2. A certain parcel of land now or formerly owned by the Massachusetts New Church Union, situated in Duxbury, bounded and described as follows:

Beginning at a point in the Southwesterly line of Town Landing Road, as shown on the plan hereinafter mentioned, which point is located 20.00 feet Northeasterly from High Water Mark, as shown on said plan; thence running Southeasterly by a line parallel to and distant 20.00 feet Northeasterly from High Water Mark, as shown on said plan; thence turning and running a generally Northwest-erly direction by said Low Water Mark, as shown on said plan, to the Southeasterly line of Town Landing Road protracted Southwesterly into Kingston Bay; thence turning and running N. 30° 40' E. by said Southeasterly line of Town Landing Road protracted Southwesterly into Kingston Bay, and by the Southeasterly line of Town Landing Road to the point of beginning.

Being a portion of the premises shown on Land Court Plan No. 15679A, drawn by Delano & Keith, Surveyors, dated July 31, 1934, as modified and approved by the Court, filed in the Land Registration Office, a copy of a portion of which is filed with Certificate of Title No. 5371.

3. A certain parcel of land situated in Duxbury and now or formerly owned by the Massachusetts New Church Union, and bounded and described as follows: Northeasterly by the Southwesterly line of Crescent Street, 20.00 feet; Northwest-erly by the Southeasterly line of Town Landing Road, 475.67 feet; Southwesterly 20.00 feet and Southeasterly 476 feet, more or less, by land of Massachusetts New Church Union. Being a strip of land 20.00 feet in width

adjoining the Southeasterly line of Town Landing Road between Crescent Street and a line 20.00 feet Northeasterly from and parallel to High Water Mark, and being a portion of the premises shown on Land Court Plan No. 15679A, drawn by Delano & Keith, Surveyors, dated July 31, 1934, as modified and approved by the Court, filed in the Land Registration Office, a copy of a portion of which is filed with Certificate of Title No. 5371;

“and to raise and appropriate \$1,000.00 for this purpose”, Voted Down. (Yes 262, No 162 — two-thirds vote necessary).

It was voted to take up Article 40 at this time.

Under Article 40, it was Voted to amend Article 40 by striking from paragraph (c) the following words in the first sentence “except in so much thereof as lies between Canal River and Duxbury Beach,” and the last sentence which reads “In so much of the residence district as lies between Canal River and Duxbury Beach the corresponding limitations shall be 30,000 square feet of area and 150 feet of frontage.”

It was then voted to amend the Protective By-Law of the Town of Duxbury as follows:

“The Protective By-Law of the Town of Duxbury, as previously amended, is hereby further amended by striking out paragraph (c) of Section 7 and inserting in place thereof the following new paragraph:

- (c) Lot size. In the residence district no building shall be erected or maintained on a lot of an area of less than 40,000 square feet or of a frontage upon the way upon which it abuts, or upon the set-back line, if any, of such way of less than two hundred feet.

This paragraph shall not apply to a building in existence when this By-Law becomes effective provided the lot

upon which it stands is not subsequently diminished in area or width of frontage; nor shall it apply to a lot described in a deed, or shown on a plan, duly recorded in the Plymouth County Registry of Deeds when this By-Law becomes effective, provided that if at such time there was other contiguous land of the same owner which might be used in connection with such lot, such land shall be so used to the amount required to constitute a lot of the area and frontage prescribed in this paragraph, and such lot shall not subsequently be diminished in area or frontage below the requirements herein stated. In the case of any lot so described or shown in said Registry of Deeds to which there is not sufficient other land of the same owner contiguous and capable of use to constitute a lot of the area and frontage prescribed in this paragraph, the owner may erect and maintain one, but not more than one, building, other than accessory buildings, on such lot. The foregoing limitation upon the application of this paragraph with respect to the effective date of this by-law shall also be applicable to the application of the amendments of this paragraph with respect to the effective dates of such amendments, which amendments shall not impose any greater restrictions upon the area or frontage of any such existing lot than were in force when the respective amendments to this paragraph became effective."

(Yes 345, No 152 — two-thirds vote necessary).

Under Article 23, which reads "To see if the Town will vote to instruct the Selectmen to repair and improve the Village (or Green) School building, so called, and the land on which it stands, and make the same available for public use; and raise and appropriate a sum of money for this purpose," Voted Down.

Under Article 24, which reads "To see if the Town will vote to instruct the Selectmen to repair and improve the Point School building, so called, and the land on which it stands, and make the

same available for public use; and raise and appropriate a sum of money for this purpose," Voted down.

Under Article 25, it was voted to authorize the Selectmen to sell under the General Laws of Massachusetts Chapter 40, Sec. 3, the land and buildings of the Village (or Green) School, so-called, by sealed bid or at public auction. (Yes 215, No 1)

Under Article 26, it was voted to authorize the Selectmen to sell under the General Laws of Massachusetts Chapter 40, Sec. 3, the land and buildings of the Point School, so-called, by sealed bids or at public auction. (Yes 214, No. 1)

Under Article 27, it was voted to raise and appropriate \$165.00 to pay for Land Damages on Bay Road. (Yes 157, No 0)

Under Article 28, it was voted that the Town, acting under General Laws, vote to raise and appropriate \$5,500.00 to join the South Shore mosquito Control project in conjunction with the City of Quincy and the towns of Braintree, Weymouth, Cohasset, Hull, Scituate and Marshfield.

Under Article 29, it was voted to raise and appropriate \$1,200.00 for the exchange of the Cemetery Department truck.

Under Article 30, it was voted to accept as a gift a certain parcel of land on the Southerly side of Winter Street for the purpose of improving a dangerous curve.

Under Article 31, it was voted to raise and appropriate \$200.00 for Group Accident Insurance for the Police and Fire Departments.

Under Article 32, it was voted to raise and appropriate \$80.00 for the installation of Street Lights at the following locations: one light on Standish Street and three lights on Captain's Hill Road.

Under Article 33, it was voted to raise and appropriate \$200.00 for the purpose of taking a State Census on January 1, 1955.

Under Article 34, it was voted to raise and appropriate \$100.00 to erect a suitable Historic Marker at the site of Partridge Academy.

Under Article 35, it was voted to raise and appropriate \$850.00 for the exchange of the Police Department Car.

Under Article 36, it was voted to return to the Treasury the following unexpended appropriation balances:

Police Department, 1953 Automobile	\$15.00
Forest Fire Department, Truck	671.79
Chapter 90 Highway Maintenance	21.49
Chapter 90 Construction (1952)	197.05
Town Landing — Howland's so-called	900.00
High School Building Completion	15.30
High School New Wing Construction	17.35
Parking Area Sign, South Duxbury	50.00
Duxbury Beach Engineering	50.00
Rat Control	118.77
Field Mower for Park Department	11.68
Removal Monument, Boomer Square	2.45
	<hr/>
for a total of	\$2,070.88

Under Article 37, it was voted to raise and appropriate \$469.28 to pay unpaid bills of 1953. (Yes 165, No 0)

Under Article 38, it was voted to raise and appropriate \$530.00 to purchase an emergency lighting equipment unit for the Fire Department.

Under Article 39, it was voted that there shall be a Committee of three: One to be a member of the Board of Selectmen to be

designated by that Board; one to be a member of the Finance Committee, to be designated by that Committee; one to be a person who has served on the Finance Committee, but is not a member of the Finance Committee after April 1, 1954, to be designated by the Finance Committee. This Committee is to be specifically instructed to study the salaries and wages and other compensation of all persons, exclusive of the personnel of the School Department, receiving compensation from the Town and to evaluate the same. It shall complete its study prior to November 1, 1954, and compile a report which shall be forwarded to the Board of Selectmen, the Finance Committee, and be made available in the Town Clerk's office, for inspection, by the public at large on or before December 1, 1954. Therein it shall make specific recommendations as to what it considers can constitute equitable salary and wage scales for the personnel in employ of the Town. This meeting directs that all Department Heads furnish to this Committee any information it shall require, and generally assist it in any reasonable manner, to help it in arriving at proper decisions, and appropriates the sum of \$500.00 for the purpose of this study.

(Article 40 was considered after Article 22.)

Under Article 41, it was voted to direct the Moderator, with the advice and consent of the Selectmen, to appoint a Committee of five to prepare a Building Code for the Town of Duxbury to be brought in for action by the Town at the next annual town meeting, and to raise and appropriate \$200.00 for the possible expenses of this Committee.

Under Article 42, which reads "Will the Town vote to raise and appropriate the sum of \$600.00 to be expended under the direction of the Planning Board for the purpose of establishing a system of House Numbers for the Town." Voted down.

(Article 43 was considered after Forest Fire Department in Article 4.)

The registered voters were checked from the voting list and showed 573 names checked: 324 Male and 249 Female.

Total appropriations \$613,362.95. (Raised by Taxation.)

Voted to adjourn at 6:00 P. M.

JOSEPH T. C. JONES

Town Clerk

ANNUAL TOWN ELECTION, MARCH 20, 1954

The Polls were opened at 8:00 o'clock A.M. and closed at 7:30 P.M.

One additional teller, Gilbert F. Redlon, was sworn in by the Town Clerk.

REPORT OF SPECIAL TOWN MEETING**At High School Auditorium**

Thursday, December 30, 1954, at 8:00 P.M.

At 8:00 P.M. the meeting was called to order by the moderator, Mr. Bartlett B. Bradley. Invocation was given by the Rev. William S. Anthony. As a quorum was not present at the time of the opening of the meeting, the moderator declared a recess of twenty minutes. At 8:30 P.M. a quorum was declared, 103 registered voters having been checked in by the tellers.

J. Alvin Borgeson, Mary S. Crocker, Eunice B. Dohoney, Eileen P. Jones, Alice N. Merry and Frank H. Williams were appointed tellers and were sworn in by the Town Clerk.

The Warrant was read by the Town Clerk.

Under Article 1 it was unanimously voted to appropriate \$3,500.00 from available funds in the treasury for snow and ice removal.

Under Article 2 it was unanimously voted to appropriate from available funds the sum of \$53.81 to pay an unpaid bill of 1952.

Meeting adjourned at 8:40 P.M.

JOSEPH T. C. JONES, Town Clerk

December 11, 1954

Mr. Philip W. Delano, Chairman
Duxbury, Massachusetts

Dear Mr. Delano:

I hereby submit my resignation from the Planning Board of Duxbury to take effect at once.

Very truly yours,

PLW:DDW

PERCY L. WALKER (signed)

Copy to Mr. Atherton Loring, Jr.
Island Creek, Mass.

John DeLorenzo was appointed to fill the vacancy caused by the resignation from the Planning Board of Percy L. Walker.

MINUTES

William B. Coffin and H. Russell Chandler met on December 17, 1954 to consider the appointment of a Secretary for the Board of Appeals to fill the vacancy created by the resignation of Kenneth O. Macomber. The newly appointed member, Edward P. Hobart, was not present at the meeting.

After expressing regret that Mr. Macomber found it necessary to resign from the Board, the Board proceeded to nominate and elect Edward P. Hobart to serve as secretary for the Board of Appeals.

Respectfully submitted,

EDWARD P. HOBART, Secretary

REPORT OF THE FINANCE COMMITTEE

The first meeting of your Finance Committee was held June 24, 1954 at which time Robert Seymour was elected Chairman, William A. Scherff, Vice-Chairman and A. Charles Waghorne, Secretary. Regular meetings were held during the balance of the year.

In the middle of January, 1955, Mr. Seymour resigned because of illness and on January 20th Newton E. Hyslop was appointed by the Moderator to fill Mr. Seymour's term and on the same day was elected Chairman of the Committee.

As this report goes to press the real work of the Finance Committee is in full swing. Over 60 budgets plus Special Articles must be thoroughly gone over. This also means consultations with the Selectmen, Heads of Departments and petitioners of Special Articles.

During the year the following transfers were made from the Reserve Fund:

May 26—To Workmen's Compensation	\$ 132.51
October 20—To Town Clerk's Dept.	52.50
October 20—To Veterans Benefits	1,500.00
November 16—To Health Dept.	700.00
December 1—To Snow and Ice Removal	1,500.00
	<hr/>
	\$3,885.01

We wish to thank the Town Departments and Officials for their help and cooperation. It is greatly appreciated by every member of the Committee.

Respectfully submitted,

NEWTON E. HYSLOP, Chairman

**REPORT OF THE
BOARD OF PUBLIC WELFARE AND
BUREAU OF OLD AGE ASSISTANCE**

To the Honorable Board of Selectmen:

During the past year there has been a slight decline in the number of cases aided by the Duxbury Board of Public Welfare and Bureau of Old Age Assistance. In the category of Old Age Assistance the case load decreased from an average of 74 in 1953 to an average of 71 in 1954. In this category there was also a decrease of over two dollars per month in the cost per case. This was due in large part to the increase in benefits from Old Age and Survivors' Insurance, since according to State regulations an amount equal to the increase from Old Age and Survivors' Insurance is deducted from the checks sent out by the Board of Public Welfare.

Aid to Dependent Children cases averaged five per month, one less than the previous year.

The monthly case load in Disability Assistance was 9 or 10, two less than in 1953. The average cost was \$62.00 per case per month.

A major change in procedure was inaugurated July first to conform with State requirements. This was the adoption of the Medical Plan of the Massachusetts Department of Public Welfare. The two basic provisions of the new plan are that payment for all medical care and prescribed medication is made directly to the vendor, and that all medical services must be authorized in writing. The purpose of this plan is to exercise greater control over

the continually mounting medical expenses of the Department of Public Welfare, without sacrificing any service necessary for the welfare of those receiving public assistance.

Because the case load was lower than had been anticipated, and because of the saving due to Old Age and Survivors' Insurance benefits, the Board has not expended the total amount appropriated for its use this year. The amount to be returned to the Town is \$932.71.

The Board of Public Welfare recovered \$2,654.12 under Old Age Assistance, as result of the lien law. The sum of \$141.00 was also recovered in 1954 for aid previously granted under General Relief.

The Board of Public Welfare wishes to express their appreciation to the Selectmen, and to the Police Department, for their help and cooperation during the past year.

Respectfully submitted,

ALICE H. GARSIDE, Chairman

HOWARD M. CLARK

ADRIAN R. CORDEAU

PAUL C. BARBER

PAUL N. SWANSON

**REPORT OF COMMITTEE IN REGARD TO
PLANS AND COSTS OF ALTERATIONS
TO THE OLD TOWN HALL**

June 11, 1954

At the Annual Town Meeting, March 13, 1954, it was voted, under Article 2, that a Committee of five be appointed by the Moderator to study and present at the next Town Meeting plans and costs of alterations to the Old Town Hall for shop, bench, and locker space, to cover the needs of 4-H, Boy Scouts and other recreational organizations. This Committee of five shall consist of a representative of the Recreational Committee, the Boy Scouts, and the 4-H Town Committee.

In accordance with this vote, the Moderator has appointed the following persons to this committee:

*John A. Willis (4-H-Club), Laurel Street
 Frank P. Metcalf, Winslow Street (Boy Scouts)
 Dorothy Wentworth, Samoset Street
 (Recreation Committee)
 Malcolm C. Brock, Washington Street)
At Large
 Walter F. Kopke, Wadsworth Road)
 *Chairman pro tem

JOSEPH T. C. JONES

Town Clerk

ADDITION TO DUXBURY TOWN HALL

FOR

BOY SCOUT - 4-H CLUB ROOMS - LITTLE LEAGUE

SCALE $\frac{1}{8}" = 1'-0"$

FLOOR PLAN

ELEVATION

To the Selectmen of Duxbury, Massachusetts:

With full consideration of the needs for space and facilities for further educational and recreational uses for various groups of the young people of Duxbury, your committee has consulted among themselves and with competent architectural, builder, and insurance advice, beg to submit herewith a sketch that would fulfill the present needs in this direction.

While these four rooms (two up and two down with additional storage space in a small attic) would be available as general purpose rooms for many activities, the principal use at the start would be for Boy Scout and 4-H groups. Storage facilities would also be used for Little League and Pony League.

The suggested rooms would have a base floor area of 720 square feet; a stairway to the second floor and one to the basement heating plant, also one outside entrance as well as two inside entrances.

The information received from insurance advisers is that placing this addition over the present central heating plant is practical, quite usual and would increase the insurance cost very little, if any, out of proportion.

The architectural and builder's advice to us is that such an addition would cost on an estimate sum, \$8,500. We would suggest that a limit of expenditure be placed at a sum not to exceed the total received by the town in the recent sale of the Village and Point Schools.

In light of the definite need for additional facilities for the expanding activities of a rapidly growing group of young people, we, as a committee, recommend that this addition be approved.

Respectfully submitted,

JOHN A. WILLIS
FRANK P. METCALF
DOROTHY WENTWORTH
MALCOLM C. BROCK
WALTER F. KOPKE

REPORT OF THE TOWN ACCOUNTANT

I am pleased to submit the following statement of all receipts and expenditures of the Town of Duxbury for the financial year ending December 31, 1954, in accordance with Chapter 40, Section 61, General Laws. This report is arranged in accordance with the classifications prescribed by the Director of Accounts.

Appended thereto is a statement of the Appropriation Balances returned to the Treasury under date of December 31, 1954, and a further statement of the Appropriation Balances retained and carried forward January 1, 1955.

ISABELLE V. FREEMAN

SUPERINTENDENT OF SCHOOLS

Everett L. Handy

SECRETARY TO THE SUPERINTENDENT

Miss Helen F. Hanigan

REPORT OF THE DUXBURY SCHOOL COMMITTEE

To the Citizens of Duxbury:

The past calendar year has been a most pleasant one for the members of your School Committee. It is our hope that you will agree with us that considerable progress has been made in nearly all phases of our work and the work of our fine associates — the administrators, teachers, supervisors and all other members of the staff of the Duxbury School system.

Again, as in previous years, we call your attention to the very fine detailed report made to you by our Superintendent of Schools. This report will be found on succeeding pages and we are sure that your careful study will be rewarded in full measure by your increased knowledge of our current program, our present problems, and our hopes and plans for the future. There is little we can add to this report that will increase your understanding in any of these fields. We would prefer in these few paragraphs to call your attention to the many fine people and organizations with whom we have had contact and pleasant dealings during the past year.

First of all we are pleased to report that all of our teachers have exhibited the highest possible degree of cooperation with our policies and requests. It seems to us that no School Committee could ask for better spirit or cooperation than has been shown during the past year. In addition we commend our teaching staff for the seriousness with which they have tackled their primary jobs. All of the youngsters of Duxbury have benefited. We thank our teachers, one and all.

Once again the School Committee wishes to call public attention to the fine services rendered to us and to the town by the Superintendent of Schools, Dr. Everett L. Handy. We can pay him no greater tribute than to express this gratitude in the Annual Town Report. It has been a great pleasure to work with him throughout the past year. His sound judgment and tireless energy are only two of the fine qualities from which your School Committee, your School Department and the Town as a whole derive almost daily profits.

Our Elementary School under the able guidance of its Principal, Mr. J. Donald DeLong, has grown tremendously in size during his few years with us. Mr. DeLong's forward approach to many of the educational problems confronting him should provide many long range benefits for our youngsters. We call particular attention to his efforts to promote closer cooperation between parents, teachers and school authorities in the common approach to the better education of each *individual youngster*.

This past year saw the return to active service in the Duxbury Schools of our High School Principal, Mr. Rodney R. Wood. Mr. Wood has been most fortunate to be able to return from his two years of military service in the Navy and to find his High School in such excellent shape. His military replacement, Mr. Hugh O. MacFarlane, did an excellent job during his absence. We wish all luck to Mr. MacFarlane in his new assignment out in Longmeadow, Massachusetts, and offer Mr. Wood all possible cooperation as he again picks up the reins. We are most gratified with the fine job already being done by Mr. Wood in this early stage of his return to us. We wish there were space here to also give full credit to the many other persons in non-teaching and non-administrative positions who have all contributed immeasurably to what has been a fine year.

From outside the "official family" of the School Department we have received much help indeed. The Parent-Teachers Association has been extremely active and helpful as have the various

advisory groups that have been set up in our major educational fields. While the Duxbury Council for Public Schools has been comparatively inactive throughout this past year we recognize in this organization still another group of Duxbury citizens who stand ready to build better schools for Duxbury.

We do feel that perhaps the outstanding job in the interest of Duxbury education during this past year has been done by the Building Committee of which Mr. Edward B. Hutton is Chairman. This Committee consisting of Mr. Hutton, Mr. Warren B. Stetson, Mrs. J. Alvin Borgeson, Mrs. Stanley H. Merry, Mr. G. Lincoln Dow, Mr. Jackson S. Kent and Mr. Earle C. Grenquist, has worked tirelessly over the past two years with Mr. William B. Coffin the architect of our elementary school addition and with Dr. Handy and other members of the school department and the School Committee to produce a building of which we can all be proud. We sincerely hope that all of our citizens who have not done so will soon avail themselves of the opportunity to visit the wonderful classrooms designed by Mr. Coffin and built under the direction of this committee. It seems to us that far too few citizens recognize the hours and days of effort put in by committees of this type who are appointed to such serious jobs in the interest of the town only to be comparatively forgotten when the job has been done. We thank this committee in particular for its constant efforts to maintain liaison with us and with the school administrative personnel so that no stone might be left unturned to provide Duxbury with a building that is totally in keeping with its plans for the future.

Many other groups in the town have contributed to our schools during the year. Scholarship funds are growing. Gifts of equipment, services, and money are being received constantly. We have had fine cooperation from all other town agencies and have offered our full cooperation in return.

We should like to close by making a general appeal to all the citizens of our town to continue their interest in our schools as

they have in the past. We are conscious of the great debt that is owed to all citizens and tax payers by the graduates of Duxbury Schools as well as by the school department personnel for Duxbury's willingness to pay the bills in order to provide a good education for its young people. Without the town's support none of the buildings would have been possible and probably much of our progress through the years from an educational point of view would have been impossible. We face the future with confidence, knowing that this interest and support will continue as long as our job is well done. We urge those of our citizens who are also parents of our pupils to take an ever increasing interest in the direct problems of their own youngsters, and we hope these parents will make a maximum effort to avail themselves of the opportunities that have been freely offered by our administrative staff and teachers to tackle all common problems together. Finally it is our hope that you the citizens of our community will feel free to contact your School Committee members with your suggestions and your comments to the end that we may do an even better job for everyone in the years ahead.

Respectfully submitted,

MORRISON M. BUMP, Chairman

ELIZABETH U. NICKERSON, Secretary

ALBERT P. RICHARDS

EARLE C. GRENQUIST

DOMINIC E. LaGRECA

Duxbury School Committee

REPORT OF THE SUPERINTENDENT OF SCHOOLS

Honorable School Committee
Duxbury, Massachusetts

Gentlemen:

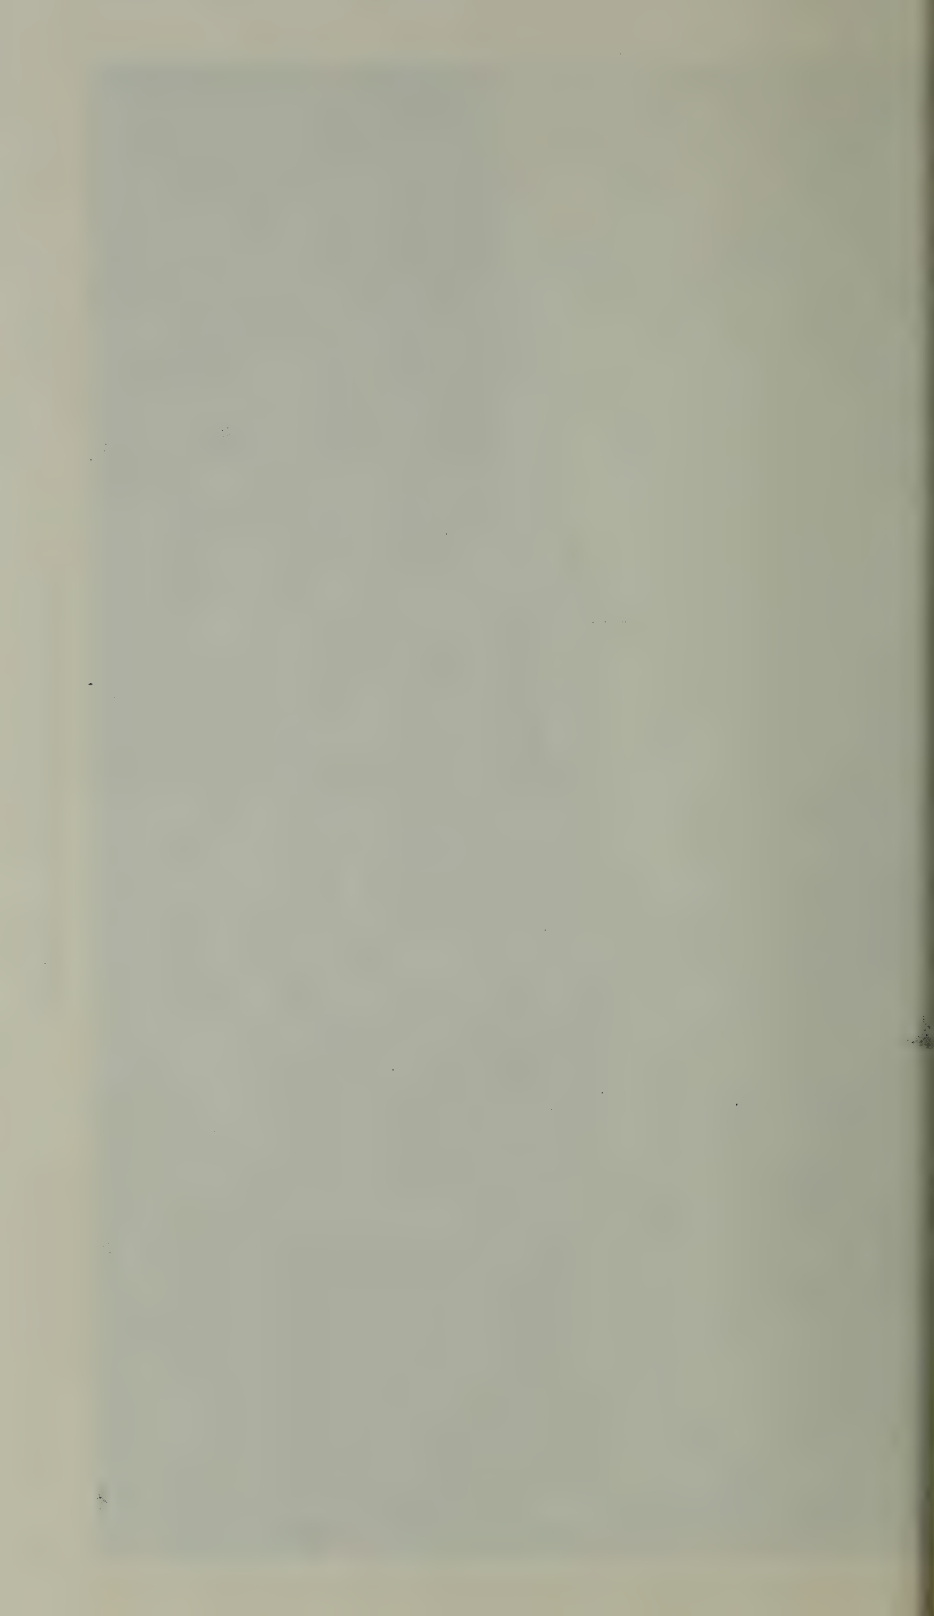

Educating the youth of a small community like Duxbury presents problems which are not unlike those which confront a large town or city. In fact, problems here seem to typify those found in the country as a whole.

First, there is the obvious and continuing problem of numbers of young people to be educated. Throughout the country this problem is one of increasing concern. It is reported that Elementary school enrollments were increased by more than a million pupils in the country as a whole at the start of the school year. The birth rate is continuing to rise, and, it is predicted that an increase of this magnitude can be expected each year in the foreseeable future. The effect of this rising birth rate is just beginning to be felt at the high school level. By 1960 statistics indicate that in the country generally there will be four students in our high schools where there are now three. In Duxbury, the number of young people in our elementary schools has increased more than fifty percent in the last five years. Next September the first large elementary school class will be admitted to the high school and growth in that unit will proceed rapidly.

The second major problem grows out of the first. While enrollments are increasing the number of people preparing to teach is decreasing. One report indicates that the annual output of elementary and high school teachers has dropped twenty-six percent in the last five years. The National Education Association in 1954

ELEMENTARY SCHOOL WING, BUILT 1954

estimated that to provide replacements for those teachers leaving the profession; to provide for the increase in elementary school population; and to relieve overcrowding, enrich instructional programs, and replace unqualified teachers 165,000 additional teachers were required. The situation at the high school level indicated a need for 50,000 additional teachers. Educational institutions provided a total of only 53,000 persons qualified for elementary and high school teaching. And it is interesting to note further that fifty-seven percent of all of the graduates of all of our institutions of higher learning in 1954 would have to go into teaching if we were to meet the above deficit. All of this points to increased competition among communities to secure the services of good teachers. This in turn indicates the need for adequate salary schedules. It is my hope that in Duxbury we shall be able to maintain good salary schedules and keep competitive with other school systems for the best teachers available and not competitive for just the average.

The problem of providing adequate facilities is no less serious. Spur-of-the-moment efforts to accommodate an increasing school population may result in the quality of the educational program being neglected. Makeshift buildings, overcrowded classrooms, obsolete equipment and inadequate instructional materials may lower the quality of instruction. In Duxbury, however, we have been most fortunate in this regard. Unlike many towns and cities our pupils are adequately housed. While many new school buildings are filled to capacity as soon as completed, this year we have two vacant classrooms at the elementary level and adequate space at the high school level. Our problem is one of *keeping ahead* so that we shall not be forced to use makeshift accommodations or have overcrowded classrooms. To do this will require long range planning and continued study of our population growth. What influence the proposed new expressway from Boston will have on our population growth is a matter of concern in this regard. The Duxbury Council for Public Schools is now studying long range population trends in Duxbury as they influence the growth of our schools. This report should be most helpful.

The problem of maintaining a sound and suitable curriculum is complicated by the demands placed upon our schools. We have long cherished the ideal of educating all American youth so far as their individual capacities and interests will permit. Over the years our attempts to realize this ideal have produced a great increase in the proportion of young people attending secondary schools. In 1900 two out of every ten youngsters of high school age were in school. Today it is eight out of ten.

This increase in the proportion of our population attending school has brought us the additional problem of students having wide ranges of ability and interest coming from a variety of backgrounds. This variety has produced difficult questions regarding the nature and extent of the school curriculum. It is not too many years ago that the college preparatory program was about all that was offered in high schools. Today, this program is only one of several available to students. Keeping the curriculum in adjustment with pupil needs and interests is a continuing problem and one which requires our close attention. One of the ways we are trying to do this in Duxbury is through the guidance provided by our lay advisory committees. Four such committees are now in operation and their members work on curriculum problems with teachers and administrators. The results have been most helpful and appreciation is hereby extended to those who have participated in these meetings.

Further consideration of these problems together with related statistical data are presented in the following pages.

I should like to take this opportunity to thank you for your cooperation and good counsel during the year just closed. I am confident that we are moving ahead together for better schools.

Respectfully yours,

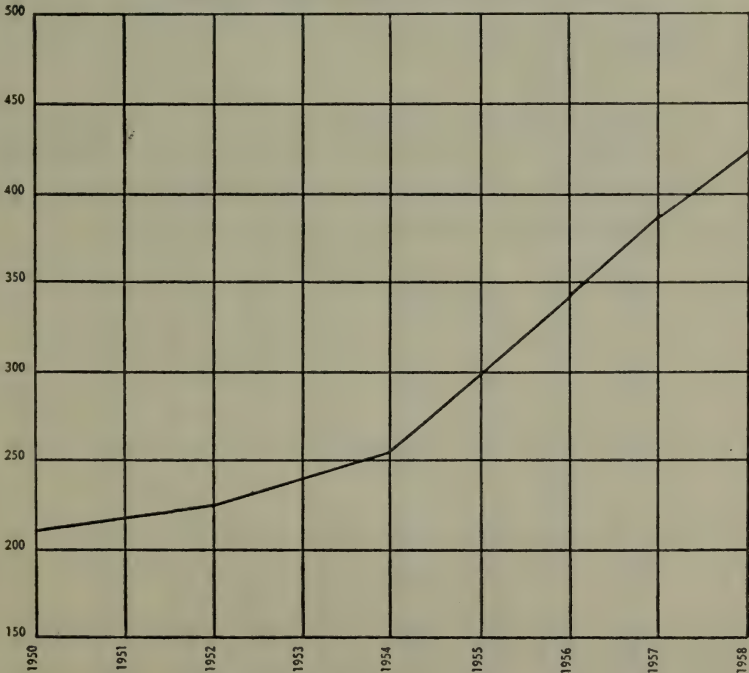

EVERETT L. HANDY,

Superintendent of Schools.

PERSONNEL

The most significant change in the number of pupils to be educated in Duxbury in the foreseeable future will most likely be at the high school level. Classes will continue to be large at the elementary level, but this has now become the pattern in these grades and it seems unlikely that this pattern will be different in the years ahead. High School classes, on the other hand have been relatively small. Seventh grade classes have ranged in size from forty to sixty-one in the last five years. During the same time period

GROWTH OF HIGH SCHOOL ENROLLMENT, 1950 - 1958

senior or twelfth grade classes varied in size from twenty-four to thirty. In September 1955 about eighty-five pupils will enter high school raising the total high school membership to approximately three hundred. Large classes will follow each year with a resulting sharp increase in total enrollment.

This increase in enrollment will mean more of just about everything — more class sections, more classrooms used, more teachers needed, more supplies required and more textbooks necessary. More important than all this, however, is the challenge to the community to provide that kind of an educational program which will meet the needs and interests of these young people. There will be more bright pupils, but there will be more average pupils too. There will be more who want to prepare for college, but there will be an increasing number who have other goals in mind. To provide the amount and the kind of educational programs these young people need is a task which will be no less challenging and interesting because it will be difficult. It will be a first concern for us.

The following tabulation indicates the growth in school population over the nine year period from October 1, 1949, to October 1, 1957. Kindergarten enrollments for period 1954-57 based on figures supplied by the State School Building Authority.

Grade	1949	1950	1951	1952	1953	1954	1955	1956	1957

0	1	0
2	3	2

* Does not include pupils over sixteen years of age.

** Does not include private kindergartens.

In October of this year a study of the high school pupil population (Grade 7 - 12) was made to discover how many pupils were

dropping out and why. The study showed the following numbers of pupils entering and leaving over a five year period.

1. Thirty-two boys and fifteen girls or a total of forty-seven pupils left because their families moved away.
2. During the same five year period fifty-eight pupils transferred to the Duxbury High School from other high schools because their families moved here.
3. Twenty-two boys and five girls or a total of twenty-seven pupils left to attend private schools.
4. Sixteen boys and six girls or a total of twenty-two left for reasons other than those given above. Usually such pupils leave because of poor scholarship or for economic reasons.

One conclusion to be drawn from this study is the need for further follow-up to find out:

1. Why pupils left to enter private schools.
2. What specific problems caused pupils to drop out for other reasons.

A second and obvious conclusion is that over the years more families with children are moving into Duxbury than are moving away.

One of the most significant facts about our teacher personnel is that eight faculty members will be eligible for tenure this year. This is indicative of more stability in the teaching personnel than has been the case for a number of years. In spite of this evidence of lessening turnover among our teachers there are problems still largely unsolved which influence stability in our teaching force. One of these is the matter of social relations in the community. Year after year single teachers report that they find little oppor-

tunity for social contacts in Duxbury. A second problem concerns young married couples with growing families. These people find it difficult to get along on a teacher's pay without taking on extra jobs. Regular job opportunities in other fields at higher pay are tempting to such teachers. Housing is a third problem that presents difficulties for our staff. This year at least three families are living outside of Duxbury because of the difficulty of getting housing they can afford to finance. Such problems require our combined efforts if we are to solve them successfully.

In 1950 there were forty-six persons on the school staff. Five years later, in 1954, that number increased to sixty-five. It is expected that next year this number will increase by three. Two additional high school teachers and one additional kindergarten teacher will be required. A tabulation of those now employed follows.

EVENING PRACTICAL ARTS

Mrs. Barbara Arnold	Decorated Ware
Mrs. Hazelle Kingston	Rug Hooking
Mrs. Roger Griswold	Rug Braiding

CURRICULUM

To adjust the school curriculum to the needs of individual pupils and at the same time keep it in accord with the requirements of society is a task involving continuous study while still going ahead with the job of day to day teaching. This year the following studies and committee activities were carried on:

1. At the elementary school level a study of the teaching of spelling has been going on under the direction of Miss Irmajane Wrenn, teacher of grade four.
2. Several elementary grade level meetings have been conducted under the direction of the school principal, Mr. DeLong. These were evening meetings to tell parents about the work done at each grade level and to seek their reactions concerning it.
3. At the high school level four citizen advisory committees met with teachers and school administrators to discuss the curriculum. The names of these advisory committees and their lay members are listed below.
 Shop Advisory Committee: Winthrop B. Coffin, David Marshall, Francis Swift, Herbert C. Wirt and Jackson Kent.
 Vocational Household Arts Committee: Mrs. Earle Grenquist, Mrs. Stanley Merry, and Mrs. Edwin Sampson.
 Commercial Advisory Committee: Edward Waddell, George Chapin, George Carter, and Albert Vinal.
 College Preparatory Advisory Committee: Mrs. Albert P. Richards, Mrs. Henry Craig, Mrs. Howell Dupuy, C. Russell Eddy, Edward Butler, Lincoln Dow, Robert Fox and Professor Lyle K. Bush.
4. A study was made of the numbers dropping out of high school before graduating. The results have been mentioned earlier in this report.
5. A further study made this year shows the number of graduates of the Duxbury High School now attending colleges and universities.

Colleges and Universities	Members of Duxbury High School graduates now enrolled
Massachusetts Institute of Technology	1
Northeastern University	3
University of Miami	2
Boston University	4
Dartmouth College	1
Wheelock College	1

University of Massachusetts	1
Wabash University	1
University of Syracuse	1
William and Mary	1
Bryn Maur	1
Total number of different colleges and universities attended	16
Total number of graduates in attendance	24

In our remedial reading program one hundred three elementary school pupils were referred to the instructor for testing, diagnosis and instruction. Test results showed fifteen of these children reading two years below grade, and thirty-two reading from one to two years below grade. All were given remedial instruction in small groups or on an individual basis. Since September, twenty-seven formal conferences were held with parents, and ninety-eight written reports were sent home.

Some indications of the value of the remedial program are:

1. Fifty-three children with known reading disabilities have received an estimated total of thirty-four hours each of specific remedial instruction — or a total of 1802 teaching hours.
2. Nine children have been returned to the classroom reading groups because of improvement or more equitable regrouping within the grade.

Note: Tests to measure progress were given to determine readiness to reenter regular reading group. Recommendation for grouping and the adjustment of materials were offered upon reentry. Follow-up conferences with teachers, and visits to grades were made to study reactions to procedure.

3. Reading materials were assembled in one room, inventoried, evaluated and graded for more effective and more prompt distribution to classrooms where need for review or slow-learning needs existed.
4. Professional books on reading, phonics and spelling are available for reference or borrowing by teachers who are using this service more and more.
5. Sample worksheets, games, devices and drills are on display. A file of these is in the process of being organized and teachers have agreed to pool and share their best examples.
6. A Remedial Reading Lending Library has been established and is proving its worth in increased interest and enjoyment. Sixty-seven new juvenile books were bought, which have been catalogued according to vocabulary level and interest level. Almost every child receiving remedial instruction has read from one to four of these books.

Teachers are borrowing those pertaining to their social studies or science units for the use of their slow readers. The recorded circulation of these books already, since December 10th, is eighty-six.

In the special fields a course of study was developed in physical education for girls. A similar project has been started for boys.

Art became a full-time teacher assignment in September, 1954. This has made possible the organizing of longer class periods, the availability of the art supervisor to the classroom teacher, the continuation of elective art classes at the high school, and the attempting of experimental problems using new and unusual materials. Plans for further development of the art program include: the study of ceramics at the high school level; fashion drawing for girls in the household arts program; sculpturing in wood, stone, and plaster; more handicrafts for high school pupils; the organizing of an art club; and the possibility of making art a major field of concentration.

Several advances have been made in the teaching of music. The teaching of music was put on a full-time basis in 1954. Perhaps the greatest advancement of the year has been in the development at the high school of a fifty voice choir. At the elementary level outstanding progress has been made in instrumental music. In 1953 there were three pupils in the elementary school enrolled for instrumental music. In 1954 this number increased to forty-five. Still others have expressed interest. Within a short time a band of twenty-five elementary school pupils will be organized. In all the elementary grades the repertoire of rote songs has been increased to an average of fifty per class. Note reading procedures have been inaugurated in the intermediate grades and the fundamentals of music reading have been established. Action songs, songs with gestures, and original verses for familiar songs have been composed by all grade levels.

Adult Education Classes were conducted again this year. Rug Hooking, Rug Braiding and Decorated Ware classes were held

on Monday evenings in the High School building. Sixty-eight adults registered for these classes. This is eleven more than were enrolled the previous year. The cost of these classes is recorded in the section under Special Appropriations of this report.

SPECIAL SERVICES

Health: The new schedule providing nurse service four hours per day instead of one hour per day is working out well. Advantages of this plan include:

1. More complete coverage of the schools in case of emergency.
2. More complete record keeping.
3. More time to carry out duties, therefore more thorough performance.
4. Closer cooperation in general teachers' meetings.
5. Time for planning.

Extending the school nurse's time to half a day was part of a plan of gradual extension of this service until it becomes full-time in September, 1955. The Committee recommends that the school nurse be on duty six hours per day beginning in September, 1955. Further extension of time will make possible:

1. More and better teacher-nurse conferences.
2. Development of parent-nurse conferences.
3. Time for yearly vision and hearing tests instead of tests every other year.
4. Time to develop a program of health instruction in the classrooms.
5. More complete follow-up on defects found.

6. Reporting on positive signs of health as well as defects found.
7. Full-time coverage in case of emergencies.

Nurse service is now purchased on an hourly basis from the Duxbury Nurse Association. Instead of paying a yearly salary to the nurse, the Nurse Association bills the School Department for the number of hours of service provided.

During the year just closed the school nurse carried out the following routine activities:

Home visits	126
Vision testing — total tests	283
New referrals — 9 or 3% of those tested	
Hearing tests	
Group tests	288
Individual	101
Retests	65
Known defect	1
New defect	1

Preschool examinations — 31 out of 85 registered, at that time 44 of these had dental examinations also.

In September new report forms were filled out for activities each month. For the period September to December these are summarized as follows:

Assisted with physical examinations	449
Health Inspections	334
Assisted with dental examinations	583
Office visits for first aid, etc.	207
Pupils recommended for exclusion	31

Pupils recommended for readmission	10
Teacher conferences:	
Individual	24
Group	4

The following is a report of the school dental clinic for 1953-54. Dr. Francis C. Ortolani and Dr. Lloyd B. Chaisson and assistants have served as school dentists. Dr. Gillis K. Turner of the school dental staff is in military service. The dental program is administered in the school but is under the control of the Board of Health. The report of the school nurse covering this program follows:

Total permissions	186
Withdrawn (moved away or going privately because of necessarily slow pace of clinic)	16
Completed	19
Total visits	351
76 children made 1 visit	
59 children made 2 visits	
23 children made 3 visits	
13 children made 4 visits	
7 children made 5 visits	
1 child made 6 visits	

Comparison with other years is not significant due to turn-over of dental personnel in the last two years.

Beginning in September, 1954, the dental health program operated as follows:

The Board of Health continues to employ dentists to *examine* the teeth of school children in grades one through twelve. Parents are encouraged to have dental examinations and treatment of their children done by the family dentist whenever this is possible.

The Board of Health's new policy for treatment (corrective work) in the school dental clinic is:

Includes pupils in grade 1 through 8 only.

Only those receiving some form of assistance from the Board of Welfare, and a few cases where it is impossible for the family to get the work done privately.

Everyone pays something for corrective work, except those authorized by the Board of Welfare for free care.

Total permissions for corrective work in 1954-55 — 30.

The total number of pupils examined by Drs. Ortolani and Chaisson — 703.

Total found to need no corrective work — 203.

Work will be done more promptly with a shorter list, and a greater percentage should be completed.

The Duxbury Nurse Association has no responsibility for the clinic except that it receives and holds the fees as paid by the children. From the money thus accumulated the Association continues to pay dental bills as requested by the Board of Health to supplement their appropriation for this purpose.

Grateful acknowledgement is hereby made to the several persons who have faithfully assisted with the physical examinations, dental clinic, preschool roundup, transportation, etc. Also, to the Kiwanis Club and to Dr. Francis C. Ortolani for their generous cooperation in an extensive dental project on one school child, and to the Duxbury Rotary Club for purchasing a new Castle dental unit lamp for the clinic.

Transportation: A new transportation contract was awarded in 1954 to Mr. Waldo Herrick for the period September 1, 1954 through June 30, 1957. An additional bus was provided for the

elementary school pupils this year. An additional bus was also put into operation in the fall for kindergarten pupils. More than ninety percent of all pupils in Duxbury are transported. A late bus (4:00 P.M.) is provided each day except Friday so that pupils may stay for make-up work, extra help or special activities. Busses are also available so that pupils may be taken on trips of educational value.

School Lunch Program: This year the school lunch program has been extended to provide additional milk for all who want it at three cents per half pint bottle. A pupil may buy as many bottles as he likes. Many pupils at the elementary level have been having extra milk at recess time. The usual order for extra milk under this program is now about 1,000 bottles per week.

During 1954 the total income from the sale of school lunches was \$20,845.66. Federal subsidy amounted to \$7,462.61. The following tabulation shows the number of school lunches served in 1954.

Type A lunches (includes milk)	77,759
Type A lunches (without milk)	414
Type C lunches (milk only)	29,725

SCHOOL PLANT

As indicated at the beginning of this report Duxbury is in a good position in the matter of school housing. All pupils are housed in modernized or new school buildings. The second floor of the old part of the high school building will be refinished, and new lighting, new chalkboards and tackboards will be installed this year. Classes are not large because of lack of classrooms. The average size of a class at the elementary school is twenty-six. At the high school the average class size is twenty.

It is difficult to make predictions as to when a building will be filled to capacity because of the rapidly changing population. Birth rate is not the only factor which determines population change. A tendency of people to move from cities to outlying communities and the influence of good commuting arrangements are important factors. People have been moving to Duxbury for both of these reasons. How to predict how fast and in what numbers they will move here is difficult to determine. However, based on existing data our high school building should be adequate until 1958 or 1959. Unless there is a sudden influx of pupils into the elementary grades this school building should be adequate through the school year 1956-57. At that time, the two additional classrooms planned for by the building committee, should be added so that they will be ready for the school year 1957-1958.

Duxbury now has a modern centralized school plant. Its classrooms and specialized areas are well equipped and are pleasant places for work and play. Recent units designed by Mr. William B. Coffin of Duxbury are outstanding in their arrangement and adaptability for present day educational programs. As mentioned in another connection, our problem is to keep ahead of our school building needs to avoid the waste and dissatisfaction that come from overcrowded and poorly equipped schools. Long range planning by all concerned is important for success.

This year the school committee has approved a long range maintenance plan for school buildings. This plan calls for regular painting of all buildings both inside and outside to keep them in good repair. Outside painted surfaces will be refinished every five years. Classrooms will be painted every eight years. Corridors and other miscellaneous rooms will be handled on a different schedule. It is hoped in this way to spread out maintenance costs rather than to have them high one year and low the next.

In December the Duxbury Post of the American Legion offered to give the School Department a public address system for the high school auditorium. The system includes two loud speakers,

three microphones, and an amplifier. The School Committee accepted this gift with many thanks. It will be of great value to the school for its activities, and will be available to the community when activities are held in the school auditorium.

FINANCE

Financial aid from the state, while not as large as it would be in many other states, is still a very significant factor in the support of our schools. The total reimbursement to Duxbury from the state has been increasing each year. In 1954 it totaled \$50,740.10. Payments are made each year to the town treasurer who deposits them in the Excess and Deficiency account. Payment for 1954 includes the following:

Vocational Education	\$427.42
From the State School Fund	29,333.60
Transportation	18,595.50
Tuition and transportation of state wards	1,146.08
Part of the salary of the teacher of household arts	1,237.50
Total	50,740.10

Per pupil cost is one way of measuring the cost of instruction in a school system. The following tabulation compares the cost per pupil in Duxbury with other Massachusetts towns and cities.

Cost per Pupil** for the Years Ending December 31, 1949 through December 31, 1953

	1949	1950	1951	1952	1953
Duxbury	\$254.69	\$234.56	\$228.05	\$219.03	\$244.81
Group III towns*	176.89	187.39	207.08	207.01	215.07
State	202.44	213.02	234.80	237.88	241.91

*Towns with populations of less than 5,000 and maintaining high schools.

SCHOOL REGULATIONS

Admissions

Children who are five years of age on or before January 1st following the opening of school in September will meet the kindergarten age requirement.

A certificate of successful vaccination is required for admission.

A birth certificate is required to establish a child's age.

Health

In cases of absence of more than five days a child should present a note from his or her parent stating the cause of absence and may be re-admitted to school after checking with the school nurse. However, in case of absence due to a specific contagious disease, a doctor's certificate is required.

Parents are not expected to send their children to school on days when, in their opinion, the weather is such as to endanger the health of the child even though the busses are in operation. Such absences are excused on receipt of a written request.

No School Signal

School is usually called off only when bus transportation is unsafe. On such days an announcement is made over Stations WBZ, WEEL, WHDH, AND WBET in Brockton, between 6:45 and 7:45.

GRADUATION EXERCISES — JUNE 9, 1954

PROGRAM

Processional—March of the Priests	Medelssohn
Invocation	Rev. William Anthony
Address of Welcome	Peter G. Brown
President of Class of 1954

Selectmen of Duxbury

"HISTORICAL ROOMS"
Duxbury Rural and Historical Society, Inc.

SELECTMEN'S REPORT

Citizens of Duxbury:

We submit herewith the One Hundred and Third Annual Report of the officers and committees of our Town concerning their activities during 1955.

For the first time in many years the Bay became a solid mass of ice, retarding the activities of the Scallop Fleet and causing damage to the Pier at Mattakeeset Court. The new ramp has stood up well and has assisted the small boat owners in launching their boats.

This year the Selectmen carried out the provision of Article 28 and appointed a Waterfront Committee to confer with the Selectmen on Basin and Waterfront problems. This Committee has been helpful to the Selectmen and numerous problems have been brought to a harmonious solution through group conferences.

Pursuant to the vote of the 1955 annual town meeting the Selectmen appointed a Building Inspector to administer the Building Code and other By-Laws.

Dredging in the Basin has been delayed due to the difficulty in obtaining necessary easements.

The enlargement of the Old Town Hall on Tremont Street could not be done because of insufficient funds, the appropriation being \$8500.00 and the lowest bid received was \$12,985.00.

The Duxbury Fire and Water District was taken over by the Town on September 11, 1955 after appropriate action by the Legislature and after acceptance of the legislation by the District and the Town at Special Meetings held on August 12, 1955.

As required by Law the Selectmen caused a census to be taken, which determined our population to be 4280 as of January 1, 1955.

Town lines were perambulated between Duxbury and the neighboring towns of Marshfield, Pembroke, Kingston, and Plymouth.

Floodlights were installed at Train Field and afforded recreational opportunities to a good sized group of citizens.

The Town Dump presents a continuing problem. Numerous complaints were received concerning its condition during 1955 and in 1956 we will ask for more money in order to take better care of the area. We will also ask that the Selectmen be given further time to consider the adoption of a new site.

Essential exterior repairs were made at the Town Office building. More repairs will be necessary in 1956, and it will also be necessary to make fairly extensive renovations at the Abbott House. Since it appears that these buildings will be retained for Town Office use for some time to come, they must be kept clean, safe, and attractive.

We anticipate continuing improvement of Winter Street and Temple Street. Also we intend to start improving Autumn Avenue at the intersection with Winter Street.

The Selectmen wish to express their sincere appreciation of the friendly cooperation which they have received from all Town Officers and employees.

PHILIP W. DELANO

CHARLES R. CROCKER

NEWTON E. HYSLOP

Selectmen of Duxbury

REPORT OF STATE AUDIT

June 3, 1955

To the Board of Selectmen
Mr. Philip W. Delano, Chairman
Duxbury, Massachusetts

Gentlemen:

I submit herewith my report of an audit of the books and accounts of the town of Duxbury for the fiscal year ending December 31, 1954, made in accordance with the provisions of Chapter 44, General Laws. This is in the form of a report made to me by Mr. William Schwartz, Assistant Director of Accounts.

Very truly yours,

HERMAN B. DINE

Director of Accounts

HBD:ED

Mr. Herman B. Dine
Director of Accounts
Department of Corporations and Taxation
State House, Boston

Sir:

In accordance with your instructions, I have made an audit of the books and accounts of the town of Duxbury for the fiscal year ending December 31, 1954, the following report being submitted thereon:

The records of financial transactions of the several departments receiving or disbursing town funds or committing bills for collection were examined, checked, and verified by comparison with the records of the town accountant.

An analysis was made of the town accountant's ledger, the receipts being checked with the treasurer's books and the payments being compared with the warrants authorizing them and with the treasurer's records of payment. The appropriations as entered were compared with the town clerk's records of town meeting votes, and the recorded transfers from the reserve fund were verified by comparison with the authorizations of the finance committee.

A trial balance was taken off, proving the accounts to be in balance, and a balance sheet, which is appended to this report, was prepared showing the financial condition of the town on December 31, 1954. The balance sheet indicates that the financial condition of the town is satisfactory.

The books and accounts of the town treasurer were examined and checked in detail. The recorded receipts were analyzed and compared with the records in the several departments in which money was collected for the town, with other sources from which money was paid into the town treasury, and with the town accountant's books. The recorded payments were checked with the selectmen's warrants authorizing the disbursement of town funds and with the town accountant's records. The cash book footings were verified, and the cash balance on February 26, 1955 was proved by actual count of the cash in the office, by reconciliation of the bank balances with statements furnished by the banks in which town funds are deposited, and by examination of the savings bank books.

The recorded payments made for maturing debt and interest were compared with the cancelled securities on file and with the amounts falling due.

The securities and savings bank books representing the investment of the trust and investment funds in the custody of the town treasurer and the Plymouth Five Cents Savings Bank were examined and listed. The income was proved and the recorded transactions were verified.

The records of payroll deductions for Federal taxes and for the county retirement system were examined and checked, the deductions being compared with the treasurer's recorded receipts and the amounts paid over to the Director of Internal Revenue and to the county treasurer being verified.

The records of tax titles and tax possessions held by the town were examined and checked in detail. The town and district taxes transferred to the tax title account were compared with the collector's books, and the recorded redemptions were checked with the treasurer's cash book. The tax titles and tax possessions on hand February 26, 1955 were listed, reconciled with the town accountant's ledger accounts, and checked with the records at the Registry of Deeds.

The books and accounts of the tax collector were examined and checked. The town and district taxes and excise outstanding at the time of the previous examination, as well as all subsequent commitment lists, were audited and proved with the assessors' warrants issued for their collection. The recorded payments to the town and district treasurers were verified, the recorded abatements were checked with the assessors' records, and the outstanding accounts were listed and reconciled with the controlling accounts kept by the town accountant.

The commitments of departmental accounts receivable were examined and checked. The recorded receipts were checked with the treasurer's cash book and with the accountant's books, and the outstanding accounts were listed and reconciled with the town accountant's ledger.

Verification of the correctness of the outstanding tax, excise, and departmental accounts was obtained by mailing notices to a number of persons whose names appeared on the books as owing money to the town and the district, the replies received thereto indicating that the accounts, as listed, are correct.

The surety bonds of the officials required by law to furnish them were examined and found to be in proper form.

The financial records of the town clerk were examined and checked in detail. The recorded receipts on account of licenses, permits, recording fees, and miscellaneous charges were examined and checked, while payments to the treasurer were verified by comparison with the treasurer's recorded receipts.

The records of dog licenses issued on behalf of the county and of sporting licenses issued for the State were examined and checked with the duplicates and stubs on file, the payments to the town treasurer being verified.

The records of licenses and permits issued by the selectmen and by the police and health departments were examined and checked, and the payments to the treasurer were compared with the treasurer's cash book.

The records of the sealer of weights and measures, as well as of all other departments collecting money for the town, were examined and checked, the reported payments to the treasurer being verified.

There are appended to this report, in addition to the balance sheet, tables showing reconciliations of the treasurer's and the tax

collector's cash, summaries of the tax, excise, tax title, tax possession, and departmental accounts, as well as schedules showing the condition and transactions of the trust and investment funds.

While engaged in making the audit cooperation was received from all town officials, for which, on behalf of my assistants and for myself, I wish to express appreciation.

Respectfully submitted,

WILLIAM SCHWARTZ

Assistant Director of Accounts

**REPORT OF STATE AUDIT OF
FIRE AND WATER DISTRICT**

From January 1, 1955 to September 12, 1955

October 14, 1955

To the Board of Water Commissioners
Duxbury Fire and Water District
Duxbury, Massachusetts

Gentlemen:

I submit herewith my report of an audit of the books and accounts of the Duxbury Fire and Water District for the period from January 1, 1955 to September 12, 1955, made in accordance with the provisions of Chapter 44, General Laws. This is in the form of a report made to me by Mr. William Schwartz, Assistant Director of Accounts.

Very truly yours,

HERMAN B. DINE

Director of Accounts

HBD:BAB

Mr. Herman B. Dine
Director of Accounts
Department of Corporations and Taxation
State House, Boston

Sir:

In accordance with your instructions, I have made an audit of the books and accounts of the Duxbury Fire and Water District for the period from January 1, 1955, the date of the previous audit.

to September 12, 1955, the following report being submitted thereon:

The books and accounts of the district treasurer were examined and checked. The receipts, as recorded, were analyzed and checked, while the payments were compared with the vouchers and payrolls approved by the district commissioners. The cash book additions were proved, and the cash balance on September 12, 1955 was verified by reconciliation of the bank balance with a statement furnished by the bank of deposit and by examination of the savings bank book.

The ledger accounts kept by the district treasurer were analyzed, a trial balance was taken off, and a balance sheet, which is appended to this report, was prepared showing the financial condition of the district on September 12, 1955.

The payments on account of maturing debt and interest were checked with the amounts falling due and with the cancelled securities and coupons on file.

The deductions from employees' salaries and wages for Federal taxes and for the county retirement system were examined and reconciled with the treasurer's records of receipts and disbursements.

The appropriations voted by the district meeting were listed, and the aggregate expenditures chargeable against each appropriation were compared with the amounts voted.

The taxes and charges for water rates, service connections, and meter removals and replacements were audited and compared with the warrants issued for their collection. The reported payments to the treasurer were verified, the recorded abatements were compared with the assessors' and the water commissioners' records of abatements granted, and the outstanding accounts were listed and proved.

Verification of the outstanding accounts was obtained by mailing notices to a number of persons whose names appeared on the books as owing money to the district, the replies received thereto indicating that the accounts, as listed, are correct.

The surety bond furnished by the district treasurer for the faithful performance of his duties was examined and found to be in proper form.

Under the provisions of Chapter 330 of the Acts of 1955, the town of Duxbury was authorized to take over all properties, rights, powers, and privileges of the Duxbury Fire and Water District, and to assume all the duties and obligations of said district. The provisions of the above act were accepted by the town and by the district at special meetings on August 12, 1955, and the assets, liabilities, and reserves were transferred from the district to the town at the completion of this audit.

Appended to this report, in addition to the balance sheet, are tables showing a reconciliation of the treasurer's cash and summaries of the tax, tax title, and water accounts.

Cooperation was extended by the district officials during the progress of the audit, for which, on behalf of my assistants and for myself, I wish to express appreciation.

Respectfully submitted,

WILLIAM SCHWARTZ

Assistant Director of Accounts

REPORT OF THE FIRE DEPARTMENT

January 10, 1956

To the Honorable Board of Selectmen:
Duxbury, Massachusetts

Gentlemen:

The Board of Fire Engineers submits the following report for the year 1955:

Automobiles	4
Buildings	22
Boat	1
Chimneys	15
Bridge	1
Oil Burners	6
False Alarms	1
Stand-By	6
Out-of-Town	None
Emergency	80

Although the Department calls have increased over last year, we feel very fortunate that we have been without tremendous loss of life and property as fires all over the state this past year, according to all reports, will exceed any other previous year.

Of the twenty-two building fires, we are very glad to say that they were held to the point of origin with very minor losses.

This year we have had 80 emergency calls which is larger than any other previous year and on many of these calls it means the saving of a human life or property which is the first duty of the Fire Department.

All buildings are in fairly good repair. We have changed over the apartment in the Central Fire Station to accommodate the new three permanent man system which has worked out to our satisfaction and has bettered the services in the Fire Department in many ways.

Our fire apparatus at present is working satisfactorily but within the next two years we should replace one of the older model trucks namely — No. 1, 1936 combination or Engine No. 3, 1929 pumping engine.

As Chief of the Fire Department, I would like to thank the officers and firemen for their splendid cooperation and, also, the telephone operators as well as the other Town Departments who have contributed in keeping our fire losses down.

We should like to impress once more upon each person in putting in a fire call the importance of saying, **“Emergency Duxbury Fire Department 333.”** Give your name, the location of the fire to the best of your ability and, if it is possible, the nature of the fire (as auto, chimney, building, forest, grass, etc.) so that the proper type of equipment may be dispatched to the fire immediately.

Respectfully submitted,

EBEN N. BRIGGS, Chief
 GEORGE S. BUTLER, Asst. Chief
 KENNETH O. MACOMBER, Chairman
 ALDEN M. BARTLETT, Secretary
 JOHN DeLORENZO
 CARL J. SANTHESON, JR.
 BENJAMIN F. GOODRICH, JR.

Board of Fire Engineers

REPORT OF THE FOREST WARDEN

January 10, 1956

To the Honorable Board of Selectmen:
Duxbury, Massachusetts

Gentlemen:

I herewith submit my report as Forest Warden for the year 1955.

The Department had a total of 112 calls as follows:

Brush	17
Grass	23
Forest	13
Dump	42
Incinerator	6
False Alarm	4
Outside Aid	2
Stand-By	5

Out of the 112 calls this year, there were only two forest fires that were Class B, which class is a half acre or over. One of these burned a little better than two acres and the other an acre and a half. This year has been an exceptional year because on our

Spring fires we had a lot of rain and foggy weather, also, in the Fall the same condition existed which always helps cut down the number of fires and losses. All trucks are operating efficiently and seem to be in good repair.

The following number of fire permits issued for open air fires were 4584. Duxbury Beach Park issued 1500 beach permits and Ford's Store 600 beach permits. The Central Fire Station issued 2101 telephone permits and 383 written permits for incinerator, rubbish and brush fires.

I wish to again thank the Deputy Wardens, Firemen, Selectmen and Town Departments who rendered service during the past forest fire season.

Respectfully submitted,

EBEN N. BRIGGS,
Forest Warden

REPORT OF THE HIGHWAY DEPARTMENT

To the Honorable Board of Selectmen:

Gentlemen:

I herewith submit the report of the Highway Department for the year ending December 31, 1955.

All streets throughout the town received annual repairs. Several miles of black roads were given a surface treatment. The remaining portion of King Phillip's Path and Union Bridge Road were graveled and seal coated. Roadsides were mowed and raked. Traffic lines were painted and new drainage installed where necessary.

By special appropriations Elderberry Lane, Midway and Arrowhead Roads were graded, graveled and surfaced. New drainage was installed in these streets also, as well as in Indian Trail. Additional portions of Winter and Temple Streets were rebuilt and surfaced with mixed-in-place. Work on Bow Street was started but because of cold weather had to be discontinued. It will be completed in the Spring.

The bathing beaches and floats at all town landings received annual care. Fourteen sections were replaced in the Powder Point Bridge and repairs made to the rest of it as necessary.

Chapter 90 Maintenance money was spent on Route 14.

Under Chapter 90, New Construction, the project at Bay Road was continued. Drainage and excavation were completed, but due to cold weather surfacing had to be delayed until spring.

Respectfully submitted,

LEWIS B. RANDALL

Superintendent of Streets

REPORT OF THE CEMETERY TRUSTEES

To the Honorable Board of Selectmen
and the Citizens of Duxbury:

Your Board of Cemetery Trustees render their report for the year 1955.

The work for caring for the Cemeteries in Duxbury is covered in the report of the Superintendent.

Increased labor costs have forced us to increase the charge for the Annual Care of Lots.

We are pleased to report a continued increase in the Perpetual Care Funds. We strongly urge all lot owners to place their lots under Perpetual Care. The sums placed in these funds is a deductible item under Section #170 (c) (5) of the 1954 Income Tax Code.

We are requesting an appropriation of \$17,516.44 to carry on the regular work in the cemeteries and \$800.00 to repair, grade and asphalt the hard surfaced roads in Mayflower Cemetery, the work to be done by the Highway Department.

HARRY A. TAMMETT, Chairman
STANLEY V. JOHNSON
EDWARD P. HOBART
H. RUSSELL CHANDLER
J. NEWTON SHIRLEY, Secretary

REPORT OF THE SUPERINTENDENT OF CEMETERIES

To the Cemetery Trustees:

I submit my report for the year 1955.

At Mayflower, Ashdod, Dingley, and Standish Cemeteries, the general work was done and the leaves were raked, also the avenues were raked and cleaned.

Three lots have been rebuilt and some of the old walks have been regraded in the old part, and also an addition made to the new section of the cemetery.

The fence around Dingley cemetery was repaired and painted as was the fence in front of Standish Cemetery.

Milky Disease Spore Dust was put on the lots at Ashdod and a section of Mayflower for control of the Japanese Beetle, more of this work will have to be done this year, also the hard surfaced avenues will need repair and asphalt added.

There is a large amount of additional work due to the lawn mowing and fertilizing the Historical part of Mayflower Cemetery that The Ladies Union Fair Association completed last year, and the new sections that are added each year.

Perpetual and Annual care lots were cared for: also the graves of the veterans.

There were fifty-three interments this year.

Respectfully submitted,

LAUREL B. FREEMAN

Superintendent of Cemeteries.

REPORT OF PUBLIC HEALTH NURSE

Duxbury, Mass.
December 31, 1955

Mr. Philip W. Delano
Duxbury Board of Health
Duxbury, Mass.

Dear Mr. Delano,

Since the work of the Public Health Nurse is no longer covered by direct appropriation from the Town, you may not want the following for the Town Report, but I thought you might want it as a report of the services you are now purchasing through the Board of Health budget.

REPORT OF PUBLIC HEALTH NURSE — 1955

Instructive Work

Contagious Disease	4
Crippled Children	2
Tuberculosis Cases	2
Tuberculosis Contacts	9
Post-polio	19

—

Total	36 visits
-------	-----------

Well-Child Conference	6 sessions	67 attendance
Immunization Clinics	3 sessions	102 attendance
Boosters — 60	Completed series of three — 14	

Trips to Plymouth County Hospital — 2 — 10 individuals

Respectfully submitted,

SUSAN E. CARTER, R.N.
Duxbury Public Health Nurse

REPORT OF THE TOWN HISTORIAN

To the Honorable Board of Selectmen
of the Town of Duxbury:

An ever increasing number of requests from all parts of the country has at times taxed the resources of this department. Requests for information about ancestors, original homesites, lines of descent, and in some cases, missing relatives, have required a varied research. Town's people have been most cooperative, especially in instances where family records held the answer.

Cooperation has been given several groups in program planning and talks have been given as much as possible. The Historian is assisting two committees that are working on projects of historical interest.

The usual number of letters from school children in many states asking "what Duxbury was like in Colonial times" shows the need for a printed uniform answer. The requests have been studied for several years and a single answer is near completion.

This department continues to work for an ever increasing collection of books, maps, diaries, records, and stories that form a source of permanent information available to all, now for years to come.

We note with sadness the passing this year of Dr. Walter Reid Hunt, Duxbury's second Town Historian.

Respectfully submitted,

DOROTHY WENTWORTH

Historian for the Town of Duxbury

PLYMOUTH COUNTY AID TO AGRICULTURE

By Robert B. Ewing, *Agent-Manager*

The Plymouth County Extension Service is an educational organization which is a part of the United States Department of Agriculture and the University of Massachusetts.

There are three departments — Agriculture, Home and 4-H — and the office in the Court House, Brockton, Massachusetts.

The Program of each department — Agriculture, Home Economics and 4-H is planned with the cooperation of farm, rural and urban people. County Extension Agents strive to bring to county people the results of research in Agriculture and Homemaking, that will increase incomes, provide a better living, and happier family life, by teaching people to help themselves. Hundreds of leaders trained by the Extension Service staff, augment their teaching by publicizing Extension Service Programs and passing on to people in their own communities the information they have received.

Funds for County Aid to Agriculture are derived principally from the County. Some Federal funds are also made available through the University of Massachusetts. Most towns in Plymouth County make a token appropriation which is used for the general expenditures of the Plymouth County Extension Service. Town Directors are appointed in those towns where an appropriation is made. These Town Directors are unpaid volunteer leaders who serve as the Extension Service representatives in their respective town.

A Board of Trustees appointed by the Plymouth County Commissioners administers the Extension Service program.

The Trustees for 1955-56 are:

Lloyd A. Hathaway, Abington, Chairman
 Gilbert Beaton, Wareham, Vice-Chairman
 Mrs. Harold D. Bent, Brockton
 Joseph Teeling, North Middleboro
 Robert B. Bowler, Plymouth
 Ralph McIlvana, Plympton
 Mrs. Roy Puddington, Hanson
 Mrs. Herbert Wydom, Brockton
 Paul Lehtola, Bridgewater

A brief statistical Summary for 1955 follows:

	<i>Agri. Dept.</i>	<i>Home Dept.</i>	<i>4-H Club Dept.</i>	<i>Total</i>
Farm or Home Visits	1,238	171	370	1,779
Office Calls	1,284	1,159	617	3,060

No. of 4-H Clubs				91
4-H Club Members enrolled by projects				1,122

PLYMOUTH COUNTY AID TO AGRICULTURE (Plymouth County Extension Service)

Of the three phases of the Extension Service work, the Adult Education and 4-H work are well represented in Duxbury. The individual and technical assistance in the agricultural, poultry and other livestock fields is carried on directly from Brockton.

MALCOLM C. BROCK

Director for Duxbury

ADULT TRAINING, HOME ECONOMICS DEPT.

The following classes were held throughout the year:

Care and Adjustment of Sewing Machines	
and Attachments	15 present
Lamp Shades	14
Neckties	6
Creative Stitchery	8
Outdoor Cookery	5
Make a dress	6
Lecture at Brockton on Health	2
Family Stability	22
Christmas Open House at Brockton	35

MRS. RAY CHANDLER, Chairman

MRS. WARREN WASHBURN, Sec.

4-H CLUBS

The 4-H Clubs in Dairy, Sheep, Poultry, Garden, Sewing, Cooking, and Car Repair have progressed satisfactorily and still hold their outstanding position in Plymouth County. Seven children were given two-week scholarships to Camp Farley.

JOHN WILLIS, Chairman

THE PLYMOUTH COUNTY EXTENSION SERVICE

To Town Directors,

Trustees, Plymouth County Aid to Agriculture.

Dear Directors:

Enclosed is a brief report of the Trustees, Plymouth County Aid to Agriculture (Plymouth County Extension Service) for

1955. A copy is also being sent to the Chairman of the Board of Selectmen in each town.

As the legal name is Trustees, Plymouth County Aid to Agriculture, may I suggest that in order to avoid confusion, you use both the legal name and the one by which our Service is best known, namely the Plymouth County Extension Service, if this report is included in the Annual Report of your town.

This report is of necessity very brief because we realize that brevity is important in the town reports, and also because of the nature of our Extension Service we can give only a very general summary to cover all the towns in the County as most of our meetings are held on an area or countywide basis.

We appreciate having a Town Director in your town and hope that if you know of any way in which we may be of assistance to your townspeople that you will let us know.

Sincerely yours,

ROBERT B. EWING

County Agent-Manager

REPORT OF THE BOARD OF APPEALS

To the Honorable Board of Selectmen:

The Board of Appeals held twenty-five public hearings during 1955, nineteen of which were for variances in the residential district and six for exceptions, authorized by the Protective By-Law but subject to approval by the Board of Appeals.

Of the nineteen variances ten were granted, six were denied and three were withdrawn by the petitioners at the hearings. The six exceptions were granted.

This being the first year of the operation of the Building Code, three of the hearings were concerned with the interpretation of the code.

Respectfully submitted,

WILLIAM B. COFFIN, Chairman

H. RUSSELL CHANDLER

EDWARD P. HOBART

REPORT OF THE HARBOR MASTER

December 31, 1955

To the Honorable Board of Selectmen:

I respectfully submit my report as Harbor Master for the year 1955.

During the year 1955 there were 105 registered boats in the basin 20 to 47 feet long and a number of outboard motorboats and sailboats.

All boat owners who desire a mooring, must fill out a mooring application before they can be assigned a mooring. This gives us all the necessary information as to the ownership, type of boat and where the owner can be reached in case of trouble.

We have received requests for new moorings from persons who have purchased new boats and also from new residents of the Town.

All boat owners who applied in 1955 were issued moorings, but unless there is additional area dredged before the coming boat season, it looks like some boat owners will have to be turned away from mooring in the basin and moored elsewhere in 1956.

There were 25 boats moored at Howlands Landing, Standish Shore this year.

The new ramp at Mattakesett Court Town Landing has proved very successful in making it much easier for small boat owners and Scallop fishermen to launch their boats.

I expect to spend considerable more money this year in repairing and replacing the main channel markers which were pushed over and destroyed by the heavy ice, when the bay was frozen over.

The Highway Department removed the Town floats before any damage was done to them from the severe storms.

We wish to thank all Departments, boat owners and persons who helped make our work easier this past year.

Respectfully submitted,

SARGENT C. BLACK,

Harbor Master

HENRY P. McNEIL,

Assistant Harbor Master

REPORT OF CHIEF OF POLICE

To the Honorable Board of Selectmen

Respectfully submitted,

JAMES T. O'NEIL

Chief of Police

January 10, 1956

REPORT OF THE SUPERINTENDENT INSECT PEST CONTROL

To the Honorable Board of Selectmen,

Gentlemen:

The insects that caused us so much trouble and unsightliness along our highways in the past, are now very well under control.

The trapping program on the Gypsy Moth was in effect again the past season and accounted for 21 male moths being caught. However, scouting for egg clusters for a radius of a quarter of a mile around the traps that caught them has not produced a single egg cluster.

During the past year the Japanese Beetle was placed on Insect Pest list by an act of the legislature, but too late for sufficient funds to be included in the budget. This year, in order to do the right kind of a job on the Japanese Beetle, we have asked for a considerable increase in the appropriation. This means that two spray outfits will have to operate continuously the most part of July and August.

Respectfully submitted,

ROY E. PARKS, Superintendent
Insect Pest Control

REPORT OF THE TREE WARDEN

To the Honorable Board of Selectmen
and the Citizens of Duxbury:

During the past season we have been able to pretty well catch up on the removal of broken branches and trees along the streets in our wooded areas. Weaknesses in our trees are showing up from time to time and are being cabled as we find them.

Last year we planted forty new trees, many of which were the small, flowering type. Our tree planting program was cut short in the fall by an early freezeup.

We have a good supply of trees in the Town Nursery for Spring planting.

Respectfully submitted,

ROY E. PARKS

Tree Warden.

REPORT OF SUPERINTENDENT OF PARKS AND PLAYGROUNDS

To the Honorable Board of Selectmen
and Citizens of Duxbury:

As usual, the spring cleanup on Parks and Playgrounds started the first of April. The tennis courts were put in shape with the addition of the top or finish-coat on the asphalt court. Work on the asphalt court was done by the Highway Department. The School Department added a back stop for basketball enabling it to be used for both purposes.

Train Field was sprayed with chlordane for the control of Japanese Beetle. Alden Field was treated with Milky Spore powder for the control of Japanese Beetle.

A new Pony League ball field was laid out in the Walker Field and seeded down the first of September. The grass came up well and looks wonderful for another season.

Brush-killer spray was used on the lower end of Walker Field to keep it cleared.

It has been requested by several interested groups that we have a man full time for Parks and Playgrounds and that is the reason for the increase in the budget for this department.

Respectfully submitted,

ROY E. PARKS, Superintendent
Parks and Playgrounds

REPORT OF CONTROL OF DUTCH ELM DISEASE

To the Honorable Board of Selectmen.

Gentlemen:

The year 1955 was a very difficult year to get good control of Dutch Elm Disease due to so much rain and wind during the month of April. However, again Duxbury is up in the 99% control group of towns in our work on this disease.

We have had less than one-half a diseased tree for every one hundred elms in town.

All elm trees of any importance were given a 12% D.D.T. spray before the tree leaved out and another 6% D.D.T. spray in June.

We still maintain that our good control is mostly due to night spraying.

Respectfully submitted,

ROY E. PARKS

Tree Warden.

REPORT OF THE TRUSTEES OF JONATHAN AND RUTH FORD FUND

To the Citizens of Duxbury:

The following is a statement of the operations of the principal and income accounts of the Jonathan and Ruth Ford Fund for the year 1955:

	Principal	Income
On hand December 31, 1954	\$25,000.00	\$3,688.83
Income for 1955		755.06
		<hr/>
		\$4,443.89
Paid for relief of worthy cases in 1955		1,054.72
		<hr/>
On hand December 31, 1955	\$25,000.00	\$3,389.17

PHILIP W. DELANO

CHARLES R. CROCKER

NEWTON E. HYSLOP

JOSEPH T. C. JONES, Treasurer

REPORT OF THE SHELLFISH CONSTABLE

December 31, 1955

To The Honorable Board of Selectmen:

I respectfully submit my report as Shellfish Constable for the year 1955.

From January 1st to April 15th, there was an average of 70 persons raking Scallops from the Bay on weekdays, and on Saturdays and Sundays running as high as 130 persons. The maximum take in 1955 was on February 20, when 130 persons brought in 458 bushels.

On April 1st we extended our Scallop season 15 days to April 15, after consulting with Mr. Richard W. Burton, The State Marine Biologist, who informed us that this extension would not endanger our future supply of Scallops.

During the Summer months an average of 15 persons worked in the Bay digging Razorfish, Quahaugs and Seaworms.

The Scallop season opened on October 1, with an average of 40 to 45 persons raking on weekdays and doubling on Saturdays. In order to maintain as high a price as possible per bushel for our Scallops the Sunday raking was kept closed until December, when the regulations were revised permitting 4 bushels of Scallops per person to be taken on weekdays and one bushel per person to be

taken on Sundays on Commercial permits. For 8 days from December 21, through December 28, the Bay was frozen over and the Scallop fleet were unable to get out into the Bay.

This year 68 bushels of large Quahaugs and 31 bushels of Cherry size Quahaugs were planted. These were obtained through the cooperation of the State Division of Marine Fisheries at a cost of \$250.50 spent for the Quahaugs, and \$22.50 spent for the labor planting them.

We have a very good set of small Quahaugs, throughout the Bay and \$253.75 was spent picking and destroying crabs, cockles and mussels which will help the Quahaugs get through their early stages of life. During the Summer months I set and baited in our Scallop area 3 crab traps supplied by the State Division of Marine Fisheries for the catching of green crabs.

256 Commercial permits were issued, 30 @ \$2.50 each and 226 @ \$5.00 each — total \$1,205.00. 723 family permits (29 being free to persons 70 years of age or over and the remainder at 50¢ each) were issued during the year — total \$347.00.

14 notices were sent grant holders requesting a report of work done on grants.

322 bushels of Quahaugs and Seven bushels of clams were planted on Grants this year.

There were 14 annual fee forms sent out and \$23.25 collected in annual fees from grant holders.

Following is the record of shellfish and seaworms taken commercially during the year.

221	bushels of Quahaugs @ \$3.00 & \$3.50	\$ 669.00
329½	bushels of Razorfish @ \$6.00 & \$8.00	\$ 2,120.00
56,375	Seaworms @ .03 apiece	\$ 1,691.25
7,259½	bushels of Scallops, January @ \$4.75 to \$4.00	\$ 27,223.12
5,225½	bushels of Scallops, February @ \$4.50 to \$3.75	\$ 24,924.87
5,532	bushels of Scallops, March, @ \$3.75 to \$3.10	\$ 18,317.85
1,425½	bushels of Scallops, April @ \$3.10	\$ 4,419.05
4,265½	bushels of Scallops, October @ \$3.50	\$ 14,929.25
4,105½	bushels of Scallops, November @ \$3.50	\$ 14,369.24
2,219½	bushels of Scallops, December @ \$3.50	\$ 7,768.25
Total all Shellfish		<hr/> \$116,431.88

Total bushels of Scallops taken 30,033

During the year four Commercial permits were suspended for violation of The Rules and Regulations.

Respectfully submitted,

HENRY P. McNEIL,
Shellfish Constable.

REPORT OF VETERANS AGENT

December 31, 1955

To The Honorable Board Of Selectmen:

I respectfully submit my report as Agent and Director for the Department of Veterans Services for the year 1955.

During the year we have had a total of 14 cases, representing 35 persons who received Veterans Benefits.

I have attended Veteran Service Officers meetings in order to keep informed of the new laws and benefits that are available to Veterans of all Wars. This information enables me to advise and assist our Veterans and their dependents, whenever the occasion arises.

The work of this Department continues to increase each year as more Veterans are discharged and need help in numerous problems.

Seven Pension and Compensation Claims were handled and four of the applicants are now receiving Federal Pension and Compensation checks. Three Claims are still pending.

I photostat and file Veterans discharges at their request.

I have registered 15 local 18 year olds for Draft Board number 129, Marshfield, Massachusetts.

Our appropriation for Ordinary Benefits, Medical and Fuel expenditures was \$8,398.00. We expended \$8,195.12 in these three categories, and expect to receive two unpaid medical bills.

The State Department of Veterans Services will reimburse the Town for approximately half of the above amount expended.

Respectfully submitted,
HENRY P. McNEIL,
Agent

REPORT OF BOARD OF HEALTH

I herewith submit my report as agent for the Board of Health.

The communicable disease picture for 1955 was noteworthy for thirteen cases of anterior poliomyelitis. Of this number, eight cases were eighteen years old or older. There were three fatalities from poliomyelitis all of which were young women with children ranging in age from thirty-five to forty-one years old. Twelve of these cases occurred between the fourth of August and the fifth of October. The thirteenth case — mild paralytic poliomyelitis in a child of five — was reported on the twenty-third of December. This proves an interesting point of illustration which is easy for us to forget, namely that while we are accustomed to having poliomyelitis occur during its "season", the disease is present the year round. Last spring the children in the first and second grades, whose families gave permission, were given the first Salk Vaccine injection which was supplied by the National Polio Foundation. Due to the ensuing troubles over the vaccine dates, the second injection was not given last year. After the Massachusetts Polio Committee finally approved the Salk Vaccine on January 9, 1956, the Board of Health inquired as to the availability of the second Foundation injections. I have been informed that this material will probably be available for the now second and third grades after the middle of February. The Salk Vaccine is now available commercially and is being given by the local physicians.

The communicable disease figures for the year were as follows:

Chicken Pox	21
German Measles	14
Infectious Jaundice	1
Measles	136
Mumps	11
Pertussis	16
Polio	13

Roseola	1
Whooping Cough	5
Venereal	1
Dog Bite	12

May we again urge all parents to report all communicable cases to the health agent when they are so mild as not to require a doctor's services. Doctors are required to report all the cases they do see.

The school dental program was carried out under the new regulations as clarified last year. A total of two hundred and three dental procedures were performed on thirty-eight children who otherwise might not have received any dental care.

Again this year some 300 pounds of rat bait was distributed to people from all sections of town. It is still our wish that more people would take advantage of this program. The bait is available at all times at Dr. Starr's office at no charge.

In the way of advance notices, the Board of Health would like to announce now that it has planned for a rabies vaccine clinic for the local canine population to be held this Spring. Definite dates will be announced later. Owners must accompany their dogs and pay the cost of vaccine.

We are grateful to the State Department of Public Health for their assistance and cooperation in the inspecting and licensing of eating establishments, chicken farms and the like.

Respectfully submitted,

GEORGE R. STARR, JR., M.D.

DUXBURY FREE LIBRARY ANNUAL REPORT FOR 1955

To the Trustees of the Duxbury Free Library:

1955 has come to a close and once again it is time to review the activities of the Duxbury Free Library and to summarize the various events of the past year.

It is a source of much satisfaction to the librarian to be able to report, for the third successive year, a steady, month by month increase in the use of the library. The total circulation for 1955 amounted to 49,170, a gain of 7574 over that of 1954. Of this 49,170, 26,403 books were borrowed by adults and 22,767 by junior readers.

The total registration now stands at 2423; during 1955, 439 registrations were accepted at the library. Of this 439, 384 were new borrowers.

These figures show that the use of the library has more than doubled since June 15, 1952 when the present librarian began her work in the Duxbury Free Library.

Naturally, this yearly increase in the use of the library continues to tax all of its resources and each year the staff takes on an increased amount of work. Some additional help is very necessary if we are to continue to give satisfactory service to the community and more books are needed to keep up with the demands made upon us in a steadily growing population. The librarian believes that if the library gives satisfactory service to the town, that the citizens are willing to support the library adequately.

A growing institution such as ours, in a growing community, cannot carry on successfully without the necessary funds with which to meet the requests from the public. The library is willing

and anxious to give all possible service to the citizens of Duxbury. Our increased use of the library indicates that the public is interested in all that is available or could be available to them in the library. It would seem that they need only the chance to confirm their attitude.

The re-cataloguing problem is still with us. The growing use of the library makes it impossible for the staff to give any attention to this most regrettable situation. At present there are no cataloguers available for a special job such as this one would be in the Duxbury Free Library. This fact seems to leave the problem where it is for the present. The Trustees and the librarian are engaged in trying to find some means by which the work may be accomplished.

The work with the schools which began in 1953 has gradually increased until it has become an integral part of the weekly schedule. Every day at 2:00 P.M., with the exception of Thursdays and Saturdays a third or fourth grade room from the Elementary School, accompanied by its teacher visits the library to return and borrow books, to become acquainted with the reference books and to enjoy the library. The librarian and assistants work with the children and help them to find the specific books they need or just good books to read. On Thursdays three fifth grades and three sixth grades visit the library; these older boys and girls are often looking for material on special subjects which have been assigned to them. On several occasions more than 450 books have been issued on a Thursday. Later on in the winter, the first and second grade children begin to make their visits.

After 2:00 P.M., Junior and Senior High School pupils come in increasing numbers to do their reference work and to find books for outside reading in connection with the subjects which have been assigned to them. It is very important that we have the necessary books to carry on and develop this work successfully. No Duxbury boy or girl should leave High School (or any other grade) without some knowledge of the Duxbury Free Library and

what it has to offer. It is hoped that a life-long library habit will have been established by these efforts.

To sum it all up, 1955 has been a busier and bigger year than any of the three previous ones. More of everything is needed. It is hoped that in 1956 we shall be enabled to make further progress with our library service.

The first group of the "Great Books" discussion has entered upon its second year and a second group have begun on their first year. Both of these meet on different evenings twice a month in the library. In this way the library is rendering another service to the community.

In closing, the librarian wishes to extend her thanks and appreciation to all who have in any way contributed to the welfare and comfort of the library during the past year: to the Trustees, to the Staff, to the Duxbury Community Garden Club and to all of those who have donated gifts of money, books, periodicals, plants and flowers. There have been many such gifts and all of them most acceptable. They have filled the various needs and have benefited the library in many ways throughout the past year.

Respectfully submitted,

MINNIE BURKE FIGMIC

Librarian.

REPORT OF THE BOARD OF WATER COMMISSIONERS

To the Honorable Board of Selectmen
of the Town of Duxbury,

Gentlemen:

The Board of Water Commissioners submits the following report for the year 1955:

Acting under the vote of the Duxbury Fire and Water District at its annual meeting in April, well testings have been made with Whitman and Howard as engineers and the D. L. Maher Co. as contractors. The testing was done in the West Duxbury area as it appears that our growth in the immediate future will be in that direction. After several tests a location on property belonging to the Duxbury Lake Shores Development was selected as being the best source available in that section. If a well is to be located at this point it will be necessary to acquire land, not only for the well, but a certain area surrounding it as required by the State Department of Public Health, and we are requesting an appropriation for this purpose at the Annual Town Meeting.

Also in accordance with a vote at the Annual District Meeting we have replaced the older pipes on Duck Hill Road, Freeman Place, Linden Lane, Priscilla Ave. and Shipyard Lane.

In order to be in a better position to carry out the provisions of Chapter 487 of the Acts of 1954, an Act relative to liens and charges for water rates, the Commissioners will institute a change in the billing of water rates, effective April 1st, 1956. A complete explanation of the change will be sent to each consumer at that time. It is expected that the rates will remain the same, but bills will be sent out on April and October first instead of once each year as has been the custom.

The new Pumping Plant on Depot Street was put into operation in July and furnishes an excellent supply of water of good quality. This addition to our system enabled us to go through the summer with no restrictions on the use of water.

On September eleventh the Duxbury Fire and Water District was taken over by the Town. This came about following the acceptance of an enabling act, Chapter 330 of the Acts of 1955, by both the Town and the District at special meetings called in August for that purpose. This action resulted in the functions of the District being continued by a Town Water Department. As it is to be expected that major extensions of the system will be made in the near future we are not making any specific recommendations for additions this coming year, but do recommend that a complete survey be made by competent engineers of that part of the Town not now supplied with water, and that a master plan for future development be made with blueprints showing recommended extensions in the order of their importance, the sizes of mains, the capacity and location of additional storage requirements and the estimated costs in detail of the various recommendations.

The Commissioners request that an article be placed in the Warrant for the annual meeting of 1956 to carry out our recommendation for a complete survey as made in the preceding paragraph.

Respectfully submitted,

LeROY M. PETERSON, Chairman
PIERCE W. MURPHY
HAROLD T. WILLIAMS

Board of Water Commissioners
Town Water Department

REPORT OF THE SUPERINTENDENT WATER DEPARTMENT

December 31, 1955

To the Board of Water Commissioners
Town of Duxbury
Duxbury, Mass.

Gentlemen:

Following are the 1955 statistics of the Duxbury Water Department, as required by the Massachusetts Department of Public Health:

Greatest amount pumped in any one day: July 23, 1955,
1,423,000 gallons

Greatest amount pumped in any seven consecutive days:
July 17, thru 23, 1955, 8, 635,000 gallons

Total amount pumped during 1955: 144,095,000 gallons

Number of services at the end of the year: 1514

Number of active services at the end of the year: 1489

New services installed during the year: 42

Miles of water mains at the end of the year: 34.9

Acres of land owned for water supply purposes: 41.15

There were 1,693 feet of 6" and 467 feet of 2" water mains and two hydrants installed in Beaverbrook Lane and Goose Point Lane during 1955, at the expense of the sub-divider, as required by the Rules and Regulations of the Duxbury Planning Board.

Respectfully,

E. F. REDLON,
Superintendent

REPORT OF SONS OF UNION VETERANS

HEADQUARTERS OF
MYLES STANDISH CAMP, 115
MASS. DIV. S. OF V., U.S.A.

December 31, 1955

To the Honorable Board of Selectmen
and Citizens of Duxbury:

We, the Sons of Union Veterans of the Civil War, wish to submit our last report on Memorial Day Exercises.

Last May we asked the Duxbury Post #223, American Legion, to take over the Memorial Day duties which our organization has been carrying out for over fifty years. We were forced to take this step because some of our members are over 80 years of age, and many are 70 years old, and unable to take charge of the many details connected with the Memorial Day Services.

The American Legion graciously accepted the responsibility of commemorating the honored services of our Civil War heros.

In 1956 the Town's appropriation for Memorial Day Observances should be available for expenditure under the direction of the Duxbury Post #223 American Legion, instead of the Sons of Union Veterans of the Civil War.

Respectfully submitted,

PARKER B. CHANDLER, Chairman
PHILIP G. CHANDLER
OSCAR B. RYDER
A. WARREN WASHBURN
MERRITT S. FERRELL

The Committee

**REPORT OF THE
BOARD OF PUBLIC WELFARE AND
BUREAU OF OLD AGE ASSISTANCE**

To the Citizens of Duxbury:

During the past year your Board of Public Welfare and Old Age Assistance has, within the limits established by statute, administered the funds provided by the town, state and federal government for the benefit of people in Duxbury who are in need. Total expenditures were within the total appropriation, although the costs of General Relief were much higher than had been anticipated. In these times of general prosperity it is hard to understand this increase unless one remembers that General Relief is administered to those in temporary financial distress and that personal misfortune is found even in times of prosperity. Providing the basic necessities for a few families unexpectedly unable to provide for themselves, quickly amounts to a substantial increase when the total budget is relatively small as it is in Duxbury. The average number of persons aided per month under General Relief was twenty-nine.

Under Aid to Dependent Children, aid for children deprived of parental support because of absence from home, sickness, divorce or death of parent, there was an average monthly case load of five families, representing an average of seventeen persons.

Disability Assistance is granted to persons over eighteen years of age, who are totally or permanently disabled physically. The average monthly case load for this type of assistance was eight.

Continuing the downward trend which has been apparent for the past five years, there was a decrease in the number of Old Age Assistance cases to whom assistance was rendered. The average case load was sixty-five, compared with seventy-one in 1954.

One possible explanation for the decline in the number of people receiving Old Age Assistance is the lien law passed in 1951. This law subjects real estate owned by welfare recipients to a lien by the town and makes it possible for the town to recover all or part of the aid rendered. Under this lien law Duxbury has recovered \$5208.05 during the year 1955. Another factor contributing to the decline in the number of Old Age Assistance recipients may be the increasing scope of Old Age and Survivors Insurance.

In planning for the coming year it has been necessary to ask for a slight increase over last year's appropriation. While a part of this is to provide for additional cases in the Aid to Dependent category, most of it is due to a change in the Old Age Assistance law, effective on January 1, 1956. This requires a monthly increase of \$2.50 to provide a travel allowance for Old Age Assistance recipients except for those in nursing homes or those whose budgetary requirements are below the minimum, thus giving them an excess.

The Board of Public Welfare wishes to express their appreciation to the Selectmen and to the Police Department for their help and cooperation during the past year.

Respectfully submitted,

ALICE H. GARSIDE, Chairman
PAUL C. BARBER
HOWARD M. CLARK
ADRIAN R. CORDEAU
PAUL N. SWANSON

REPORT OF THE DUXBURY RECREATION COMMITTEE

To the Honorable Board of Selectmen:

More than ever this past year the Town Hall is filling an important part in the recreational activities of Duxbury. Many groups are taking advantage of its facilities, some of which are listed as follows:

Bon Homme Club
Boy Scouts
Cub Scouts
Dance Groups
Church Groups
Badminton Groups
Art Exhibitions
Choral Society
and others

The Bon Homme Club has shown great enthusiasm this year, average attendance being around seventy boys and girls each week, this being almost double that of last year.

This larger attendance has made it necessary to have increased director service, which in turn is reflected in our request for an increase in our budget.

Last year's appropriation was \$1,316.00 which was expended practically as budgeted.

This year our request is for \$1,745.00 which we trust will be granted at the Town Meeting in March.

Respectfully submitted,

JOHN HUTCHEON, Chairman
Duxbury Recreation Committee

REPORT OF BUILDING INSPECTOR

To the Honorable Board of Selectmen:

I respectfully submit my report as Building Inspector for the period beginning June 16, 1955 through December 31, 1955.

The Building Inspector appreciates the over-all cooperation of the Townspeople in putting into operation that new portion of the Town By-Laws which is the Duxbury Building Code. The Building Inspector also appreciates the fact that since this new Building Code is a marked departure from the past, he realizes that a period of time is required for the Townspeople and Tradesmen to become accustomed to it.

The Building Inspector and other fully realize that the Code now in use is an excellent start. However, in working with the Code all concerned have found from the many questions asked and suggestions made that in many instances it needs clarification from the general to the particular to make it more effective and to enable the Building Inspector to more fairly administer it.

The following Building Permits were issued beginning January 1, 1955 through December 31, 1955:

New Dwellings	49
Miscellaneous Buildings	6
Alterations	83
Garages	23
Miscellaneous (plumbing, electrical, etc.)	66
	<hr/>
Total Permits Issued	227

Respectfully submitted,

ROBERT B. DELANO

Building Inspector

REPORT OF THE WATERFRONT COMMITTEE

To The Honorable Board of Selectmen
and Citizens of Duxbury:

We wish to thank the Selectmen for their time and help in working out some of the problems along the waterfront.

If our recommendations regarding the Harbor Master and Howlands Landing are carried out, we feel that a great deal of progress will have been made.

Rest Room Mattakesett Court: This committee feels that no action be taken this year.

Waterfront Committee

NORMAN B. WHITE
SARGENT C. BLACK
HENRY P. McNEIL
MYRON C. LINDE
FRANK A. DAVIS

REPORT OF THE PERSONNEL BOARD

December 31, 1955

To the Honorable Board of Selectmen:
Gentlemen:

Acceptance by the Town of Duxbury of the By Law Covering the Classification of Personnel and the Administration of Standard Rates of Salaries and Wages as proposed in Article 39 of the 1955 Warrant for the Annual Town Meeting required the formation of a Personnel Board to administer the Plan adopted by the last Town Meeting.

In accordance with the procedure set forth in the By Law, the Board of Selectmen chose Mr. Philip W. Delano, and the Finance Committee chose Mr. Jack Barry to serve as members of the new Personnel Board of the Town of Duxbury. The two members so chosen selected Mr. Winthrop A. Baker to serve as the third member of the board. At its first organization meeting the Personnel Board named Mr. Barry as Chairman and Mr. Delano as Secretary.

A number of administrative problems have come before the board during its first year of existence that have been handled with the best interests of the Town of Duxbury, and of the town employees, constantly in mind. Job descriptions permitting the classification of personnel employed by the Water Department have been made so that the necessary amendment to the By Law to integrate these employees into the Plan can be presented to the voters at the next Town Meeting.

The Personnel Board has endeavored to keep constantly informed as to pay rates and policies being adopted by comparable neighboring communities so that any needed recommendations to maintain a fair and equitable pay level for town employees may be presented to the voters at the annual Town Meeting. Your Per-

sonnel Board commends the uniformly high degree of competence and diligence that is being displayed by elected officials and town employees in the performance of their duties. Their fine work, in the opinion of this board, should at all times be both fully recognized and properly rewarded by the voters of the Town of Duxbury.

Respectfully submitted,

JACK BARRY, Chairman

PHILIP W. DELANO, Secretary

WINTHROP A. BAKER

Personnel Board, Town of Duxbury

REPORT OF THE PLANNING BOARD

To the Honorable Board of Selectmen
and Citizens of Duxbury:

STATISTICS

Building Permits for new construction:

(¹ Last 3 months only)

(² Small-driveways only, 3-1954, 6-1955)

DISCUSSION

From the "Land Use" Map which the Board's Consultant previously prepared he has drawn a new tracing showing all streets, Town Ways, and Subdivisions as they have been approved by your Board. We propose to continue to have new Subdivisions posted to this tracing as they are approved, and we are starting discussions with our Consultant to see what will be involved in making this map of the public ways in the Town into an "Official Map."

Preliminary discussions with the merchants and business-men at Hall's Corner indicated that none of the tentative schemes which your Board had posted at the last two Annual Town Meetings could win approval of anything like a substantial majority of the in-

dividuals most directly involved in the proposed changes. We are therefore asking our Consultant to explore additional methods of improving the parking situation. The business-men appeared unanimous in their feeling that, except for a few peak days during the Summer season, parking at Hall's corner presented only a minor problem. Your Board will attempt to evolve, with our Consultant, some scheme which the merchants may be willing to "back," before presenting any additional or different plans to the Town.

We are repeating this year, as we do periodically, our summary of the normal means by which the two usual types of cases come before the Board.

The first is the simple case where no Subdivision is involved, but it is desired to record a Plan, either in the Land Court or the Plymouth Registry. The person who wishes to record the plan should present it to the Planning Board accompanied by a "letter of transmittal" (Form 8 as outlined in the "Rules, Regulations and Requirements" of the Duxbury Planning Board indicates the type of information needed) which should explain as a matter of permanent record for the Board's files why the plan is drawn and why it does not represent a "Subdivision" in the technical meaning of the term. The Annual Town Report for 1953 on page 61 contains an excerpt from the State Law which defines what is considered *not* to be a Subdivision. In the case of a plan, as above, to be endorsed as not requiring approval as a Subdivision, it is not necessary to appear at a meeting of the Board. The letter of transmittal, accompanied by the tracing and one copy of the plan (copy for the Board's file — tracing to be returned with the Board's "endorsement"), may be delivered to the Clerk of the Board. The Board will then act on the plan at its next regular meeting. Arrangements can be made when the transmittal letter is delivered for the picking up of the "endorsed" plan. (Note: in all cases the original tracing is required by the Land Court or the Registry at Plymouth.)

In the case of actual Subdivisions, the Board urges strongly that developers come to one of our regular meetings with a Preliminary Plan, so that street layout, drainage, lot size and shape, etc. can be discussed and any necessary modification made in the plan of the Proposed Subdivision before an expensive cloth tracing has been drawn in more or less final form. For a detailed discussion of procedure, may we refer Developers to the "Rules Regulations and Requirements" of the Duxbury Planning Board. We hope to have a new printing of these Rules etc. available by the time this Report is delivered or shortly thereafter. On Page 67 of the Annual Town Report for 1954 will be found an exposition of the principles of design which we hope to follow in our consideration of future Subdivisions.

ACKNOWLEDGEMENT

The Planning Board wishes to acknowledge the co-operation and aid of the Board of Selectmen and the Inspector of Buildings in the enforcement of zoning and planning regulations. The Highway Superintendent, the Superintendent and Commissioners of the Water District, and the Agent of the Board of Health, have been, as always, co-operative and helpful where consideration of Highway, Water, or Sanitary facilities were involved in subdivision control.

We continue our hope that the citizens will call to our attention areas in which the Planning Board can be of service in preserving that which we consider valuable in Duxbury and in directing its growth and change in a satisfactory manner.

Respectfully submitted,

OLIVER L. BARKER, Clerk
KENNETH G. GARSIDE
LUCIUS A. HOWARD
DAVID H. MARSHALL
ATHERTON LORING, JR., Chairman

REPORT OF ANNUAL TOWN MEETING

March 12, 1955

The meeting was called to order at 1:00 P.M. by the Moderator, Bartlett B. Bradley.

An invocation was given by Rev. W. Wallace Bush.

It was voted to dispense with the reading of the warrant by the Town Clerk.

A quorum being in attendance, the meeting was declared in order.

The tellers, J. Alvin Borgeson, Mary S. Crocker, Eunice B. Dohoney, Rodney W. Leach, John E. Lucey, Harry A. McNaught, Mary S. McNeil, Alice E. Merry, Gilbert F. Redlon, and Frank H. Williams were sworn in by the Town Clerk.

There being no objection, the Moderator declared that proponents of any article in the warrant shall be given opportunity to speak on the question before the article may be tabled, as in previous years.

Under Article 1, it was voted that the appointment of necessary officers not chosen by ballot be left in the hands of the Selectmen.

Under Article 2, it was voted that the reports of the various Town Officers and Committees be accepted as printed in the Town Report.

Under Article 3, it was voted to fix the compensation of the elected Town Officers for the year as follows:

Chairman, Board of Selectmen	\$1,400.00
2nd and 3rd Members, Board of Selectmen	512.50 each

Chairman, Board of Assessors	1,400.00
2nd and 3rd Members, Board of Assessors	600.00 each
Town Clerk	1,710.00 in lieu of fees
Town Treasurer	1,710.00
Tax Collector	2,860.00 in lieu of fees
Tree Warden	1,900.00
Moderator	40.00

and to raise and appropriate the sum of \$13,245.00 for the same and such increases as made be retroactive to January 1, 1955.

Under Article 4, it was voted to raise and appropriate the following amounts for the following Town Departments, and to raise and appropriate the sum of \$2,810.00 to cover same:

Accounting Department —

Out of State Travel	\$ 70.00
Finance Committee	50.00
Historian	100.00
Fire, Out of State Travel	200.00
Sealer of Weights and Measures	355.00
Bounties	60.00
Hydrant Rental	550.00
Vital Statistics	15.00
Animal Inspection	150.00
Inspection of Slaughtered Animals	25.00
Poison Ivy Control	375.00
Public Welfare, Out of State Travel	100.00
School Dept., Out of State Travel	200.00
Vocational Training, Adult	460.00
Cemetery, Out of State Travel	40.00
Boomer Square	60.00

Also under Article 4, it was voted to raise and appropriate the following amounts for the following Town Departments:

Selectmen's Department	\$5,724.00
------------------------	------------

Accounting Department	3,570.00
Treasurer's Department	1,330.00
Collector's Department	2,820.00
Assessors' Department	4,734.00
Town Clerk's Department	630.00
Election and Registration	1,790.00
Law Department	3,000.00
Planning Board	2,000.00

At this time a testimonial was given to Percy L. Walker in recognition of his long interests and efficient service as a member of the Duxbury Planning Board. Kenneth G. Garside presented him with gifts from friends and colleagues on the Planning Board. Mr. Walker received an antique weathervane, bridge lamp and a custom-built chair.

Under Article 5, it was voted to raise and appropriate \$400. to be expended under the direction of Myles Standish Camp, No. 115, S.U.V.C.W. for the observance of Memorial Day.

Under Article 6, it was voted unanimously to authorize the Town Treasurer, with approval of the Selectmen, to borrow money from time to time in anticipation of the revenue of the financial year beginning January 1, 1955, and to issue a note or notes there-

fore, payable within one year, and to renew any note or notes as may be given for a period of less than one year in accordance with Section 17, Chapter 44, General Laws.

Under Article 7, it was voted unanimously to authorize the Town Treasurer, with the approval of the Selectmen, to borrow money from time to time between January 1, 1956 and the date of the 1956 Annual Town Meeting, in anticipation of the revenue of the financial year of 1956, and to issue a note or notes therefore, payable within one year and to renew any note or notes as may be given for a period of less than one year in accordance with Section 17, Chapter 44, General Laws.

Under Article 8, it was voted to raise and appropriate \$100. for the use of the Plymouth County Trustees for the County Aid to Agriculture and to appoint Malcolm C. Brock, Town Director.

Under Article 9, it was voted to apply the dividend from the Plymouth County Dog Fund, amounting to \$792.03, to the support of schools.

Under Article 10, it was voted to appropriate \$460.00 now in the hands of the Treasurer to the Cemetery Department.

Under Article 11, it was voted to appropriate \$7,500.00 from the Overlay Reserve Fund to the Reserve Fund.

Under Article 12, it was voted to raise and appropriate \$1,000.00 to continue revision of the Assessor's Map.

Under Article 13, it was voted to raise and appropriate \$1,000.00 and transfer from available funds now in the Treasury \$2,000.00 for the Town's share of Chapter 90 Highway Maintenance.

Under Article 14 it was voted to raise and appropriate \$6,000.00 and transfer \$18,000.00 from available funds now in the Treasury for the Town's share of Chapter 90 Highway Construction.

Under Article 15, which reads "Will the Town vote to raise and appropriate a sum of money to be expended under the direction of American Legion Post No. 223, July 4th Duxbury Days Committee, in connection with this year's parade and celebration, or take any other action thereon?", it was voted to take no action at this meeting.

Under Article 16, it was voted to appropriate from the Excess and Deficiency Account a sum not to exceed \$70,000. to be used to reduce the tax rate.

Under Article 17, it was voted to raise and appropriate the sum of \$9,000.00 to be added to the Town's Stabilization Fund.

Under Article 18, it was voted to raise and appropriate \$3,000. for the purpose of exchanging a dump truck or buying a new dump truck for the Highway Department, the decision to be left in the hands of the Selectmen.

Under Article 19, it was voted to raise and appropriate \$1100.00 for the purpose of exchanging a pickup truck for the Highway Department.

Under Article 20, it was voted to raise and appropriate \$1,000.00 for the purpose of making further improvements to the Town Field off Alden and St. George Street.

Under Article 21, it was voted to raise and appropriate \$7,000.00 for improvement and re-surfacing of sections of Temple Street, Winter Street, and Bow Street.

Under Article 22, which reads "To see if the Town will vote to accept Arrowhead Road, as laid out by the Selectmen, and raise and appropriate a sum of money for the purpose of improving and surfacing the same," it was voted that the Town take no action on this Article at this meeting.

Under Article 23, which reads "To see if the Town will vote to accept Indian Trail, as laid out by the Selectmen, and raise and

appropriate a sum of money for the purpose of improving and surfacing the same," it was voted that the Town take no action on this Article at this meeting.

Under Article 24, which reads "To see if the Town will vote to accept Carr Road, as laid out by the Selectmen, and raise and appropriate a sum of money for the purpose of improving and surfacing the same," it was voted that the Town take no action on this Article at this meeting.

Under Article 25, it was voted to raise and appropriate \$100. for repairs and maintenance of Blue Fish River tide-gates.

Under Article 26, it was voted to raise and appropriate \$300. for public Health nursing service and the continuation of the Well-Child Clinic, to be expended under the direction of the Board of Health.

Under Article 27, which reads "To see if the Town will vote to accept portions of Midway Road and Elderberry Lane as laid out by the Selectmen, and raise and appropriate a sum of money for the construction of the same," it was voted that the Town take no action on this Article at this meeting.

Under Article 28, it was voted to authorize the Selectmen to appoint a committee which will include the Harbor Master, to assist the Selectmen in matters relative to the water front.

Under Article 29, it was voted to raise and appropriate \$2700.00 for the purpose of constructing a new ramp at Mattakeesett Court Landing.

Under Article 30, which reads "To see if the Town will vote to raise and appropriate a sum of money for the purpose of constructing a rest room with toilet facilities at Mattakeesett Court," it was voted that this article be referred to the Committee appointed under Article 28.

Under Article 31, it was voted to raise and appropriate \$652.00 to purchase a boat and out-board motor to be used by the Shellfish and Harbor Master's Departments.

Under Article 32, it was voted to raise and appropriate \$700. for the installation of street lights on Bay Road.

Under Article 33, it was voted to raise and appropriate \$16,000.00, to be used together with \$4,000.00 to be contributed by the Duxbury Yacht Club, as the Town's share for dredging a part of the Duxbury basin, providing the Massachusetts Department of Public Works allocates \$60,000.00 for this work.

Under Article 34, it was voted to accept Oakwood Road, as laid out by the Selectmen, and raise and appropriate \$2,000. for the purpose of improving and surfacing the same.

Under Article 35, it was voted to raise and appropriate \$3500. for the purchase of a new car for the Police Department.

Under Article 36, it was voted to return to the Treasury the following unexpended appropriation balances:

Fire Department, Emergency	
Lighting Equipment	8.27
Police Department Car, 1954	36.00
Dump Truck for Tree Department, 1954	251.00
Box Type Sand Spreader,	
Highway Department	5.94
Industrial Tractor,	
Highway Department	620.86
Ch. 90 Highway Construction 1953	164.02
Ch. 90 Highway Maintenance 1954	4.99
Ch. 90 Highway Construction 1954	7.79
Blodgett Avenue, Construction	6.04
Memorial Day 1954	43.11
Winter Street purchase of Land	25.00
Group Accident Insurance 1954	81.91

Builders Risk Insurance —	
Elem. School Constr.	250.00
Cemetery Department Truck 1954	10.00
Unpaid Bills of 1953	71.31
Pine Ridge Lane, Construction	757.68
Old Colony Road, Construction	101.27

Under Article 37, it was voted unanimously to raise and appropriate \$1,602.49 to pay unpaid bills of 1954.

Under Article 38, which reads "To see if the Town will vote to raise and appropriate a sum of money for the purpose of relocating the flag pole at the Cable Office and constructing an island for the purpose of controlling traffic at the intersection of St. George and Washington Streets," voted down. (Yes 102, No 143)

Under Article 39, it was voted to accept the amendment to the Town By-Laws as printed in the warrant for this Annual Town Meeting of March 12, 1955 entitled "By-Law Governing the Classification of Personnel and the Administration of Standard Rates of Salaries and Wages." (Yes 216, No. 16)

BY-LAW GOVERNING THE CLASSIFICATION OF PERSONNEL AND THE ADMINISTRATION OF STANDARD RATES OF SALARIES AND WAGES

1. TITLE

The Classification of Positions and Pay Schedules appended hereto and the provisions of this by-law shall be the CLASSIFICATION AND WAGE AND SALARY PLAN (Hereinafter referred to as the Plan) for the payment of Salaries and Wages to the employees of the Town of Duxbury except such positions as are exempted.

2. APPLICATION

The Plan shall apply to all officers and employees in the service of the town, except in those cases where payment to an individual from all town departments totals less than \$700.00 and is made in the form of a salary, and other than those positions filled by popular election and those under the direction and control of the School Committee. Nothing herein, however, shall bar using the Plan or its provisions or facilities provided by the Personnel Board as a guide to authorized officials or committees in determining the compensation of such otherwise exempted employees or officials.

3. TITLES OF POSITIONS

No person shall be employed or paid as an employee in any position subject to the provisions of the Plan under any title other than those in the Schedules or under any title other than that of the job, the duties of which are actually performed. The job title in the Plan shall be the official title of the position and shall be used in all administrative and employment records, and in every other connection involving personnel or fiscal processes.

4. THE PERSONNEL BOARD

There shall be a Personnel Board consisting of three members, one of whom shall be a member of the Board of Selectmen chosen to serve by that Board, one of whom shall be a member of the Finance Committee chosen to serve by that Committee, and one of whom shall be a person, other than an employee of the Town, selected by the member representing the Board of Selectmen and the member representing the Finance Committee acting jointly. The Personnel Board shall organize annually. Vacancies on the Personnel Board shall be filled in the manner provided for in the original selection. In the event that the first two members fail to agree on the third member,

he shall be appointed by the Town Moderator. The Personnel Board shall serve without pay.

5. DUTIES OF PERSONNEL BOARD

- a. The Personnel Board shall administer the Plan and establish such policies, procedures and regulations consistent with the Plan as it deems necessary.
- b. The Board shall maintain written descriptions of the jobs or positions in the Plan describing the essential characteristics, requirements and general duties. The descriptions shall not be interpreted as complete or limiting definitions and employees shall continue to perform any duties assigned by their superiors.
- c. The Personnel Board shall maintain personnel records of all employees, including therein such information as it deems desirable, said records to be kept by the Town Accountant on behalf of the Personnel Board. Department Heads shall furnish such information as shall be requested for this purpose.
- d. The Personnel Board, from time to time, shall review the work of all positions subject to the Plan. Such reviews shall be so scheduled as to cover all such positions at intervals of not more than three years. In case of necessity, the Personnel Board may add a new position to the Plan or reclassify an existing position, subject to the subsequent ratification of its action by a formal amendment of the Plan at the next annual town meeting.
- e. The Personnel Board shall, from time to time, review the Wage and Salary Schedules. It shall keep informed as to pay rates and policies outside the service of the Town and shall recommend to the Town any action deemed desirable to maintain a fair and equitable pay level.

- f. Upon recommendation of a Department Head, supported by evidence in writing of special reasons satisfactory to the Personnel Board, said Board may authorize an entrance rate higher than the minimum rate for a position.

6. EFFECTIVE DATE

The Plan shall become operative on the effective date of this by-law.

7. INSTALLING PLAN

- a. All present employees included in the Plan shall be eligible to receive pay based upon their job classifications as provided by the Schedules adopted herewith.
- b. No pay shall be reduced as the result of the installation of the Plan. Any existing rates above the maximum shall become Personal Rates and apply only to the present incumbent. When his employment ends, no successor shall advance beyond the maximum for the job.

8. INCREASES

Progression through the rate ranges is not automatic and shall be on the basis of step increases because of merit, on recommendation of the Department Head, and the Personnel Board. Increases beyond the mid-point of the range shall be based only on superior work performance.

9. PROMOTIONS AND TRANSFERS

When an employee is promoted to a higher rated job, he shall enter at the minimum of the job rate range or at the next nearest step rate, whichever is the higher. He may also receive a step increase at the time, if the appropriate Town Officers or

Trustees feel that qualifications and performance warrant it, and the Personnel Board approves it as being within the intent and scope of the Plan.

If an employee should be transferred and reclassified to a lower rated job, he shall enter it at his own rate or at the maximum of the job, whichever is the lower.

10. NEW PERSONNEL

The hiring rate shall be the minimum of the rate range for the job unless otherwise authorized by the appropriate Town Officers or Trustees and the Personnel Board. If such authorization is given, it shall be supported by written statement of the reasons.

11. EMERGENCY RATES

In case of emergency of short duration, the appropriate Town Officers may temporarily authorize a rate of pay necessary to prevent interruption of Town services essential to the health, safety and welfare of the people of the Town.

12. DEPARTMENTAL BUDGETS

Each Department Head shall include in the departmental budget a Pay Adjustment Section, to provide funds for pay adjustments to be made during the year, expenditures to be made therefrom only in accordance with the Salary Plan.

13. GENERAL

If any provision of this by-law shall conflict with any civil service law or regulation applicable to any position, or any other law, it shall be deemed modified by the law or regulation sufficiently only to end the conflict. The invalidity of any provision hereof shall not be construed to invalidate any other provision hereof.

14. CLASSIFICATION AND SCHEDULES

The classifications and schedules of pay under the Plan shall be as shown in the appended "Classification of Positions and Pay Schedules" as from time to time amended.

CLASSIFICATION OF POSITIONS AND PAY SCHEDULE

Schedule A.

Classification and Pay Ranges — Hourly Paid Employees

Grade	Hourly Classification	Pay Range	
		Minimum	Maximum
1	Groundsman	\$1.25	\$1.31

Under Article 40, it was voted to amend the Town By-Laws by adopting the Building Code specifically set forth in a separate brochure which is hereby incorporated and made a part of this Article and included by reference in this Town Warrant for this Annual Town Meeting of March 12, 1955. (Yes 193, No 31)

DUXBURY BUILDING CODE

Article I

SECTION 1—GENERAL PROVISIONS

The following provisions constituting a portion of the by-laws of the Town of Duxbury, Massachusetts, shall be known and may be cited as the Duxbury Building Code. It shall be so construed as to secure for the inhabitants of the town the beneficial interests and purposes thereof which are: public safety, health, and welfare through structural strength and stability, and reduction of fire hazard. It shall take effect immediately after it has been approved by the Attorney General of the Commonwealth and has been published or posted as required by law.

Article I

SECTION 2—EXEMPTIONS AND NON-APPLICATION

No building, except one-story, wooden buildings less than 10 feet square which are not to be used as habitations, and ordinary outbuildings used in connection with a farm shall hereafter be constructed, structurally altered, remodeled, rebuilt, or removed, nor shall the plumbing or electrical wiring in a building be installed, materially altered, or removed unless the proposed work is in conformity with all by-laws of the Town of Duxbury, and a permit therefor has been obtained.

This by-law shall not apply to (A) buildings or structures owned by the United States or the Commonwealth of Massachusetts, (B) buildings for the construction of which a permit from the Commonwealth of Massachusetts is required, (C) bridges, quays, and wharves. Ordinary repairs to structures or any appurtenances thereof, which do not affect the strength or fire risk or

violate any requirements of the code may be made without application or permit or notice to the inspector, but such repairs shall not include the cutting away of beams, or supports, or the removal change or closing of any stairways or required means of exit or the construction or alteration of soil or waste pipe. If application is made for permit to alter, remodel or rebuild one component part of a building, nothing in this code shall require, under this application, the changing of unrelated component parts of the building to conform to the provisions of the code.

Article I

SECTION 3—VIOLATION

It shall be unlawful to occupy, or maintain any building which subsequent to the adoption of this by-law has been constructed, structurally altered, remodeled or rebuilt in violation of any by-law of the Town of Duxbury, or a building which has been condemned by the Inspector of Buildings as unsafe.

Article I

SECTION 4—VARIATIONS IN SPECIFIC CASES

The Board of Appeals may vary the provisions of this code in specific cases which appears to them to have been contemplated by this code or in cases where its enforcement would involve practical difficulties or unnecessary hardship, and wherein desirable relief may be granted without substantially derogating from the intent and purpose of this code, but not otherwise. The decision in such cases shall be unanimous and specify the variations allowed and the reasons therefor and such decision shall be filed in the office of the inspector after the hearing and a certified copy shall be sent by mail or otherwise to the applicant for, or holder of, the permit.

Article I

SECTION 5—CONFLICT WITH OTHER BY-LAWS

Nothing in this by-law shall be construed as repealing or limiting the application of the Zoning By-Law or any other by-law of the town relating to the location or construction of buildings or other structures and when the provisions of this and another such by-law are both applicable, the more stringent provisions shall prevail; provided, however that when a person has obtained a permit under this by-law for the construction, alteration, remodeling or reconstruction of a building or structure, he shall not be required to take out a permit under the Zoning By-Laws for the same work.

Article II

SECTION 1—BUILDING INSPECTOR

The Board of Selectmen shall within 60 days after this by-law takes effect, and thereafter annually, appoint an Inspector of Buildings, who shall hold office until 30 days after the next Annual Meeting of the Town or until his successor has been appointed. No person, however, shall be appointed as Building Inspector, who has not had at least five years experience as a builder, registered civil engineer, registered architect, or as a superintendent, foreman or competent mechanic in charge of construction. The Board of Selectmen may, if at any time it seems expedient to do so, appoint a temporary Inspector of Buildings, an Inspector of Wiring, or an Inspector of Plumbing, whose terms of office shall be determined by the Board.

The compensation for each Inspector so appointed shall be determined by the Board of Selectmen, unless otherwise fixed by vote of the town.

Article II

SECTION 2—POWERS AND DUTIES OF INSPECTOR

The Inspector shall keep complete records of all applications for permits, the action taken thereof, the date of receipt of request for inspection, the date and nature of the inspection made, and all notices and orders issued by him. The Inspector shall, upon receipt of an application for a permit, inspect the property in question within 48 hours, Sundays and holidays excepted, and issue a permit immediately if work described in application is in conformity with the Duxbury Building Code and Zoning By-Laws. Whenever it has been established that any building is unsafe, or this code has been violated, the Inspector shall, with the approval of the Board of Selectmen cause to be charged upon the owner or the lessee of the premises or upon the person responsible for any violation a written notice containing a description of the particulars in which the building is deemed unsafe or of the violation together with the order of the Inspector requiring that the building be made safe or vacated; or that any part of a structure erected in violation of the code be removed or of any other action deemed necessary for compliance with the code and work permit issued thereunder.

Article II

SECTION 3—SUBSTITUTE MATERIALS

For the purpose of securing for the public the benefits of new developments in the building industry and yet insuring public safety, the Building Inspector shall make or cause to be made investigations or may accept duly authenticated reports from recognized sources, of new materials, or modes of construction, intended for use in the construction of buildings or structures in the community which are not provided for in this code and shall promulgate rules setting forth the conditions under which such materials or modes of construction may be used.

Article II

SECTION 4—APPEALS TO THE BOARD OF APPEALS

Any person aggrieved by an order, decision, issue or refusal of a permit or of application of any part of this code by the Inspector may appeal by filing a written notice with the Board of Appeals within ten days from the date thereof. On receipt of such appeal the Board of Appeals shall give immediate hearing and either affirm, annul, or modify such order or decision or ruling of the Inspector.

Article III

SECTION 1—FOOTING AND FOUNDATION WORK

In building foundations of poured concrete, the footings and side walls are to be as follows:

Footing to be eight (8) inches thick and twenty (20) inches wide, with a three by four (3x4) key way in footing. Side walls to be eight (8) inches thick of poured concrete. Mixtures to be one (1), two and a half ($2\frac{1}{2}$), four (4), mix.

Cellars constructed of concrete blocks, the footings are to be eight (8) inches thick and sixteen (16) inches wide. In laying blocks all ends coming together shall have concrete mixture of one (1) and four (4) mix, slushing all joints where blocks come together while being laid.

Foundation walls of poured concrete ten (10) inches thick shall need no footing if resting on undisturbed, solid earth. Anchor bolts shall measure 16-in. x 5-8 and shall be ten feet on centers for both poured and block foundations.

Article IV

SECTION 1—CHIMNEYS AND FIREPLACES

In one story dwelling houses, excepting those in block or duplex structures, the conventional masonry chimney shall not be required when protected flues, vents, and smoke pipes used as flues for the removal of the products of combustion from solid, liquid, and gas fired heat equipment and appliances, are constructed and erected as follows, and when

(a) each flue, vent and smokepipe used as a flue is cradled on a self-centering metal shoe or socket so installed as to transmit the entire load of the complete flue to the timbers or other structural members to which the shoe or socket is attached. Structural members supporting the flue, shall, if of combustible material, have a minimum clearance of two (2) inches from the exterior casing of flue, metal shoe or socket, and shall be so designed as to support a concentrated load equal to two and one-half ($2\frac{1}{2}$) times the aggregate total load of the flue without exceeding the allowable working stresses in the material permitted in the by-laws of the Town of Duxbury, Massachusetts.

(b) the flue is unpierced throughout its entire height, and erected in a vertical position without offsets or changes in direction.

(c) it is provided with a weather hood cap and collar assembly designed to seal the component materials of the flue from the effect of moisture from the elements. The weather hood, cap and collar assembly shall provide lateral support to the flue.

(d) the flue is so constructed with a lining of corrosion-resistant materials enclosed in an insulating wall of acid and heat resistant materials so assembled that all joints will be permanently gas tight.

(e) the flue is so constructed that it shall be capable of withstanding a flue gas temperature of 1400-degrees F., for eight con-

tinuous hours without causing a temperature greater than 200-degrees F., on any part of the exterior surface of the casing of the flue at any time during the eight hour test period, without any appreciable disintegrating or damaging effect on the materials of the lining, insulation or exterior casing.

(f) flues are so incorporated in the structure that all combustible materials and construction shall be maintained with a clearance of not less than two (2) inches from the outside or exposed surface of the flue.

Article V

SECTION 1—PLUMBING TRAPS AND VENTS

SOIL PIPE—Main drain for all plumbing to be of 4-inch Standard soil pipe running through cellar wall and extending through roof for a vent using a 4-inch Redlon adjustable copper roof flange or equal. All soil piping in basement to be hung with wrought iron perforated hangers and all pipes to pitch so as to drain. Piers may also be used to support the soil pipe instead of hangers if more convenient. There shall be suitable cleanouts at all angles of horizontal pipes where the same are possible and at foundation walls in a direct line with the sewer, furnish and install a 4-inch Y, 1-3 bend and C I cleanout with brass cover. In any case where this is impossible due to piers, bricks or other obstructions, a common sense cleanout with brass cover shall be installed on outside of wall so as to take care of any sewage obstructions. In any case where it may be more convenient, 3-inch type L copper pipe and fittings may be used in place of soil pipe. Soil and waste pipes shall have not less than the following diameters:

Minimum branch waste	1½-Inch
Branch waste for urinals	1½-Inch
Branch waste for sinks	1½-Inch
Branch waste for wash trays	1½-Inch
Main waste	2-Inch
Soil Pipe	4-Inch
Type L, copper pipe	3-inch

Article V

SECTION 2--TRAPS AND VENTS

Where "S" traps are used they shall not be less than 1½-inch. Traps shall be protected from siphonage and back pressure by case iron, galvanized iron, brass or copper and shall be placed where they will be accessible for inspection and cleaning. Where sink and wash tray or bath tub and washbowl come in contact with each other, one round trap may be permitted for both fixtures.

No vent pipe shall connect with any other vent pipe until it has attained the height of the top of the fixtures whose trap it ventilates. All vent pipes shall be so constructed as not to allow the formation of a trap nor to be used as waste pipes. Schedule of vents and fixtures is as follows:

Baths, basins	1½-Inch
Sinks	2-Inch
Urinals	2-Inch
Water-closets	2-Inch
Slop sinks	2-Inch

No domestic hot water boiler, automatic water heater or tankless heater shall be installed unless it is equipped with an approved temperature, pressure and vacuum relief valve.

When necessary the areas within partitions or recesses in walls, such enclosed or concealed waste pipes and water pipes shall be covered with wood work fastened with screws so as to be readily removed. In no case shall they be absolutely inaccessible.

Article V

SECTION 3--CESSPOOLS

All cesspools hereafter constructed shall be of approved material including cesspool blocks, fieldstone or brick and shall be located not less than twenty feet (20 ft.) from any dwelling and not less than five feet (5 ft.) from any street or line of adjoining lot and shall be not less than six feet (6 ft.) in diameter and shall be provided with a cast iron rim and cover laid in cement. When a flat top is installed instead of a cone top, black steel pipe not less than 1¼-inch shall be laid across the top for reinforcement before a thickness of 4-inch cement shall be used. All cesspools must be provided with an approved removable cover.

No old wells or cisterns may be used as cesspools.

If a septic tank is used in place of a block cesspool, there shall be provided an adequate leaching bed satisfactory to the Building Inspector and in accordance with the requirements of the Board of Health, and as set forth under Chapters 209 and 447 of the Department of Public Health of the Commonwealth of Massachusetts.

Article VI

SECTION 1--ELECTRICAL INSTALLATIONS

All electrical wiring, apparatus or appliances for furnishing light, heat or power, shall be in strict conformity with approved methods and practices for safety to life and property. Compliance with the National Electrical Code, as published by the National Board of Fire Underwriters, shall be prima facie evidence of such approved methods and practices.

Article VII

SECTION 1—GARAGES

No garage shall be attached to or form part of a building of other occupancy except as herein provided:

(a) private garages not exceeding six hundred (600) square feet in area.

(a-1) a garage not exceeding six hundred (600) square feet in area may be attached to or form part of a residence building or a business building if separated from other occupancies by walls, partitions and ceilings of materials to restrict the passage of gases, smoke, and odor from the garage to other parts of the building.

(b) openings from the building into garage shall be restricted to a single doorway; such openings shall be provided with a metal, metal covered, asbestos covered, or solid wooden door and frame of not less than one and three-quarter ($1\frac{3}{4}$) inches nominal thickness.

(c) floors shall be without pits or depressions.

In all respects all private and attached garages hereafter erected shall conform with the General Laws of the Commonwealth of Massachusetts.

Article VIII

SECTION 1—REQUIREMENTS FOR RESIDENTIAL BUILDING

All supporting girts, or girders, to be of a dimension not less than 6" by 8" either solid or built up, and supported by $3\frac{1}{2}$ " lally columns not less than 8'-0" O. C. with proper concrete footings.

The outer ends of these timbers shall be supported by foundation walls with a minimum bearing of not less than 4".

SECTION 2—Sills shall be of 4" x 6" either solid or built up and where spans over openings exceed 3'-0" shall be reinforced with a header equal to the size required of the floor timbers.

SECTION 3—Where flush framing is used all floor timbers shall be thoroughly spiked to girder and supported by approved timber hangers.

SECTION 4—All outside walls and bearing partitions shall be of 2" x 4" not less than 16" O. C. none bearing or none supporting partitions of 2" x 3" or 2" x 4", 16" O. C.

SECTION 5—Outside walls, roofs, sub floors shall be of materials not less than 5-8" in thickness or of a nature and quality and thickness as approved by Building Inspector.

SECTION 6—Floor timbers to be of sizes and materials on chart, (see pages 10 and 11) and spans over 8'-0" shall be bridged, either solid or 1" x 3" spruce. All openings for chimneys, stairways, etc., shall be doubled on all sides with materials of same dimensions.

SECTION 7—Attic ceiling joists and rafters to be of materials and spans designated by chart. All openings doubled on all sides, with materials of same.

SECTION 8—Corner posts to be of 4" x 6" solid or built up and diagonal braced through two bays each way. On full two story construction, corner posts shall be continuous from top of sill to under side of second floor plate with diagonal bracing on each floor.

SECTION 9—All plates to be of double 2" x 4" and openings over 3'-0" shall be reinforced with a 4" x 4" supported on each end by full thickness of a 2" x 4" stud, openings over 4'-6" shall be 4" x 6" supported in the same manner.

SECTION 10—Roofing materials can be of wood, asphalt, slate or asbestos.

SECTION 11—No building shall be moved into the town for a dwelling unless it has been approved by the Building Inspector.

SECTION 12—Second hand materials used in structural portions of buildings must be approved by Building Inspector.

SECTION 13—All new residential buildings to be not over two and one-half ($2\frac{1}{2}$) stories in height or a maximum of thirty feet (30 ft.).

Floor joists sizes for No. 1 mercantable spruce, No. 1 common fir or hard pine for ordinary residential floor loads, when load is evenly distributed — Approximately 50-lb. load per square foot of floor area.

Size of Floor Joist	Distance On Center	Span Spruce	Span Fir	Span Hard Pine

Article IX

SECTION I—PERMITS

Before erecting, altering, moving, razing, adding to, or making any changes in use or type of occupancy of any building or structure, the Owner or his agent shall file an application for a permit with the Building Inspector. No work shall begin until a permit is granted and until the Rules and Regulations of the Board of Survey have been complied with and only when there is no violation of the Zoning By-Laws.

SECTION 2—The application shall be made under the penalty of perjury. It shall state the location and the dimensions, estimated cost, nature and extent of the proposed work or changes, purpose for which the building is to be used and such other information as the Inspector may require. The application for a permit to erect any building or structure shall be accompanied by plans

if required showing the location of such building or structure and the location of the sewage disposal system.

SECTION 3—Whenever the application does not adequately describe the proposed work in the opinion of the Inspector, there shall also be filed duplicate copies of sufficient plans and specifications and other data. One copy of the plans and specifications properly stamped with the Inspector's approval shall be returned with the permit and kept on the job available for reference.

SECTION 4—Permits shall be issued within three days after receipt of the application provided the requirements of this law are fully complied with. All permits shall be on numbered blank forms signed by the Inspector and shall state the purpose for which the building is to be used. The permit shall be posted in a conspicuous place on the job and no work shall be done except in accordance with the permit.

SECTION 5—Nothing in this By-Law shall prevent the Inspector issuing a special permit for part of the work while the application is being examined.

SECTION 6—Permits shall become void six months after date of issue unless construction thereunder shall have been commenced and continued with reasonable diligence.

SECTION 7—The fee for a permit for the construction of a new single dwelling shall be twenty dollars (\$20.00). The fee for any other construction or alteration shall be as follows: two dollars (\$2.00) for construction or alterations costing up to two hundred dollars (\$200.00), five dollars (\$5.00) for construction or alteration costing up to five hundred dollars (\$500.00), ten dollars (\$10.00) for construction or alteration costing up to two thousand (\$2000.00), for construction or alteration costing over two thousand dollars (\$2000.00) the fee shall be computed at the rate of five dollars (\$5.00) per thousand or fraction thereof.

Article X

SECTION 1—PENALTY FOR VIOLATIONS

A person who shall violate a provision of this code or fail to comply therewith or with any of the requirements thereof, or who shall erect, construct, alter or repair, or has erected, constructed, altered or repaired a building or structure, in violation of a detailed statement or plan submitted and approved thereunder, or of a permit or certificate issued thereunder, shall be guilty of a misdemeanor punishable by a fine of not less than ten dollars (\$10.00) nor more than one hundred dollars (\$100.00), and in default thereof to undergo imprisonment for a period not exceeding 30 days.

SECTION 2—The owner of a building, structure or premises, where anything in violation of this code shall be placed or shall exist, and an architect, builder, contractor, agent, person or corporation employed in connection therewith and who assisted in the commission of such violation shall each be guilty of a separate offense and upon conviction thereof shall be fined as therein provided.

SECTION 3—The imposition of the penalties herein prescribed shall not preclude the Board of Selectmen of the Town of Duxbury from instituting an appropriate action or proceeding to prevent an unlawful erection, construction, reconstruction, alteration, repair, conversion, maintenance or use, or to restrain, correct or abate a violation, or to prevent the occupancy of a building, structure or premises, or to prevent an illegal act, conduct, business or use in or about any premises.

Under Article 41, it was voted to authorize the Selectmen to make a survey for a new site for the Town Dump, and raise and appropriate the sum of \$200.00 for the expense of such a survey, and instruct the Selectmen to file the report of their findings together with their recommendations thereon, at the next Annual Town Meeting.

Under Article 42, it was voted to raise and appropriate \$5,000.00 for the purpose of purchasing Lots R 6 and R 7 on the Duxbury Assessors Map, adjoining the present school property on Alden Street. (Yes 205, No 1)

Under Article 43, it was voted to raise and appropriate \$1,200.00 to improve the parking facilities at Ellison Beach and for the erection of a suitable marker to indicate the source of the gift of said beach.

Under Article 44, it was voted unanimously to raise and appropriate \$400. to pay for land damages on Autumn Avenue.

Under Article 45, it was voted to raise and appropriate the sum of \$3200. for the purpose of installing lights at Train Field, to illuminate the northerly section of that Field for recreational purposes, and for maintenance and operation of same. That assistance of the Duxbury Softball Association in installing said facility be accepted. That installation be in accordance with plans approved by the Board of Selectmen and the Park Supervisors, and that operation and use be subject to rules and regulations to be made by the Board of Seltcemen and the Park Supervisors.

Under Article 46, it was voted that the Town install water mains, not less than 10" in diameter, from the existing line of the Duxbury Fire and Water District at Oak Street, on Elm Street, Summer Street, Route 3, and High Street to the Pembroke Town Line, and approximately 2600 feet of main, not less than 8" in diameter, from Summer Street on Chandler Street, and for this purpose raise and appropriate the sum of \$100,000.00 as follows: that \$10,000.00 be raised by taxation in the current year, that \$10,000.00 be appropriated from available funds in the Treasury, and that the Town Treasurer with the approval of the Selectmen, be and hereby is authorized to borrow \$80,000.00 under Section 3 of Chapter 531 of the Acts of 1952 as amended, and to issue bonds or notes of the Town therefor, payable in accordance with the provisions of Chapter 44 of the General Laws, so that the whole

loan shall be paid in not more than ten years from the date of the issue of the first bond or note; and that the Board of Selectmen be and hereby is authorized to expend such appropriation or as much as is needed and to enter into agreement with the Water Commissioners of the Duxbury Fire and Water District or the Water Commissioners of the Town of Pembroke to supply water service; provided however, that, if the town votes to authorize the Selectmen to petition the Legislature for permission to take over the Duxbury Fire and Water District, this vote shall remain inoperative pending favorable action by the Town and the Duxbury Fire and Water District under the Legislative enactment, and if favorable action is taken within two years from the date of such Legislative Act by both the Town and the District, this vote shall become null and void. (Voted Yes 201, No 1)

Under Article 47, it was voted unanimously to authorize the Selectmen to petition the General Court of the Commonwealth of Massachusetts for authorization for the Town of Duxbury to take over all the properties, rights, powers, and privileges of the Duxbury Fire and Water District, with the consent of the Duxbury Fire and Water District.

Under Article 48, it was voted to raise and appropriate \$400. for the purpose of making a 75 foot baseball diamond to be located at a spot to be designated by the Selectmen in the general vicinity of the school grounds.

Under Article 49, it was voted to raise and appropriate \$8500. for the purpose of preparing final plans and specifications, receiving bids for building an addition to and remodeling of the Old Town Hall substantially in accordance with the preliminary plans presented in the Town Report by the Committee on the Addition to the Old Town Hall authorized by the last Town Meeting (1954) and determine whether and to what extent the money shall be provided for by appropriation from available funds in the treasury or by any other method; and that this same committee above referred to and/or the Selectmen, as deemed wise by the Select-

men, be authorized to expend such appropriation or so much thereof as is needed, to determine upon the final plans of said addition, to advertise for bids in legal manner, and to make all contracts in the name of the Town pertaining thereto and to do all other things necessary and proper to construct, remodel, equip and furnish said addition and remodeling of the Old Town Hall for use and occupancy.

Under Article 50, it was voted to assume liability in the manner provided by Section 29 of Chapter 91 of the General Laws, as amended by Chapters 516 and 524, Acts of 1950, for all damages that may be incurred by work to be performed by the Department of Public Works of Massachusetts for the improvement, development, maintenance and protection of tidal and non-tidal rivers and streams, harbors, tidewaters, foreshores and shores along a public beach outside of Boston Harbor, including the Merrimack and Connecticut Rivers, in accordance with Section 11 of Chapter 91 of the General Laws, and authorize the Selectmen to execute and deliver a bond of indemnity therefor to the Commonwealth.

The registered voters were checked from the voting list and showed 545 names checked.

Total appropriations \$729,872.20. (Raised by Taxation.)

Voted to adjourn at 7:15 P.M.

JOSEPH T. C. JONES

Town Clerk

ANNUAL TOWN ELECTION

March 19, 1955

The Polls were opened at 8:00 o'clock A. M. and closed at 7:30 P. M.

The ballot-box, after the absentee ballots were deposited, indicated 1326, 66 being Absentee ballots, and 1326 were taken from the ballot-box.

JOSEPH T. C. JONES,

Town Clerk

January 6, 1955

Mr. Joseph T. C. Jones

Town Clerk

Duxbury, Massachusetts

Dear Mr. Jones:

Re: *Planning Board*

At a meeting of the Board of Selectmen and the remaining members of the Planning Board, duly held in pursuance of formal

notice at 4:00 o'clock P.M., in the Duxbury Town Office on January 6, 1955, Mr. John DeLorenzo was elected to fill the vacancy on the Planning Board resulting from the resignation of Mr. Percy L. Walker.

Very truly yours,

Philip W. Delano

Chairman, Board of Selectmen

April 4, 1955

Mr. Joseph T. C. Jones

Town Clerk

Duxbury, Massachusetts

Dear Mr. Jones:

The Board of Selectmen have named the following persons to serve on the Waterfront Committee mentioned in Article 28 of the Annual Town Warrant:

Norman White

Sargent Black

Frank Davis

Myron Linde

Henry P. McNeil

Very truly yours,

Isabelle V. Freeman

Clerk, Board of Selectmen

April 29, 1955
Mr. Joseph T. C. Jones
Town Clerk
Duxbury, Massachusetts

Dear Mr. Jones:

The following are my appointments to the Finance Committee
to serve for three years:

Winthrop A. Clarke, Harrison Street
Ralph H. Osborn, Summer Street
Harry H. Whiton, Temple Street

Sincerely,

Bartlett B. Bradley

Moderator

July 6, 1955
Mr. Philip W. Delano, Chairman
Board of Selectmen
Town Hall, Duxbury, Mass.

Dear Mr. Delano:

This letter notifies you that at our meeting of July 5, 1955,
Mr. Charles H. Wansker resigned from the Duxbury Planning
Board, and that there now exists a vacancy which should be filled
promptly in order that we may continue to operate efficiently.

Very truly yours,

DUXBURY PLANNING BOARD

Oliver L. Barker
Clerk

July 19, 1955
Mr. Joseph T. C. Jones
Town Clerk
Duxbury, Massachusetts

Dear Mr. Jones:

Re: *Planning Board*

At a joint meeting of the Board of Selectmen and the remaining members of the Planning Board, held on July 19, 1955 at 8:00 o'clock P.M. in the Planning Board Office, for the purpose of filling the vacancy existing on the Planning Board, the Selectmen and the remaining members of the Planning Board voted unanimously to elect Lucius A. Howard of Bow Street, to fill the vacancy.

Very truly yours,

Philip W. Delano

Chairman, Board of Selectmen

August 25, 1955
Mr. Joseph T. C. Jones
Town Clerk
Duxbury, Massachusetts

Dear Mr. Jones:

Re: *Board of Fire Engineers*

The Selectmen have this day received the written resignation of Arnold C. Sanders and have voted to accept the same.

Very truly yours,

Philip W. Delano

Chairman, Board of Selectmen

September 1, 1955

The Selectmen have this day appointed Benjamin F. Goodrich, Jr. to fill the vacancy on the Board of Fire Engineers caused by the resignation of Arnold C. Sanders.

REPORT OF SPECIAL TOWN MEETING
at High School Auditorium
Friday, August 12, 1955 at 8:45 o'clock P.M.

The meeting was called to order at 8:50 P.M. by the Moderator, Bartlett B. Bradley.

It was voted to dispense with the reading of the warrant by the Town Clerk.

A quorum being in attendance, the meeting was declared in order.

The tellers, J. Alvin Borgeson, Harry A. McNaught, Gilbert F. Redlon, Frank H. Williams, Alice E. Merry, Mary S. McNeil, Eunice B. Dohoney, and Mary S. Crocker, were sworn in by the Town Clerk.

Under Article 1, it was voted to accept Chapter 330 of the Acts of 1955, authorizing the Town of Duxbury to take over the properties and assume the obligations of the Duxbury Fire and Water District, a copy of which Chapter is as follows:

THE COMMONWEALTH OF MASSACHUSETTS

In the Year One Thousand Nine Hundred and Fifty-five AN ACT authorizing the Town of Duxbury to take over the properties and assume the obligations of the Duxbury Fire and Water District.

Be it enacted by the Senate and House of Representatives in General Court assembled and by the authority of the same, as follows: SECTION 1. The town of Duxbury is hereby authorized to take over all the properties, rights, powers and privileges of the Duxbury Fire and Water District, established by chapter three hundred and thirteen of

the acts of nineteen hundred and fourteen and acts in amendment thereto, and to assume all the duties and obligations of said district, and shall hereby become in all respect the lawful successor of said district. SECTION 2.

The provisions of this act shall not effect any act done, ratified or confirmed by said district or any of its officers prior to the effective date of this act, nor any right accrued or established, nor any action, suit or proceeding commenced or had in a civil case, nor shall it impair the validity of any notes, bonds or other obligations of said district outstanding on said date. Any indebtedness incurred by said district and outstanding at the time it is taken over by said town shall be assumed by the town. SECTION 3.

The water commissioners of said district shall act as water commissioners until the first annual town meeting held after the date when said district is taken over by said town, and at said meeting the town shall elect a board of three water commissioners. Such commissioners shall be elected on the official ballot and, in the first instance, shall be elected to hold office, one for a term of three years, one for a term of two years, and one for a term of one year, from the meeting at which they are elected, and thereafter one commissioner shall be elected annually for the term of three years. The commissioners shall serve until their successors are elected and qualified. SECTION 4. This act shall take full effect on the thirtieth day following its acceptance by a majority of the voters of the Duxbury Fire and Water District present and voting thereon at any district meeting and by a majority vote of the voters of the town of Duxbury present and voting at any town meeting, within two years of its passage.

(Vote—Yes 126, No 0)

Under Article 2, it was voted unanimously to accept Arrowhead Road as laid out by the Selectmen and to transfer, said

transfer having been recommended by the Finance Committee, the sum of \$700.00 from the Bay View Road appropriation to the Appropriation for the Construction of Arrowhead Road.

Under Article 3, it was voted unanimously to accept Indian Trail as laid out by the Selectmen and to transfer, said transfer having been recommended by the Finance Committee, the sum of \$700.00 from the Bay View Road appropriation to the Appropriation for the construction of storm sewers on Indian Trail.

Under Article 4, it was voted unanimously to accept Carr Road as laid out by the Selectmen.

Under Article 5, it was voted unanimously to accept Midway Road and Elderberry Lane as laid out by the Selectmen and appropriate from available funds in the Treasury the sum of \$3,000.00 to construct the same.

Under Article 6, it was voted to accept Lake Shore Drive as laid out by the Selectmen. (Yes 154, No 6)

Under Article 7, it was voted unanimously to appropriate from available funds in the Treasury \$84.95 to pay unpaid bills of 1954.

Under Article 8, it was voted unanimously to appropriate from available funds in the Treasury the sum of \$537.00 to pay for Land Damages on Autumn Avenue.

The registered voters were checked from the voting list and showed 202 names checked — 126 male and 76 female.

Voted to adjourn at 9:20 P.M.

JOSEPH T. C. JONES
Town Clerk

Assessors of Duxbury

REPORT OF THE FINANCE COMMITTEE

The first meeting of your Finance Committee was held in May, 1955. At that time, William A. Scherff was elected Chairman, A. Charles Waghorne, Vice-Chairman, Ralph H. Osborn, Secretary. The three new members, appointed by the Moderator, and welcomed to the Committee at this first meeting were: Winthrop A. Clark, Harrison Street; Ralph H. Osborn, Summer Street, West Duxbury; Harry H. Whiton, Temple Street, North Duxbury. We would like to call to your attention, the excellent distribution of Finance Committee members throughout the town areas.

It was necessary to make numerous transfers from the Reserve Fund of \$7,500.00, and these transfers are listed elsewhere in the Town Report. Such transfers are for unforeseen or emergency requirements and can legally be made only upon a majority vote of the Finance Committee.

The transfer of funds from Reserve is the only legal power that the Finance Committee has. Otherwise the Finance Committee's work is advisory — that any power that it has must result from the force of public opinion behind it. This, in turn, results from your understanding and appreciation of the Finance Committee as a *trustworthy interpreter of bewildering municipal questions, and as the voters may not appreciate, an indispensable means of continuing the town form of government.* (1)

Under this interpretation, your Finance Committee has a two-fold responsibility—1. To examine current Budget and Warrant Article expenditure requests and report their recommendations to the town; 2. To make such recommendations on long-range financial planning, to the Selectmen, as may appear desirable and occur during the course of their current work.

With this latter in mind, your Finance Committee has under way a 10-year study of town income and expenditures, concur-

rently with the work on proposed 1956 budgets. This work has not been completed in time to be included in this report. The Committee will, therefore, make an additional report summarizing its findings at the March 10th Town Meeting under Article 2.

We are highly appreciative of the hours of time given us by the various Town Departments and Committees. The School Committee, Welfare Board and Water Commissioners have been particularly helpful and generous of their time. This is given specific mention because the budgets involved represent a high percentage of the Town's total expenditures.

We conclude this preliminary report with special appreciation to the Board of Selectmen for their continued cooperation.

Respectfully submitted,

WILLIAM A. SCHERFF, Chairman

A. CHARLES WAGHORNE, Vice-Chairman

RALPH H. OSBORN, Secretary

JAMES H. W. JENNER

LOUIS B. TURA

JACK BARRY

REPORT OF SOUTH SHORE MOSQUITO CONTROL PROJECT

December 9, 1955

To the Citizens of Duxbury:

Submitted herewith is the report of the South Shore Mosquito Control Project of its activities in the town of Duxbury for the year ending December 31, 1955.

The town of Duxbury appropriated \$7,600 for mosquito control for 1955. This money was used for mosquito control in the town of Duxbury by the South Shore Mosquito Control Project, a co-operative effort embracing the city of Quincy, and towns of Braintree, Cohasset, Duxbury, Hingham, Hull, Marshfield, Scituate and Weymouth.

TYPE OF CONTROL PROGRAM

The basic program of control continued to be based on drainage in the off season and larvaciding of all areas found to be breeding during the mosquito season. This was supplemented by the use of a fog generator to combat flying mosquitoes.

AERIAL SPRAYING

The spring spraying of all fresh water swamps, too large to be treated by hand, was done in the latter part of April.

In June it became evident that migration of adult mosquitoes from uncontrolled areas outside the project was occurring. In addition, it was clear that in certain areas, swamps which had been sprayed in April had produced a second batch of mosquitoes. Therefore, an additional treatment was applied.

2,340 acres were sprayed by air in the town of Duxbury.

GROUND SPRAYING

The ground crews circulated on a schedule throughout their sections of the project. They varied from this circuit to treat in the vicinity of complaints or to treat places found breeding by the superintendent or the inspector. They then returned to their rounds.

Following the heavy floods of August, these crews bore an exceptionally heavy load. Breeding of mosquitoes was found in practically every wet spot including lawns and areas never in the history of the project found to be wet. Crews worked overtime during that period spraying all areas they could find.

CATCHBASIN SPRAYING

This important phase of urban mosquito control was attacked for the first time by the project this past year.

In June, the three-wheeled Cushman Truckster purchased last winter, was put into service. By August, a three-wheeled motorcycle and its equipment had been delivered. This was in service for the rest of the season.

In addition to the two units mentioned above, treatment of catchbasins was also done from the crew trucks by means of a hydraulic sprayer.

All catchbasins were treated twice during the season and some three times.

Next year we shall be able to begin the year with two units and expect to have a third one in service by July 1. It is anticipated that all basins will be treated at least three times and, if found necessary, a fourth treatment will be applied.

DRAINAGE

Drainage and elimination of mosquito breeding places has been considered the keystone of mosquito control by leaders in the mosquito control field from the very beginning.

The project has limited its action to work on the minor streams in the area. The altering of major water courses requires detailed engineering study and considerably more equipment or money for contracting for such equipment than this project has available.

The August floods, while they produced large broods of mosquitoes at the time, had an additional and even more costly effect on the operation of the project when one considers the drainage problem.

Many of the streams and culverts previously cleaned were refilled with debris and sand and must receive further attention. Some drainage formerly considered to be in fair shape has now become critical. In addition, the floods in many cases made bad situations even worse.

The above has greatly increased the amount of work the project must do.

The matter of drainage on the salt marshes has been approached from a different viewpoint this year. In former years all such work was done by hand. This year the project purchased an Oliver OC-6, crawler type tractor equipped with a scavel plow.

This plow is designed specifically for cleaning standard salt marsh ditches. In addition, it is possible to cut new ditches with the machine by making several trips along the line of the desired ditch, each trip digging deeper than the last.

The first time a ditch is cleaned with this machine, two or sometimes more trips down the ditch are necessary to push out the accumulation of mud and debris. It is expected that after a ditch has once been cleaned, the ditch will be relatively clean and

the sides relatively square. Under these conditions only one trip per ditch will be necessary and much more rapid coverage of the marshes will be possible in future years.

Although this machine is very efficient, it is by design limited to salt marshes and similar fresh water situations. It must be complemented by hand work where ditches are too wide and where terrain is too rough.

In the town of Duxbury, 700 feet of ditches have been cleaned, 22,150 feet reclaimed and no feet of new ditch has been dug. This figure includes both fresh and salt marsh work.

FOGGING

This past two seasons the project has had in operation a Todd Insecticidal Fog Applicator, commonly called a Tifa. This machine emits a fog containing small particles of insecticide which drifts with the air currents over the area, wiping out all mosquitoes and other flying insects contacted.

The machine is of considerable value in cutting down invasions of mosquitoes from large breeding places and is our only means of control in areas where our chemicals may contaminate water supply.

The emergence of large numbers of mosquitoes following the floods of August demanded that this machine be operated every night conditions permitted. This work was, for the most part, in excess of figures budgeted for labor and insecticides. Provisions have been made for such work in plans for next year's operations.

EQUIPMENT

Equipment now on hand

- 1 Ford F-350 truck
- 2 Ford F-250 trucks
- 1 Ford F-100 truck
- 1 Willys 1 ton truck
- 1 Chevrolet Handyman
- 1 Oliver OC-6-68 tractor with scavel plow
- 1 trailer for transporting tractor
- 1 Cushman Truckster (catchbasin unit)
- 1 Harley-Davidson Servi-car (catchbasin unit)
- 3 50 gal. Bean hydraulic sprayers
- 1 Todd Insecticidal Fog Applicator
- 1 Hoffco power brushing tool
- 1 Gorman-Rupp centrifugal pump
- Pack sprayers
- Various hand ditching tools

Equipment to be added

- 1 catchbasin unit
- Miscellaneous hand tools

PLANS FOR WINTER

Throughout the months between the past and coming mosquito breeding seasons much attention will be given to ditching. Work on the salt marsh will be done in the Fall and early Spring and the colder Winter months will be spent in the more protected fresh water areas.

When snow and ice conditions are right, prehatch dusting, as was done the last two years, will be done. The success of last year's work along these lines makes it feasible to expand this program to as much as help and weather permit.

In addition to the ground dusting noted above it is planned to make small scale pre hatch application of DDT dust and DDT granulated insecticide from the air.

Success with either or both materials would enable us to split our application to spray breeding swamps between late winter and early spring. This would relieve the spring work load, which is now very heavy, make it possible to pick optimum weather conditions for application, and relieve the pressure on the air spray companies who are in demand everywhere at that time of the year.

PLANS FOR NEXT YEAR

All phases of the work carried on last year will continue. Two phases will be intensified: catch basin work and ditching. Modifications will be applied to the fogging program.

Since weather conditions and terrain have such an effect on fogging operations certain changes in materials used in the machine and changes in method of operation will be made, based on the experience of other projects and recent research.

Catchbasin work will be speeded up by the addition of another unit and operation of the present two for a full season. In addition, in line with recent experience elsewhere, the concentration of the spray will be raised. Indications are that longer residual effect will be achieved.

Ditching with the tractor will proceed throughout the Spring, Summer and Fall. This is in contrast to the past when such work was done by hand in the Spring and Fall.

In addition, the crew working with the tractor will be available for fresh water drainage work when tide makes it impossible to work on the salt marsh.

PROBLEMS TO BE SOLVED

The major problems of this project are three: drift in of adults from uncontrolled areas, weather conditions and availability of aircraft at the time of spring spraying, and the conditions of main water courses in the several towns.

Events are occurring which point toward the correction of these problems.

In the matter of "drift-in," the formation of this project has increased interest in mosquito control in surrounding areas. There is now before the Legislature a bill to establish mosquito control in all towns of Norfolk County not now in a project. This will give us protection along approximately one-third of our perimeter. In addition, interest has been intensified in other bordering towns so that in the near future we may get protection from these towns.

Weather conditions and availability of aircraft at the proper time for spring application has always been a problem. The superintendent will, therefore, carry on limited field trials of new methods for making such applications during a season when time is not so pressing and good weather can be taken as it occurs.

The recent floods have focused attention on the condition of the major water courses of the area. In many cases these streams are not adequate to carry off the water now entering them from newly built up areas, which in their natural condition tend to absorb the precipitation and thus lessen flood levels. In some cases man-made blockages compound the problem.

It is probable that this problem will be dealt with in the near future, indeed steps have already been taken in several of the towns.

Any strides in this direction will contribute to mosquito control since large ponded areas on the local meadows will be cut down and when the streams are at a low enough level, lateral ditching can be put into the adjacent swampland.

REPORT OF THE ELEMENTARY SCHOOL BUILDING COMMITTEE

To the Honorable Board of Selectmen:

The Elementary School wing has been completed and in operation for one complete school year. Your committee expects to remain in force throughout this second school year to finish a few items not yet completed to our satisfaction.

Upon this satisfactory performance of the entire contract, your committee will make final payment to the contractor.

In addition to buying the remaining needed equipment, our main project during this past year has been the landscaping. We have received many compliments about the trees and shrubbery surrounding the new wing and auditorium. The entire credit for this fine piece of work should go to Warren Stetson, who very ably handled this detail.

It is estimated that we should be able to return to the Town an amount of over \$40,000.00 of unspent funds from our original appropriation of \$431,000. Added to this figure will be the 20 per cent return which the State School Building Assistance Commission reimburses the Town.

Your chairman wishes to thank each member of your committee, our architect, Mr. William B. Coffin, and our Superintendent of Schools, Dr. Everett Handy, for their very sincere interest and personal attention.

We submit herewith our financial report to date.

	<u>Estimated</u>	<u>Actual</u>
Building—General Contract	\$330,000.	\$329,782.36
Architect	24,000.	23,115.66

December 31, 1955

REPORT OF THE TOWN ACCOUNTANT

I am pleased to submit the following statement of all receipts and expenditures of the Town of Duxbury for the financial year ending December 31, 1955, in accordance with Chapter 41, Section 61, General Laws. This report is arranged in accordance with the classifications prescribed by the Director of the Bureau of Accounts.

Appended thereto is a statement of the Appropriation Balances returned to the Treasury under date of December 31, 1955 and a further statement of the Appropriation Balances retained and carried forward January 1, 1956.

Due to mechanical failures in presently owned equipment the Accounting Department will request a new adding machine in 1956.

ISABELLE V. FREEMAN

SECRETARY TO THE SUPERINTENDENT

Miss Helen F. Hanigan

**REPORT OF THE
DUXBURY SCHOOL COMMITTEE
Covering the Calendar Year - 1955**

To the Citizens of Duxbury:

While all School Committee members are elected by the public as a whole, the Committee has considered itself the representatives of the individual elements that make up the public. Each of its decisions and considerations has been made in light of the various obligations it holds to one or more of these elements. It is believed that an individual report to each of these groups might be both interesting and useful.

The children of our schools: This is by far the most important segment of the public in our estimation. Nearly all decisions have been made with full consideration of their effect upon the pupils of our schools. Matters concerning the morale and spirit of these boys and girls have received constant attention. As Duxbury has grown in size, so has its student population. Your School Committee feels an equal obligation to the various segments that make up this student group. 58% of our high school students are taking college preparatory courses. This is a large number. We must prepare these students, not only for entrance into college, but also in a manner that will make as many as possible eligible for scholarships. The scholarship funds raised in recent years by the public spirited citizens and groups of our town have been wonderful. We hope these efforts will continue to grow and to be successful. The Committee and administration of your schools recognize their responsibilities to train and educate youngsters worthy of receiving this aid. In addition there are, of course, many scholarships available from the colleges themselves. Our job has been, and will continue to be, to prepare students both for

college entrance and also for the satisfactory completion of their advanced studies. While perfection can never be achieved, we are most pleased that of the 106 graduates in the past four senior classes, 28 are in four year colleges, 13 are in two year colleges, 2 are in nurses training, and 6 are taking other types of advanced studies following graduation. This total of 49 is 46% of all who have graduated. In addition it is possible that many of the 19 now in military service are currently receiving or will later receive additional education.

In addition to our college people, we also have obligations to the non-college students who this year represent 42% of our high school population. We have made every effort to improve our commercial and vocational activities and services, as well as the homemaking courses. Above all, there is an obligation to create an understanding of and a belief in good citizenship on the part of these students who leave us for a direct assault upon the problems of the world. In these modern times we must consider that as many as 20% of our graduates will go directly into military service. If this trend continues some further serious thought will have to be given as to how we can best prepare this large segment of our student population for the duties and responsibilities ahead of them to the end that they may take all possible advantage of the services and training available to them as members of the military.

Our largest segment is in the elementary area, where in most cases no decisions regarding college have been made. Constant effort to improve teaching and training in the elementary area is a "must". Solution to the basic problem of improving the reading skills is well under way, with our remedial reading program now in its third year. As this is written, the second step is nearly completed. A large number of our elementary teachers are just completing a course in the instruction of arithmetic, from which a unified approach to this basic teaching skill is being developed. Next on the list for immediate attention is a similar approach in the development of the fundamental skills of grammar and compo-

sition. Spelling has been receiving extra attention for several years. It must be remembered that in the elementary area, each teacher has the same class for the entire day. Each teacher handles all subjects. Most teachers were originally trained at different colleges. Therefore, the development of the "unified approach" mentioned above, is extremely important. On the other hand, teachers are individual human beings with different personalities, so their individual techniques for using these basic methods cannot be "grooved" or stereotyped if the best results are to be achieved.

Parents: The School Committee traditionally serves as a "listening post" and translates or interprets the comments it receives from parents to the school authorities. In this connection it should be brought out that this technique can be effective as mass opinion is felt or heard, but is ineffective and should not be used in any cases involving an individual child. By all means, we recommend that parents discuss the problems or situations of their children direct with their teachers first and the principal second. If solutions to problems are not found, parents should feel free to go to the superintendent. School Committee members are basically laymen, and we feel that parents have not only the right but the obligation to take the educational problems of their children direct to those who can best handle them — our professional educators. Such other decisions as the delay in opening school last fall and the approval of bus routes are typical of the type concerning which parents must receive particular consideration.

Teachers and Administrative Personnel: Matters in this area receive our constant attention. High teacher morale is essential to any school system. Superior teaching cannot be forced. It can be expected and supervision can be properly carried out in the presence of such morale. The setting of pay schedules is only one aspect of this problem, but it is one that receives much of our time. Such matters as a proper "sick leave" procedure, and the creation of a manual spelling out all of the obligations each of us in the school system has to the others has taken much of our time

this year. Teachers have obligations to their superiors as well as to pupils. Administrators have similar obligations as do committee personnel. All are public servants.

Taxpayers and Voters: The goodwill of the taxpayers and voters is essential. We have tried, through the various means available to us, to keep the public informed as to our efforts. The Parent-Teacher Association has been most helpful in this connection. The services of the town newspaper, school newspapers, and radio have all been employed in this effort. A forthcoming general conference, open to the public, will have been held before this goes to print. The taxpayers should know that in the past few years we have followed an identical procedure in establishing our budgets. Initially the Superintendent prepares each proposed budget figure, after innumerable conferences with each individual affected by the item involved. Supplies are requisitioned by the teachers and others involved initially, and then such requisitions are reviewed by the principal and finally analyzed and coordinated by the Superintendent for presentation to the Committee. Finance Committee liaison members sit in on all of our budget meetings, so that they may hear at first hand the reasons for each budget request. Invariably the School Committee accepts many of these individual proposals, while suggesting increases in some but, more often, decreases in others. The budget that ultimately goes to the Finance Committee has been carefully gone over in the interest of the taxpayers. Differences between School and Finance Committees are then ironed out in friendly conference, and the budget is presented to the town. The School Budget is the largest single budget in any town, and it is prepared and followed in Duxbury with extreme care. It is a definite testimonial to Dr. Handy and all of the School Department personnel who have made direct contributions to budget preparation that we have not had to ask the town for additional funds in the past six years. On one occasion we did have to ask the Finance Committee for a small amount of help from their own budget, but we have turned money back to the town in every one of the six years.

The Problems Ahead: Dr. Handy, in the attached report, has dealt effectively with the problem of informing you as to what lies ahead. The town will expand and so will the schools. It is our hope that this expansion will be an orderly one. If expansion occurs too fast, as it sometimes has in the past, the problems of hiring new teachers, obtaining new facilities, and coordinating the two have had to take precedence over the basic problems of improving overall education for each of our youngsters. Only in the past year or two has there been time to concentrate on the basic problems that have always existed and always will exist at the classroom level. This is receiving study and action this year and will continue to do so until expansion problems again become more pressing. We urge the town to continue its interest in these problems, and we hope that each person in the town who has suggestions for the improvement of our school system will come forward and make those ideas known to the proper person within the system.

Respectfully submitted,

MORRISON M. BUMP, Chairman

ELIZABETH U. NICKERSON, Secretary

ALBERT P. RICHARDS

EARLE C. GRENQUIST

DOMINIC E. LaGRECA

Duxbury School Committee

REPORT OF THE SUPERINTENDENT OF SCHOOLS

Honorable School Committee,
Duxbury, Massachusetts.

Gentlemen:

When a person is perfectly satisfied with the way he is doing things, he is in a rut. This is also true of schools and of those who operate them. When it seems to us that we have achieved complete success and that there is no further room for improvement, our work becomes static. In education, which is a dynamic process, this condition is the same as going backwards. Although the year 1955 has been successful and pleasant in many ways and we can report several accomplishments, we recognize that there are still ways in which improvements can be made.

May I first point out some accomplishments, listing them under various categories.

Administration

The completion of a study and revision of the rules and regulations governing the operation of the Duxbury schools. This is a study of some thirty-five pages dealing with school department policies concerning the administrative and teaching staff, non-teaching personnel, buildings and equipment, transportation, finance, etc.

School Services

A study of kindergarten transportation was made and new routes were established to reduce riding time and improve safety conditions. Four busses are now used to transport 93 kindergarten pupils, and routes are so planned that, on heavily traveled roads,

pupils are picked up and discharged on the side of the road on which they live.

For the first time we have had full-time school nurse service. This has made possible more thorough attention to all phases of school health activities. In particular, it has provided for closer cooperation with teachers, and better coverage for first aid during the hours when the greatest number of accidents occur.

At the high school a new program of guidance has been organized. This service has been established to help each student develop to a maximum his potentialities as a citizen and as an individual. To give each student the help he needs, the guidance director offers counseling services and provides educational and vocational information. Through a program of testing he helps measure achievement in subject matter, aptitudes, and vocational interests. He makes arrangements for field trips to schools and industries, for speakers, and for other opportunities for students to acquire knowledge and information which will help them in making wise choices.

Curriculum

Classes in the high school which were formerly given on an alternate year basis are now given each year. For example, physics and chemistry, formerly given on alternate years, are both now given each year. A three year sequence in French is now offered.

At the elementary school level a course in the teaching of arithmetic was given with seventeen teachers enrolled. The end goal of this course was the strengthening of our teaching of mathematics.

Remedial reading instruction is being continued and strengthened in the elementary grades. For the first time remedial reading is being given the high school.

Three faculty committees have been organized to review and revise courses of study in mathematics and science, English, and the social studies. A fourth faculty committee has been working on ways to utilize radio and television in teaching.

Personnel

Excluding principals, supervisors, the librarian and part-time teachers, there are thirty-five regular full-time classroom teachers in Duxbury. The following information pertains to these thirty-five teachers.

Twenty-eight hold bachelor's degrees.

Of the twenty-eight twelve hold master's degrees.

On the average they have had four years of teaching experience in Duxbury.

Their average experience in Duxbury and elsewhere is nine years.

Nearly all live in or make their home in Duxbury.

Public Relations

Increased efforts have been made to get more information about the schools to the people of Duxbury. News about the schools appears regularly in the Duxbury Clipper, the Brockton Enterprise and the Old Colony Memorial. In addition, this year we re-established the "Link," a school department publication issued monthly. News of pupil activities at the high school is printed regularly in the "Green and White Key," a high school publication. This year for the first time we have broadcast a series of programs through the courtesy of radio station WPLM in Ply-

mouth. These programs are set up to tell people more about what is going on in our schools. To date they have included programs on the teaching of reading, on guidance, and music. It has also been possible, through the friendly and helpful cooperation of the Parent-Teachers Association, to give additional information about the schools. The Parent-Teacher Association has continued to sponsor grade level meetings at the elementary school, and a "Back to School" night for the high school. These meetings have been well attended.

Planning for the Future

One of the basic steps in planning for the future is the prediction of pupil enrollment for the years ahead. This has been done for the next five years using the "percentage of survival" method. It indicates that by 1960 there will be 730 pupils in the elementary school and 430 in the high school. This gives a total predicted enrollment of 1160 for that year.

Improvements Sought

Areas where we need to seek continued improvement are not difficult to isolate. Number one is curriculum. We need to continually study our subject offerings, our methods, and our results in order that we may do the best job possible for all of our students. We have available test results, the further study of which should pin-point problem areas in the curriculum. The course in the teaching of arithmetic, and the work of the faculty curriculum committees are steps in this direction. Workshops in the teaching of English—short, intensive periods of study and research, are planned for the second half of the current school year.

We need to continue to improve and strengthen our publicity program. A further step toward this end is the Community Conference on Education planned for February 5, 1956.

We need to continue our study of transportation.

With the new "Expressway" nearing completion it is imperative that we continue long range planning for the future.

In the pages which follow I should like to deal more specifically with the accomplishments and continuing problems indicated above, as well as to present certain records and statistical data pertaining to the schools. In closing, I would like to emphasize that our accomplishments this year are the good results of many people working together for the improvement of our schools. There has been good cooperation and teamwork by all staff members.

I should like to thank the School Committee for its guidance and good counsel during 1955. I know that the Committee joins me in expressing thanks to Mr. Morrison M. Bump for his interest and hard work for the advancement of the Duxbury schools. Mr. Bump is completing six years of service on the Committee, the last three of which have been as chairman. During these six years Mr. Bump has given freely of his time and energy to the problems of a rapidly growing school system. Developments in curriculum, expanded building facilities, the improvement of school-community relations, careful management of the business affairs of the schools, the improvement of instruction, and the advancement of the training, experience and morale of the teaching force have been matters which have received his personal study and attention. Under his leadership outstanding progress has been made in all of these areas.

Respectfully yours,

EVERETT L. HANDY

Superintendent of Schools

CURRICULUM

Four hundred thirty two pupils were enrolled in the Duxbury schools ten years ago (1946). In 1955 this number had more than doubled reaching 884, an increase of 105 per cent. During the same period the number of pupils in the elementary school increased from 265 to 600, an increase of 121 per cent. At the high school the number of students increased 70 per cent from 167 to 284. While these changes have brought problems of providing adequate facilities, they have, on the other hand, made it possible to expand and strengthen the high school program.

Because the school is larger it is now possible:

1. To teach both physics and chemistry every year instead of on alternate years.
2. To teach advanced mathematics courses every year instead of on alternate years.
3. To offer a three year sequence in French instead of a two year sequence.
4. To establish the household arts program on a vocational basis with the state, thereby gaining its valuable supervision as well as financial aid.
5. To have curriculum groups of adequate size in other areas besides the college preparatory.

Other recent curriculum changes at the high school include:

1. Introducing Latin in grade 8. Under this plan the first year program in Latin is covered in two years, that is, in grades 8 and 9. This plan makes possible a stronger foundation in grammar and gives more time for reading, which is the principal work of Latin II.

2. Twenty two students in grades seven and eight are enrolled in a remedial reading program.
3. Mechanical drawing for college preparatory students in grades 11 and 12 is now offered.

At the elementary level a study of grouping for instruction was made. The Principal reported that test results showed that when all the high ability pupils were in one room, all the average ability pupils in another, and all the low ability pupils were assigned to a third room, they made little or no better progress than under the former plan. The current grouping plan provides a distribution of high, average and low ability pupils in each room. This problem is still being studied.

Seventeen elementary school teachers elected to take a course in the teaching of arithmetic in order to strengthen instruction in this field. The end result is to be a teacher's curriculum guide in this subject.

Whether or not the current system of marking should be continued is still a matter for study and discussion.

Plans are being formulated now for the spring of 1956 to provide two workshops in the teaching of English. These workshops will pay special attention to the teaching of grammar and composition as well as other aspects of the language arts. A workshop is a short, intensive study of a particular problem, in this case the teaching of English. One workshop is planned to deal with this problem in the upper elementary grades, while the second will cover grades seven and eight in the high school.

Remedial instruction in reading at the elementary level is continuing under the general plan developed two years ago. The need for continuing this program is indicated by the results of a survey of the prevalence of reading disabilities. Since September 1955, fifty children of normal mental ability, in grades two through six, were found to be from one half to two years below grade in read-

ing. This represents twelve per cent of the enrollment in these grades. The national average is fifteen per cent.

An analysis of the scores in the reading achievement tests given at the start of the current school year shows a decrease in the number of reading disability problems over the preceding school year.

The remedial reading program involves diagnosis followed by guidance and instruction. The diagnosis includes:

1. Testing new children to determine the best grade placement.
2. Achievement testing to determine the reading level and areas of weakness in reading ability.
3. Capacity or intelligence testing to determine mental ability.
4. Individual analyses to determine specific reading difficulties.

Guidance and instruction in remedial reading includes:

1. Individual tutoring.
2. Small classes, averaging six, in half hour daily periods.
3. Supervised study with grade VI in reading skills, phonics and spelling.
4. Guidance in the choice of library books.
5. Informal tests to measure progress.

At the high school remedial instruction in reading is limited to grade seven and eight pupils. This is the first year that a part of one of the regular teacher's time has been scheduled for this work. Twenty-two pupils are receiving this special help.

A special class for slow learning pupils was organized in September under a new law requiring the establishment of such classes in a community, whenever there are five or more pupils needing such instruction. Our school department was fortunate in that Mrs. Bush, teacher of remedial reading, was qualified to give the Binet tests required to determine the membership of these classes. We were also fortunate in having in our faculty Mrs. Cooper, who was specially trained in this field and who had had experience teaching similar classes elsewhere. Students in this class are given special tutoring by Mrs. Cooper in reading, spelling and arithmetic. They also take a course which stresses civic pride. Each afternoon they do practical craft work. This includes: basket weaving, clay modeling, woodworking and painting. There are eight pupils in the class.

Another important consideration in discussing the curriculum is the extent to which pupils elect various programs of study. School statistics show that currently fifty-eight per cent of high school students are enrolled in the college preparatory program, twenty-seven per cent are taking the commercial course, nine per cent are majoring in household arts, and six per cent are taking industrial arts. In general, what these students do after graduation is indicated by the following chart.

DUXBURY HIGH SCHOOL GRADUATES 1952-1955

Class	4 Year College	2 Year College	Nurse's Training	Other Training	Service	Direct Employment or Marriage	Unemployed	Total
1952	8	4			5	8		25
1953	4	6			7	8	1	26
1954	6		1	3	7	12		29
1955	10	3	1	3		6	3	26
Total	28	13	2	6	19	34	4	106
Percent	26	12	2	6	18	32	4	100

Note: "Other Training" is used to indicate a one-year, a six-months, or a few weeks program.

Forty nine or 46% of the total number of pupils listed above are continuing their education beyond high school.

The following tabulation indicates the institutions where the 28 graduates now attending college are enrolled.

Universities, Colleges	Number of Graduates now enrolled
Bridgewater State Teachers College	4
Northeastern University	3
Boston University	4
University of Alabama	1
Massachusetts School of Art	1
Eastern Nazarene College	1
University of Massachusetts	3
William and Mary	1
Bryn Mawr	1
Wabash College	1
Mount Holyoke College	2
Syracuse University	2
McGill University	1
Babson Institute	1
Amherst College	1
Smith College	1
Total number of different Universities and Colleges attended	16
Total number of graduates now in attendance	28

SPECIAL SERVICES

Cafeteria

Cafeteria: During 1955 the total income from the sale of school lunches was \$29,854.20. Federal subsidy amounted to \$8,726.52. The following tabulation indicates the number of school lunches served in 1955.

Type A lunches (includes milk)	80,252
Type A lunches (without milk)	417
Type C lunches (milk only)	20,771

Health

Health: Nurse service on a full-time basis began in September of this year. Under this plan nurse service is purchased from the Duxbury Nurse Association at an hourly rate. The current rate is \$2.80 per hour. The school nurse is on duty six hours each school day from 8:30 A. M. to 2:30 P. M. A detailed report of her activities follows:

PHYSICAL EXAMINATIONS

Assisting with Physical examinations	508
Assisting with pre-school examinations	78
Assisting with dental examinations	688
Assisting with pre-school dental examinations	40
Assisting with dental treatments in clinic	161

TESTING

Vision Tests	710
Vision retests	66

Note: of those tested—24 or 3½% were new referrals.

Those with known defects	3
Those under medical attention	12
Hearing Tests:	
Individual	286
Group	391
Retests	87
Defects:	
Known	4
New	2

FIRST AID

Office visits by pupils for first aid	610
---------------------------------------	-----

School Physician's Report

School Physician's Report: In June the children who had registered for kindergarten were given physical examinations and vaccinated as necessary. Also, at this time, the known cardiac children were given their bi-annual physical examination for any changes in their cardiac status.

In the fall, complete physical examinations were done and parents were informed of any physical defects by letter. One new cardiac case was uncovered and placed in the hands of his family physician for treatment. Several cases, because of certain physical findings, were referred to the Plymouth County Hospital for chest X-rays. No lung pathology was revealed. Posture seems to be the major defect which is difficult to correct. However, the general health of the children was felt to be good.

OTHER ACTIVITIES

Assisting with Polio vaccine	156
Teacher-nurse conferences	68
Home visits	50

Checking all personnel X-rays, teacher and pupil absences and accident reports.

A start has been made assisting with health education, and more is planned for the first of the year.

Dr. Francis C. Ortolani and Dr. Gillis K. Turner report that during 1955 six hundred eighty-eight dental examinations were made at the school dental clinic. The examinations included pupils from grades one through twelve, except those who brought proof of recent dental examination.

Treatment was given to a limited number of pupils in accordance with the Board of Health regulations. A detailed report of the number of restorations, extractions, cleanings, and gum treatments has been made to the Board.

Guidance

Guidance: Since the guidance services at the High School were extended this year and a separate office for this work was provided, a complete report of the activities of the guidance director, covering a period from September 1955 to January 20, 1956 is given here. Mr. Robert B. Mendenhall is guidance director.

COUNSELING

The greater part of the time and effort of the guidance director has been devoted to counseling of the students in grades seven through twelve. Counseling is indicated in many situations. The number of counseling interviews conducted monthly for the purposes indicated average as follows:

Personal	Home family problem	4
	Parental problem	1
	Personality	3
	Teacher problem	2
	Social problem	2

Educational	College or school choice	10
	Potential drop out	2
	Educational information	22
	Scholarship aid	6
	School program choice	24
	Subject change	15
	Subject failure	23
	Testing	6
Career — Job	Occupational choice	4
	Occupational information	7
	Part-time job	8
Miscellaneous	Counseling parents	5
	Referrals	2
		<hr/>
Total		145
(School-day) Daily average		4.83

TESTING

Tests have been administered both on a school wide and an individual basis for the purpose of adding to our understanding of the abilities, capabilities, and achievements of our students. Group tests administered this year are:

Achievement	Iowa Every Pupil Tests of Basic Skills	Grades 7, 8
	Iowa Tests of Educational Development	Grades 9, 11
Scholastic Aptitude	California Tests of	Grade 7
	Mental Maturity	Grade 10, 11

These and other tests have been administered to individual students when necessary to complete records or upon the request of schools or colleges.

GROUP GUIDANCE

The guidance director meets once weekly with each section of the seventh and eighth grades. The group guidance program in grade seven is primarily concerned with personal and social problems; in the eighth grade with educational and pre-vocational problems.

OCCUPATIONAL AND EDUCATIONAL INFORMATION LIBRARY

An adequate library of educational and occupational informational materials and references is of great importance in counseling and guidance. The guidance director has attempted to secure such materials, and has made them readily available to interested students.

RECORDS

A determined effort has been made this year to improve, expand, and increase the value and use of our records. A new permanent record form has been devised and ordered. To implement the forth-coming expansion of our marking system, a cumulative profile, showing all achievement and testing records, has been completed for each student.

COURSE SELECTIONS

Although most of the aid given in course selection is offered in the spring of the year, many students have voluntarily come into the guidance office to ask about courses, or to request changes. Each student in grades eight through eleven will be seen individually this spring, his performance on his present program reviewed, and the program for next year decided upon.

COLLEGE APPLICATIONS

Eighteen of the present twenty-eight seniors have been assisted in making application to forty-three colleges or other institutions of higher training. This involves many conferences and consultations, requests for interviews with college officials, the preparation of many transcripts, and the writing of many recommendations.

SCHOLARSHIP APPLICATIONS

Each senior has been encouraged and helped to enter every scholarship contest, or to make application for every scholarship when that senior was felt to be qualified. Two seniors competed in the National Merit Scholarship Examination, and two in the Betty Crocker American Homemaker Search. One girl was assisted in making application for a Katherine Gibbs scholarship. Others have been informed about the availability of scholarship aid at the colleges to which they have made application. All seniors were informed of the local scholarships and are being assisted in making application for these.

PARENT CONFERENCES

Every effort has been made to encourage parents to come to the school for conferences with the teachers, the principal, or with the guidance director. It is gratifying that more parents are making appointments with the guidance director, especially parents of students who are not in trouble socially or academically.

PERSONNEL

The following charts indicate the growth in school personnel since 1950. They indicate continued growth at all levels, but emphasize particularly the increases to come in the high school grades. The large classes which entered the elementary school six years ago have now reached the high school. Eighty pupils enrolled in grade 7 in September, and as large or larger classes will follow each year.

DUXBURY SCHOOL POPULATION, 1950 - 1955

Grade	1950	1951	1952	1953	1954	1955
K	58	72	108	59	95	93
1	68	77	79	114	73	100
2	73	70	79	76	102	68
3	52	76	74	87	75	110
4	56	55	89	75	81	80
5	42	60	54	85	74	87
6	56	38	62	52	79	72
Total	405	448	545	548	579	610
7	40	54	40	56	61	80
8	40	34	47	43	51	60
9	40	35	40	39	37	43
10	39	33	36	41	41	32
11	28	32	33	31	33	37
12	24	26	27	30	28	29
Total	211	214	223	240	251	281
Grand Total	616	662	768	788	830	891

Note: Please give attention to the size of classes in the elementary school in 1950 and the size of the corresponding classes in the elementary grades in 1955. This comparison gives emphasis to the need for additional classroom space at the high school in the near future.

PLANNING FOR THE FUTURE

One of the first steps in planning for building needs is the determination of future enrollment. Predicting future enrollment by any known method is not a foolproof procedure. The method used here relies on past experience, and assumes that certain factors will remain constant during the time period of the forecast.

The predicted enrollment, as shown in the tabulations that follow, has been determined by the "percentage of survival" technique. This method involves a simple concept illustrated by the following example. If it is assumed that during the past fifteen years, on the average, 98 per cent of the pupils enrolled in grade one were in the second grade a year later, then, if there are *now* one hundred pupils in grade one, it can be expected that ninety-eight pupils will appear in grade two next year. Enrollments in other grades can be predicted on the same general basis.

The "percentage of survival" method assumes that for the period of the forecast such factors as: influx from public to private schools and vice versa, drop outs, retardation policy and migration of pupils (both in and out) will continue as they have averaged during the past.

When a community has experienced a large change in pupil population in recent years, a projection based on five years may more truly reflect future population growth. Because, over the last five years, the Duxbury school population has increased about fifty per cent; and because of factors such as the possible effect on population growth of the new expressway; it has seemed advisable to use the last five years as a basis for predictions of future school population. This assumes that the school population of Duxbury will continue to change in the future as it has in the last five years.

SCHOOL BUILDING NEEDS

In our 1954 annual report it was stated that our elementary school unit should be adequate through the school year 1956-1957. Since that time, however, it has become necessary, under a new state law, to establish a class for slow learning pupils. According to this law such classes must have facilities equal to other classes. In addition, if the enrollment of the kindergarten increases additional space will be necessary. To meet this need, the two classrooms which were to be added and available by September 1957, should be provided in 1956. If these rooms are added there will be a total of twenty-two classrooms exclusive of kindergartens in the elementary unit. It should not be anticipated that the adding of two rooms will solve the elementary school housing problem for very long. How long the twenty-two classrooms will be adequate will depend on the class size desired and rate at which people move into Duxbury. Adding the two rooms will bring the building up to the maximum size allowed by the State Building Assistance Commission. Future plans for elementary school units will depend, in part, on what is done about additional space for the high school.

According to a projection of future school population for Duxbury it is indicated that by the school year 1959-1960 there will be 426 pupils enrolled in the high school. The capacity of the present structure was estimated, at the time the new wing was added, to be about 415. On this basis, additional facilities should be provided by the school year 1959-60.

Whether a new high school building should be provided or the present one added to is a matter for a Building Committee to determine. Some observations are in order at this time, however. Because of the growth in school enrollment, many of the present specialized facilities are already or will soon be inadequate. These include home economics, science, and physical education. In ad-

dition the cafeteria (in the elementary building, but used by the high school) will be inadequate. Most of these facilities are of vital importance to pupils in grades nine through twelve. Therefore, if a new building is provided it probably should be a four year high school. Under this arrangement the present high school could serve as a junior high school unit. Further, should this be the plan adopted, some relief for the elementary school should be provided for a period of time. All of the above points to the following suggested time schedule for buildings.

<i>Completed by</i>	<i>Units</i>
September 1956	Two rooms added to present elementary school unit.
September 1959	A new four year high school.
September 1965* (estimate)	An additional elementary school to house grades four, five and six.

*Only if additional high school building is provided by 1959-60.

In consideration of the above I recommend that steps be taken to add two classrooms to the elementary school in 1956.

I recommend continued study by the School Committee, on a long range basis, of the need for future school buildings.

REPORT OF SCHOOL CENSUS

The following report of children in town and enrollment is based upon the school census taken October 1, 1955.

	<u>5 years and under 7 years</u>	<u>7 years and under 16 years</u>	<u>Illiterate Minors 16 years or over and under 21</u>
Number of boys living in Duxbury	111	343	0
Number of girls living in Duxbury	93	327	1
Total in residence	204	670	1

Distribution of above:

*Public School Mem- bership	197	606	0
In Continuation School Membership	0	0	0
In Vocational School	0	0	0
**In Private and Parochial Schools	7	61	0
In State and County Institutions	0	1	0
Not in any school	0	2	1

*Does not include pupils over sixteen years of age.

**Does not include private kindergartens.

In 1950 there were forty-six persons on the school department staff. Six years later (1955) this number has increased to 71. The staff list follows.

FINANCE

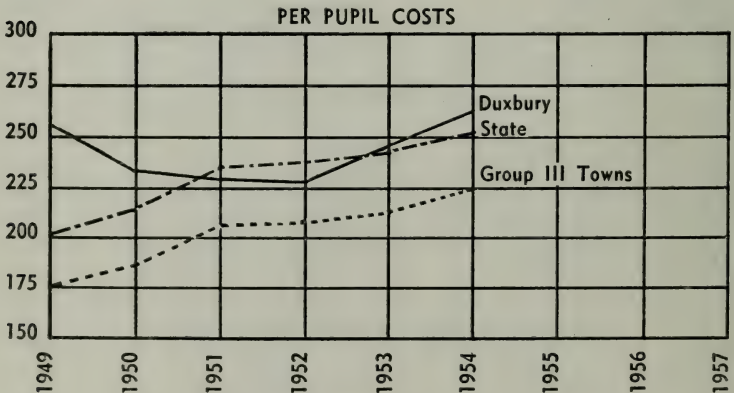

Each year Duxbury receives reimbursements from the State on account of schools. The total reimbursement to the town from the state in 1955 equaled \$59,071.81.

Reimbursements on Account of Schools — 1955

Americanization Classes	200.00
Vocational Education	2,326.52
State School Fund	35,083.60
Transportation	21,159.05
Tuition and Transportation of State Wards	302.64
Total	59,071.81

The following tabulation compares the per pupils cost in Duxbury with the average for the state and with the average for towns in the same population group.

	1949	1950	1951	1952	1953	1954
Duxbury	254.69	234.56	228.05	219.03	244.81	264.98

SCHOOL REGULATIONS

Admissions

Children who are five years of age on or before January 1st following the opening of school in September will meet the kindergarten age requirement.

A certificate of successful vaccination is required for admission.

A birth certificate is required to establish a child's age.

Health

In cases of absence of more than five days a child should present a note from his or her parent stating the cause of absence and may be re-admitted to school after checking with the school nurse. However, in case of absence due to a specific contagious disease, a doctor's certificate is required.

Parents are not expected to send their children to school on days when, in their opinion, the weather is such as to endanger the health of the child even though the busses are in operation. Such absences are excused on receipt of a written request.

No School Signal

School is usually called off only when bus transportation is unsafe. On such days an announcement is made over Stations WBZ, WEEI, WHDH, WBET in Brockton and WPLM in Plymouth, between 6:45 and 7:45 A. M.
